18.05.010 Title and authority.

This title shall be known and cited as the "city of Maricopa zoning code," "zoning code of the city of Maricopa," "zoning code," "this code" or "this title." Whenever reference is made to any portion of the code set out in this title, or of any other law or code, the reference applies to all amendments and additions hereafter made to this title.
[Ord. 14-12 § 1; Ord. 14-12 § 1; Res. 14-36 § 101.01.]

18.05.020 Purpose.

The purpose of this title is to implement the city's general plan and to protect and promote the public health, safety, peace, comfort, convenience, prosperity, and general welfare. More specifically, this code is intended to:

- A. Provide a precise guide for the physical development of the city in a manner as to progressively achieve the arrangement of land uses depicted in the general plan, consistent with the goals and policies of the general plan.
 - B. Foster a harmonious, convenient, and workable relationship among land uses and ensure compatible infill development, consistent with the general plan.
 - C. Support economic development and job creation.
 - D. Provide for the housing needs of all economic segments of the community.
 - E. Promote high-quality architecture and design, consistent with the general plan.
 - F. Promote the stability of existing land uses that conform with the general plan, protecting them from inharmonious influences and harmful intrusions.
 - G. Promote a safe and efficient traffic circulation system, foster the provision of adequate off-street parking and off-street loading facilities, bicycle facilities and pedestrian amenities, and support a multi-modal transportation system.
 - H. Facilitate the appropriate location of community facilities, institutions, parks, and recreational areas.
 - I. Protect and enhance real property values.
 - J. Promote environmental quality and sustainable development patterns.
 - K. Safeguard and enhance the appearance of the city.
 - L. Define duties and powers of administrative bodies and officers responsible for implementation of this code.
- [Ord. 14-12 § 1; Ord. 14-12 § 1; Ord. 14-12 § 1; Res. 14-36 § 101.02.]

18.05.030 Structure of zoning regulations.

- A. *Organization of Regulations.* This code consists of six divisions, organized as follows:
1. Division 1: Introductory Provisions
 2. Division 2: Base Zoning Districts
 3. Division 3: Overlay Districts
 4. Division 4: Regulations Applying in Multiple Districts
 5. Division 5: Administration and Permits
 6. Division 6: General Terms
- B. *Types of Regulations.* Four types of zoning regulations control the use and development of property in the city:
1. *Land Use Regulations.* These regulations specify land uses permitted, conditionally permitted, or specifically prohibited in each zoning district, and include special requirements, if any, applicable to specific uses. Land use regulations for base zones are in Division 2 of this code and in Division 3 for overlay zone regulations. Certain regulations, applicable in some or all of the districts, and performance standards which govern special uses, are in Division 4 of this code.
 2. *Development Regulations.* These regulations control the height, bulk, density, intensity, location and appearance of structures on development sites. Development regulations for base zones are in Division 2 of this code. The regulations for overlay zones are in Division 3 of this code. Certain development regulations, applicable to multiple zones, are in Division 4 of this code. These include, but are not limited to, regulations for specific uses, development and site regulations, landscaping requirements, performance standards, parking, signs, telecommunications facilities, and nonconforming uses.
 3. *Administrative Regulations.* These regulations contain detailed procedures for the administration of this code, and include responsibilities of the planning agency, common procedures, processes and standards for discretionary entitlement applications, and other permits. Administrative regulations are in Division 5 of this code.
 4. *General Terms and Use Classifications.* Division 6 provides a list of use classifications and a list of terms and definitions used in this code. [Ord. 14-12 § 1; Res. 14-36 § 101.03.]

18.05.040 General rules for applicability of zoning regulations.

- A. *Applicability to Property.* This code shall apply, to the extent permitted by law, to all property within the city of Maricopa, including all uses, structures and land owned by any private person, firm, corporation or organization,

or local, state or federal agencies. Any governmental agency shall be exempt from the provisions of this code only to the extent that such property may not be lawfully regulated by the city of Maricopa.

B. *Applicability to Streets and Rights-of-Way.* Streets, easements, and rights-of-way shall be in the same zoning district as contiguous property. Where contiguous properties are in different zoning districts, the centerline of the street shall be the district boundary unless otherwise depicted on the official zoning map.

C. *Compliance with Guidelines.* All projects subject to the provisions of this code shall also comply with any guidelines and policies adopted by the city council and planning commission, including but not limited to the Heritage District Design Guidelines and Single-Family Residential Design Guidelines, and any amendments and updates thereto.

D. *Compliance with Regulations.* No land shall be used, and no structure shall be constructed, occupied, enlarged, altered, demolished, or moved, in any zoning district, except in accordance with the provisions of this code.

E. *Provisions Interpreted as Minimum Requirements.* In interpreting and applying the provisions of this title, they shall be held to be the minimum requirements for the promotion of the public health, safety, comfort, convenience, and general welfare.

F. *Substandard Lot.* An existing, legally created lot as of the effective date of the zoning code having a width or area less than that required for the base district in which it is located may be occupied by a permitted use or use requiring approval of a use permit. However, no substandard lot may be further reduced in area or width and no substandard lot will be exempt from the setback requirements of the district. A substandard lot shall be considered a nonconforming lot in accordance with Chapter [18.100](#) MCC, Nonconforming Uses and Structures.

G. *Lots or Parcels Divided by District Boundaries.* The regulations applicable to each district shall be applied to the entire area within that district, and no use other than parking, landscaping, open space, and drainage serving a principal use on the lot or parcel may be located in a district in which it is not a permitted use or use approved by a use permit.

H. *Public Nuisance.* Neither the provisions of the zoning code nor the approval of any permit authorized by the zoning code shall authorize the maintenance of any public nuisance.

I. *Relation to Other Regulations.* The regulations of this code and requirements or conditions imposed pursuant to this code shall not supersede any other regulations or requirements adopted or imposed by the state of Arizona, or any federal agency that has jurisdiction by law over uses and development authorized by this code. All uses and development authorized by this code shall comply with all other such regulations and requirements. Where conflict occurs between the provisions of this code and any other city code, chapter, resolution, guideline, or regulation, the more restrictive provisions shall control, unless otherwise specified.

J. *Relation to Private Agreements.* This code shall not interfere with or annul any recorded easement, covenant, or other agreement now in effect; provided, that where this code imposes greater restriction than imposed by an easement, covenant, or agreement, this code shall control. This code shall not impose any additional restrictions or supersede any provisions of existing or future development agreements authorized by the city council and

executed by recording the development agreement with the county recorder's office, pursuant to A.R.S. § [9-500.05](#).

K. *Relation to Prior Zoning.* Zoning district designations and associated Planned Area development (PAD) overlay districts established prior to the adoption of this code and delineated on the official zoning map remain in place unless specifically rezoned under the provisions of this code established in Division 5 of this code.

L. *Application during Local Emergency.* The mayor may authorize a deviation from a provision of this code during a local emergency declared and ratified under the Maricopa City Code. The council may authorize a deviation by resolution without notice or public hearing. [Ord. 14-12 § 1; Res. 14-36 § 101.04.]

18.05.050 Consistency with the general plan and Resolution 12-63 cultural resources.

Any permit, license, or approval issued pursuant to this code must be consistent with the city of Maricopa General Plan. In any case where there is a conflict between this code and the general plan, the general plan shall prevail. Additionally, Resolution 12-63 was adopted by city council to create additional provisions for protecting the cultural resources of the Ak-Chin Tribal Community. The city requires all applicants for a subdivision to conduct a Phase I archeological survey on land within two and one-half miles of the Ak-Chin border or within the undeveloped floodplain within the city. The city also requires applicants for a subdivision to provide documentation that a site records check for potential cultural resources has been conducted in conjunction with the State Historic Preservation Office. The city stipulates all applicants for a subdivision shall provide cultural resource reports to the city as part of the permit process as to their compliance with the Arizona State Burial Discovery Laws, A.R.S. § [41-865](#) and/or [41-844](#). The city also requires any applicants proposing projects crossing Ak-Chin lands on easements administered by the city to notify the Ak-Chin Cultural Resources Department and the Ak-Chin Planning Department and comply with applicable community ordinances and resolutions for the portion of the project that crosses Ak-Chin Community land. [Ord. 14-12 § 1; Res. 14-36 § 101.05.]

18.05.060 Rules of transition – Effect of this code on approved projects and projects in process.

Administration of this title is not intended to modify or in any way replace the preexisting zoning district regulations or Planned Area development (PAD) overlay districts and subsequent approvals that were granted prior to the adoption of this zoning code. In the event of a conflict between the provisions of this title and the preexisting code and approvals, the applicant may request a formal interpretation and may appeal the decision to the hearing officer subject to MCC [18.140.160](#). The following rules shall apply to all properties in the city on the effective date of the zoning code:

- A. *Violations Continue.* Any violation of the zoning code previously in effect will continue to be a violation under the zoning code and shall be subject to penalties and enforcement under Chapter [18.190](#) MCC, Enforcement, unless the use, development, construction, or other activity complies with the provisions of this zoning code.
- B. *Projects with Approvals or Permits.*
1. *Building Permit Issued Prior to Effective Date of the Zoning Code.* Any building, structure, or sign for which a lawful building permit is issued prior to the effective date of the zoning code may be completed in conformance with the permit and other applicable permits and conditions, even if such building, structure, or sign does not fully comply with the zoning code. If construction is not commenced in compliance with the applicable terms, the building official may grant an extension pursuant to the provisions of the building code adopted by the city. If the building, structure, or sign is not completed in conformance with the building permit and any extension thereof, then the building, structure, or sign shall be constructed, completed, or occupied only in compliance with this zoning code.
 2. *Building Permit Application Filed Prior to Effective Date of the Zoning Code.* Any building, structure, or sign for which a completed building permit application is filed prior to the effective date of this zoning code may be issued a building permit if found to be in compliance with the zoning code existing at the time of application and may be constructed in compliance with the building permit and other applicable approvals, permits, and conditions, even if such building, structure, or sign does not fully comply with the zoning code. If construction is not commenced in compliance with the applicable permit terms, the building official may grant an extension pursuant to the provisions of the city's building code. If the building, structure, or sign is not completed pursuant to the building permit and any extension thereof, then the building, structure, or sign shall be constructed, completed or occupied only in compliance with the zoning code.
 3. *Site Plan Review Approved Prior to Effective Date of the Zoning Code.* A project that received site plan review (a development review permit under this zoning code) approval prior to the effective date of this zoning code may file an application for a building permit in compliance with the site plan review and conditions of approval, even if the project does not comply with the provisions of this zoning code. Upon approval of the construction plans, a building permit may be issued. The site plan review approval for projects approved prior to the effective date of the zoning code shall be valid for two years from the effective date of this code, unless otherwise specified in the existing conditions of approval. A time extension may be permitted upon submission of a completed application, fee, and other documentation requested at the zoning administrator's discretion. All requests for extensions shall be reviewed for compliance to the existing development standards of the zoning district, the existing PAD overlay if applicable, and this zoning code where the preexisting zoning code and PAD overlay are silent to land use regulations and development standards. Where a conflict occurs between the preexisting zoning regulations applying to the property and this code, the regulations of this code shall prevail. All requests for extensions shall be processed in the same manner as the original approval. Requests may be denied, approved, or approved with new or modified conditions by the original approving authority. Site plan approvals that expire shall require submittal of a new development review application and shall comply with the provisions in subsection [\(D\)\(3\)](#) of this section.
 4. *Preliminary Subdivision Plat Approved Prior to Effective Date of the Zoning Code.* A project that has a preliminary plat approved prior to the effective date of this zoning code may file an application for a final

subdivision plat and improvement plan approval in compliance with the provisions of the zoning district in which the site is located, the standards and conditions of approval of the PAD overlay if applicable, and MCC Title [17](#), Subdivisions. If a final plat application is not filed prior to the date of preliminary plat expiration, the preliminary plat shall expire unless a time extension is requested. A time extension may be permitted upon submission of a completed application, fee, and other documentation requested at the zoning administrator's discretion. All requests for extensions shall be reviewed for compliance to MCC Title [17](#), Subdivisions, the existing development standards of the zoning district, the existing PAD overlay if applicable, and this zoning code where the preexisting zoning code and PAD overlay are silent to land use regulations and development standards. Where a conflict occurs between the preexisting zoning regulations applying to the property and this code, the regulations of this code shall prevail. All requests for extensions shall be processed in the same manner as the original approval. Requests may be denied, approved, or approved with new or modified conditions by the original approving authority. Subsequent preliminary plat applications not located in a preexisting PAD overlay shall comply with this zoning code. Subsequent preliminary plat applications located in a preexisting PAD overlay shall comply with the provisions in subsection [\(D\)\(4\)](#) of this section.

5. *Use Permit Approved Prior to Effective Date of this Zoning Code.* A project that received a use permit prior to the effective date of this zoning code may file an application for a building permit, even if the project does not fully comply with the provision of this zoning code. If a building permit application is not filed within two years of the date of use permit approval, the use permit shall expire. In the event a building permit was previously issued, however not all development has been completed and no valid building permit exists upon the effective date of this code, the undeveloped portions of the use permit shall expire. No time extensions shall be permitted. New use permit requests and expired use permits shall comply with the provisions of this zoning code, unless the property is located in a zoning district and PAD overlay in existence prior to the effective date of this zoning code. All such requests shall be reviewed for compliance to the development standards of the existing zoning district, the existing PAD overlay if applicable, and this zoning code where the preexisting zoning code and PAD overlay are silent to land use regulations and development standards. Where a conflict occurs between the preexisting zoning regulations applying to the property and this code, the regulations of this code shall prevail. Properties covered by a recorded development agreement shall not require compliance with provisions of this zoning code, if the provisions are superseded by the development agreement.

C. *Planning Applications Filed Prior to and Approved After the Effective Date of the Zoning Code.*

1. *Applications for Site Plan Review and Use Permits Submitted Prior to and Approved After the Effective Date of this Zoning Code.* Complete applications filed prior to the effective date of this zoning code may be approved under the provisions of this code upon request of the applicant. Applicants may elect to develop under the provisions of the prior zoning code, but in that case shall comply with all provisions of the prior zoning code and PAD overlay if applicable. If a building permit application is not filed within one year of the date of approval of the site plan review or use permit the approval shall expire unless otherwise specified in the conditions of approval.

a. If a building permit application is not filed within one year of the date of approval, the approval shall expire unless otherwise specified in the conditions of approval. A time extension may be permitted upon

submission of a completed application fee, and other documentation requested at the zoning administrator's discretion.

b. All requests for extensions shall be reviewed for compliance to the existing development standards of the zoning district, the existing PAD overlay if applicable, and this zoning code where the preexisting zoning code and PAD overlay are silent to land use regulations and development standards. Where a conflict occurs between the preexisting zoning regulations applying to the property and this code, the regulations of this code shall prevail. Extension requests may be denied, approved, or approved with new or modified conditions by the original approving authority.

2. *Applications for Preliminary Plats Submitted Prior to and Approved After the Effective Date of this Zoning Code.* Complete applications filed prior to the effective date of this zoning code may be approved under the provisions of this code. Applicants may elect to develop under the provisions of the prior zoning code, but in that case shall comply with all provisions of the prior zoning code and PAD overlay if applicable. If the final subdivision plat and associated improvement plans are not filed within two years of the date of the preliminary plat approval, the approval shall expire.

a. If a final plat application is not filed prior to the date of preliminary plat expiration, the preliminary plat shall expire, unless a time extension is requested and approved. A time extension may be permitted upon submission of a completed application fee, and other documentation requested at the zoning administrator's discretion.

b. All requests for extensions shall be reviewed for compliance to the existing development standards of the zoning district, the existing PAD overlay if applicable, and this zoning code where the preexisting zoning code and PAD overlay are silent to land use regulations and development standards. Where a conflict occurs between the preexisting zoning regulations applying to the property and this code, the regulations of this code shall prevail. Extension requests may be denied, approved, or approved with new or modified conditions by the original approving authority.

3. *Applications for Use Permits Submitted Prior to and Approved After the Effective Date of this Zoning Code.* Complete applications filed prior to the effective date of this zoning code may be approved under the provisions of this code. Applicants may elect to operate a use under the provisions of the prior zoning code, but in that case shall comply with all provisions of the prior zoning code and PAD overlay if applicable. If building permits and improvements specified under conditions of approval are not filed within the time specified in the approval, the approval shall expire. New use permit requests and expired use permits shall comply with the provisions of this zoning code, unless the property is located in a zoning district and PAD overlay in existence prior to the effective date of this zoning code. All such requests shall be reviewed for compliance to the development standards of the existing zoning district, the existing PAD overlay if applicable, and this zoning code where the preexisting zoning code and PAD overlay are silent to land use regulations and development standards. Where a conflict occurs between the preexisting zoning regulations applying to the property and this code, the regulations of this code shall prevail. Properties covered by a recorded development agreement shall not require compliance with provisions of this zoning code, if the provisions are superseded by the development agreement.

4. *Applications for Rezoning and PAD Overlay Amendments Filed Prior to and Approved After the Effective Date of this Zoning Code.* Rezoning and/or PAD overlay amendment applications filed prior to the effective date of this zoning code shall be governed by the provisions, standards and conditions of approval of the preexisting zoning district and PAD overlay and shall follow the applicable procedures identified in Division 5, Administration and Permits, unless the applicant elects to comply with the applicable procedures of the prior zoning code. In either case, the balance of the property within a preexisting PAD overlay shall retain its preexisting zoning district and the conceptual land use plan, provisions, standards and conditions of approval of the PAD overlay unless otherwise requested by the applicant. In the event an applicant requests compliance to any provisions of this zoning code, all provisions of this zoning code shall apply to the amendment request. Properties covered by a recorded development agreement shall not require compliance with provisions of this zoning code, if the provisions are superseded by the development agreement.

- a. In the case of an application for rezoning, if the applicant elects to comply with this zoning code, the parcel shall be rezoned to one or more zoning districts established in this code. Should the applicant elect to comply with the prior zoning code, the parcel shall be rezoned to one or more of the zoning districts of the prior zoning code.
- b. In the case of an application for an amendment to a preexisting PAD overlay, if an applicant elects to comply with this code, the amendment procedure shall follow the applicable provisions of this code. Should the applicant elect to comply with the prior zoning code, the amendment process shall follow the provisions identified in the prior zoning code.

D. *Development of Projects in a Zoning District and Planned Area Development Overlay Approved Prior to the Effective Date of this Zoning Code.* The zoning district designations and the Planned Area Development (PAD) Overlay zoning district existing prior to the adoption of this zoning code are retained. Subsequent planning applications within the boundary of a preexisting PAD overlay shall comply with the approved conceptual land use plan, standards, conditions of approval and, in the case of residential zoned property, the approved Residential Design Guidelines and MCC Title [17](#), Subdivisions. The development standards and requirements of this zoning code shall apply only if not specifically modified by the PAD overlay or specifically regulated by the prior zoning code. Properties covered by a recorded development agreement shall not require compliance with provisions of this zoning code, if the provisions are superseded by the development agreement.

1. *Rezone Applications Filed After the Effective Date of this Zoning Code.* If a parcel is rezoned after the effective date of this zoning code, the parcel shall be rezoned to one or more of the zoning districts of this code. If the parcel is part of a preexisting PAD overlay, the balance of the property within the PAD overlay shall retain its preexisting zoning district and the conceptual land use plan, provisions, standards and conditions of approval of the PAD overlay. City council may rescind or amend prior approved zoning or PADs per A.R.S. § [9-462.01.E](#). If the preexisting zoning and PAD overlay have been rescinded by city council, all planning applications shall comply with this zoning code.
2. *Amendments to Preexisting PAD Overlays After the Effective Date of this Zoning Code.* Amendments to preexisting PAD overlays shall comply with the provisions of this zoning code

3. *Development Review Permit Applications Filed After the Effective Date of this Zoning Code.* Site plan approvals that have expired, requiring submittal of a new development review permit application shall comply with the existing development standards of the zoning district, the existing PAD overlay if applicable, and this zoning code where the preexisting zoning code and PAD overlay are silent to land use regulations and development standards. Where a conflict occurs between the preexisting zoning regulations applying to the property and this zoning code, the regulations of this zoning code shall prevail.
4. *Preliminary Subdivision Plat Applications Filed After the Effective Date of this Zoning Code.* Preliminary subdivision plat approvals that have expired, requiring submittal of a new preliminary plat application, shall comply with the existing development standards of the zoning district, the existing PAD overlay if applicable, and this zoning code where the preexisting zoning code and PAD overlay are silent to land use regulations and development standards. Where a conflict occurs between the preexisting zoning regulations applying to the property and this zoning code, the regulations of this zoning code shall prevail.
- E. *Planning Applications Filed After the Effective Date of the Zoning Code and Not Covered by Preexisting Zoning and PAD Overlay or development agreement.* All new applications for rezoning, development review permits, use permits, Planned Area Development (PAD) zoning district or PAD plan approval, and preliminary subdivision plats filed after the effective date of this zoning code, including modifications and amendments to those new applications, shall conform to the provisions of this zoning code. [Ord. 23-35 § 2; Ord. 14-12 § 1; Res. 14-36 § 101.06.]

Chapter 18.10

DESIGNATION OF ZONING DISTRICTS, ZONING MAP BOUNDARIES

Sections:

- 18.10.010 Districts established.**
18.10.020 Official zoning map and district boundaries.

18.10.010 Districts established.

The city shall be classified into zoning districts or zones, the designation and regulation of which are set forth in this code and as follows.

- A. *Base Zoning Districts.* Base districts into which the city is divided are established as follows:

Table 18.10.010 Base Zoning Districts

Map Symbol	Full Name	Corresponding General Plan Land Use Designation
Rural Districts		
RA	Rural Agricultural	Agriculture

Table 18.10.010 Base Zoning Districts

Map Symbol	Full Name	Corresponding General Plan Land Use Designation
GR	General Rural	Rural
Residential Districts		
RS-1	Single Unit, Low Density	Low Density Residential
RS-2	Single Unit, Medium/Low Density	Medium/Low Density Residential
RS-3	Single Unit, Medium Density	Medium Density Residential
RS-4	Single Unit, Medium Density	Medium Density Residential
RS-5	Single Unit, Medium Density	Medium Density Residential
RM	Multiple Unit	High Density Residential
RH	High Density	High Density Residential
RMHP	Residential Manufactured Home Park	High Density Residential
Commercial Districts		
NC	Neighborhood Commercial	Commercial
GC	General Commercial	Commercial
SC	Shopping Center	Commercial
GO	Office	Commercial
Mixed Use Districts		
MU-N	Neighborhood Mixed Use	Mixed Use
MU-G	General Mixed Use	Mixed Use
Industrial Districts		
LI	Light Industrial	Light Industrial
GI	General Industrial	Employment/Industrial
IP	Industrial Park	Research/Development
Open Space, Public and Institutional Districts		
PI	Public-Institutional	Public/Institutional
OS (with subdistricts)(1)	Open Space	Parks/Open Space
Districts		
PAD	Planned Area Development	Master Planned Community

1 PR Parks and Recreation; POS Privately Owned Open Space; C Conservation Open Space

B. *Overlay Districts.* Overlay districts, one or more of which may be combined with a base district, are established as follows:

Short Name/Map Symbol	Full Name
TC	Transportation Corridor
TOD	Transit-Oriented Development
MU-H	Heritage Mixed Use

C. *References to Classes of Base Zoning Districts.* Throughout the code, the following references apply:

1. "Rural" or "Rural Zone" means one or more of the following zoning districts: RA, Rural Agricultural; or GR, General Rural.
2. "RS Zone," "Residential Zoning," "RS District," or "Residential District" means one or more of the following zoning districts: RS, Single Unit, Low Density; RS, Single Unit, Medium Density; RM, Residential, Multiple Unit, Medium Density; RH, High Density; and RMHP, Residential Manufactured Home Park.
3. "C Zone," "Commercial Zone," "C District," or "Commercial District" means one or more of the following zoning districts: NC, Neighborhood Commercial; GC, General Commercial; SC, Shopping Center; and GO, Office.
4. "MU Zone," "Mixed Use Zone," or "Mixed Use District" means one or more of the following zoning districts: MU-N, Neighborhood Mixed Use; and MU-G, General Mixed Use.
5. "I Zone," "Industrial Zone," "I District," or "Industrial District" means one or more of the following zoning districts: LI, Light Industrial; GI, General Industrial; or IP, Industrial Park. [Ord. 14-12 § 1; Res. 14-36 § 102.01.]

18.10.020 Official zoning map and district boundaries.

The boundaries of the zoning districts established by this code are not included in this code but are shown on the official zoning map maintained by the city. The official zoning map, together with all legends, symbols, notations, references, zoning district boundaries, map symbols, and other information on the maps, have been adopted by the city council and are hereby incorporated into this code by reference, together with any amendments previously or hereafter adopted, as though they were fully included here.

A. *Uncertainty of Boundaries.* In the event uncertainty exists as to the boundaries of any district shown on the official zoning map, the following rules shall apply:

1. Boundaries indicated as approximately following the centerlines of alleys, streets, highways, streams, or railroads shall be construed to follow such centerlines.

2. Boundaries indicated as approximately following lot lines, or city limits shall be construed as following such lines, limits, or boundaries.
3. In the case where a zoning district boundary divides a lot and no dimensions are indicated, the following shall apply:
 - a. *Lots Greater than One Acre.* The location of such boundary shall be determined by the use of the scale appearing on the official zoning map.
 - b. *Lots Less than One Acre.* The lot shall be deemed to be included within the zone which is the more restrictive.
4. In the case of any remaining uncertainty, the zoning administrator shall determine the location of boundaries.
5. Where any public street or alley is officially vacated or abandoned, the regulations applicable to each parcel of abutting property shall apply to that portion of such street or alley added thereto by virtue of such vacation or abandonment.
6. Where any private right-of-way or easement of any railroad, railway, transportation, or public or private utility company is vacated or abandoned and said property is unclassified, said property shall be automatically classified as being in the same district of the land abutting it. Where the right-of-way abuts a different district on each side, each district shall be extended to the centerline of the right-of-way. [Ord. 14-12 § 1; Res. 14-36 § 102.02.]

Chapter 18.15

RULES FOR CONSTRUCTION OF LANGUAGE AND INTERPRETATION

Sections:

- [18.15.010 Purpose.](#)**
- [18.15.020 Rules for construction of language.](#)**
- [18.15.030 Rules for measurement.](#)**
- [18.15.040 Rules of interpretation.](#)**

18.15.010 Purpose.

The purpose of this chapter is to provide precision in the interpretation of the zoning regulations. The meaning and construction of words and phrases defined in this chapter apply throughout the code, except where the context indicates a different meaning. Rules for measurement of height, floor area, sign area, setbacks, and other development standards also are established. Finally, this chapter prescribes rules and procedures for

interpretation of regulations, where there may be uncertainty in deciding on a particular application of a provision of the code. [Ord. 14-12 § 1; Res. 14-36 § 103.01.]

18.15.020 Rules for construction of language.

In interpreting the various provisions of the code, the following rules of construction shall apply:

- A. The particular controls the general.
- B. Unless the context clearly indicates the contrary, the following conjunctions shall be interpreted as follows:
 - 1. "And" indicates that all connected words or provisions shall apply.
 - 2. "And/or" indicates that the connected words or provisions may apply singly or in any combination.
 - 3. "Or" indicates that the connected words or provisions may apply singly or in any combination.
 - 4. "Either . . . or" indicates that the connected words or provisions shall apply singly, but not in combination.
- C. In case of conflict between the text and a diagram or graphic, the text controls.
- D. All references to departments, committees, commissions, boards, or other public agencies are to those of the city of Maricopa, unless otherwise indicated.
- E. All references to public officials are to those of the city of Maricopa, and include designated deputies of such officials, unless otherwise indicated.
- F. All references to days are to calendar days, unless otherwise indicated. If a deadline falls on a weekend or holiday, or a day when the city offices are closed, it shall be extended to the next working day. The end of a time period shall be the close of business on the last day of the period.
- G. The words "shall," "will," "must" and "is to" are always mandatory and not discretionary. The words "should" or "may" are permissive.
- H. The present tense includes the past and future tenses, and the future tense includes the past.
- I. The singular number includes the plural, and the plural, the singular.
- J. Sections and section and subsection headings contained herein shall not be deemed to govern, limit, modify, or in any manner affect the scope, meaning, or intent of any section or subsection. [Ord. 14-12 § 1; Res. 14-36 § 103.02.]

18.15.030 Rules for measurement.

The purpose of this section is to explain how various measurements referred to in this code are to be calculated.

- A. *Applicant's Responsibility.* For all calculations, the applicant shall be responsible for supplying drawings illustrating the measurements that apply to a project. These drawings shall be drawn to scale and of sufficient detail to allow easy verification upon inspection by the zoning administrator.
- B. *Fractions.* Whenever this code requires consideration of distances, parking spaces, dwelling units, or other aspects of development or the physical environment expressed in numerical quantities, and the result of a calculation contains a fraction of a whole number, fractions of one-half or greater shall be rounded up to the nearest whole number and fractions of less than one-half shall be rounded down to the nearest whole number, unless an alternate rule for rounding is specified by the same section of this code that describes the requirement.

C. *Measuring Distances.*

- 1. *Measurements Are Shortest Distance.* When measuring a required distance, such as the minimum distance between a structure and a lot line, the measurement is made at the closest or shortest distance between the two objects.
- 2. *Distances Are Measured Horizontally.* When determining distances for setbacks and structure dimensions, all distances are measured along a horizontal plane from the appropriate line, edge of building, structure, storage area, parking area, or other object. These distances are not measured by following the topography or slope of the land.
- 3. *Measurements Involving a Structure.* Measurements involving a structure are made to the closest exterior support wall of the structure. Structures or portions of structures that are entirely underground are not included in measuring required distances, unless otherwise specified in this code (gas tanks, swimming pools, etc.).
- 4. *Measurement of Vehicle Stacking or Travel Areas.* Measurement of a minimum travel distance for vehicles, such as garage entrance setbacks and stacking lane distances, are measured down the center of the vehicle travel area. For example, curving driveways and travel lanes are measured along the center arc of the driveway or traffic lane.

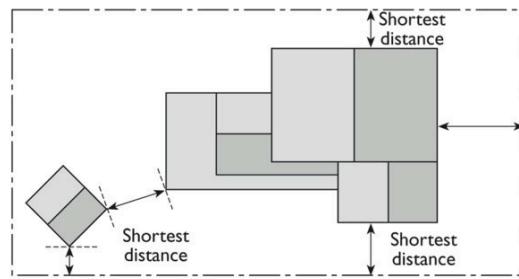

Figure 18.15.030.C. Measuring Distances

D. *Measuring Radius.* When a specified land use is required to be located a minimum distance from another land use, the minimum distance is measured in a straight line at the closest point of the two lot lines. Where a specific use within this code provides a conflicting rule of measurement, the specific use regulation shall control.

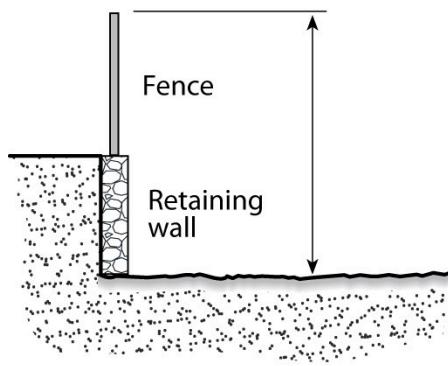

E. *Measuring Height.*

1. *Measuring Building Height.* Building height is the vertical distance measured from the natural grade to the highest point of the structure directly above the natural grade when such structure is not located on a platted subdivision. If the structure is located in a platted subdivision, height shall be the vertical distance measured from the finished grade as shown on the subdivision grading plans or finished grade as shown on the individual lot's grading plan (whichever is lower) to the highest point of the structure directly above the finished grade.

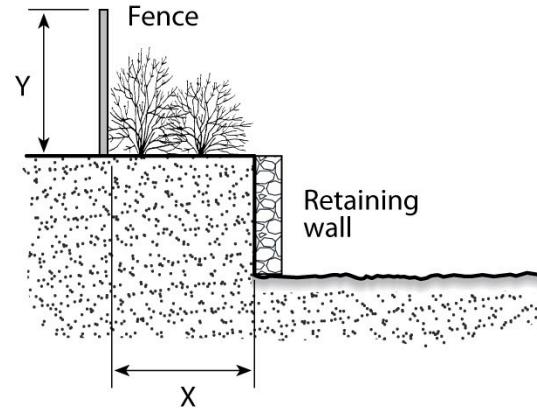

2. *Measuring Height of Other Structures.* The height of other structures, such as fences, is the vertical distance from the finished grade immediately under the structure to the top of the structure. Special measurement provisions are also provided below.

a. *Measuring the Height of Fences on Retaining Walls.* The height of a solid freestanding fence that is on top of a retaining wall is measured from the ground level on the lowest side of the combined fence and wall. If the freestanding portion of the wall is set back from the retaining wall a distance equal to or greater than the height of the freestanding portion of the wall, the retaining and freestanding wall heights shall be calculated separately as individual walls. The setback area shall be landscaped in a manner to soften the combined wall mass. View fence is exempt from this requirement.

b. *Measuring the Height of Decks.* Deck height is determined by measuring from the ground to the top of the floor of the deck.

Fence height is measured from the ground level on the lowest side of the fence.

Where $X \geq Y$, the retaining wall and freestanding fence shall be calculated separately as individual walls.

Figure 18.15.030.E. Measuring Height

3. *Measuring Height of Antennas.* The height of building-mounted antennas shall include the height of that portion of the building on which the antenna is mounted. In determining the height of portable "crank-up" or similar towers whose height is adjustable, the height of the tower shall be the maximum height to which it is capable of being raised.

F. *Measuring Lot Width and Depth.*

1. *Lot Width.*

- a. For rectangular lots, lots having side lot lines not parallel, and lots on the outside of a curve of a street, the distance between the side lot lines is measured at the required minimum front yard setback line on a line parallel to the street or street chord.
- b. For lots on the inside of the curve of a street, the distance between side lot lines is measured 30 feet behind the required minimum front yard setback line on a line parallel to the street or street chord.

2. *Lot Depth.* The horizontal length of a straight line connecting the midpoints of the front and rear lot lines; and for triangular shaped lots, the shortest horizontal distance between the front lot line and a line within the lot, parallel to and at a maximum distance from the front lot line, having a length of not less than 10 feet.

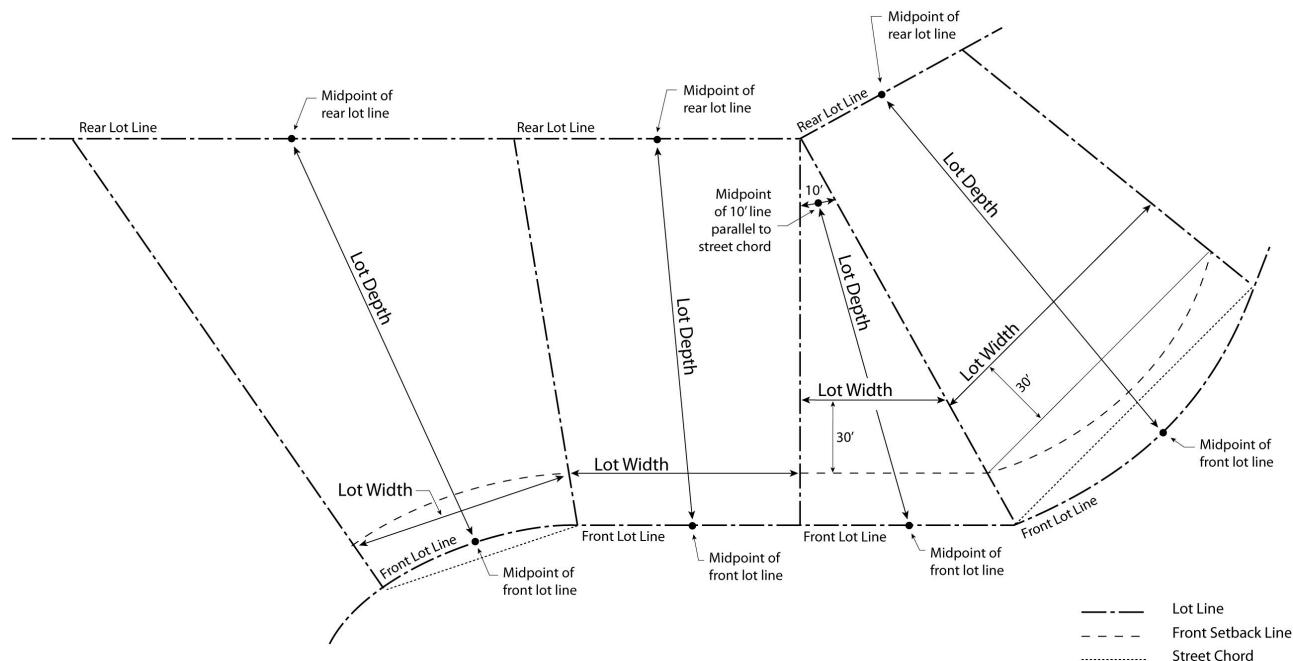

Figure 18.15.030.F. Measuring Width and Depth

G. *Determining Floor Area.* Floor area is the horizontal area (expressed in square feet) of all floors included within a building or buildings, according to the following rules:

1. *Included in Floor Area.* Floor area includes:

- a. The floor of atrium and lobby areas;

- b. Storage and equipment spaces that are roofed and enclosed on all sides;
 - c. Enclosed and roofed halls, stairways, and elevator shafts;
 - d. Enclosed and roofed porches and balconies;
 - e. Portions of basements and attics that meet the city's building code height requirements for habitable space; and
 - f. The actual floor space of mezzanines, interior balconies, lofts, closets, and all habitable rooms.
2. *Excluded from Floor Area.* Floor area does not include:
- a. Garages, parking shade structures or other areas used for parking and loading, or vehicular access to parking and loading spaces;
 - b. Unenclosed exterior balconies, decks, porches, and stairs; and
 - c. Substandard height portions of attics and basements not used as habitable space as defined by the building code.

H. *Determining Floor Area Ratio.* The floor area ratio (FAR) is the ratio of the floor area of all principal and accessory buildings on a lot to the lot area. To calculate FAR, floor area is divided by lot area, and typically expressed as a decimal. For example, if the floor area of all buildings on a lot totals 20,000 square feet, and the lot area is 10,000 square feet, the FAR is expressed as 2.0.

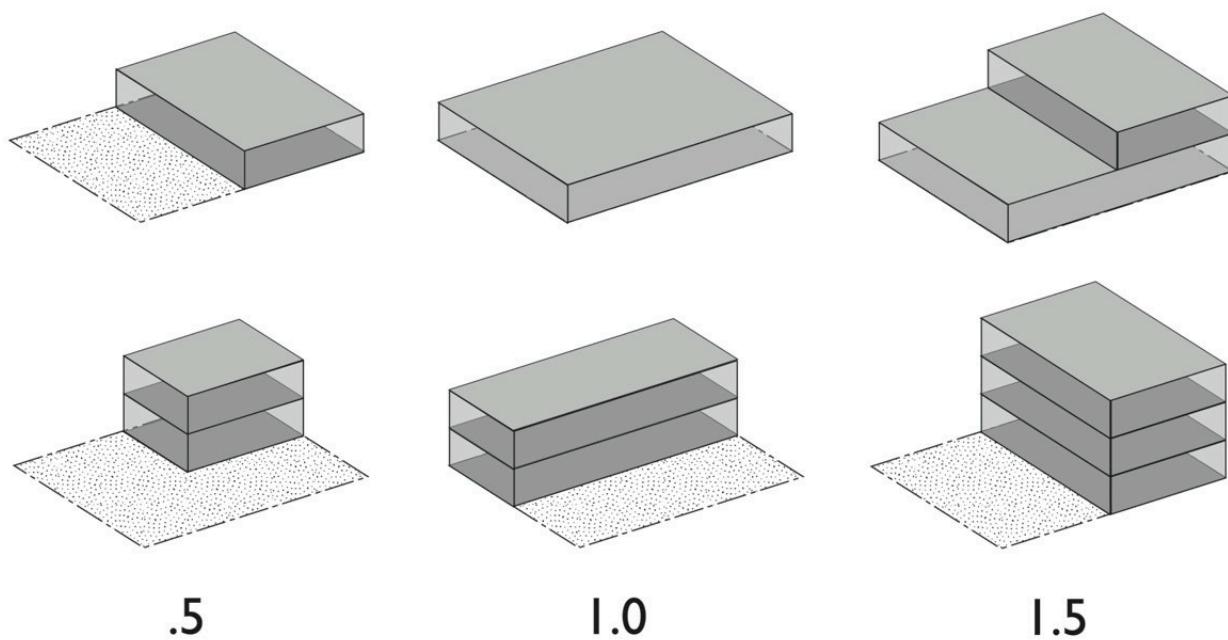

Figure 18.15.030.H. Determining Floor Area Ratio

I. *Determining Lot Coverage.* Lot coverage is the ratio of the total footprint area of all structures on a lot to the net lot area, typically expressed as a percentage. The footprints of all principal and accessory structures, including garages, carports, covered patios, and roofed porches, shall be summed in order to calculate lot coverage. The following structures are excluded from the calculation:

1. Unenclosed and unroofed decks, uncovered patio slab, porches, landings, and stairways less than 30 inches above grade;
2. Eaves and roof overhangs projecting up to two-and-one-half feet from a wall;
3. Trellises and similar vertical structures that do not have any type of roof or coverable feature;
4. Swimming pools and hot tubs that are not enclosed in roofed structures or decks; and
5. One nonhabitable accessory structure under 120 square feet and under seven feet high. Structures greater than quantity of one shall be included in lot coverage.

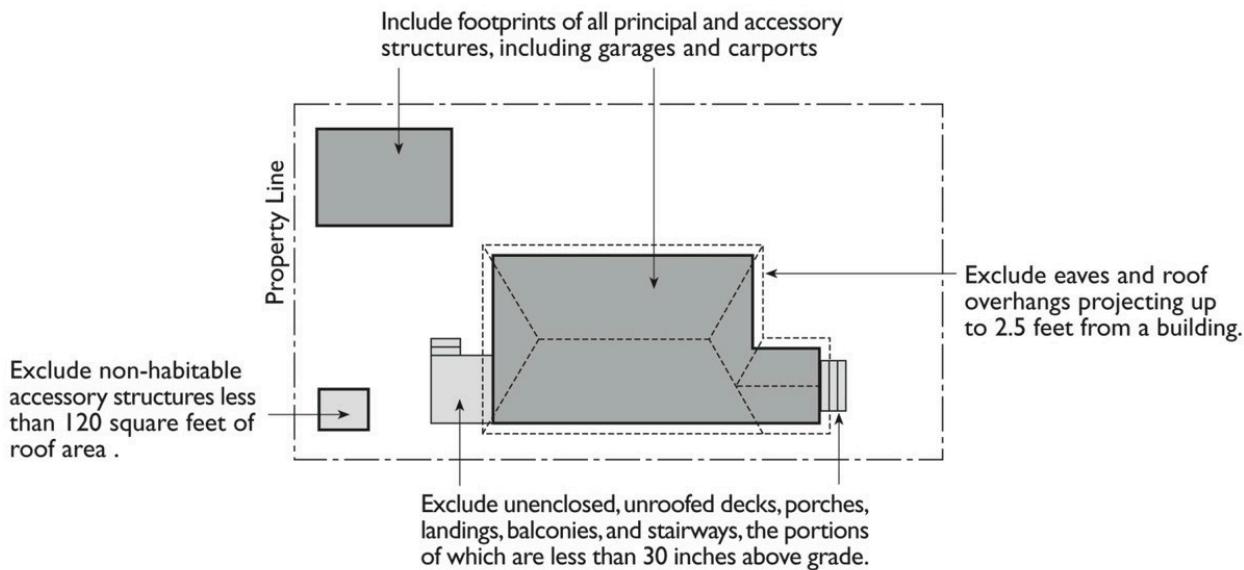

Figure 18.15.030.I. Determining Lot Coverage

J. *Determining Lot Frontage.*

1. *Corner Lot.* The front of a lot is the narrower dimension of the lot lines adjoining a street right-of-way. See also "Lot Line, Front" in Division 6, General Terms.
2. *Through Lot (Double Frontage Lot).* When a nonaccess easement does not exist, the front yard borders the street primarily used as frontage by neighboring lots.

K. *Determining Setbacks for Yards.* A setback line defining a required yard is parallel to and at the specified distance from the corresponding front, side, or rear lot line. The following special regulations for determining yards apply when a lot abuts a proposed street or alley:

1. *Yards Abutting Planned Street Expansions.* If a lot abuts an existing or proposed street for which the existing right-of-way is narrower than the right-of-way ultimately required for the street, the required setback shall be established from the future right-of-way rather than the lot line.

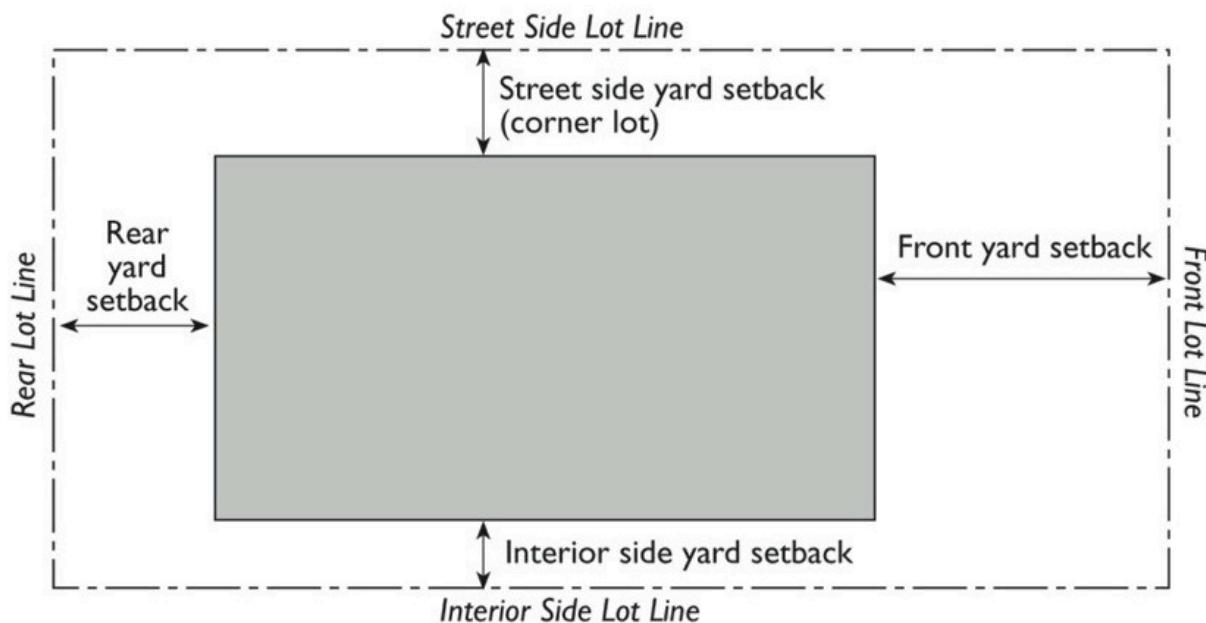

Figure 18.15.030.K. Determining Setbacks

2. *Yards on Alleys.*

- a. If a side lot line abuts an alley, the yard shall be considered an interior side yard rather than a corner side yard.
- b. In computing the minimum yard for any lot where such yard abuts an alley, no part of the width of the alley may be considered as part of the required yard.

L. *Measuring Signs.* The height of signs is measured in the same method as the height of other structures, refer to subsection [\(E\)\(2\)](#) of this section. Calculation of sign area is described in Chapter [18.115](#) MCC, Signs. [Ord. 14-12 § 1; Res. 14-36 § 103.03.]

18.15.040 Rules of interpretation.

The zoning administrator shall make the interpretation for any provision or measurement not expressly identified in this chapter and provide clarification and determination of these rules and their application to a specific site. A record of the zoning administrator's interpretations shall be maintained and made publicly accessible on the city's website, keyed and cross-referenced to the provisions of the code. [Ord. 14-12 § 1; Res. 14-36 § 103.04.]

Division 2. Base Zoning Districts

Chapter 18.30 RURAL DISTRICTS

Sections:

- 18.30.010 Purpose.**
- 18.30.020 Land use regulations.**
- 18.30.030 Development standards.**
- 18.30.040 Review of plans.**
- 18.30.050 Alternative design.**

18.30.010 Purpose.

- A. The purposes of the rural districts are to:
 - 1. Preserve agricultural and resource conservation areas while providing opportunities for rural living;
 - 2. Protect, preserve, and enhance agricultural resources and related activities from incompatible land uses and encroachment;
 - 3. Provide large-lot, low-density residential buffers adjacent to agricultural lands, and to provide an alternative to medium-density conventional production residential development; and
 - 4. Encourage limited development in rural areas until suitable infrastructure and subarea plans are in place to facilitate development in a manner consistent with the general plan.
- B. Additional purposes of each rural district:
 - 1. *RA Rural Agricultural.* This district is intended to provide for agricultural areas within the city and to protect and conserve these areas within and adjacent to urban development. The main use of this district is for animal and food production, in terms of growing, processing, and selling. Incidental residential uses with septic systems may be allowed and are subject to Pinal County review and approval.
 - 2. *GR General Rural.* This district is intended to prevent urban residential and related uses from developing near agricultural operations, thereby infringing on the full operation of farmland. Allowable uses include environmental, habitat, water conveyance, as well as limited agriculture and livestock, and necessary supportive uses such as minor agricultural processing, but not uses that have the potential to create obnoxious noise, odor, etc. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 201.01; Ord. 14-12 § 1.]

18.30.020 Land use regulations.

Table 18.30.020 below prescribes the land use regulations for rural districts. The regulations for each district are established by letter designations as follows:

"P" designates permitted uses.

"C" designates use classifications that are permitted after review and approval of a conditional use permit by the planning and zoning commission.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"X" designates uses that are not permitted.

A. *Transitional Standards.* Where a rural district adjoins an interior lot line in an RS District, the following standards apply:

1. The maximum height within 40 feet of an RS District is 25 feet.
2. The minimum building setback from a residential district boundary shall be 20 feet.

B. *Truck Docks, Loading, and Service Areas.* Truck docks, loading, and service areas are not permitted within 50 feet of the boundary of any residential district. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 201.03; Ord. 14-12 § 1.]

18.30.040 Review of plans.

Permit and review procedures shall follow the standards and approval criteria in Division 5, Administration and Permits. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 201.04; Ord. 14-12 § 1.]

18.30.050 Alternative design.

The zoning administrator may evaluate, and possibly accept or recommend to the decision-making body, alternative design requirements to meet the intent and the spirit of the code and other policy documents of the city of Maricopa. [Res. 21-09; Ord. 21-05 § 2.]

Chapter 18.35

RESIDENTIAL DISTRICTS

Sections:

- 18.35.010 Purpose.**
- 18.35.020 Land use regulations.**
- 18.35.030 Development standards – RS Districts.**
- 18.35.040 Development standards – RM, RH, and RMHP Districts.**
- 18.35.050 Review of plans.**
- 18.35.060 Alternative design.**

18.35.010 Purpose.

The general purposes of the residential districts are to:

- A. Provide for a variety of residential development to suit the spectrum of individual lifestyles and space needs and ensure the continued availability of the range of housing opportunities necessary to meet the needs of all segments of the community consistent with the general plan;
- B. Provide for the orderly, well-planned, and balanced growth of residential neighborhoods;
- C. Promote the development of residential neighborhoods that encourage walking and the use of public transit;
- D. Establish design guidelines to help create distinct and attractive residential neighborhoods, encourage quality multi-unit housing, and ensure that new residential development is well integrated into surrounding neighborhoods; and
- E. Provide for appropriate public and quasi-public uses such as parks, playgrounds, religious facilities, and day care centers where they are compatible with and contribute to the quality of life in residential neighborhoods.

Additional purposes of each residential district:

1. *RS-1 Low Density Residential.* This district is intended to provide a transitional use between rural zoning districts and medium density residential districts. This district includes areas for single residence development that includes single-unit detached and attached housing on lots of at least 12,000 square feet,

subject to design and development standards to ensure land use compatibility. This district also allows for parks, group and residential care homes, family day care, park and recreation facilities, and educational facilities.

2. *RS-3 Medium Density Residential.* This district is intended to provide areas for medium density residential neighborhoods. Housing types include single-unit detached and attached housing on lots of at least 9,000 square feet. In addition to single-unit homes, this district provides for uses such as parks and child care in homes that are appropriate in a residential environment. Clustered development, to allow somewhat smaller lot development, is also allowed, provided the overall average gross density is maintained.

3. *RS-4 Medium Density Residential.* This district is intended to provide areas for medium density residential neighborhoods. Housing types include single-unit detached and attached housing on lots of at least 7,000 square feet. In addition to single-unit homes, this district provides for uses such as parks and child care in homes that are appropriate in a residential environment. Clustered development, to allow somewhat smaller lot development, is also allowed, provided the overall average gross density is maintained.

4. *RS-5 Medium Density Residential.* This district is intended to provide areas for medium density residential neighborhoods. Housing types include single-unit detached and attached housing generally on lots of at least 5,000 square feet. Up to 25 percent of the lots in a subdivision may be below the minimum lot size, but no lot shall be less than 4,500 square feet. In addition to single-unit homes, this district provides for uses such as parks and child care in homes that are appropriate in a residential environment.

5. *RM Multiple Unit Residential.* This district is intended for a variety of housing types on lots of varying sizes, subject to overall general plan density standards (six to 12 units per net acre), with provisions for small-lot development subject to standards for clustering and open space. Types of dwelling units that are appropriate include small-lot single residences, townhouses, condominiums, cluster housing, and multiple residence housing. This district also provides for assisted living and transitional supportive housing, day care centers, park and recreation facilities, limited and small-scale residential support activities, educational facilities, and community and religious facilities that can be appropriate in a residential environment.

6. *RH High Density Residential.* This district is intended for a variety of housing types on lots of varying sizes, subject to overall general plan density standards (12 to 24 units per net acre). The density range and development standards accommodate attached single residences, townhomes, condominiums, garden apartments and multi-unit buildings developed at a scale and form that is appropriate to its neighborhood context and adjacent single-unit residential uses and forms. In addition to residential uses, this district allows for a limited number of public and semi-public uses such as day care centers, public safety facilities, and assisted living and transitional supportive housing that are appropriate in a high density multi-unit environment.

7. *RMHP Residential Manufactured Home Park.* This district is intended to provide seasonal or permanent housing where residence is exclusively in manufactured home use, taking into consideration existing conditions including present use of land, future land use needs, and the availability of infrastructure. It is intended that mobile home parks meet design standards and be provided with necessary community services in a setting that provides a high quality of life for residents. This district should be located in areas where they

will be compatible with adjacent land uses. [Res. 22-12; Ord. 22-03 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 202.01; Ord. 14-12 § 1.]

18.35.020 Land use regulations.

Table 18.35.020 below prescribes the land use regulations for residential districts. The regulations for each district are established by letter designations as follows:

"P" designates permitted uses.

"C" designates use classifications that are permitted after review and approval of a conditional use permit by the planning and zoning commission.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"X" designates uses that are not permitted.

1 Small scale, less than 2,500 square feet. Liquor sales are prohibited.

A. *Recreational Vehicle Storage on Residential Lots.* Only recreational vehicles parked on an approved driveway with paved access or additional parking space as permitted in Chapter [18.105](#) MCC, On-Site Parking and Loading, may be stored within the required front or street side setback. No recreational vehicle shall be used for living purposes. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 202.02; Ord. 14-12 § 1.]

18.35.030 Development standards – RS Districts.

Table 18.35.030 prescribes development regulations for the RS Districts. The first six columns establish minimum requirements for permitted and conditional uses. Letters in parentheses in the “Additional Regulations” column refer to regulations following the schedule. The numbers in each illustration below refer to corresponding regulations in the “#” column in the associated table. Regulations applicable to multiple districts are in Division 4 of this code.

Visibility at Driveways	MCC 18.80.150 , Visibility at intersections and driveways					

1 For RS-4 and RS-5 Districts, livable areas and side entry garages may have a minimum setback of 10 feet from the property line.

2 For RS-5 Districts, street-facing garage entrances shall be no less than a distance of 18 feet from the property line.

3 Detached garages shall be located in the rear half of the lot. The zoning administrator may approve a detached garage in the front half of the lot subject to the front setback requirements of the district where the size, shape, location, surroundings, or existing structures make it infeasible to locate the garage in the rear half of the lot.

- A. *Diversity in Lot Size.* Chapter [17.25](#) MCC sets minimum requirements for a diversity of lot sizes within a residential subdivision.
- B. *RS-5 Districts – Open Space, Lot Size Variation Allowed.* Open space for projects with lots less than 7,000-square-foot lot size shall be a minimum of 22 percent of the total net acres. Up to 25 percent of the lots in a subdivision may be smaller than the minimum lot size, with a minimum width of 45 feet. No lot shall be less than 4,500 square feet.
- C. *Residential Design Approval.* All new single-family standard home plans, and additions to existing standard home plans, shall be reviewed for compliance with the "City of Maricopa Single-Family Residential Design Guidelines" prior to issuance of a building permit. A zoning permit shall be issued for all plans found to meet the intent of the "City of Maricopa Single-Family Residential Design Guidelines," subject to conditions.
- D. *Clustered Development.* Clustered development may be approved in RS-3, RS-4, RS-5, and RM Districts through development review permit, subject to the standards in Table 18.35.030.D and the regulations that follow the table.

Table 18.35.030.D Clustered Development Standards

	Standard
Site Development	
Maximum Lot Coverage (% of site)	50 or as approved by PAD
Maximum Number of Units in an Individual Cluster	8 for a cluster with a single access point
Setbacks	
Project Site	The perimeter of the project site is subject to the setback requirements of the base zone.
Individual Lot Setbacks	
Front	10 ft.; 7 ft. for porch
Side	5 ft. or as approved by PAD
Rear	15 ft.; 0 for detached garage on alley or private autocourt, but a 3-ft. setback for maneuvering and pedestrian safety may be required. See MCC Title 17 , Subdivisions, for minimum alley dimensions.
Minimum Building Separation	International Residential Code
Parking and Access	
Maximum Driveway Width (ft.)	32 ft.
Number of Parking Spaces for Each Unit	3 with one space being nonexclusive.

Table 18.35.030.D Clustered Development Standards

	Standard
Building Orientation	
Entrance Location	The main entrance to each ground-floor dwelling shall be visible to and located directly off a common courtyard, autocourt, open space paseo, or directly from a public or private street.
Other Standards	
Open Space	See MCC Title 17 , Subdivisions.

1. **Access.** Cluster subdivisions may use public streets or private accessways to provide vehicular access to each cluster. Private accessways shall meet the minimum city standards for public streets in terms of engineering and design standards and construction materials. Private accessways shall be maintained by a homeowners' association.
2. **Shared Driveways.** Cluster subdivisions may use shared driveways to provide access to each unit in the cluster. Shared driveways shall have a minimum width of 24 feet at the intersection with public streets or private accessways and may transition to a minimum width of 20 feet within each cluster, and shall be maintained by a homeowners' association.
 - a. Shared driveways within individual clusters shall be differentiated from adjacent public streets or private accessways by a strip of decorative pavers, stamped or colored concrete, or materials other than those used to pave adjoining streets.
 - b. Shared driveways within individual clusters shall not exceed 150 feet in length, measured from the curb line at the intersection with the public street or private accessway to termination of the shared drive.
3. **Required Parking.** Cluster subdivisions shall provide a minimum of three parking spaces for each unit in the cluster, with at least one space per unit being nonexclusive and located within 150 feet of the dwelling unit the space is intended to serve.
4. **Additional Parking.** If additional parking is provided internal to the cluster, driveways to accommodate such parking should be a minimum of 18 feet long and a minimum eight feet wide per garage bay. If the garage door of any unit faces a private accessway or public street serving other clusters in the subdivision, then a minimum of 18 feet must be provided between the back of sidewalk (or curb, if no sidewalk) to the face of the garage door.
5. **Minimum Maneuvering Space.** Each dwelling unit driveway in the cluster shall be designed such that each driver backing a large-size passenger vehicle out of the driveway can maneuver with one turning movement in order to exit the cluster, and vehicles entering a garage can drive into the garage without having to back up. Driveways for 60 percent of the units in each cluster shall be designed such that a large-size vehicle may

back out with one turning movement in order to exit the cluster without backing into the public street or private accessway.

6. *Drainage.* Surface water drainage shall not be allowed to pass from one cluster to another over the shared driveway of another cluster. Surface water drainage from individual clusters, however, may pass over the driveway for that respective cluster, but not from lot to lot unless located within a drainage easement.

7. *Building and Entrance Design.*

a. *Integrated Theme.* Buildings and structures shall exhibit an integrated architectural theme that includes similar or complementary materials, colors, and design details.

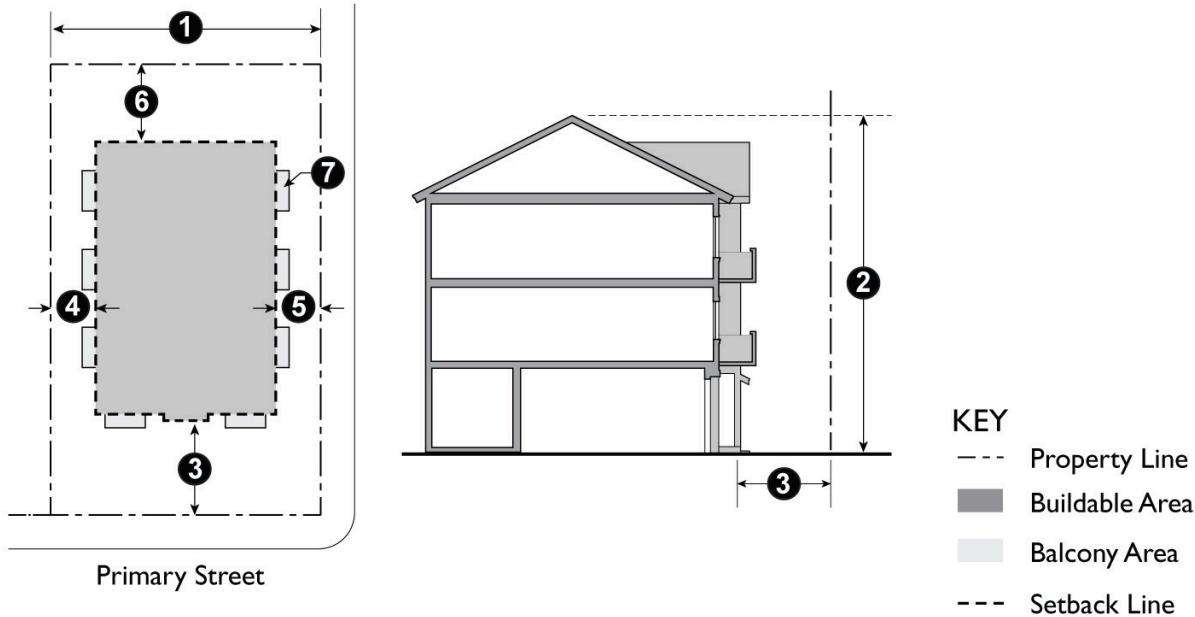

b. *Site Entrance.* Clustered development shall have at least one major driveway entrance feature that provides an organizing element to the site design. Major driveway entrances shall include such features as a landscaped entry corridor or a divided median drive separated by a landscaped center dividing island.

c. *Entries and Porches.* At least 35 percent of homes must include entries and porches extending along a minimum of 50 percent of the width of the homes' front facades, excluding the width of garages. Porches meeting this requirement shall have a minimum width of eight feet and a minimum depth of four feet.

8. *Additional Landscaping Required.* A clustered development shall provide 25 percent more landscaping than required by MCC Title [17](#), Subdivisions, for standard size lots, which may be in common areas, landscaped right-of-way, trails, or other open space. [Res. 22-12; Ord. 22-03 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 202.03; Ord. 14-12 § 1.]

18.35.040 Development standards – RM, RH, and RMHP Districts.

Table 18.35.040 prescribes development regulations for the RM, RH, and RMHP Districts. The first three columns establish minimum requirements for permitted and conditional uses. Letters in parentheses in the "Additional Regulations" column refer to regulations following the schedule. The numbers in each illustration below refer to corresponding regulations in the "#" column in the associated table. Regulations applicable to multiple districts are in Division 4 of this code.

**Table 18.35.040 Development Standards – RM, RH, RMHP Districts**

Table 18.35.040 Development Standards – RM, RH, RMHP Districts

	District			Additional Regulations	#
	RM	RH	RMHP		
Visibility at Driveways		MCC 18.80.150 , Visibility at intersections and driveways			

1 For development projects in RM, RH, and RMHD Districts, 60 percent of the required open space must be usable, as defined in MCC Title [17](#), Subdivisions.

A. *Transitional Standards.* Where an RM, RH, or RMHP District adjoins an interior lot line in an RS District, the following standards apply:

1. The maximum height within 30 feet of an RS District is 30 feet. From this point, the building height may be increased one foot for each additional foot of upper story building setback to the maximum building height.
2. The building setback from an RS District boundary shall be 15 feet for interior side yards and 20 feet for rear yards.

B. *Architectural Articulation.*

1. *Projections or Recesses.* All street-facing facades have at least one horizontal or vertical projection or recess at least four feet in depth, or two projections or recesses at least two and one-half feet in depth, for every 25 horizontal feet of wall. If located on a building with two or more stories, the articulated elements should be greater than one story in height, and may be grouped rather than evenly spaced in 25-foot modules. Building entrances, front porches, and projections into required yards such as stoops, bays, overhangs, fireplaces, and trellises count towards this requirement. Alternative designs that create a welcoming entry feature facing the street, such as trellis or landscaped courtyard entry, may be approved by the zoning administrator.

2. *Variable Roof Form.* Variable roof forms shall be incorporated into the building design, and no more than two side-by-side units may be covered by one unarticulated roof. Articulations may be accomplished by changing roof height, offsets, and direction of slope, and by introducing elements such as dormers, towers, or parapets.

C. *Building Entrances.*

1. *Orientation.* All units located along public rights-of-way must have the primary entrance facing this right-of-way. Exceptions to this requirement may be approved by the zoning administrator for projects where multiple-unit housing is located on streets carrying high traffic volumes and/or streets that do not allow on-street parking. In such cases, the project shall be oriented around courtyards.

2. *Dwelling Unit Access.* Exterior entrances to units shall be in a form of individual or shared entrances at the ground floor of the building. Unit entrances above the ground floor are also permitted; however, on any

single floor no exterior access corridor located above the ground floor may provide access to five or more units.

D. *Location of Parking.* Parking may be located within 40 feet of the street-facing property line in accordance with the following standards:

1. *Underground and Partially Submerged Parking.* Parking completely or partially underground shall match the setbacks of the main structure. The maximum height of a parking podium visible from a street is five feet from finished grade.

2. *Surface and Structure Parking.* Surface and aboveground structure parking may be located within 40 feet of a street-facing lot line with the approval of a conditional use permit when all of following findings can be made:

- a. For structure parking the building design incorporates habitable space built close to the public sidewalk to the maximum extent feasible;
- b. The parking area is well screened with a wall, hedge, trellis, and/or landscaping, consistent with the landscaping standards of this code; and
- c. The site is small and constrained such that underground, partially submerged, structured, or surface parking located more than 40 feet from the street frontage is not feasible.

E. *Outdoor Living Areas.* As part of the open space required by this code, private and common areas for outdoor living shall be provided in accordance with this section. Private areas typically consist of balconies, decks, patios, fenced yards, and other similar areas outside the residence. Common areas typically consist of landscaped areas, walks, patios, swimming pools, barbeque areas, playgrounds, turf, or other such improvements as are appropriate to enhance the outdoor environment of the development. Landscaped courtyard entries that are oriented towards a public or private street or parking area to create a welcoming entry feature are also considered common areas.

1. *Minimum Dimensions.*

a. *Private Open Space.* Private open space located on the ground level (e.g., yards, decks, patios) shall have a horizontal dimension of at least 10 feet. Private open space located above ground level (e.g., balconies) shall have a horizontal dimension of at least six feet.

b. *Common Open Space.* Common open spaces with a minimum horizontal dimension of 20 feet shall count towards the open space calculation. Isolated open space areas with a horizontal dimension less than 20 feet are not considered usable open space and shall not count in determining compliance with this standard.

2. *Minimum Area Required – Private Open Space.*

- a. RM and RH Districts: All units shall provide private open space to achieve a minimum area of 100 square feet for ground-floor units, 80 square feet for second-story units and above. See Table 18.35.040, Development Standards, for minimum size of private space per unit.
 - b. RMHD Districts: 100 square feet per unit.
 - c. The amount of outdoor living area provided for individual units may vary based on unit size and location within a project, as long as the average area per unit meets the applicable standard.
 - d. At the discretion of the zoning administrator, alternative designs may be considered in lieu of private open space, provided the square footage required is determined to be applied in other open space or design aspects of the proposed development.
3. *Credit Toward Open Space Requirement for High Density Residential Subdivision.* Each square foot of private and common outdoor living area provided in a high density residential subdivision shall count as 10 feet of open space for purposes of determining compliance with the "open space equivalent" requirement for these subdivisions. This credit also applies to high density projects not subject to the subdivision process.
- F. *Pedestrian Access.* A system of pedestrian walkways shall connect all buildings on a site to each other, to on-site automobile and bicycle parking areas, to sidewalks, and to any on-site open space areas or pedestrian amenities. Direct and convenient access shall be provided to adjoining residential and commercial areas to the maximum extent feasible while still providing for safety and security.
1. Walkways shall be a minimum of six feet wide, hard-surfaced, and paved with concrete, stone, tile, brick, or comparable material.
 2. Where a required walkway crosses driveways, parking areas, or loading areas, it must be clearly identifiable through the use of a raised crosswalk, a different paving material, or similar method.
 3. Where a required walkway is parallel and adjacent to an auto travel lane, it must be raised or separated from the auto travel lane by a raised curb, bollards, or other physical barrier.
- G. *Private Storage Space.* Each unit shall have at least 200 cubic feet of enclosed, weather-proofed, and lockable private storage space with a minimum horizontal dimension of four feet. All storage structures shall be designed and constructed in a manner consistent with and complementary to the primary building architecture.
- H. *Shared Amenities.* In RM, RH, and RMHD Districts, a minimum of two shared amenities shall be provided for the first 100 dwelling units; one additional shared amenity shall be provided for 50 dwellings or portion thereof. Combinations of amenity features shall be provided in a manner acceptable to the zoning administrator and dependent on the type of multifamily development proposed, the private open spaces in the development, proximity to public trails, and other public amenities nearby. An amenity shall consist of one of the following: pool, spa, recreation center, tot lot, indoor fitness center, outdoor fitness circuit, ramada, shared barbecue or picnic facilities, gathering area, volleyball court, sport court or field, internal multi-use path, community gardens, or playground. [Ord. 24-01 § 2; Res. 22-12; Ord. 22-03 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 202.04; Ord. 14-12 § 1.]

18.35.050 Review of plans.

Permit and review procedures shall follow the standards and approval criteria in Division [5](#), Administration and Permits. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 202.05; Ord. 14-12 § 1.]

18.35.060 Alternative design.

The zoning administrator may evaluate, and possibly accept or recommend to the decision-making body, alternative design requirements to meet the intent and the spirit of the code and other policy documents of the city of Maricopa. [Res. 21-09; Ord. 21-05 § 2.]

Chapter 18.40

COMMERCIAL DISTRICTS

Sections:

- [**18.40.010 Purpose.**](#)
- [**18.40.020 Land use regulations.**](#)
- [**18.40.030 Development standards.**](#)
- [**18.40.040 Review of plans.**](#)
- [**18.40.050 Alternative design.**](#)

18.40.010 Purpose.

The purposes of the commercial districts are to:

- A. Designate adequate land for a full range of commercial uses and regional-serving retail services consistent with the general plan to maintain and strengthen the city's economic resources;
- B. Provide for the orderly, well-planned, and balanced growth of commercial areas;
- C. Plan for commercial development to expand the variety of goods and services to meet the needs of city residents and those living within Maricopa's market area;
- D. Establish design standards that improve the visual quality of development and create a unified, distinctive, and attractive character along commercial streets;
- E. Contribute to the pedestrian environment with standards that promote ground-floor visibility, orientation of buildings to the street, and pedestrian access across parking lots and between commercial centers and adjacent land uses;

F. Ensure that new development is designed to minimize traffic and parking impacts and is appropriate to the physical characteristics of the area; and

G. Address transitions and provide appropriate buffers between commercial and residential uses.

Additional purposes of each commercial district:

1. *NC Neighborhood Commercial.* This district is intended to provide areas for locally oriented retail and service uses that serve the surrounding residential trade area within one-half-mile to one-mile radius. Typical uses include, but are not limited to, retail stores, small grocery and drug stores, specialty food sales and services, restaurants and cafes, neighborhood dry cleaners, personal services (e.g., laundries, barbers, hair and nail salons, fitness studios), small gas stations, and convenience stores. Other compatible uses include small-scale medical and professional offices as well as public and semi-public uses. Large-format retail stores, greater than 40,000 gross square feet for a single user, and shopping centers are not appropriate in this district.

2. *GC General Commercial.* This district is intended to provide retail and service-oriented businesses that serve a large surrounding residential trade area within a one- to five-mile radius. Examples of allowable uses include but are not limited to animal sales, care, and services; automobile servicing; building materials; storage facilities with active storefronts; equipment rental; wholesale businesses; and specialized retail and service uses not normally found in shopping centers.

3. *GO General Office.* This district is intended to enhance employment opportunities and the overall economic vitality of Maricopa as well as to promote attractive development and ensure minimal impacts on surrounding development. It is intended for low- to medium-intensity office and medical center development located along thoroughfares, arterials, or collectors, or near existing/planned public transit stops. This district also allows supporting services such as banks, clinics, lodging, small-scale retail, service, or restaurant uses developed in conjunction with office use.

4. *SC Shopping Center.* This district is intended to meet local and regional retail demand, such as large-scale retail, office, civic and entertainment uses, shopping malls with large footprints, "big-box" retail use, and other uses that are not appropriate in other areas because of higher volumes of vehicle traffic and potential impacts on other uses. Typical uses include but are not limited to grocery store and anchored tenant shopping centers with additional drug stores, fast food chains, smaller hardware and building supply stores, gas stations with convenience stores, and restaurants and cafes. Other compatible uses include medical and professional offices as well as public and semi-public uses. The focus of district development standards is to ensure that structures complement the surrounding development pattern. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 203.01; Ord. 14-12 § 1.]

18.40.020 Land use regulations.

Table 18.40.020 below prescribes the land use regulations for commercial districts. The regulations for each district are established by letter designations as follows:

"P" designates permitted uses.

"C" designates use classifications that are permitted after review and approval of a conditional use permit by the planning and zoning commission.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"X" designates uses that are not permitted.

2 Wine and beer sales only.

3 Small scale, less than 1,500 square feet.

4 Less than 40,000 square feet.

5 Permitted as an accessory use. See MCC [18.120.010](#), Accessory uses.

6 Outdoor storage yards are not permitted.

[Ord. 24-01 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 203.02; Ord. 14-12 § 1.]

18.40.030 Development standards.

Table 18.40.030, below, prescribes development regulations for commercial districts. The first five columns establish minimum requirements for permitted and conditional uses. Letters in parentheses in the "Additional

Regulations" column refer to regulations following the schedule. The letter "Y" in the district column means that the additional regulation applies. The numbers in each illustration below refer to corresponding regulations in the "#" column in the associated table. Regulations applicable to multiple districts are in Division 4 of this code.

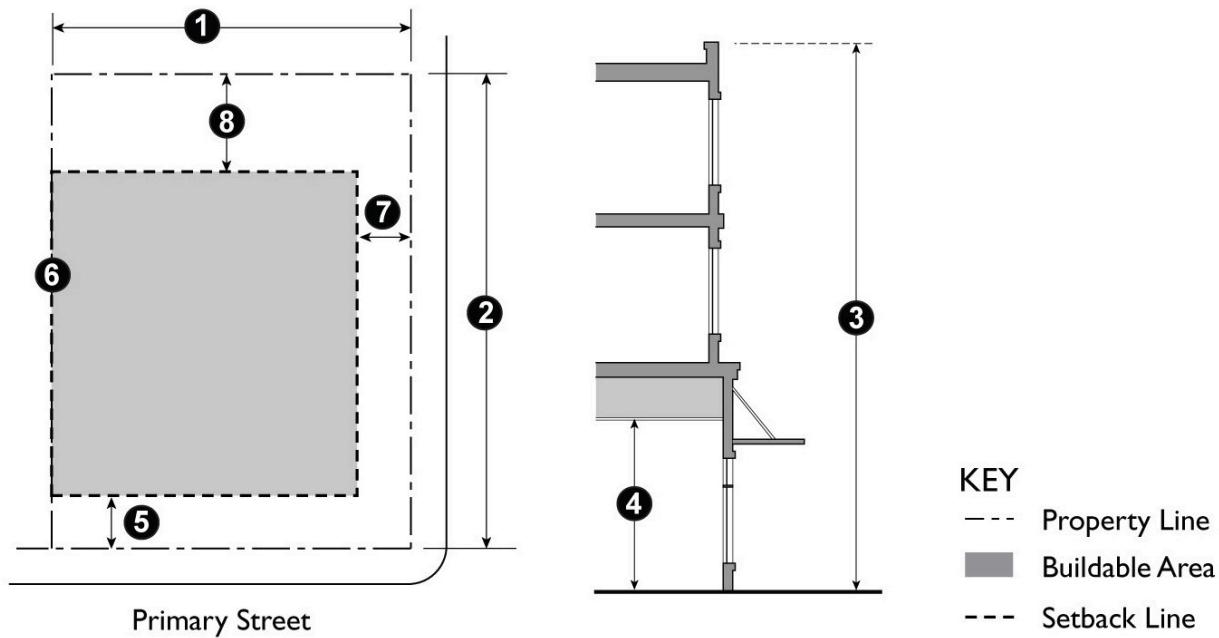

Table 18.40.030 Development Standards - Commercial Districts

	District				Additional Regulations	#

Visibility at Driveways	MCC 18.80.150 , Visibility at intersections and driveways					

A. *Improvement of Street-Facing Setbacks.* Where a front or street-facing side setback is provided, it should be landscaped and/or hard-surfaced for use by pedestrians. If hard-surfaced, the setback area on each lot must be a plaza or gathering area and contain at least two pedestrian amenities such as benches, drinking fountains, and/or other design elements (public art, planters, and kiosks).

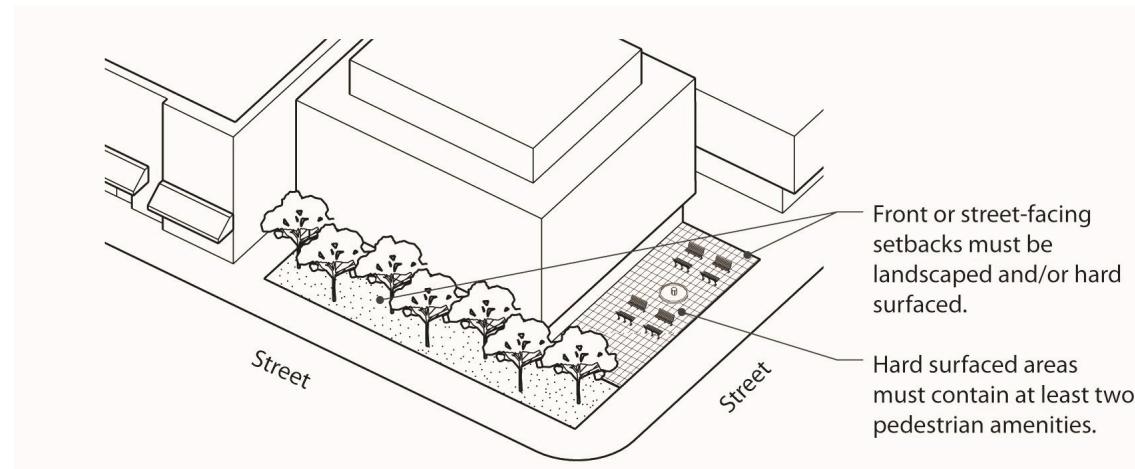

Figure 18.40.030.A. Street-Facing Setbacks

B. *Screening of Parking.* Any parking area located between a building and the street shall be screened with a wall or berm at least three feet and not to exceed three and one-half feet high. A screening wall shall be composed of brick, stone, stucco, or other quality durable material and shall include a decorative cap or top finish as well as edge detail at wall ends. A combination of these materials may be used, or may be combined such that no more than 40 percent of the screening shall be accomplished with densely planted landscaping.

C. *Building Design.* The exterior design of all buildings, including all facades, shall be coordinated with regard to color, materials, architectural form, and detailing to achieve design harmony, continuity and horizontal and vertical relief and interest. The design of all buildings shall be compatible with the character of the neighboring area.

D. *Ground-Floor Transparency.* Exterior walls facing any front or street-facing lot line should include windows, doors, or other openings for at least 50 percent of the building wall area located between three and seven feet above the elevation of the sidewalk. No wall may run in a continuous plane for more than 20 feet without an opening. Openings fulfilling this requirement should have transparent glazing and provide views into work areas, display areas, sales areas, lobbies, or similar active spaces, or into window displays that are at least three feet deep.

1. *Exception for Structured Parking Facilities.* Multi-level parking garages, where permitted, are not required to meet the ground-floor transparency requirement.
2. *Sites with Multiple Buildings.* On sites that contain multiple buildings, the building ground-floor transparency requirement does not need to be met along street-facing facades of buildings that are located behind other buildings and not visible from the adjacent public street.

3. *Reduction through Development Review Permit.* The building opacity requirement may be reduced or waived by the zoning administrator, if it is found that:

- a. The proposed use has unique operational characteristics with which providing the required windows and openings is incompatible, such as in the case of a cinema or theater; and
- b. Street-facing building walls will exhibit architectural relief and detail, or will be enhanced with landscaping in such a way as to create visual interest at the pedestrian level.

E. *Outdoor Living Areas.* In NC Districts, decks and balconies or common areas for outdoor living shall be provided for all residential dwelling units.

1. *Minimum Dimensions.* The minimum horizontal dimension for a deck or balcony is six feet and the minimum dimension for a common area for outdoor living, such as a roof deck, is 10 feet.
2. *Common Areas – Shared Open Space.* Common areas shall be accessible to residents, open to the sky, and not include any ground-level area required for front or corner side setbacks.
3. *Averaging Allowed.* The amount of outdoor living area provided for individual units may vary, based on unit size and location within a project, as long as the average area per unit meets the applicable standard.

F. *Pedestrian Access.* A system of pedestrian walkways shall connect all buildings on a site to each other, to on-site automobile and bicycle parking areas, to off-site sidewalks, and to any on-site open space areas or pedestrian amenities. Direct and convenient access shall be provided to adjoining residential and commercial areas to the maximum extent feasible, while still providing for safety and security.

1. Walkways shall be a minimum of six feet wide, hard-surfaced, and paved with concrete, stone, tile, brick, or comparable material.
2. Where a required walkway crosses driveways, parking areas, or loading areas, it must be clearly identifiable through the use of a raised crosswalk, a different paving material, or similar method.
3. Where a required walkway is parallel and adjacent to an auto travel lane, it must be raised or separated from the auto travel lane by a raised curb, bollards, or other physical barrier.

G. *Private Storage Space for Residential Units in NC Districts.* Each unit shall have at least 200 cubic feet of enclosed, weather-proofed, and lockable private storage space with a minimum horizontal dimension of four feet.

H. *Transitional Standards.* Where a commercial district adjoins an interior lot line in a residential district, the following standards apply:

1. The maximum height is 30 feet within 40 feet of a residential district. From these points, the building height may be increased one foot for each additional foot of upper-story building setback to the maximum building height.
2. The minimum building setback shall be 25 feet from a residential district boundary.

3. Adjoining an RS District, a minimum 25-foot landscaped setback shall be provided, free from parking and other encroachments.
- I. *Truck Docks, Loading, and Service Areas.* Truck docks, loading, and service areas are not permitted within 25 feet of the boundary of any residential district. In the NC, SC, and GO Districts, such loading and service areas must be located on the side or rear of buildings, and may not face a public street or a private street functioning as a public road. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 203.03; Ord. 14-12 § 1.]

18.40.040 Review of plans.

Permit and review procedures shall follow the standards and approval criteria in Division 5, Administration and Permits. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 203.04; Ord. 14-12 § 1.]

18.40.050 Alternative design.

The zoning administrator may evaluate, and possibly accept or recommend to the decision-making body, alternative design requirements to meet the intent and the spirit of the code and other policy documents of the city of Maricopa. [Res. 21-09; Ord. 21-05 § 2.]

Chapter 18.45

MIXED USE DISTRICTS

Sections:

- [18.45.010 Purpose.](#)**
- [18.45.020 Land use regulations.](#)**
- [18.45.030 Development standards.](#)**
- [18.45.040 Review of plans.](#)**
- [18.45.050 Alternative design.](#)**

18.45.010 Purpose.

The purposes of the mixed use districts are to:

- A. Promote pedestrian-oriented infill development, intensification, and reuse of land consistent with the general plan and the Heritage District Redevelopment Area Plan;

- B. Encourage the development of mixed use centers and corridors with a vibrant concentration of goods and services, multi-unit housing, and community gathering and public spaces at strategic locations;
- C. Transform auto-oriented roadways and corridors into diverse and attractive corridors that support a mix of residential, pedestrian, and neighborhood-serving uses in order to achieve an active social environment within a revitalized streetscape while also respecting existing character;
- D. Reduce the need for private automobile use to access shopping, services, and employment;
- E. Offer additional housing opportunities for residents seeking to live and work in an urban environment; and
- F. Ensure that new development and redevelopment are designed to minimize traffic, parking and impacts on surrounding residential neighborhoods, and create walkable environments.

Additional purposes of each mixed use district:

1. *MU-N Neighborhood Mixed Use.* This district is intended to facilitate the transformation of sections of city roadways into vibrant, highly walkable areas with broad, pedestrian-friendly sidewalks, trees, landscaping, and local-serving uses with new buildings that step down in relationship to the scale and character of adjacent low density neighborhoods. Development is expected to include ground-floor neighborhood-serving businesses and upper-level housing or offices. Allowable ground-floor uses include active, neighborhood-serving retail, services, and open spaces, such as plazas.
2. *MU-G General Mixed Use.* This district is intended to allow for either horizontal or vertical mixed use development along key circulation corridors in the city where height and density can be easily accommodated. Ground-floor retail and upper-floor residential or offices are the primary uses, with retail, personal and business services, and public and institutional space as supportive uses. These districts are intended to become vibrant, highly walkable areas with broad, pedestrian-friendly sidewalks, trees, landscaping, and local-serving uses with new buildings that step down in relationship to the scale and character of adjacent neighborhoods. Automotive-oriented uses are not permitted. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 204.01; Ord. 14-12 § 1.]

18.45.020 Land use regulations.

Table 18.45.020 below prescribes the land use regulations for mixed use districts. The regulations for each district are established by letter designations as follows:

"P" designates permitted uses.

"C" designates use classifications that are permitted after review and approval of a conditional use permit by the planning and zoning commission.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"X" designates uses that are not permitted.

Nonconforming Uses	Chapter 18.100 MCC, Nonconforming Uses and Structures		

1 Preexisting lots only.

2 Nonresidential uses on ground floors only unless approved by the planning and zoning commission.

3 Small scale, less than 1,000 square feet.

4 Less than 40,000 square feet.

A. *Outdoor Retail Sales and Merchandise Display.*

1. *Location.* Outdoor retail sales and merchandise displays shall not obstruct ingress and egress to a building, obstruct fire lanes, interfere with vehicular circulation or sight distance, or be located in landscaped areas. Outdoor retail sales and merchandise display areas shall be adjacent to the structure containing the business selling the merchandise.

2. *Maximum Area.* Outdoor retail sales and merchandise displays shall not exceed five percent of the total gross floor area of the business, or 200 square feet, whichever is less.
3. *Height.* Display merchandise shall not exceed a height of six feet above finished grade.
- B. *Temporary Use of Parking Area.* The temporary use of a parking area for sales and display is permitted, subject to MCC [18.120.260\(G\)](#). [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 204.02; Ord. 14-12 § 1.]

18.45.030 Development standards.

Table 18.45.030 prescribes development regulations for the mixed use districts. The first four columns establish minimum requirements for permitted and conditional uses. Letters in parentheses in the "Additional Standards" column refer to regulations following the schedule. The letter "Y" in the district column means that the additional standard applies. The numbers in each illustration below refer to corresponding regulations in the "#" column in the associated table. Regulations applicable to multiple districts are in Division [4](#) of this code.

A. *Increased FAR for Mixed Use Buildings.* The maximum allowable FAR may be increased by up to 25 percent for buildings that contain a mix of residential and nonresidential uses through the provision of one or more of the following elements beyond what is otherwise required, subject to conditional use permit approval:

1. Car-share or electric car facilities;
2. Additional public gathering space or contribution to a city parks fund supporting new or improved public parks within walking distance;
3. *Provision of Off-Site Improvements.* This may include off-site amenities and/or infrastructure (other than standard requirements and improvements) such as pedestrian or right-of-way improvements, public safety facilities, libraries, senior centers, community meeting rooms, or child care; and
4. Provision of green roofs, solar panels, and other green building measures.

B. *Required Side and Rear Yards for Residential Uses.* In order to provide light and air for residential units and additional separation for rooms that contain areas that require additional privacy considerations, the following minimum setbacks apply to any building wall containing windows and facing an interior side or rear yard. When the site is adjacent to a residential district, the project must comply with whichever standard results in the greater setback. The required setbacks apply to that portion of the building wall containing and extending three feet on either side of any window.

1. For any wall containing living room or other primary room windows, a setback of at least 15 feet shall be provided.
2. For any wall containing sleeping room windows, a setback of at least 10 feet shall be provided.
3. For all other walls containing windows, a setback of at least five feet shall be provided.

C. *Reduced Street Side Setback.* Along local streets only, the street side setback may be reduced to five feet from the lot line if the setback area is completely landscaped.

D. *Maximum Building Setbacks.* The street-facing facades of buildings must be located no farther from street-facing property lines than the maximum setback distance specified in Table 18.45.030. The following additional provisions apply:

1. *Corner Properties.* Where a property fronts on two or more streets, the maximum setback shall be met according to the following provisions:

a. *Frontage on Two Primary Streets.* New buildings on sites with frontage on two streets may be constructed to the maximum setback line on both frontages.

b. *Frontage on Three or More Streets.* Properties with frontage on three or more streets must build to the maximum setback lines of at least two of the streets.

2. *Sites with More than One Building.* Where there is more than one building on a site, the maximum setback standard must be met for at least 50 percent of the combined ground-level, street-facing facades of all buildings.

3. *Building Additions.* For any addition to a building that increases the width of a street-facing facade, 100 percent of the addition must be located on or within the maximum setback until the maximum setback standard for the entire building is met, or as otherwise recommended by the zoning administrator to meet the intent of this code.

4. *Exceptions to Building Placement Requirements.* The following exceptions to the build-to requirement are permitted:

a. *Articulated Building Street Face.* Where a portion of the building is set back from the maximum setback to provide an entry or other feature creating variation in the facade, the total area of the space created by the setback must be less than the area of one square foot per linear foot of building frontage.

b. *Outdoor Eating Areas.* Where an outdoor eating area will be installed on the street frontage, a portion of the building may be set back up to 12 feet farther than the maximum setback line, if at least 40 percent of the building facade is at the setback line.

c. *Residential Uses.* For buildings or portions of buildings that are in residential use, open porches located at or within the maximum setback shall count toward meeting the requirement if such porches are at least 10 feet wide and six feet deep.

E. *Location of Parking.* On-site parking areas shall be set back a minimum of 25 feet from streets within a mixed use district. Exceptions may be granted for short-term customer parking and drop-off spaces and for preexisting uses.

F. *Building Design and Signage.* The exterior design of all buildings, including all facades and all signage, shall be coordinated with regard to color, materials, architectural form, and detailing to achieve design harmony,

continuity, and horizontal and vertical relief and interest. The design of all buildings and signage shall be compatible with the character of the neighboring area.

G. *Outdoor Living Areas.* As part of the open space required by MCC Title [17](#), Subdivisions, private or common areas for outdoor living shall be provided for upper-level residential units. Outdoor living areas include balconies, decks, common open space, and rooftop open space.

1. *Minimum Dimensions.*

- a. *Private Open Space.* Private open space located above ground level (e.g., balconies) shall have no horizontal dimension less than six feet.
- b. *Common Open Space and Rooftop Open Space.* Common open spaces and rooftop open spaces with a minimum horizontal dimension of 20 feet shall count towards the open space calculation.

2. *Minimum Area Required – Private Open Space.*

- a. *MU-N and MU-G Districts.* One hundred twenty square feet per unit.
- b. The amount of outdoor living area provided for individual units may vary based on unit size and location within a project, as long as the average area per unit meets the applicable standard, or as acceptable by the zoning administrator to meet the intent of this chapter.

H. *Outdoor Storage.* Outdoor storage areas for nonresidential uses shall be only for retail and live/work uses and shall comply with the following requirements:

1. *Area.* Five percent of the gross floor area of the use or 200 square feet, whichever is less.
2. *Hours.* Outdoor storage during business hours only.

I. *Transitional Standards.* Where a mixed use district adjoins an interior lot line in an RS District, the following standards apply:

1. The maximum height within 30 feet of an RS District is 30 feet. From this point, the building height may be increased one foot for each additional foot of upper-story building setback to the maximum building height.
2. The building setback from an RS District boundary shall be 25 feet for interior side and rear yards.

J. *Transparency on Ground Floor Frontages for Nonresidential Uses.* Windows, doors, or other openings shall be provided for at least 50 percent of the building wall area located between three and seven feet above the elevation of the sidewalk. No wall may run in a continuous plane for more than 20 feet without an opening. Openings fulfilling this requirement shall have transparent glazing and provide views into work areas, display areas, sales areas, lobbies, or similar active spaces, or into window displays that are at least three feet deep.

1. *Exception for Structured Parking Facilities.* Multi-level parking garages, where permitted, are not required to meet the ground-floor transparency requirement.

2. *Sites with Multiple Buildings.* On sites that contain multiple buildings, the building ground-floor transparency requirement does not need to be met along street-facing facades of buildings that are located behind other buildings and not visible from the adjacent public street.
 3. *Reduction through Development Plan Review.* The transparency requirement may be reduced or waived by the zoning administrator upon finding that:
 - a. The proposed use has unique operational characteristics with which providing the required windows and openings is incompatible, such as in the case of a cinema or theater or communications facility; and
 - b. Street-facing building walls will exhibit architectural relief and detail, or will be enhanced with landscaping in such a way as to create visual interest at the pedestrian level.
- K. *Truck Docks, Loading, and Service Areas.* Truck docks, loading, and service areas are not permitted within 25 feet of the boundary of any residential district. In addition, such loading and service areas must be located on the side or rear of buildings, and may not face a public street or a private street functioning as a public road.
- L. *Pedestrian Access.* A system of pedestrian walkways shall connect all buildings on a site to each other, to on-site automobile and bicycle parking areas, to sidewalks, and to any on-site open space areas or pedestrian amenities. Whenever feasible, direct and convenient access shall be provided to adjoining residential and commercial areas to the maximum extent feasible while still providing for safety and security.
1. Walkways shall be a minimum of six feet wide, hard-surfaced, and paved with concrete, stone, tile, brick, or comparable material.
 2. Where a required walkway crosses driveways, parking areas, or loading areas, it must be clearly identifiable through the use of a raised crosswalk, a different paving material, or similar method.
 3. Where a required walkway is parallel and adjacent to an auto travel lane, it must be raised or separated from the auto travel lane by a raised curb, bollards, or other physical barrier. [Res. 22-12; Ord. 22-03 § 2; Res. 21-09; Ord. 21-05 § 2; Ord. 18-14 § 1; Res. 14-36 § 204.03; Ord. 14-12 § 1.]

18.45.040 Review of plans.

Permit and review procedures shall follow the standards and approval criteria in Division 5, Administration and Permits. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 204.04; Ord. 14-12 § 1.]

18.45.050 Alternative design.

The zoning administrator may evaluate, and possibly accept or recommend to the decision-making body, alternative design requirements to meet the intent and the spirit of the code and other policy documents of the city of Maricopa. [Res. 21-09; Ord. 21-05 § 2.]

- 18.50.050 Alternative design.**

18.50.010 Purpose.

The purposes of the industrial districts are to:

- A. Provide appropriately located areas for continued employment activities to ensure a robust economy that is essential in order for the city to continue to provide the high level of public services that the community expects;
- B. Provide for the appropriate location of businesses that may have the potential to generate off-site impacts, while providing compatibility in use and form;
- C. Assure high-quality design and site planning of office and employment areas and support the adaptive reuse of industrial buildings that contribute to the character of the city as a whole; and
- D. Ensure that new industrial and office development is designed to minimize traffic, parking and impacts on surrounding neighborhoods, and is appropriate to the physical characteristics of the site and the area where the project is proposed.

Additional purposes of each industrial district:

1. *LI Light Industrial.* This district is intended to accommodate a diverse range of existing industrial uses that provide a job base and affordable space for small-scale industrial and manufacturing businesses. Allowable land uses within this district include light industrial uses, including but not limited to businesses engaged in design, development, manufacturing, fabricating, testing, or assembly of various products, which provide important community services and employment for workers with various skills. This district also allows

general service, research and development, biotechnology, warehousing, and service commercial uses. It includes industrial complexes, flex space, and industrial buildings for single and multiple uses, warehouses, mini-storage, wholesale, commercial recreation, and other related uses. Small-scale retail and ancillary office uses are also permitted.

2. *GI General Industrial.* This district is intended to accommodate the broadest range of industrial uses on sites identified as "Employment" in the general plan. These intensive uses include but are not limited to manufacturing, processing, assembly, research, wholesale, storage, and distribution activities that are essential to a balanced economic base. Small-scale commercial services and ancillary office uses are also permitted.

3. *IP Industrial Park.* This district is intended to provide for office and advanced technology uses, scientific research, and limited manufacturing of related products which require large expanses of floor area on large parcels. Development intensity is intended to provide for office uses and other uses within a campus-like environment that will be compatible with abutting residential neighborhoods, especially in terms of scale and building mass. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 205.01; Ord. 14-12 § 1.]

18.50.020 Land use regulations.

Table 18.50.020 prescribes the land use regulations for industrial districts. The regulations for each district are established by letter designations as follows:

"P" designates permitted uses.

"C" designates use classifications that are permitted after review and approval of a conditional use permit by the planning and zoning commission.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"X" designates uses that are not permitted.

- A. *Outdoor Storage.* In addition to the requirements of MCC [18.80.100](#), Outdoor storage, in the LI District, outdoor storage shall be screened so as not to be visible from public areas.
- B. *Screening and Separation of Parking Areas.* In the industrial districts, parking areas located between a building and street shall be screened with a screening wall or berm at least three feet and not to exceed three and one-half feet high. In addition, parking areas shall be separated from on-site buildings by a distance of at least 10 feet, which shall be landscaped and may also include a pedestrian walkway. Exceptions to this requirement may be granted in the GI District for a use located in the interior of the district, not on the perimeter.

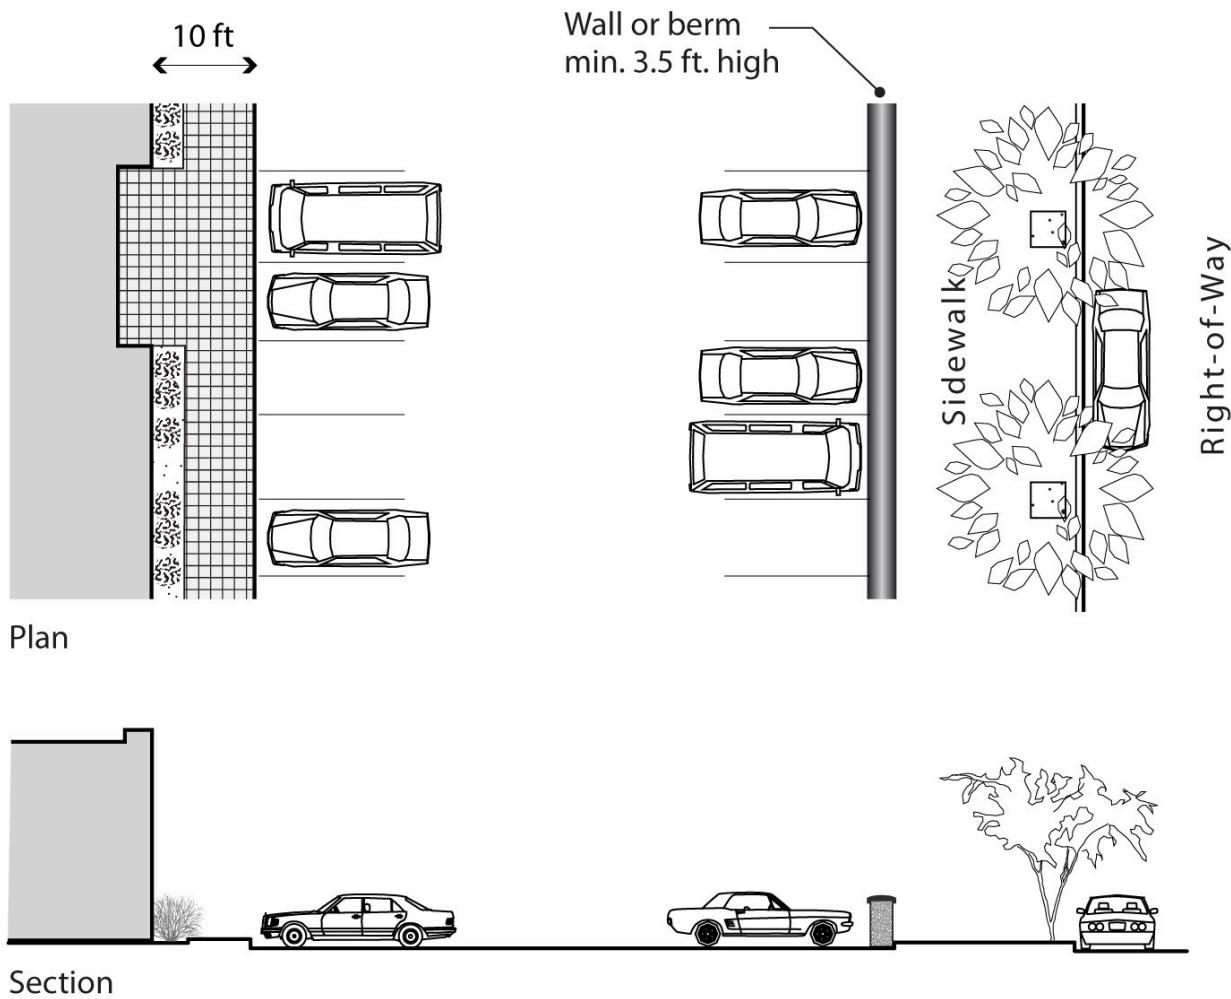

Figure 18.50.030.B. Screening and Separation of Parking Areas

C. *Transitional Standards.* Where an industrial district adjoins an interior lot line in a residential district, the following standards apply:

1. The maximum height within 40 feet of a residential district is 30 feet. From this point, the building height may be increased one foot for each additional foot of upper story building setback to the maximum building height.
2. The minimum building setback from a residential district boundary shall be 40 feet.
3. There shall be a minimum 40-foot landscape buffer from any residential district lot line.

D. *Truck Docks, Loading, and Service Areas.* Truck docks, loading, and service areas are not permitted within 40 feet of the boundary of any residential district. In the IP District, such loading and service areas must be located from the side or rear of buildings, and may not face a public street or a private street functioning as a public road. [Res. 21-09; Ord. 21-05 § 2; Ord. 18-06 § 1; Res. 14-36 § 205.03; Ord. 14-12 § 1.]

18.50.040 Review of plans.

Permit and review procedures shall follow the standards and approval criteria in Division 5, Administration and Permits. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 205.04; Ord. 14-12 § 1.]

18.50.050 Alternative design.

The zoning administrator may evaluate, and possibly accept or recommend to the decision-making body, alternative design requirements to meet the intent and the spirit of the code and other policy documents of the city of Maricopa. [Res. 21-09; Ord. 21-05 § 2.]

Chapter 18.55 OPEN SPACE AND PUBLIC-INSTITUTIONAL DISTRICTS

Sections:

- [**18.55.010 Purpose.**](#)
- [**18.55.020 Land use regulations.**](#)
- [**18.55.030 Development standards.**](#)
- [**18.55.040 Review of plans.**](#)
- [**18.55.050 Alternative design.**](#)

18.55.010 Purpose.

The purposes of the open space and public-institutional districts are to:

- A. Provide areas for a wide range of public facilities, including parks and open space, private open spaces, educational facilities, cultural and institutional uses, health services, municipal offices, general government operations, utility and public service needs, and other public or quasi-public facilities;
- B. Ensure that the development and operation of public and semi-public uses protects and enhances the character and quality of life of surrounding residential areas;
- C. Ensure the provision of services and facilities needed to serve residents, businesses, and visitors and maintain a high quality of life; and
- D. Provide opportunities for outdoor recreation and meet the recreational needs of Maricopa's residents.

Additional purposes of each open space and public-institutional district:

1. *OS-PR Parks and Recreation Open Space.* This district is intended for developed and undeveloped park lands and permanent recreation open spaces in the community. This district may include trails and other low impact public recreational uses to implement the city's parks, trails and open space master plan. Access may be restricted to areas of sensitive habitat or which pose a danger to the public.
2. *OS-POS Privately Owned Open Space.* This district is for privately owned parkland and privately owned recreational open space. Uses allowed include parks and recreational facilities and supporting commercial and entertainment facilities and agricultural and other open space uses.
3. *OS-C Conservation Open Space.* This district is intended for permanent open spaces in the community, including environmentally sensitive lands and wildlife corridors, waterways, and deserts. It is also intended to safeguard the health, safety, and welfare of the people by limiting development in areas where police and fire services, protection against flooding by storm water, and mitigation of excessive erosion are not possible without excessive costs to the community.
4. *PI Public-Institutional.* This district is for public or quasi-public facilities, including but not limited to city facilities, utilities, schools (including but not limited to colleges and trade schools), health services, public works yards, utility stations, telecommunications facilities, and similar uses. Accessory retail uses and services, including food facilities and childcare, are permitted. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 206.01; Ord. 14-12 § 1.]

18.55.020 Land use regulations.

Table 18.55.020 below prescribes the land use regulations for open space, public, and institutional districts. The regulations for each district are established by letter designations as follows:

"P" designates permitted uses.

"C" designates use classifications that are permitted after review and approval of a conditional use permit by the planning and zoning commission.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"X" designates uses that are not permitted.

A. *Transitional Standards.* Where an Open Space, Public, or Institutional District adjoins an interior lot line in a residential district, the following standards apply:

1. The maximum height within 40 feet of a residential district is 30 feet. From this point, the building height may be increased one foot for each additional foot of upper story building setback to the maximum building height.
2. The minimum building setback from a residential district boundary shall be 25 feet. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 206.03; Ord. 14-12 § 1.]

18.55.040 Review of plans.

Permit and review procedures shall follow the standards and approval criteria in Division 5, Administration and Permits. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 206.04; Ord. 14-12 § 1.]

18.55.050 Alternative design.

The zoning administrator may evaluate, and possibly accept or recommend to the decision-making body, alternative design requirements to meet the intent and the spirit of the code and other policy documents of the city of Maricopa. [Res. 21-09; Ord. 21-05 § 2.]

Chapter 18.60

PLANNED AREA DEVELOPMENT DISTRICT

Sections:

- [18.60.010 Purpose.](#)**
- [18.60.020 PAD applicability.](#)**

- 18.60.030 General provisions.**
- 18.60.040 Zoning map designation.**
- 18.60.050 Modifying development and land use regulations.**
- 18.60.060 PAD design elements.**
- 18.60.070 Procedures.**
- 18.60.080 Review of plans.**

18.60.010 Purpose.

- A. The specific purpose of the Planned Area Development (PAD) District is to provide opportunities for creative and flexible development approaches that accommodate, encourage, and promote innovatively designed developments involving a mixture of residential and/or nonresidential land uses not prescribed within the zoning districts of the city.
- B. This zoning designation recognizes that adherence to the bulk and use specifications contained elsewhere in this title would prevent the application of such unique developments. Therefore, where PAD zoning is deemed appropriate or necessary, traditional zoning regulations are replaced by standards and design which fulfill the objectives of the Maricopa general plan.
- C. The PAD zoning designation may be tailored to meet the specific development representations of an applicant, relative to permitted uses, design standards, and other details. Hence, a single PAD District may vary considerably from another district as they are evaluated and reviewed individually in accordance to their respected standards within.
- D. Such a planned development may be designed as a large-scale separate entity, able to function as an individual community, neighborhood, or mixed use development; as a small-scale project which requires flexibility because of unique site circumstances or design characteristics; or as a transitional area between dissimilar land uses. [Res. 22-37; Ord. 22-18 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 20-31; Ord. 20-11 §2(207.01).]

18.60.020 PAD applicability.

- A. The size for any development utilizing the PAD process shall be a minimum of 10 acres.
- B. The city council may approve a PAD district that contains less than 10 acres upon a finding that special site characteristics exist and that the proposed development will result in specific community benefits.
 - 1. Any PAD less than 10 acres shall be for land uses other than conventional detached single-family.
- C. The provisions of this section are applicable to all land within the city limits or proposed for annexation to the city. [Ord. 24-01 § 2; Res. 22-37; Ord. 22-18 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 20-31; Ord. 20-11 §2(207.02).]

18.60.030 General provisions.

- A. *Ordinances.* Applications for a PAD development shall abide by this title and the provisions of MCC Title [17](#), Subdivisions, unless otherwise modified by the city council at the time of zoning approval.
- B. *General Plan.* Residential densities for a PAD shall be consistent with the Maricopa general plan.
- C. *Special Areas.* When located near a designated village center per the general plan and as determined by staff, the PAD shall incorporate the goals and objectives for the area.
- D. *Open Space Reduction.* If workforce housing is provided, the percentage of open space shall be adjusted to allow the applicant flexibility in their design. In this instance, the minimum open space requirement shall be reduced by five percent. See MCC [18.90.030](#) for more information about open space requirements.
- E. *Integration.* The project location, design and size are such that the development shall be well integrated with the surroundings, is planned and developed with the intention to harmonize with any existing development in the adjacent neighborhood.
 - 1. Nonresidential development should seek to relate, both visually and functionally, with the surrounding neighborhood including providing diversity of land uses, varieties of character and multi-modal connectivity.
 - 2. If the proposed development departs from the community character of surrounding uses, the city may require additional buffering, landscape or setbacks, not to exceed similar zoning requirements, so that it will not be detrimental to adjacent properties.
- F. *Connection.* The PAD shall connect to the rest of the Maricopa community through the use of multi-modal transportation opportunities and the overall design and layout of the development.
- G. *Open Space Connection.* All PAD developments shall provide a pedestrian circulation system that connects open space areas within the development and creates pedestrian linkages with surrounding residential and commercial developments. Recreation space and multi-purpose pathways are employed as means to allow employees or customers from the adjacent neighborhood to access shopping, jobs and recreational opportunities for a healthy lifestyle.
- H. *Transitional Buffering.* Provide separation setbacks, landscaping, walls or mixed use areas to provide privacy and soften the impacts and edges between nonresidential and residential areas where required.
- I. *Impact Mitigation.* Noise, glare, dust, and industrial emissions should be abated to acceptable residential levels at residential property lines. Exposure to hazardous materials of any type is prohibited outside of enclosed, controlled environment structures.
- J. *Lot Size Variation.* Not one residential lot size category shall comprise more than 60 percent of the lots on PADs of 50 acres or more.
- K. *Minimum Land Uses.* The PAD shall incorporate a variation of lot sizes and land uses according to Table 18.60.030, PAD Minimum Land Uses.

Table 18.60.030 PAD Minimum Land Uses

Minimum Acres	Minimum Residential Lot Types	Minimum Number of Land Uses
0 – 49	1	1
50 – 100	2	1
101 – 200	3	2
201 – 499	3	3
500+	4	3

- (1) For the purposes of this title "distinctly different" shall be defined as a minimum of 1,100 square foot differential in lot area in combination with a lot width differential of 10 feet.
- (2) Open space is not an acceptable land use under the minimum required. See MCC [18.90.030](#) for open space requirements.
- (3) Land use types for the purposes of this chart are defined as: residential, commercial, office, mixed use, public institutional, or industrial.
- (4) The planning and zoning commission, upon recommendation by the zoning administrator may reduce the minimum number of land uses if it is determined the site provides linkages and connectivity to adjacent existing varied land uses.
- L. *Design Standards.* The homebuilder and/or parcel buyer shall be encouraged to develop "Master Architectural Design Standards and Guidelines." The standards developed for the PAD shall not be any less than the minimum standards outlined in Maricopa's Single-Family Residential Design Guidelines when provided.
- M. *Diversity.* Provide distinctive design and architectural diversity through creative and efficient site design in exchange for open space, increased recreational opportunities, and architectural enhancements and landscaping.
- N. *Association.* All PAD developments shall form a master association (i.e., homeowner's association, property management association, condominium association, etc.)
- O. *Design.* Adhering to the minimum design requirements prescribed within MCC [18.60.060](#) is applicable to all proposed PADs.
- P. *Zero Lot Line.* Zero lot line setbacks may be allowed under the following circumstances;

1. The setback on the adjacent lot must be either zero feet or five feet with an aggregate of 10 feet or greater.
2. The opposite side yard of no less than 10 feet must be kept perpetually free of permanent obstructions such as a storage shed or fence without a gate.
3. Similar zero lot line exceptions can be made for the rear yard for detached garages, but not for both the side and rear yards of the same lot.

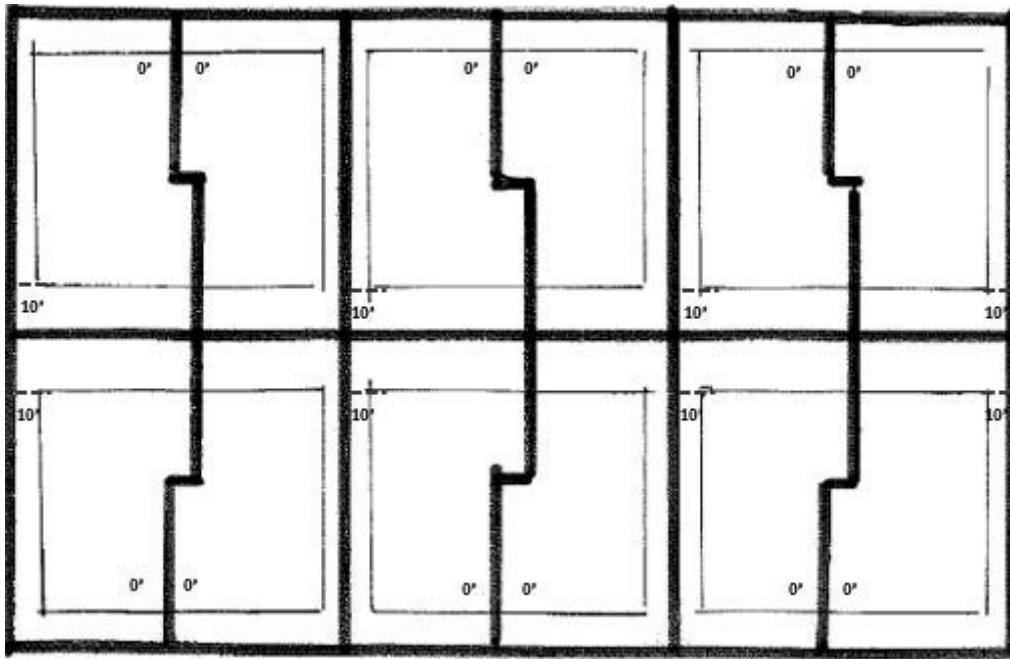

Figure 18.60.030. Zero Lot Line Setbacks

[Res. 22-37; Ord. 22-18 § 2.]

18.60.040 Zoning map designation.

A PAD District shall be noted on the zoning map by the designation "PAD," followed by the case number based on order of most recent adoption. [Res. 22-37; Ord. 22-18 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 20-31; Ord. 20-11 §2(207.04). Formerly 18.60.030.]

18.60.050 Modifying development and land use regulations.

A. Permitted Uses.

1. Permitted uses shall be established by the approved PAD plan. Land uses within a PAD District must be consistent with the General Land Use Plan, land use category definitions, and policies of the Maricopa general plan.
2. No use other than the uses called out within a PAD District shall be permitted and any use not listed within the PAD is considered a nonpermitted use. Adding a new permitted use shall be reviewed administratively for meeting the intent of the PAD or shall go through the PAD amendment process as determined by the zoning administrator.

B. *Residential Unit Density.* The total number of dwelling units in a PAD plan shall not exceed the maximum number permitted by the general plan density for the total area of the PAD designated for residential use, excluding public facilities and permanent open space which is restricted from development by recorded covenants.

C. *Other Development Regulations.* General standards and regulations of other applicable city ordinances and regulations, including, but not limited to, the city drainage ordinance, floodplain management ordinance, MCC Title [17](#), Subdivisions, and Design Standards Manual shall not be amended by the PAD unless approved by the city engineer.

1. In considering a proposed PAD, the commission and/or city council, with recommendation by the zoning administrator, may approve modifications of these provisions. Justification for such modification shall be supplied by the applicant in written form as part of the application submittal. [Res. 22-37; Ord. 22-18 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 20-31; Ord. 20-11 §2(207.07). Formerly 18.60.040.]

18.60.060 PAD design elements.

A. *Applicability.* The minimum design elements required is based on the size of the development and the land use type. The design elements listed below in Tables 18.60.060(A) and (B) are intended to guide the applicant on additional design elements to be incorporated into the PAD to provide justification for the deviations within the PAD.

Table 18.60.060(A) Additional Residential PAD Design Elements

PAD Development Size (Acres)	Design Element Points
0 – 49	4
50 – 100	5
101 – 200	6
201 – 499	7
500+	8

Table 18.60.060(B) Additional Nonresidential PAD Design Elements

PAD Development Size (Acres)	Design Element Points
0 – 49	4
50 – 100	5

Table 18.60.060(B) Additional Nonresidential PAD Design Elements

PAD Development Size (Acres)	Design Element Points
101 – 200	6
201 – 499	7
500+	8

- (1) Request for lot coverage increase allowed up to 15 percent requires an additional four design elements from the minimum required.
- (2) Request for density increase allowed up to 20 percent requires an additional three design elements from the minimum required.
- (3) Request for reducing minimum lot area, setbacks, maximum building height or development type standards requires an additional two design elements from the minimum required.

B. *Design Elements.* The design elements listed in Table 18.60.060(C) are intended to guide the applicant on the appropriate required and additional design element options to be incorporated into the PAD. A PAD must justify deviations from the code by incorporating the appropriate number of design elements. As PADs are mixed use in nature, every element in the table can be applied to the overall design element points received. Deviations of the design elements and rationale must be provided in the development narrative.

Table 18.60.060(C) PAD Design Elements

Residential Land Uses	
Required Elements	
	Provide a sense of arrival utilizing landscaping, monumentation, decorative paving, etc.
	Provide a distinctive project theme.
	Provide view fencing along arterial and collector streets when internal roadway abuts perimeter property line.
	Buffer the rear property lines for all lots backing onto an arterial street by 10 feet or more (no rear yard setback to be less than 20 feet for single-story and 30 feet for two-story).
	Provide a minimum 30-foot landscape parkway from ROW line to fence in a common area when lots back onto an arterial street and five feet when backed to a local or collector.
	Provide staggers or other visual breaks in perimeter fence walls at points no longer than 250-foot sections.

Table 18.60.060(C) PAD Design Elements

Residential Land Uses		
Additional Design Elements		Value
Yards	Provide irregular shaped retention basins, maximum 4:1 slope.	
	Enhance entry features with elements such as community signage, wall themes, and distinct landscape design.	
	Provide detached sidewalks within local ROWs.	
	Provide wider side yards on at least 50 percent of lots dispersed throughout the subdivision – not less than 20 feet combined width.	1
	Provide deeper rear yard setbacks – 30 feet; two-story.	1
Architecture, Landscaping and Open Space	Group wider side yards on adjoining lot or arrange lots in another fashion to add diversity.	1
	Stagger front yard setback to achieve a range of six feet or more.	1
	Provide a minimum 30-foot total side yard setback width between homes for at least 50 percent of the total lots distributed throughout the subdivision.	2
	Orient building envelope on corner lots to be angled rather than parallel with side property lines.	1
	Provide alternative garage locations (e.g., rear or side entry, off a private lane, etc.) for 10 percent of the houses.	2
	Provide alley loaded garage type standard to a minimum of 25 percent of the subdivision.	3
	Provide alternate driveway surfaces, such as exposed aggregate, tire strips, patterns or textures, etc.	2
	Provide landscape open spaces visible from arterial street and residential street view.	1
	Provide a 38 percent maximum lot coverage on at least 50 percent of the total lots, 42 percent maximum lot coverage on at least 25 percent of lots with the balance of the lots in a subdivision not to exceed 45 percent lot coverage.	1
	Incorporate standard front porches, defined courtyards, or other defined front yard outdoor living spaces of at least 60 percent of the home elevations.	2
Single-story or combination one- and two-story homes on all corner lots.		1
Limit the amount of two-story homes along arterial and collector streets to no more than every third lot.		1
Incorporate varied building height standards.		1

Table 18.60.060(C) PAD Design Elements

Residential Land Uses		
	Incorporate architectural enhancements to community mailboxes for residents such as lighting, shade, bulletin board, etc.	1
	Design and improve retention areas to be usable and ADA accessible.	2
	Add additional amenities interior to the project.	2
Streets, Connectivity and Parking	Provide street patterns that minimize the impact of sequential garages, e.g., culs-de-sac, short block lengths, eyebrows, etc.	2
	Commit to a formal street grid with no greater than 1,600 linear feet in block perimeters.	1
	Provide a high level of connectivity, internal and external, to promote multi-modal efficiency and improve public health by encouraging physical activity by providing exercise stations throughout the PAD connected by a trail system and at least 140 intersections per square mile.	2
	Offer physically separated bicycle facilities on collector street sections.	2
	Include a pedestrian or bicycle through connection in at least 90 percent of any new cul-de-sac.	2
	Provide additional guest parking at the end of block or street.	2
	Add street calming elements as approved by the planning and transportation departments.	1
Community	Provide a variety of mixed residential uses such as apartments, townhomes, detached and attached single-family residential, auto courts, green courts, and other residential types.	3
	Designate mixed housing land use types including multifamily units with attention to affordability.	3
	Construct and convey to the HOA a clubhouse which includes an outdoor recreation area and an indoor area for meetings, exercise, entertainment, etc.	1
	Promote human comfort by providing shaded areas, courtyards, colonnades, and other areas as site amenities.	1
Sustainability	Building orientation that responds to climate and enables passive/active solar strategies and energy efficiency techniques.	1
	Use low-impact storm water design to reduce the size of retention basins.	2
	Provide a permanent and viable growing space or related facility such as greenhouses or raised bed gardens.	1
	Maintain washes in a natural state with native vegetation and topography.	2

Table 18.60.060(C) PAD Design Elements

Residential Land Uses	
	Maintain the site's natural topography and features (only applicable to sites with topography changes greater than five percent across the site). 2
	Any other subdivision feature not listed as approved by the zoning administrator. 1
Nonresidential Land Uses	
Required Elements	
	Provide four-sided architecture especially for portions of building visible from arterial street.
	Incorporate architectural and landscape elements at the pedestrian level.
	Enhanced rear elevations along arterial and collector streets and open spaces.
	Variety of roofing colors, textures, and shapes where available.
	Durable exterior materials and finishes (brick, masonry, stone, stucco facades).
	Provide at least one body color and two accent colors and/or accent materials for each commercial, office or industrial building.
	Provide at least four building materials and finishes (brick, masonry, metal, stone, stucco facades, etc.).
	Break up the main ridgelines on roof slopes.
	Front building entrances accentuated by architectural elements, lighting and/or landscaping. All front doors that open to the outside are well lit and visible from the street, parking area or neighboring units.
Additional Design Elements	
Architecture, Landscaping and Open Spaces	Provide all front doors with one or more of the following usable entry transition elements attached or otherwise integrated: covered porches; arbors; pergola; low-walled, shaded front patio areas and courtyards. 2
	Highlight the character of the development by displaying signage and art displays appropriate to the development theme to act as a focal point. 2
	Prohibit series of roof slopes visible from arterial street, which are parallel with or perpendicular to the street by limiting no more than two adjacent lots having identical rear elevation roof lines. 1
	Incorporate varied building height standards. 1
	Vegetative screening, in addition to walls and fencing, when a residential subdivision is adjacent to a neighborhood commercial development. 1

Table 18.60.060(C) PAD Design Elements

Residential Land Uses	
	Architectural enhancements to transit stops such as lighting, shade, etc.
	Include outdoor furniture, shade structures to enhance pedestrian comfort, low-water use fountains to passively cool immediately adjacent outdoor areas, cool towers in appropriate areas, low water use shade tree bosque, lighting along sidewalks.
Streets, Connectivity and Parking	Along streets, maximize the experience of the pedestrian by providing 50 percent shade along walkways, upgrading the walkway surface with decorative pavement, or using distinctive landscaping that integrates changes in grade, boulders, and accent flowering shrubs and ground covers.
	Minimize parking impact by locating parking on the sides or rear of building and not in front.
	Provide bike racks and lockers to accommodate 15 percent of the anticipated users.
	Shade 20 percent of parking lots with permanent shade structures.
Community	Provide incubator space, ample opportunities and an array of resources or service programs to secure small/local business development; locate in close proximity to residential land uses.
	Commit to providing a publicly accessible meeting place (i.e., shops, cafes, makerspace, co-working, public square) that is within one-half mile walk of three different land uses.
	Leverage unique site assets to yield market advantage for job creation. Show feasibility study within PAD narrative.
	Integrate commercial and light manufacturing in ways to foster local production and market.
Sustainability	Install minimum 72 cell photovoltaic solar panel(s) to community building or parking shade structures over a minimum of 40 percent of parking spaces for PADs with 25 parking spaces or more or over a minimum of 30 percent of parking spaces for PADs with 24 spaces or less.
	Install pervious paving materials to 2 public parking areas to reduce storm water runoff.
	Any other design features – porte-cochere, extended porches or approved “Green” building design element approved by the zoning administrator as meeting the intent of the PAD.

[Res. 22-37; Ord. 22-18 § 2.]

18.60.070 Procedures.

Please refer to Chapter [18.180](#) MCC for PAD District administrative procedures. A PAD District must be adopted by the city council as a rezoning, according to the procedures and criteria of Chapter [18.180](#) MCC, and the provisions of this chapter. An application for a rezoning to the PAD District shall be accompanied by a PAD plan, which will be processed according to the procedures and criteria in Chapter [18.180](#) MCC, and the provisions of this chapter. Additional provisions for Planned Area Development subdivisions are in MCC Title [17](#), Subdivisions. [Res. 22-37; Ord. 22-18 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 20-31; Ord. 20-11 §2(207.07). Formerly 18.60.050.]

18.60.080 Review of plans.

All applications for a PAD District shall be prepared and reviewed in accordance with this title and the applicable provisions of MCC Title [17](#), Subdivisions, the city of Maricopa Parks, Trails and Open Space Master Plan and all other applicable policies of the city. Once a PAD plan has been approved through the zoning procedures established in Chapter [18.180](#) MCC, all future improvements on the property governed by the PAD plan shall follow the standards and approval criteria in Division 5, Chapters [18.135](#) through [18.190](#) MCC, Administration and Permits, unless specifically modified by the approved PAD plan. No project may be approved and no building permit issued unless the project, alteration, or use is consistent with the approved PAD plan. [Res. 22-37; Ord. 22-18 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 20-31; Ord. 20-11 §2(207.08). Formerly 18.60.060.]

Division 3. Overlay Districts

Chapter 18.65

TC TRANSPORTATION CORRIDOR OVERLAY DISTRICT

Sections:

- [**18.65.010 Purpose.**](#)
- [**18.65.020 Boundaries.**](#)
- [**18.65.030 Applicability.**](#)
- [**18.65.040 Prohibited uses.**](#)
- [**18.65.050 Development standards.**](#)
- [**18.65.060 Alternative design.**](#)

18.65.010 Purpose.

The purpose of this chapter is to promote an appropriate mixture and density of activity that enhances the character of the major gateways and transportation corridors in the city. The Transportation Corridor (TC) Overlay District regulates land uses and establishes development standards in order to prevent developments which would conflict with the vision in the general plan for these corridors or interrupt the transit, bicycle, and pedestrian experience. The specific objectives of this district are to:

- A. Promote and develop livable and sustainable neighborhoods;
- B. Allow for a mix of uses to create an environment that engages people at the pedestrian scale;
- C. Achieve a pattern of development that is conducive to walking and bicycling; and
- D. Create fine-grained detail in architectural and urban form that provides interest and complexity at the level of the pedestrian and bicyclist. [Ord. 14-12 § 1; Res. 14-36 § 301.01.]

18.65.020 Boundaries.

The location and boundaries of the TC Overlay District are established as shown on the zoning map. [Ord. 14-12 § 1; Res. 14-36 § 301.02.]

18.65.030 Applicability.

This chapter applies to all land use and development activity within the boundaries of the TC Overlay District except existing properties within the residential manufactured home park districts, open space-parks and recreation districts, and planned area developments approved prior to the date of the adoption of this overlay district. This overlay district boundary is intended to extend over the first 150 feet of applicable parcels fronting SR 347, SR 238, and Maricopa-Casa Grande Highway or as otherwise approved through a zoning map amendment request. Regulations contained in this chapter supplement and modify the provisions in the underlying zoning districts. [Ord. 14-12 § 1; Res. 14-36 § 301.03.]

18.65.040 Prohibited uses.

- A. The following uses are prohibited within the TC Overlay District:
 1. Adult-oriented businesses;
 2. General industrial uses, unless those portions of the property within the TC Overlay District are used for indoor business operations and uses, customer or employee parking, landscaping, and other improvements and uses determined to meet the intent of this code by the planning and zoning commission;

3. Light fleet-based services;
 4. Light industrial uses;
 5. Residential manufactured home parks, except in the RMHP District;
 6. Medical marijuana uses;
 7. Salvage and wrecking;
 8. Storage and warehouse uses; and
 9. Tobacco paraphernalia establishments.
10. Prohibited uses that are located outside the overlay zone yet immediately adjacent to the overlay, as determined by the Zoning Administrator, may require additional screening, landscaping or buffer to de-emphasize such use. [Ord. 14-12 § 1; Ord. 19-04 § 1; Ord. 14-12 § 1; Res. 14-36 § 301.04.]

18.65.050 Development standards.

In the TC Overlay District, the following additional development standards apply:

A. *Setbacks and Build-to Lines.*

1. At least 50 percent of the length of the ground-floor street-facing facade of the building must be at or within 10 feet of the required setback of the base zoning district. When a building fronts onto more than one public street, these standards shall be met for each street.
2. Where the minimum front yard setback is zero feet for the base zoning district and the street front right-of-way line is eight feet or less from the back of curb, buildings must be set back on the ground floor to allow a dedicated 14-foot back-of-curb right-of-way or pedestrian easement to accommodate pedestrian activity on the street front of the building.
3. Features, such as overhangs, porticos, balconies, arcades, and similar architectural features placed on the front (street-facing) side of the building are allowed within the setback, provided they do not exceed the limits on projections into setbacks established in Chapter [18.80](#) MCC.

B. *Building Entrances.*

1. New commercial, government, and mixed use buildings shall provide a primary building entrance that either faces an adjacent street or is placed at an angle of up to 45 degrees from an adjacent street, measured from the street property line.
2. When located at the intersection of two public streets, the building shall provide one of the following:
 - a. Provide two primary entrances, one facing each street;

- b. Orient one primary entrance to both streets by placing the entrance on the street corner; or
 - c. Place one entrance so that it is no more than 20 feet from either street side property line.
3. When a building or development consists of more than 600 linear feet of street frontage, pedestrian access into the site shall be provided by means of an opening in the building frontage, such as a courtyard, breezeway, or other means of access.

C. *Ground Floor Windows.*

1. Ground floor windows shall be provided in at least 50 percent of the building's length and 25 percent of the ground level wall area of all building facades that face a street or plaza. Ground floor requirements shall apply to the area of the facade between three and eight feet above the adjacent finish grade or public sidewalk, whichever is greater.

2. Required window areas must be either windows that allow views into working areas, lobbies, pedestrian entrances, or display windows set into the wall. Display cases attached to the outside of the wall do not qualify. The bottom of the windows must be more than three feet above the adjacent finish grade or public sidewalk. Transparent areas shall allow views into the structure or into display windows from the outside. Only clear or lightly tinted glass with up to 50 percent transparency for windows, doors, and display windows shall be considered transparent. Opaque, etched, frosted, or mirrored glass is not transparent.

D. *Automobile Use Garage Openings.* Openings for automobile uses, such as garage door bays used to access vehicles into and out of a building for repair, must be located on facades that do not face the street.

E. *Parking Location.* Parking shall be provided on the side or behind buildings, except for drop-off and pick-up areas, which may be located at a building entry.

F. *Loading and Service Area Location.* Loading, service, and refuse areas shall be located in the rear half of the lot and screened from view from the front of the lot with walls, trellises, plantings, berms, or by integration into the design of the building.

G. *Landscape and Public Monument Standards.* Applicable landscaping requirements set forth in Chapter [18.90](#) MCC, Landscaping, shall be increased by one and one-half times, and include at least 25 percent of the number of ornamental and overstory trees exceeding minimum size requirements in the front yard.

1. Plant materials within five feet of sidewalks shall not include any plants with thorns, spines, or sharp materials.

2. At gateways, city monument signs shall be installed as approved by the zoning administrator.

H. *Dedication of Necessary Easements.* The zoning administrator may require dedication of necessary easements to accommodate enhanced landscaping and utilities. [Ord. 14-12 § 1; Ord. 19-04 § 2; Ord. 14-12 § 1; Res. 14-36 § 301.05.]

18.65.060 Alternative design.

The zoning administrator may consider alternative design methods to meet the intent of this chapter. [Ord. 14-12 § 1; Ord. 19-04 § 3; Ord. 14-12 § 1; Res. 14-36 § 301.06.]

Chapter 18.70

TOD TRANSIT-ORIENTED DEVELOPMENT OVERLAY DISTRICT

Sections:

- 18.70.010 Purpose.**
- 18.70.020 Land use regulations.**
- 18.70.030 Development standards.**
- 18.70.040 Review of plans.**

18.70.010 Purpose.

- A. *Specific Purposes.* The Transit-Oriented Development (TOD) Overlay Districts are intended to:
 1. Promote an appropriate mixture and density of activity around future light rail and heavy rail transit stations that may be built in the city in order to maximize the potential for transit ridership and promote alternative modes of transportation to the automobile;
 2. Support transit by ensuring convenient access for nearby residents, and by limiting conflicts between vehicles, pedestrians, and transit operations;
 3. Require ground-floor uses that support pedestrian activity;
 4. Establish standards for buildings and sites that provide a quality of urban design that attracts and encourages pedestrian activity; and
 5. Provide a high level of amenities that creates a comfortable environment for pedestrians, bicyclists, and other uses.
- B. *Specific Purposes of Each District.* There are two Transit-Oriented Development Overlay Districts:
 1. *TOD-1.* The TOD-1 District is generally applied to areas within one-eighth of a mile (660 feet) of high-capacity transit station areas and associated intermodal facilities. These primary station areas are expected to have a high density mixed use character.
 2. *TOD-2.* The TOD-2 District is generally applied to areas between one-eighth and one-quarter of a mile (1,320 feet) of high-capacity transit station areas and associated intermodal facilities. These secondary station

areas are expected to have a medium-density residential character along with a mix of commercial and office use. [Ord. 14-12 § 1; Res. 14-36 § 302.01.]

18.70.020 Land use regulations.

A. *Allowed Uses.* Table 18.70.020.A states the land use regulations for the TOD-1 and TOD-2 Districts. The regulations for each district are established by letter designations listed below. These designations apply strictly to the permissibility of land uses; applications for buildings or structures may require development review permit or design review. Use classifications not listed in the table are prohibited.

"P" designates uses permitted as-of-right that require no discretionary review if all applicable standards are met.

"A" designates uses permitted as-of-right subject to limitations on location, size or other characteristics to ensure compatibility with surrounding uses. Limitations are referenced by letter designations and listed at the bottom of the table.

"C" designates uses that may be permitted following review and approval of a use permit.

"X" designates uses that are not permitted.

The "Additional Regulations" column notes additional regulations that apply to particular land uses, including sections of Chapter [18.120](#) MCC, Standards for Specific Uses.

Bus/Rail Passenger Terminals	P	P		Exempt
Utilities, Minor	P	P		No

1 Permitted if located at least 300 feet from any residential district. Requires a conditional use permit if located closer than 300 feet from a residential district.

2 Permitted on upper floors above the ground level.

B. *Required Ground Floor Uses.* Within the TOD Overlay Districts, buildings and parking structures shall be designed and constructed for occupancy of at least 50 percent of the ground-floor building frontage facing any street or transit station with one or more of the uses listed below. Such uses shall occupy a minimum depth of 50 feet. On corner lots, this requirement must be met on each street-facing facade. The following uses shall be on the ground floor:

1. Retail sales, general;
2. Eating and drinking establishments;
3. Personal services;
4. Food and beverage sales, general market or convenience store;
5. Hotels with active ground-floor uses such as restaurants, lounges, and gift shops occupying at least 25 percent of the facade; and
6. Offices, walk-in clientele. [Ord. 14-12 § 1; Res. 14-36 § 302.02.]

18.70.030 Development standards.

This section establishes development standards for the TOD-1 and TOD-2 Overlay Districts. The development standards are stated in Table 18.70.030 and the subsections that follow it, which are referenced in the table with the letters in parentheses. Additional applicable standards, including citywide standards located in other chapters of the zoning code, are referenced in the "Additional Regulations" column.

Table 18.70.030 Development Standards – TOD Districts

Standard	TOD-1	TOD-2	Additional Regulations
Building Form and Location Standards			
Minimum Floor Area Ratio (FAR)	0.6	0.4	Exceptions may be granted with a conditional use permit.
Minimum Number of Stories	3	2	Exceptions may be granted with a conditional use permit.
Maximum Number of Stories	6	5	Greater heights allowed with a conditional use permit.
Building Height Stepback Adjacent to RS District	Building height shall not exceed a 45-degree plane inclined inward from a point located 12 feet above the district boundary line.		
Minimum Building Setbacks (ft.)			
Front	0	0	
Street Side of Corner Lot	0	0	
Interior Side	No setback required. However, if a setback is provided, it shall be at least 5 feet in depth.		15 ft. setback required if adjacent to a residential district.
Rear	15	15	
Maximum Building Setbacks (ft.), front and street side of corner lot			
With outdoor seating area between building and street	16	16	
Without outdoor seating area between building and street	8	8	
Parking Structures	8	8	
Minimum building frontage (percent of lot width)	75;(A)	65;(A)	Exceptions may be granted with a conditional use permit.
Building main entrance orientation	(B)		

Table 18.70.030 Development Standards – TOD Districts

Standard	TOD-1	TOD-2	Additional Regulations
Building transparency requirements. (Applies to facades that face streets and transit stations)	(C) and below.		
Minimum area of windows, percent of ground-floor facade area between 2 and 8 ft. in height	50	50	
Minimum area of windows, percent of facade area, upper floors	15	15	
Minimum transparency for window surface	60	60	
Maximum width of blank walls (ft.)	20	20

Truck docks, loading, and service areas	(P)		
Right-of-way improvements	(Q)		

- A. *Minimum Building Frontage.* Street-facing facades of new buildings and building additions must be located at or within the maximum allowed setback for the minimum proportion of the street frontage stated in Table 18.70.030. The minimum building frontage requirement does not apply to parks and plazas.
- B. *Orientation of Main Building Entrance.* At least one primary entry of each building shall face or be oriented to within 45 degrees of parallel to the street frontage, to any adjacent transit station, or to a public plaza. Such entrance(s) must allow pedestrians to both enter and exit the building and must remain unlocked during business hours.

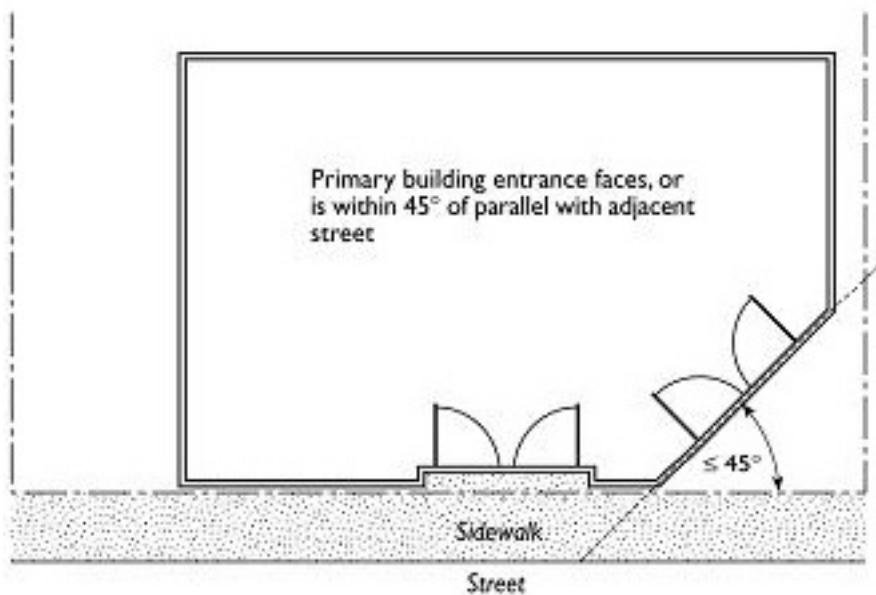

Figure 18.70.030.B. Orientation of Primary Building Entrance

C. *Building Transparency/Required Openings.* Exterior walls facing a front or street side property line shall include windows, doors, or other openings for at least 50 percent of the building wall area located between three and seven feet above the level of the sidewalk. On upper floors, windows shall occupy at least 15 percent of building wall area. No wall may run in a continuous plane for more than 20 feet without an opening. Openings fulfilling this requirement shall have transparent glazing and provide views into work areas, sales areas, lobbies, or similar active spaces, or into window displays that are at least three feet deep. They shall not provide views into parking or vehicle circulation areas.

Windows, doors, or other openings shall occupy at least 50 percent of the building frontage located between 3 and 7 feet above the level of the sidewalk.

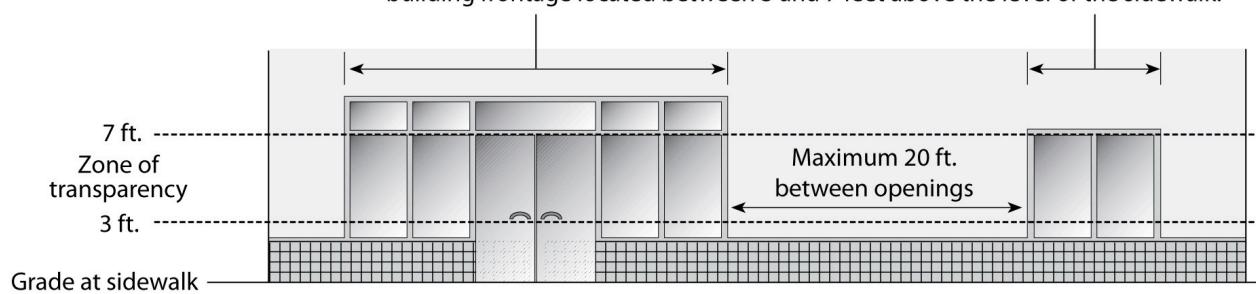

Figure 18.70.030.C. Building Transparency

D. *Architectural Articulation.* The decision-making authority may approve or conditionally approve a development review permit application only if it finds that buildings include adequate design features to create architectural interest and avoid a large-scale, bulky or "box-like" appearance. Large buildings should appear to be divided into smaller modules. Different ways that this finding may be met include, but are not limited to, those listed below.

1. *Variety in Wall Plane.* Exterior building walls vary in depth and/or direction. Building walls exhibit offsets, recesses, or projections with significant depth, or a repeated pattern of offsets, recesses, or projections of smaller depth.
 2. *Variety in Height or Roof Forms.* Building height is varied so that a significant portion of the building has a noticeable change in height; or roof forms are varied over different portions of the building through changes in pitch, plane, and orientation.
 3. *Façade Design Incorporates Architectural Detail.* The building facades incorporate details, such as window trim, window recesses, cornices, belt courses, changes in material, or other design elements, in an integrated composition. Architectural features of the front facade shall be incorporated into the rear and side elevations.
 4. *Balconies, Bay Windows, and Other Such Projections or Recesses.* The building incorporates balconies, bay windows, entry porches or other projections and recesses in a pattern that creates architectural interest across the length of the facade.
- E. *Setbacks for Residential Uses.* In order to provide light and air for residential units, the following minimum setbacks apply to any building wall containing windows to living space and facing an interior side or rear yard, on second or higher stories:
1. For any wall containing windows, a setback of at least five feet shall be provided.
 2. For any wall containing bedroom or kitchen windows, a setback of at least seven and one-half feet shall be provided.
 3. For any wall containing living room or other primary room windows, a setback of at least 10 feet shall be provided.
 4. The required setbacks apply to that portion of the building wall containing and extending three feet on both sides of any window.
- F. *Driveways and Curb Cuts.* On lots less than 100 feet in width, driveways and curb cuts shall be limited to one per frontage; shared drives and cross access between private properties are encouraged. On wider lots, driveways shall be limited to one per 100 feet of frontage. The maximum width of any single driveway shall be 25 feet. On corner lots, curb cuts shall be located on the street frontage with the least pedestrian activity. Exceptions may be granted with a use permit for uses that have greater circulation requirements.
- G. *Improvement of Street-Facing Setbacks.* Where a front or street-facing side setback is provided, it must be landscaped and/or hard-surfaced for use by pedestrians. If hard-surfaced, the setback area on each lot must contain at least two pedestrian amenities, such as benches, drinking fountains, and/or other design elements (public art, planters, and kiosks). Residential buildings are exempt from this requirement.
- H. *Landscaping.* In addition to the landscaping standards in Chapter [18.90](#) MCC, Landscaping, the following standards shall apply:

1. Landscaping within five feet of sidewalks or bike lanes shall not include any plants with thorns, spines, or sharp points; and
 2. Mature trees must be trimmed for an eight feet clear vertical height from the top of walkway surfaces to the bottom of the tree canopy.
- I. *Lighting.* Freestanding light fixtures shall not exceed a height of 16 feet. Exterior lighting shall provide for a secure nighttime pedestrian environment by reinforcing entrances, public sidewalks and open areas with a safe level of illumination that avoids off-site glare.
- J. *On-Site Public Plazas.* Outdoor plazas for the use of customers and visitors shall be provided within any site with a total of 50,000 square feet or more of floor area devoted to general retail sales, food and beverage sales, personal services, or eating and drinking establishments.
1. *Minimum Area.* Public space shall be provided at a rate of five square feet per 1,000 square feet of floor area.
 2. *Location.* Such public space shall be visible from a public street, or from on-site areas normally frequented by customers, and shall be accessible during business hours. Areas within required setbacks may count toward the public space requirement. Areas designated for customers to wait for cabs may be combined with required public space areas if they meet all other requirements of this subsection.
 3. *Amenities.* On-site public plaza space shall include benches or other seating, and the ground surface shall be landscaped or surfaced with high-quality paving materials. Amenities shall be included that enhance the comfort, aesthetics, or usability of the space, including but not limited to trees and other landscaping, shade structures, drinking fountains, water features, public art, or performance areas. The placement of shade-bearing elements and seating shall maximize shading for summer mid-day and afternoon hours.
- K. *Outdoor Storage and Display.* Outdoor storage and display shall be prohibited within 660 feet of a designated transportation center. Outdoor seating for restaurants and pedestrian-oriented accessory uses, such as flower, food, or drink stands, and retail sales from a cart, are exempt from this requirement.
- L. *Parking.* Parking shall be provided according to the requirements of Chapter [18.105](#) MCC, On-Site Parking and Loading, except as modified by this section.
1. *Reductions to Required Parking.* For any land use except single-unit dwelling, the number of parking spaces is automatically reduced by 25 percent of the normally required number of spaces for any site located in the TOD-1 or TOD-2 Districts. Additional reductions to up to 35 percent of the number of required parking spaces may be approved with a conditional use permit if the planning and zoning commission finds that:
 - a. The use will be adequately served by the proposed parking due to the nature of the proposed operation; proximity to frequent transit service; transportation characteristics of persons residing, working or visiting the site; or because the applicant has undertaken a transportation demand management program that will reduce parking demand at the site; and

- b. Parking demand generated by the project will not exceed the capacity of or have a detrimental impact on the supply of on-street parking in the surrounding area.
2. *Exemption for General Commercial Uses.* For the following commercial uses, parking need only be provided for floor area exceeding 1,500 feet per establishment: retail sales; personal services; eating and drinking establishments; and offices, walk-in clientele. However, when four or more establishments are located on a single lot, their floor area shall be aggregated with all other establishments located on the lot in order to determine required parking.
3. *Substitution of on-Street Spaces.* On-street parking spaces adjacent to the frontage of properties in the TOD Districts may be counted toward required off-street parking for nonresidential uses. One on-street parking space may be substituted for each required off-street space.
4. *Parking, Maximum Limit.* The number of parking spaces for nonresidential uses shall not exceed 125 percent of the required parking spaces as prescribed by Chapter [18.105](#) MCC, On-Site Parking and Loading.
5. *Location of Parking.* Off-street parking shall be located underground, within a parking structure, or in surface lots at the side or rear of buildings, or between two or more buildings on a lot. No parking space shall be located between a building and an adjacent street. On corner lots, the requirements of this subsection apply to the frontage on the street with the highest functional classification. On all other frontages, parking spaces shall be set back a minimum of 25 feet from the adjacent right-of-way and screened according to the standard of subsection [\(L\)\(6\)](#) of this section.
6. *Screening.* All surface parking spaces visible from a public right-of-way shall be screened with a wall at least three feet and not to exceed three and one-half feet in height.

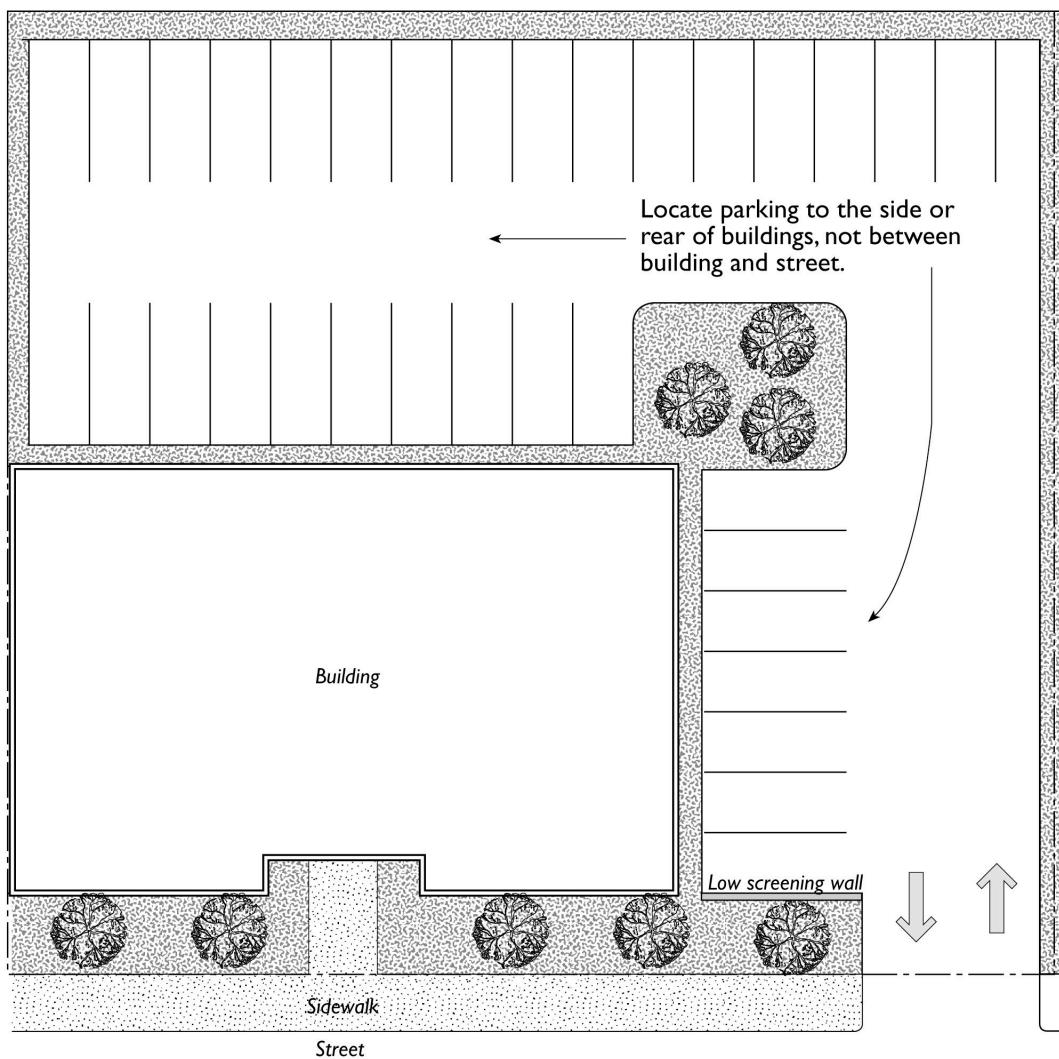

Figure 18.70.030.L. Limitations on Location of Parking

7. *Standards for Structured Parking.* The exterior elevations of any multi-level parking structure must be designed so as to screen or conceal parked cars from view from public streets and open space on the first and second floors of the structure. The parking areas of structured parking garages must be screened or concealed by one or more of the following methods:

- a. *Ground-Floor Commercial.* The ground-level street frontage of a parking garage shall be improved to provide leasable space for general retail sales, food and beverage sales, eating and drinking establishments, personal services, or other permitted uses.
- b. *Landscaping.* Landscaping shall be provided in the form of perimeter planters within openings, and/or the incorporation of hanging baskets, flower boxes or planting trellises.

c. *Setback.* A parking structure that does not incorporate ground-floor retail or other commercial use or is not otherwise screened or concealed at street frontages on the first and second levels must provide a densely planted landscaped yard that is a minimum of 10 feet in depth, or the required setback for the district in which it is located, whichever is greater.

M. *Parking for Bicycles.*

1. *Short-Term Bicycle Parking.* Short-term bicycle parking facilities shall be provided in order to serve shoppers, customers, messengers, guests, and other visitors to a site who generally stay for a short time.

a. *Number of Spaces Required.* Short-term bicycle parking spaces shall be provided at a rate of 10 percent of the number of normally required automobile parking spaces (as stated in Chapter [18.105](#) MCC, On-Site Parking and Loading) for all commercial and public and semi-public use classifications, with a minimum of two parking spaces provided per establishment.

b. *Location.* Short-term bicycle parking must be located within 50 feet of a main entrance to the building it serves. Bicycle parking shall be visible from the street or from the main building entrance, or a sign must be posted at the main building entrance indicating the location of the parking.

c. *Anchoring and Lockability.* For each bicycle parking space required, a stationary, securely anchored object shall be provided to which a bicycle frame and one wheel can be secured with a high-security U-shaped shackle lock if both wheels are left on the bicycle. One such object may serve multiple bicycle parking spaces.

d. *Size and Accessibility.* Each bicycle parking space shall be a minimum of two feet in width and six feet in length and shall be accessible without moving another bicycle.

2. *Long-Term Bicycle Parking.* Long-term bicycle parking shall be provided, according to the provisions of this section, in order to serve employees, students, residents, commuters, and others who generally stay at a site for four hours or longer:

a. *Number of Spaces Required.* A minimum of one bicycle parking space shall be provided for every four units for multi-unit residential and live/work uses. For commercial and public and semi-public uses, any establishment with 25 or more employees shall provide long-term bicycle parking at a ratio of one space per 25 employees.

b. *Location.* Long-term bicycle parking must be located on the same lot as the use it serves.

c. *Covered Spaces.* At least 50 percent of required long-term bicycle parking must be covered. Covered parking can be provided inside buildings, under roof overhangs or awnings, in bicycle lockers, or within or under other structures.

d. *Security.* Long-term bicycle parking must be in at least one of the following facilities:

i. An enclosed bicycle locker;

- ii. A fenced, covered, locked or guarded bicycle storage area; or
 - iii. A rack inside a building that is within view of an attendant or security guard or visible from employee work areas.
- e. *Size and Accessibility.* Each bicycle parking space shall be a minimum of two feet in width and six feet in length and shall be accessible without moving another bicycle.

N. *Pedestrian Access and Circulation.* On-site pedestrian circulation and access must be provided according to the following standards:

1. *Connection to Public Sidewalks.* An on-site walkway shall connect a primary entry of each building to any adjacent transit station, public sidewalk, or public plaza. Such walkway shall be the shortest practical distance between the main building entry and sidewalk, generally no more than 125 percent of the straight-line distance. Such walkways shall be at least four feet wide and hard-surfaced.
2. *Internal Connections.* A system of hard-surfaced pedestrian walkways at least four feet wide shall connect all buildings on a site to each other, to on-site automobile and bicycle parking areas.
3. *Materials.* Where a required walkway crosses driveways, parking aisles, or loading areas, it must be clearly identifiable through the use of elevation changes at least four inches high, a different paving material, or similar method.
4. *Separation.* Where a required walkway is parallel and adjacent to an auto travel lane, it must be raised or separated from the auto travel lane by a raised curb at least six inches high, bollards, or other physical barrier.

O. *Shading of Sidewalks.* Development directly abutting a sidewalk or pedestrian way shall provide structured shading. Shading shall be provided for the entire length of the building. A minimum of 50 percent of the length of the building should be shaded with methods such as awnings and arcades. (Canopies, awnings, porticoes, pedestrian arcades and similar shade-bearing features that are used to meet this standard may be allowed to encroach in the public right-of-way, subject to an encroachment permit.) The remaining sidewalk shall be shaded with structures or other methods including landscaping. Shading shall be positioned to shade the sidewalk from April 15th through September 30th. Where landscaping is used, trees shall be a minimum two-inch caliper at time of planting.

P. *Truck Docks, Loading, and Service Areas.* Truck docks, loading, and service areas shall be located at the side of buildings or in the rear of the site and screened so as not to be visible from public streets. Where a building abuts a residential district, the preferred location of these facilities shall be the side away from the residential district boundary.

Q. *Right-of-Way Improvements.*

1. *Sidewalks.* Sidewalks within the TOD Overlay Districts shall have a minimum eight-foot width clear from any obstructions, including light poles, parking meters, street furniture, landscaping, and fences.

2. *Other Pedestrian Amenities.* The approval authority may require other pedestrian-oriented design elements, such as street furniture or drinking fountains, mini-plazas, bus shelters, noncommercial community bulletin boards, public or private art, and alternative paving materials in areas of pedestrian access. [Ord. 14-12 § 1; Res. 14-36 § 302.03.]

18.70.040 Review of plans.

Permit and review procedures shall follow the standards and approval criteria in Division 5, Administration and Permits. [Ord. 14-12 § 1; Res. 14-36 § 302.04.]

Chapter 18.75

MIXED USE-HERITAGE OVERLAY DISTRICT

Sections:

- 18.75.010 Purpose.**
- 18.75.020 Land use regulations.**
- 18.75.030 Development standards.**
- 18.75.040 Review of plans.**
- 18.75.050 Alternative design.**

18.75.010 Purpose.

- A. The purpose of the Mixed Use-Heritage Overlay District is to:
 1. Promote pedestrian-oriented infill development, intensification, and reuse of land consistent with the general plan and the Heritage District Redevelopment Area Plan;
 2. Implement the Heritage District Design Guidelines to develop a strong identity as a mixed use urban core for the city which reflects the rich culture and historical character of Maricopa;
 3. Encourage diverse and attractive redevelopment to support a mix of residential, pedestrian, and neighborhood-serving uses in order to achieve an active social environment within a revitalized streetscape while also respecting the existing character;
 4. Encourage investment in adequate public facilities through quality redevelopment and improvements;
 5. Offer additional housing opportunities for residents seeking to live and work in an urban environment; and

6. Ensure that new development and redevelopment are designed to minimize traffic, parking and impacts on surrounding residential neighborhoods, and create walkable environments.
- B. More specifically, this overlay district is intended to allow for the transformation of the Heritage District into a vibrant, pedestrian-oriented, mixed use neighborhood, consistent with the Redevelopment Area Plan, the Heritage District Design Guidelines, and mixed use development standards. The adaptive reuse of existing buildings for residential and commercial uses is supported with a focus on active home based businesses, storefronts and, where viable, upper-floor residences and pedestrian- and transit-oriented development that encourages pedestrian activity and connectivity to adjacent areas. New construction will be designed to be compatible with the Heritage District Design Guidelines in terms of size, scale, materials, and details, and a broad range of residential and commercial uses is allowed. Standards will create high-quality building design, ensure compatibility in land use and building form, and support mixed commercial and residential uses. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 303.01; Ord. 14-12 § 1.]

18.75.020 Land use regulations.

Table 18.75.020 below prescribes the land use regulations for the MU-H Overlay District. The regulations are established by letter designations as follows:

"P" designates permitted uses.

"C" designates use classifications that are permitted after review and approval of a conditional use permit by the planning and zoning commission.

"(#)" numbers in parentheses refer to specific limitations listed at the end of the table.

"X" designates uses that are not permitted.

Accessory Uses		Subject to the same permitting requirements of the principal use unless additional review is established in MCC 18.120.010 , Accessory uses. Home-based businesses also are subject to the additional requirements of subsection (C) of this section.
Temporary Uses		Requires a temporary use permit, unless exempt; see MCC 18.120.260 , Temporary uses
Nonconforming Uses		Chapter 18.100 MCC, Nonconforming Uses and Structures

1 Preexisting lots only.

2 Nonresidential uses on ground floors only unless approved by the decision-making body.

3 Small scale, less than 1,000 square feet.

4 Less than 40,000 square feet.A. *Outdoor Retail Sales and Merchandise Display.*

1. *Location.* Outdoor retail sales and merchandise displays shall not obstruct ingress and egress to a building, obstruct fire lanes, interfere with vehicular circulation or sight distance, or be located in landscaped areas. Outdoor retail sales and merchandise display areas shall be adjacent to the structure containing the business selling the merchandise.
2. *Maximum Area.* Outdoor retail sales and merchandise displays shall not exceed five percent of the total gross floor area of the business, or 200 square feet, whichever is less.
3. *Height.* Display merchandise shall not exceed a height of six feet above finished grade.

B. *Temporary Use of Parking Area.* The temporary use of a parking area for sales and display is permitted, subject to MCC [18.120.260](#).

C. *Home-Based Business.* Home-based businesses may be permitted administratively within the MU-H Overlay District. Home-based businesses are not home occupations and may consist of on-site employees and a limited number of visits from clients, patrons, and deliveries related to the business. The business operation is not limited to a certain amount of floor or lot area unless conditionally approved with such limitations. The zoning administrator may approve or conditionally approve a home-based business, subject to providing minimum necessary site improvements. These improvements may consist of screen walls for approved outdoor storage areas, frontage and screen buffer landscaping and irrigation, dust-proof surfacing for driveways, walkways and other exterior areas, and on-site parking and maneuvering improvements necessary to accommodate and serve the proposed home-based business.

1. All home-based business uses are subject to the land use regulations in Table 18.45.020.
2. The owner or operator of the home-based business is not required to be a full-time resident of the home.
3. The zoning administrator shall consider the nature of the proposed use, the number of proposed on-site employees, and the proposed hours of operation to determine necessary conditions of approval. The zoning administrator may require neighbor notification when outdoor business activities are proposed or if it is determined the proposed use has the potential to disrupt the existing character of the surrounding properties.
4. Home-based businesses are permitted to have one professionally made ground-mounted sign not to exceed three and one-half feet in height and 12 square feet in area. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 303.02; Ord. 14-12 § 1.]

18.75.030 Development standards.

Table 18.75.030, below, prescribes development regulations for the MU-H Overlay District. The first three columns establish minimum requirements for permitted and conditional uses. Letters in parentheses in the "Additional Standards" column refer to regulations following the schedule. The letter "Y" in the district column means that the additional standard applies. The numbers in each illustration below refer to corresponding regulations in the "#" column in the associated table. Regulations applicable to multiple districts are in Division 4 of this code.

A. *Increased FAR for Mixed Use Buildings.* The maximum allowable FAR may be increased by up to 25 percent for buildings that contain a mix of residential and nonresidential uses through the provision of one or more of the following elements beyond what is otherwise required, subject to conditional use permit approval:

1. Car-share or electric car facilities;
2. Additional public gathering space or contribution to a city parks fund supporting new or improved public parks within walking distance;
3. *Provision of Off-Site Improvements.* This may include off-site amenities and/or infrastructure (other than standard requirements and improvements) such as pedestrian or right-of-way improvements, public safety facilities, libraries, senior centers, community meeting rooms, or child care; and
4. Provision of green roofs, solar panels, and other green building measures.

B. *Required Side and Rear Yards for Residential Uses.* In order to provide light and air for residential units and additional separation for rooms that contain areas that require additional privacy considerations, the following minimum setbacks apply to any new building wall containing windows and facing an interior side or rear yard. When the site is adjacent to a residential use, the project must comply with whichever standard results in the

greater setback. The required setbacks apply to that portion of the building wall containing and extending three feet on either side of any window.

1. For any wall containing living room or other primary room windows, a setback of at least 15 feet shall be provided.
 2. For any wall containing sleeping room windows, a setback of at least 10 feet shall be provided.
 3. For all other walls containing windows, a setback of at least five feet shall be provided.
- C. *Reduced Street Side Setback.* Along local streets only, the street side setback may be reduced to five feet from the lot line if the setback area is completely landscaped.
- D. *Maximum Building Setbacks.* The street-facing facades of buildings must be located no farther from street-facing property lines than the maximum setback distance specified in Table 18.75.030. The following additional provisions apply:

1. *Corner Properties.* Where a property fronts on two or more streets, the maximum setback shall be met according to the following provisions:
 - a. *Frontage on Two Primary Streets.* New buildings on sites with frontage on two streets may be constructed to the maximum setback line on both frontages.
 - b. *Frontage on Three or More Streets.* Properties with frontage on three or more streets must build to the maximum setback lines of at least two of the streets.
2. *Sites with More than One Building.* Where there is more than one building on a site, the maximum setback standard must be met for at least 50 percent of the combined ground-level, street-facing facades of all buildings.
3. *Building Additions.* For any addition to a building that increases the width of a street-facing facade, 100 percent of the addition must be located on or within the maximum setback until the maximum setback standard for the entire building is met, or as otherwise recommended by the zoning administrator to meet the intent of this code.
4. *Exceptions to Building Placement Requirements.* The following exceptions to the build-to requirement are permitted:
 - a. *Articulated Building Street Face.* Where a portion of the building is set back from the maximum setback to provide an entry or other feature creating variation in the facade, the total area of the space created by the setback must be less than the area of one square foot per linear foot of building frontage.
 - b. *Outdoor Eating Areas.* Where an outdoor eating area will be installed on the street frontage, a portion of the building may be set back up to 12 feet farther than the maximum setback line, if at least 40 percent of the building facade is at the setback line.

c. *Residential Uses.* For buildings or portions of buildings that are in residential use, open porches located at or within the maximum setback shall count toward meeting the requirement if such porches are at least 10 feet wide and six feet deep.

E. *Location of Parking.* On-site parking areas shall be set back a minimum of 25 feet from streets. Exceptions may be granted for short-term customer parking and drop-off spaces and for preexisting uses.

F. *Building Design and Signage.* In the MU-H Overlay District, the Heritage District Design Guidelines apply. In addition, the exterior design of all buildings, including all facades and all signage, shall be coordinated with regard to color, materials, architectural form, and detailing to achieve design harmony, continuity, and horizontal and vertical relief and interest.

G. *Outdoor Living Areas.* As part of the open space required by MCC Title [17](#), Subdivisions, private or common areas for outdoor living shall be provided for upper-level residential units. Outdoor living areas include balconies, decks, common open space, and rooftop open space.

1. *Minimum Dimensions.*

a. *Private Open Space.* Private open space located above ground level (e.g., balconies) shall have no horizontal dimension less than six feet.

b. *Common Open Space and Rooftop Open Space.* Common open spaces and rooftop open spaces with a minimum horizontal dimension of 20 feet shall count towards the open space calculation.

2. *Minimum Area Required – Private Open Space.*

a. One hundred square feet per unit.

b. The amount of outdoor living area provided for individual units may vary based on unit size and location within a project, as long as the average area per unit meets the applicable standard, or as acceptable by the zoning administrator to meet the intent of this title.

H. *Outdoor Storage.* Outdoor storage areas for nonresidential uses shall be only for retail and live/work uses and shall comply with the following requirements:

1. *Area.* Five percent of the gross floor area of the use or 200 square feet, whichever is less.

2. *Hours.* Outdoor storage during business hours only.

I. *Sewer Service and Adequate Public Facility Participation Agreements.* Sites within the MU-H Overlay District shall be permitted to develop or redevelop only after the owner agrees in writing to participate in paying its proportionate share of public facility improvement costs, including sanitary sewer services, in a manner acceptable to the city engineer.

1. The city engineer may require financial guarantees in the form of bonds or letters of credit or allow payment of fees in lieu to participate in paying the proportional cost of adequate public facilities to serve the site proposed for development.

2. The city engineer may approve interim solutions, such as on-site wastewater treatment facilities, in lieu of providing sanitary sewer service, should Pinal County public health department permit such interim solution.

3. All requests for improvements to existing residential properties within the MU-H Overlay District that do not include a commitment or assurance to participate in a proportionate share of the public facility improvements shall conform to the base zoning district development standards for setbacks, lot coverage and other requirements.

a. The hearing officer may approve a waiver to encroach into the required setback area or exceed the lot coverage established for the base zoning district for additions and improvements which: (i) conform to the Heritage District Design Guidelines; (ii) comply with current Pinal County health requirements for improving existing septic systems to accommodate the proposed improvements; (iii) meet outdoor screening and storage requirements of this code; and (iv) comply with the minimum development standards of the most comparable residential zone of this code based on existing lot size and dimensions. The GR District development standards shall be applied for all existing lots or parcels greater than 35,000 square feet.

J. *Transitional Standards.* Where this overlay district adjoins an interior lot line in a RS District, the following standards apply:

1. The maximum height within 30 feet of an RS District is 30 feet. From this point, the building height may be increased one foot for each additional foot of upper story building setback to the maximum building height.

2. The building setback from an RS District boundary shall be 25 feet for interior side and rear yards.

K. *Transparency on Ground Floor Frontages for Nonresidential Uses.* Windows, doors, or other openings shall be provided for at least 50 percent of the building wall area located between three and seven feet above the elevation of the sidewalk. No wall may run in a continuous plane for more than 20 feet without an opening. Openings fulfilling this requirement shall have transparent glazing and provide views into work areas, display areas, sales areas, lobbies, or similar active spaces, or into window displays that are at least three feet deep.

1. *Exception for Structured Parking Facilities.* Multi-level parking garages, where permitted, are not required to meet the ground-floor transparency requirement.

2. *Sites with Multiple Buildings.* On sites that contain multiple buildings, the building ground-floor transparency requirement does not need to be met along street-facing facades of buildings that are located behind other buildings and not visible from the adjacent public street.

3. *Reduction through Development Plan Review.* The transparency requirement may be reduced or waived by the zoning administrator upon finding that:

- a. The proposed use has unique operational characteristics with which providing the required windows and openings is incompatible, such as in the case of a cinema or theater or communications facility; and
 - b. Street-facing building walls will exhibit architectural relief and detail, or will be enhanced with landscaping in such a way as to create visual interest at the pedestrian level.
- L. *Truck Docks, Loading, and Service Areas.* Truck docks, loading, and service areas are not permitted within 25 feet of the boundary of any residential district. In addition, such loading and service areas must be located on the side or rear of buildings, and may not face a public street or a private street functioning as a public road.
- M. *Pedestrian Access.* A system of pedestrian walkways shall connect all buildings on a site to each other, to on-site automobile and bicycle parking areas, to sidewalks, and to any on-site open space areas or pedestrian amenities. Direct and convenient access shall be provided to adjoining residential and commercial areas to the maximum extent feasible while still providing for safety and security.
1. Walkways shall be a minimum of six feet wide, hard-surfaced, and paved with concrete, stone, tile, brick, or comparable material.
 2. Where a required walkway crosses driveways, parking areas, or loading areas, it must be clearly identifiable through the use of a raised crosswalk, a different paving material, or similar method.
 3. Where a required walkway is parallel and adjacent to an auto travel lane, it must be raised or separated from the auto travel lane by a raised curb, bollards, or other physical barrier. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 303.03; Ord. 14-12 § 1.]

18.75.040 Review of plans.

Permit and review procedures shall follow the standards and approval criteria in Division 5, Administration and Permits. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 303.04; Ord. 14-12 § 1.]

18.75.050 Alternative design.

The zoning administrator shall evaluate, and possibly accept or recommend to the decision-making body, alternative design requirements to meet the intent and the spirit of the code. [Res. 21-09; Ord. 21-05 § 2.]

Chapter 18.76

MARICOPA STATION OVERLAY

Sections:

- 18.76.005 Purpose.**
- 18.76.010 Boundaries.**
- 18.76.020 Applicability.**
- 18.76.030 Authority.**
- 18.76.040 Design standards intent.**

- 18.76.060 Land use regulations.**
- 18.76.070 Allocation and structure of transect-based zoning subdistricts.**
- 18.76.080 Allocation and structure of blocks and lots.**
- 18.76.090 Private realm – General design standards to T4 and T5.**
- 18.76.100 T4 and T5 zones development standards.**
- 18.76.110 Signage.**
- 18.76.120 Public realm: CD – Civic district design standards.**
- 18.76.130 Review of plans.**

18.76.005 Purpose.

The purpose of the Maricopa Station Overlay is to:

- A. To implement the goals, policies, and principles of the general plan and the Heritage District Redevelopment Area Plan;
- B. To enable and encourage new development in the Maricopa Station Overlay area within the Heritage District;
- C. To support a blend of higher density residential, higher intensity employment/office, civic entertainment, and institutional uses, as well as retail uses that are pedestrian friendly;
- D. Encourage investment in adequate public facilities through quality redevelopment and improvements;
- E. Offer additional housing opportunities for residents seeking to live and work in an urban environment; and,
- F. Ensure new development and redevelopment are designed to minimize traffic, parking and impacts on surrounding residential neighborhoods, and create walkable environments. [Ord. 20-15 § 1; Res. 20-37.]

18.76.010 Boundaries.

The Maricopa Station Overlay (the “District”) is located within the Heritage District, and is bound to the west by North John Wayne Parkway (SR-347), to the north by Honeycutt Road, to the south by Mercado Street, and to the east by the western boundary of “Senita,” a master planned community as referenced in the official zoning map of the city of Maricopa. [Ord. 20-15 § 1; Res. 20-37.]

18.76.020 Applicability.

The district shall be subject to the requirements of this chapter in the areas established by the zoning map. The Maricopa Station design guidelines public thoroughfares, civic spaces, architectural design, landscape design, lighting, and signage shall be applicable to any development or redevelopment within any portion of the district. [Ord. 20-15 § 1; Res. 20-37.]

18.76.030 Authority.

The authority of this chapter is as follows:

- A. The design standards set forth in this chapter shall be applicable to any development or redevelopment using any portion of the district;
- B. The district's transect-based zoning subdistricts areas, CD, T4, and T5 (Table 18.76.050), shall serve as the zoning districts for all lots designated as such within the district according to the zoning map and Maricopa Station Design Guidelines;
- C. Chapter [18.15](#) MCC, Rules for Construction of Language and Interpretation applies;
- D. Maricopa Station Design Guidelines. [Ord. 20-15 § 1; Res. 20-37.]

18.76.040 Design standards intent.

The intent of the transect-based zoning subdistrict's design standards are the following:

- A. To develop and redevelop compact, mixed use, and walkable places and buildings;
- B. To provide convenient access to rail and bus stations to facilitate the location of higher density development in support of transit services;
- C. To reinforce the image of a pedestrian-oriented historic town center, and;
- D. To provide open spaces and public buildings that serve as necessary public amenities for citizens, residents, and visitors. [Ord. 20-15 § 1; Res. 20-37.]

18.76.050 Transect-based zoning subdistricts.

The intent of the Maricopa Station Overlay Map is to designate the form of the district block-by-block using transect-based zoning subdistricts. Establishing transect-based zoning subdistricts further define distinctive

physical environments of varying degrees of urbanity, development intensity, and mix of uses in the following manner:

- A. The T and C designation represents each district's relative place on a continuum of low intensity to high intensity known as the rural-to-urban transect, with the character and associated regulations of T5 being more urban than those of T4, and CD being more public than those of T4 and T5 private development;
- B. The T and C Zones set forth in this chapter shall serve as the zoning districts for all lots designated within the district according to the adopted Maricopa Station Overlay Map;
- C. The following transect-based zoning subdistricts are established by this chapter and illustrated on Table 18.76.050:

Table 18.76.050 Transect-Based Zoning Subdistricts

Zoning District	District Description
CD – Civic	Public Open Space: Organized as greens, squares, and plazas.
T4 – General	General Urban: A multifunctional social hub of a neighborhood that is mixed in function, but principally residential. It is the general transition area from the center to the edge of the district.
T5 – Center	Urban Center: The densest mix of uses including business, service, institutional, and residential center. It is usually at a central location, within walking distance of transit and the surrounding residential areas.
Bulk and Scale Illustration	

D. Transect districts organize the individual characteristics of infrastructure, landscape and buildings into distinct physical environments, with the overall character of each differing from one another.

E. Mixed uses within transect districts and individual buildings provides access to daily needs within close proximity to dwellings allowing residents to choose to work, play, and shop within walking distance to their home.
[Ord. 20-15 § 1; Res. 20-37.]

18.76.060 Land use regulations.

The land use regulations in Table 18.76.060(A) and building intensity guidelines in Table 18.76.060(B) for the district zoning districts as established by the following letter designations:

"X" designates uses that are not permitted.

"P" designates permitted uses.

"C" designates uses that are permitted after review and approval of a conditional use permit.

Table 18.76.060(A) Land Use Regulations

District	T4	T5	CD
Residential			
Single Unit	P	P	X
Multi-Unit	P	P	X

Police Station	P	P	P

Table 18.76.060(B) Building Intensity

District	T4	T5
Uses		
Residential	The number of dwellings on each lot can range from 500 to 2,000 square feet with the average size of 1,000 square feet per each unit.	The number of dwellings on each lot can range from 500 to 2,000 square feet with the average size of 1,000 square feet per each unit.
Commercial Services	The building area available for service uses is limited to the first story of buildings at corner lot locations.	The building area available for service uses is unlimited for the principal building and limited to the first story in accessory buildings.
Lodging	Limited food service may be provided. The maximum length of stay may not exceed 30 days.	Food service may be provided at all times. The maximum length of stay may not exceed 30 days.
Office	The building area available for office use on each lot is limited to the first story of the principal building and/or to the accessory building.	The building area available for office use on each lot is unlimited for the principal building and limited to the first story in accessory buildings,

A. *Outdoor Retail Sales and Merchandise Display.*

1. *Location.* Outdoor retail sales and merchandise displays shall not obstruct ingress and egress to a building, obstruct fire lanes, interfere with vehicular circulation or sight distance, or be located in landscaped areas. Outdoor display areas for retail and merchandise sales shall be located within proximity to the primary business.
2. *Maximum Area.* Outdoor retail sales and merchandise displays shall not exceed five percent of the total gross floor area of the business, or 200 square feet, whichever is less.
3. *Height.* Display merchandise shall not exceed a height of six feet above finished grade.

B. *Temporary Use of Parking Area.* The temporary use of a parking area for sales and display is permitted, subject to MCC [18.150.080](#).

C. *Home-Based Business.* Home-based businesses may be permitted administratively within the T4 and T5 subdistricts. Home-based businesses are not home occupations and may consist of on-site employees and a limited number of visits from clients, patrons, and deliveries related to the business. The business operation is not limited to a certain amount of floor or lot area unless conditionally approved with such limitations. The zoning

administrator (ZA) may approve or conditionally approve a home-based business, subject to providing minimum necessary site improvements necessary to accommodate and serve the proposed home-based business.

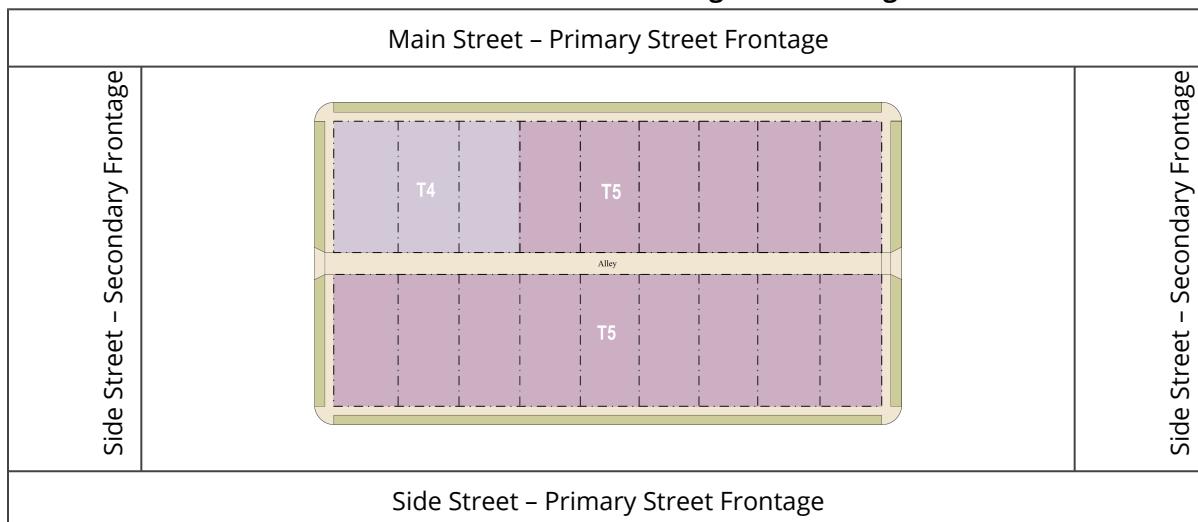

1. All home-based business uses are subject to land uses in Table 18.76.060(A).
2. The owner or operator of the home-based business is not required to be a resident of the home.
3. The zoning administrator shall consider the nature of the proposed use, the number of proposed on-site employees, and the proposed hours of operation to determine necessary conditions of approval and may require neighbor notification when outdoor business activities are proposed or if it is determined the proposed use has the potential to disrupt the existing character of the surrounding properties.
4. Home-based businesses are permitted to have one professionally made ground mounted sign not to exceed three and one-half feet in height and 12 square feet in area and is in conformance with Chapter [18.115 MCC, Signage](#). No back or box lit signage is allowed. [Ord. 20-15 § 1; Res. 20-37.]

18.76.070 Allocation and structure of transect-based zoning subdistricts.

This district is assigned areas allocated to the establishment of zoning subdistricts:

- A. CD – Civic: Public spaces and buildings; T4 – General: Private development spaces and buildings; and T5 – Center: Private development spaces and buildings;
- B. Lots fronting the same side of a block shall be assigned to a single CD or T4 or T5 zoning district according to the adopted Maricopa Station Overlay Map. Transitions from one zoning district to another on the same block, if present, shall occur at the rear lot line internal to any block;
- C. Zones may transition between adjacent lot lines by exception to accommodate for specific site conditions (see Table 18.76.070).

Table 18.76.070 Transect-Based Zoning District Designations

[Ord. 20-15 § 1; Res. 20-37.]

18.76.080 Allocation and structure of blocks and lots.

Within each zoning district, lots shall be (re)platted to have the following minimum and maximum lot widths, as measured at the frontage line (see Table 18.76.080(A)):

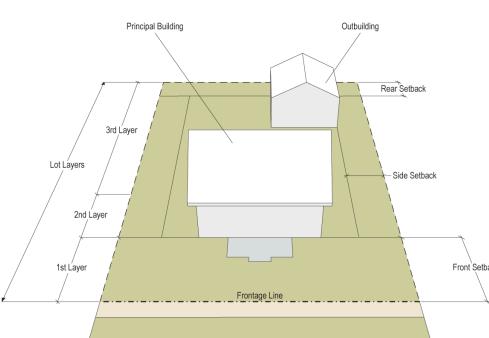

- A. Within T4, 150 feet maximum lot width;
 - B. Within T5, 200 feet maximum lot width;
 - C. Each lot shall have a primary frontage abutting a vehicular thoroughfare, except for the lots that designate their primary frontage along a publicly accessible passage, such as a pedestrian court or walkway;
 - D. Each lot is divided into regulatory layers, 1 through 3, to control development as illustrated on Table 18.76.090(A). Design standards for the first layer pertain to both primary and secondary frontages;
 - E. Each block face may have multiple frontages as illustrated on Table 18.76.090(B). One frontage line is designated the primary frontage line and all remaining frontage lines are designated as secondary frontage lines;
 - F. Rear access may be provided for all lots within the district through the provision of a rear alley and/or lane.
- [Ord. 20-15 § 1; Res. 20-37.]

18.76.090 Private realm – General design standards to T4 and T5.

Development located in the T4 and T5 zones may be subject to the following requirements:

- A. Lots and buildings may be regulated according to private frontage, building type, building placement, building height, and parking placement (see Tables 18.76.090(A) and (B) and Maricopa Station Design Guidelines for landscaping and other design features);
- B. *Building Placement.* Principal buildings may be positioned on a lot in accordance with Table 18.76.090(A) Lot Structure, Table 18.76.090(B) Private Frontage, and Table 18.76.090(C) Building Types. Tables are for illustrative purposes only;
- C. *Lot Occupation.* Two buildings may be built on each lot, one principal building and one accessory building;
- D. *Setbacks.* Principal and accessory buildings shall be set back in relation to the boundaries on their lots. Rear setbacks for accessory buildings shall be minimum of 15 feet measured from the centerline of the rear alley easement. In the absence of a rear alley, the rear setback shall be three feet minimum;
- E. *Building Height.* Building heights may be measured in number of stories.

1. Height limits do not apply to attics or raised basements, masts, belfries, clock towers, chimney flutes, water tanks, or elevator bulkheads.
 2. Floor to finished ceiling height, except for ground or first floor commercial use, may be a minimum of 12 feet with a maximum of 25 feet and meet the city's building code height requirements for habitable space.
- F. *Private Frontage.* The facade of the principal building shall be built parallel to the principal frontage line or to the tangent of a curved principal frontage line of a lot, and along a minimum percentage of the frontage width at the setback (see Table 18.76.090(B), a through f).
1. Permitted encroachments into the setbacks of any lot may range from 80 percent to 100 percent.
 2. Buildings with first floor commercial use may be glazed with clear glass no less than 70 percent of the first story.
 3. Openings above the first story may not exceed 50 percent of the total building front wall, with each facade being calculated independently.
 4. All openings, including porches, galleries, arcades, and windows, with the exception of shopfronts, may be oriented in a square or vertical proportion.

Table 18.76.090(A) Private Realm Lot Structure

The diagram illustrates a building footprint on a lot. The building is divided into three horizontal layers: 1st Layer, 2nd Layer, and 3rd Layer. The lot is also divided into three vertical setbacks: Rear Setback, Side Setback, and Front Setback. The frontage line is indicated at the bottom. The building footprint is partially enclosed by the lot boundaries, demonstrating permitted encroachments.

Buildings	
Principal Building	The main building on a lot, and its configuration is based on its frontage type.
Accessory Building	A secondary building usually located toward the rear of the same lot as the principal building, such as a garage, carport, or workshop, and may include an accessory dwelling unit.
Setbacks	
Primary Front Setback	The area of a lot measured from the primary frontage line to the nearest permissible principal building, excluding encroachments.

Table 18.76.090(A) Private Realm Lot Structure

Secondary Front Setback	Corner lots have more than one frontage line. One is designated the primary frontage line and all remaining frontage lines are designated as secondary frontage lines.
Side Setback	The area of a lot measured from either side lot line to the nearest permissible building.
Rear Setback	The area of a lot measured from a rear lot line to the nearest permissible building.
Lot Layers	
1st Layer	The area of a lot from the frontage line to the facade of the principal building.
2nd Layer	The area of a lot set behind the 1st layer to a depth of 20 feet in all lots.
3rd Layer	The area of a lot set behind the 2nd layer and extending to the rear lot line.
Lot Size	
Lot Width	The length of the principal frontage line of a lot.

G. *Parking Location.* Open parking areas shall be in the lot behind the frontage line and buildings with landscaping that screens the parking areas from the street. Parking should be accessed by rear alleys and lanes.

1. There are no minimum or maximum number of parking spaces allocated per lot, block or project area in this district or its subdistricts.
2. Parking should be located in the 2nd and 3rd lot layers (See Table 18.76.090(A)).
3. "Streetscreens" may be used to obscure parking areas from streets and walkways. These are low decorative opaque walls, or other rigid materials, a minimum 40 inches in height, and setback a minimum of two feet from the walkway.

H. *Building Use and Intensity.* The number of dwelling units for residential uses, bedrooms for lodging uses, and the square footage of office and service uses shall be controlled according to Table 18.76.090(A).

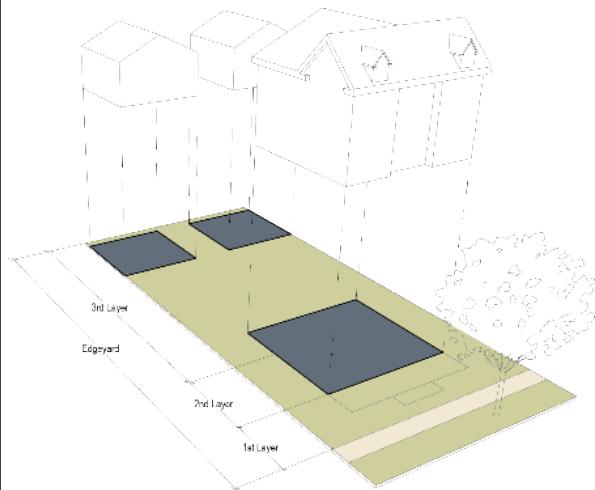

Figure 18.76.090(B). Private Realm Frontage Types

	SECTION	LOT ROW	PLAN	LOT ROW
a. Gallery & Arcade: for Retail use wherein the Facade is a colonnade that overlaps the Sidewalk. An easement no less than 12 ft wide for private use of the right-of-way should be required.	T5			
b. Shopfront & Awning: aligned close to the frontage line with the entrance on sidewalk. This type is conventional for retail frontage. It is commonly equipped with cantilevered shed roof or an awning.	T5			
c. Stoop: aligned close to the Frontage Line with the first Story elevated from the Sidewalk for privacy. This type is suitable for ground-floor residential uses at short setbacks for townhouses.	T5			
d. Forecourt: aligned close to the frontage line with a portion of it set back suitable for gardens, drop-offs and off-loading. Trees canopies should overhang onto the sidewalks.	T5 T4			
e. Dooryard & Light Court: aligned with a shallow setback and front garden or patio usually with a low wall at the Frontage Line. This type effectively buffers residential quarters from the sidewalk.	T5 T4			
f. Porch & Fence: set back from the frontage line with an encroaching porch appended. The porch should be within a conversational distance of the sidewalk. Porches should be 8 ft wide or more.	T4			

Table 18.76.090(C) Building Types

EDGEYARD
A building placed within the boundaries of its lot to create an edgeyard around the building, with setbacks on all sides. This is the least urban of types as the front yard sets the building back from the public frontage, while the side yards weaken the spatial definition of the thoroughfare in front of the building. Variants: villa, house, cottage, duplex, apartment house.

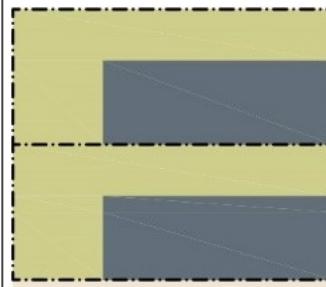

Edgeyard Example	Transect Zone	T4	T5
	LOT OCCUPATION		
	Lot Coverage	70% max	n/a
	Frontage Buildout at Setback	60% min	n/a
	PRINCIPAL BUILDING SETBACKS		
	Primary Front Setback	10 ft min 15 ft max	n/a
	Secondary Front Setback	10 ft min 15 ft max	n/a
	Side Setback	0 ft min	n/a
	Rear Setback	3 ft min	n/a
	OUTBUILDING SETBACKS		
	Front Setback	setback + 20 ft min	n/a
	Side Setback	0 ft or 3 ft at corner	n/a
	Rear Setback	3 ft min	n/a
	BUILDING HEIGHT (number of stories)		
	Principal Building	3 max	4 max
	Outbuilding	2 max	n/a
	PRIVATE FRONTAGE		
	Setback Encroachments		
	Open Porch	80%	n/a
	Balcony and/or Bay Window	50% max	n/a
	Stoop, Lightwell or Terrace	100% max	n/a
	Walkway Encroachments		
	Awning, Gallery, or Arcade	to within 2 ft of curb	n/a
	Encroachment Depths		
	Porch	8 ft max	n/a

House, Duplex, Triplex

Edgeyard Example	Transect Zone	T4	T5
	Gallery	10 ft max	n/a
	Arcade	n/a	n/a
	Parking Area Location		
	2nd Layer	not permitted	n/a
	3rd Layer	permitted	n/a

SIDEYARD

A building placed within the boundaries of its lot to create a private sideyard, with a setback to one side. A shallow front setback defines a more urban condition. If the adjacent building is similar with a blank side wall, the yard can be quite private. This type permits systematic climatic orientation in response to the sun or the breeze. If a sideyard house abuts a neighboring sideyard house, the type is known as a twin or double house. Attached and detached bungalow and Spanish courts are essentially sideyard access housing types.

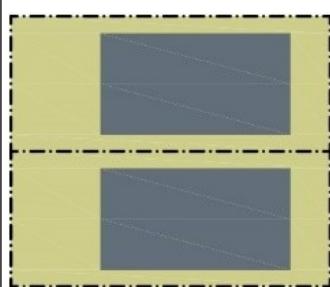

Sideyard Example	Transect Zone	T4	T5
Sideyard House	LOT OCCUPATION		
	Lot Coverage	70% max	80% max
	Frontage Buildout at Setback	60% min	80% min
	PRINCIPAL BUILDING SETBACKS		
	Primary Front Setback	10 ft min 15 ft max	2 ft min 15 ft max
	Secondary Front Setback	10 ft min 15 ft max	2 ft min 15 ft max
	Side Setback	0 ft min 15 ft max	0 ft min 24 ft max
	Rear Setback	3 ft min	3 ft min
	OUTBUILDING SETBACKS		
	Front Setback	setback + 20 ft min	40 ft max from rear

Sideyard Example	Transect Zone	T4	T5
	Side Setback	0 ft or 3 ft at corner	0 ft or 3 ft at corner
	Rear Setback	3 ft min	3 ft max
	BUILDING HEIGHT (number of stories)

	3rd Layer	permitted	permitted

REARYARD

A building placed within the boundaries of its lot to create an edgeyard around the building, with setbacks on all sides. This is the least urban of types as the front yard sets the building back from the public frontage, while the side yards weaken the spatial definition of the thoroughfare in front of the building. Variants: rowhouse, apartment building, commercial building, office building, live-work building, mixed use building.

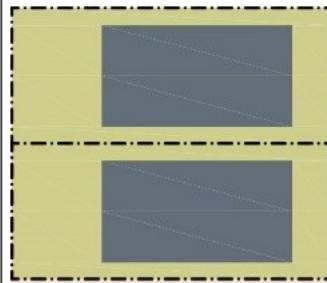

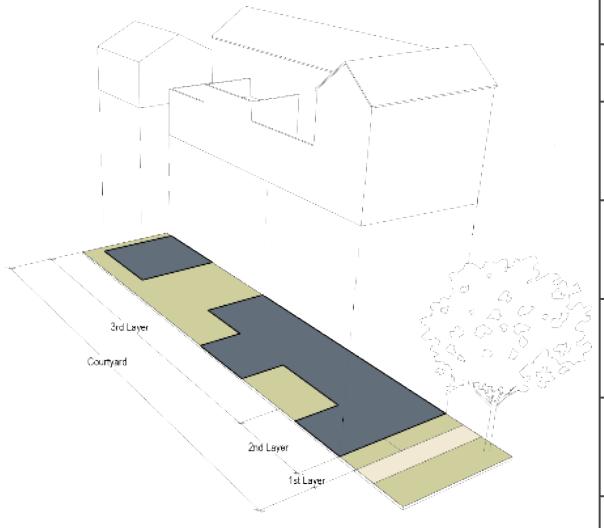

Rearyard Example	Transect Zone	T4	T5
Rowhouse	LOT OCCUPATION		
	Lot Coverage	70% max	80% max
	Frontage Buildout at Setback	60% min	80% max
	PRINCIPAL BUILDING SETBACKS		
	Primary Front Setback	10 ft min 15 ft max	2 ft min 15 ft max
	Secondary Front Setback	10 ft min 15 ft max	2 ft min 15 ft max
	Side Setback	0 ft min	0 ft min 24 ft max
	Rear Setback	3 ft min	3 ft min

	Gallery	10 ft max	10 ft min
	Arcade	n/a	12 ft min
	Parking Area Location		
	2nd Layer	not permitted	not permitted
	3rd Layer	permitted	permitted

COURTYARD

A building placed within the boundaries of its lot to create a private courtyard, while internally defining one or more private patios. Common walls shared with adjacent buildings create a continuous facade along the frontage line that steadily defines the public thoroughfare in front of the building. This is the most urban of types, as it is able to shield the private realm from all sides.
Variants: courtyard house, courtyard apartment building.

Courtyard Example	Transect Zone	T4	T5
Courtyard House 	LOT OCCUPATION		
	Lot Coverage	70% max	80% max
	Frontage Buildout at Setback	60% min	80% max
	PRINCIPAL BUILDING SETBACKS		
	Primary Front Setback	10 ft min 15 ft max	2 ft min 15 ft max
	Secondary Front Setback	10 ft min 15 ft max	2 ft min 15 ft max

[Ord. 20-15 § 1; Res. 20-37.]

18.76.100 T4 and T5 zones development standards.

Table 18.76.100, below, prescribes design and development regulations for the district:

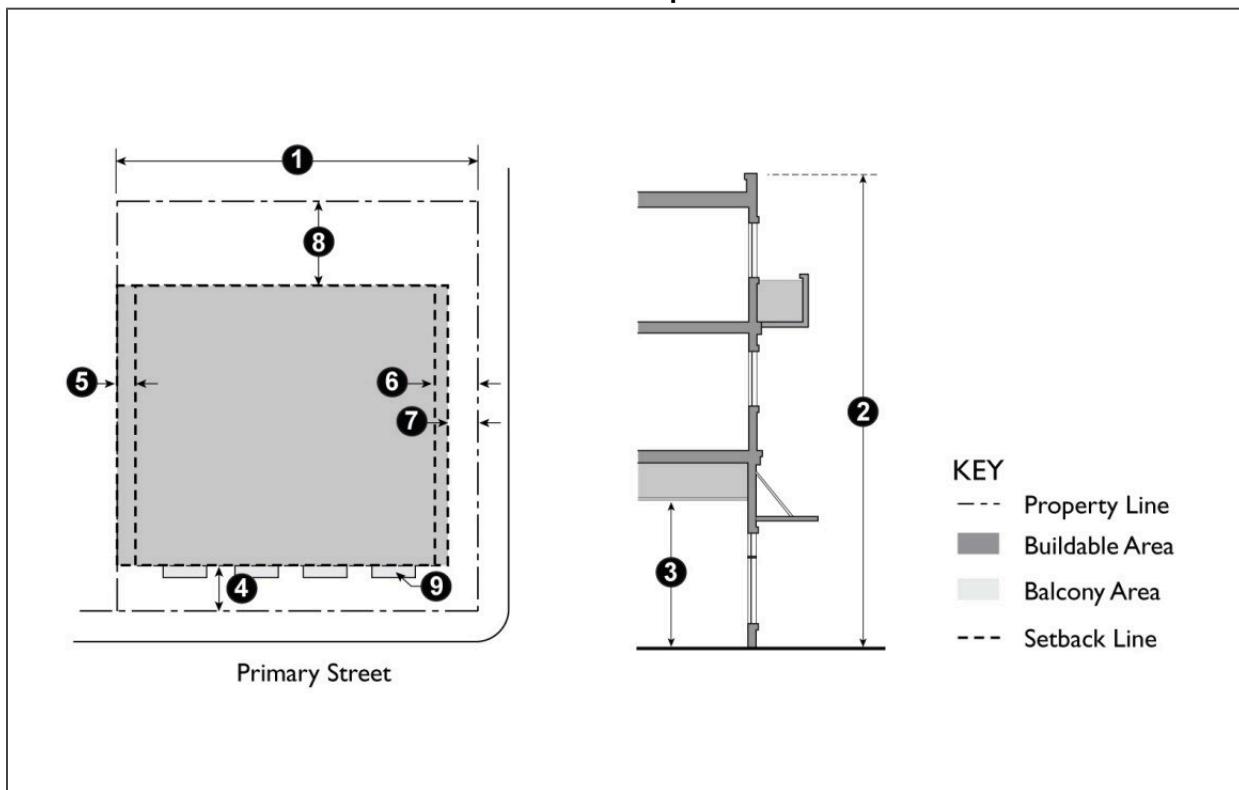

"X" designates uses that are not permitted in the zone column.

"P" designates permitted uses in the zone column.

Numbers designate design standards metrics in the zone column.

"Y" in the zone column means that the detailed standard applies. Letters in parentheses in the "additional standards" column refer to regulations following Table 18.76.100.

"#" column corresponds with the numbers in illustration to regulations in the associated table.

Table 18.76.100 Development Standards

General Standards	Zone	Detailed Standards (see sections below)	#
	T4 / T5		
Lot and Density Standards			
Minimum lot width (ft.)	25 / 25		①
Maximum floor area ratio (FAR)	2.0 / 4.0	(A)	
Building form and location			
Building height – Primary building (stories)	3 / 5	T5 Maximum 75-foot height	②
Building height – Accessory building (stories)	2 / 3	T5 Maximum 45-foot height	
Minimum building height (number of stories)	2		
Minimum 1st floor ceiling height, nonresidential uses (ft. clear) – Exceptions for unique operational characteristics	12	Meet city's building code height requirements	③
Frontage types (Table 18.76.090)	Y	(B)	⑨
Gallery and arcade (more urban – more retail)	X / P	See Table 18.76.090(B)	

General Standards	Zone	Detailed Standards (see sections below)	#
	T4 / T5		
Shopfront and awning	X / P	See Table 18.76.090(B)	
Stoop	X / P	See Table 18.76.090(B)	
Forecourt	X / P	See Table 18.76.090(B)	
Dooryard and light court	P / P	See Table 18.76.090(B)	
Porch and fence (least urban – more residential)	P / X	See Table 18.76.090(B)	
Build-to lines and setbacks (ft.)			
Front (Principal building) minimum	10 / 0 – Y	(D)	④
Front (principal building) maximum	15 – Y	(D)	
Interior side minimum	0 – Y	(D)	⑤
Interior side maximum	10 – Y	(D)	⑤
Street side (principal) maximum	10 / 10 – Y	(C)	⑦

Screening	MCC 18.80.110 , Screening		
Signs	Chapter 18.115 , Signs		
Swimming pools	MCC 18.80.120 , Swimming Pools and Spas		
Visibility at driveways	MCC 18.80.150 , Visibility at Intersections and Driveways		

A. *FAR for Mixed Use Buildings.* The maximum allowable FAR is for buildings that contain a mix of residential and nonresidential uses.

B. *Principal Building Frontage Types.* The principal building fronts onto the primary thoroughfare. This is the area between the private building facade and the public sidewalk, inclusive of its varying built and planted components. Frontage is divided into private frontage and public frontage. The combination of the private frontage, the public streetscape, and the types of thoroughfare defines the character of the majority of the public realm. The front of the building defines the building's placement on the lot, and how it is orientated towards the street includes the following types as specified on Table 18.76.100(B) Private Realm Frontage Types:

1. T5 Center: Gallery, arcade, shopfront, awning, stoop, forecourt, dooryard, and light court.
2. T4 General: Dooryards, light court, porch and fence.

C. *Required Side and Rear Yards for Residential Uses.* In order to provide light and air for residential units and additional separation for rooms that require additional privacy considerations, the following minimum setbacks apply to any new building wall containing windows and facing an interior side or rear yard. The required setbacks apply to that portion of the building wall.

D. *Maximum Building Setbacks.* The street-facing facades of buildings must be located no farther from street-facing property lines than the maximum setback distance specified in Table 18.76.100. The following additional provisions apply:

1. *Corner Properties.* Where a property fronts on two or more streets, the maximum setback shall be met according to the following provisions:
 - a. *Frontage on Two Primary Streets.* New buildings on sites with frontage on two streets may be constructed to the maximum setback line on both frontages.
 - b. *Frontage on Three or More Streets.* Properties with frontage on three or more streets must build to the maximum build-to lines of at least two of the streets.
 2. *Building Additions.* For any addition to a building that increases the width of a street-facing facade, 100 percent of the addition should be located on or within the maximum setback until the maximum setback standard for the entire building is met, or to meet the intent section, MCC [18.76.100](#).
 3. *Exceptions to Building Placement Requirements.* The following exceptions to the build-to lines requirement are permitted.
 - a. *Outdoor Eating Areas.* Where an outdoor eating area will be installed on the street frontage, a portion of the building may be set back up to 12 feet farther than the maximum setback line, if at least 40 percent of the building facade is at the primary frontage build-to line.
- E. *Location of Parking.* In this district, Tables 18.76.090(A) through (C) apply, as off-street parking areas should be set in the 2nd and 3rd lot layers, in the rear of the lot and set back a minimum of 25 feet from the primary street frontage.
1. There are no minimum or maximum number of parking spaces allocated per lot, block or project area in this district or its subdistricts.
 2. Streetscreens should be used for any parking spaces located in the 1st lot layer.
 3. Exceptions may be granted for short-term customer parking and drop-off spaces.
 4. Exceptions may be granted for participating in a public-private partnership car share program focusing on providing access to/from the train depot area.
- F. *Building Design and Signage.* In this district, Table 18.76.100, and the design guides in Maricopa Stations Design Guidelines apply unless otherwise specified within this code. Any requested deviations or waivers on all additions, new development, and rehabilitation of existing structures and commercial business are subject to review to determine whether the design guidelines have been met. In addition, the exterior design of all buildings, including all facades and all signage, shall be coordinated with regard to color, materials, architectural form, and detailing to achieve design harmony, continuity, and horizontal and vertical relief and interest.
- G. *Outdoor Living Areas.* As part of the open space required by Chapter [18.90](#) MCC, Landscaping, private or common areas for outdoor living shall be provided for upper-level residential units. Outdoor living areas include balconies, decks, common open space, and/or rooftop open space, but not limited to other outdoor living types not listed here.

1. *Minimum Dimensions.*

- a. *Private Open Space.* Private open space located above ground level (e.g., balconies) shall have no horizontal dimension less than six feet.
- b. *Common Open Space and Rooftop Open Space.* Common open spaces and rooftop open spaces with a minimum horizontal dimension of 20 feet shall count towards the open space calculation.

2. *Minimum Area Required – Private Open Space.*

- a. Forty square feet per unit in T4 and 20 square feet per unit in T5.
- b. The amount of outdoor living area provided for individual units may vary based on unit size and location within a project, as long as the average area per unit meets the applicable standard or the intent section.

H. *Outdoor Storage.* Outdoor storage areas for nonresidential uses in T4 general, shall be located in the 2nd or 3rd lot layer, operate during business hours only, and comply with only five percent of the gross floor area of the use or 200 square feet, whichever is less.

I. *Sewer Service and Adequate Public Facility Participation Agreements.* Sites within the district shall be permitted to develop or redevelop only after the owner agrees in writing to participate in paying its proportionate share of public facility improvement costs, including sanitary sewer services, in a manner acceptable to the city engineer.

1. The city engineer may require financial guarantees in the form of bonds or letters of credit or allow payment of fees in lieu to participate in paying the proportional cost of adequate public facilities to serve the site proposed for development.

2. The city engineer may approve interim solutions, such as on-site wastewater treatment facilities, in lieu of providing sanitary sewer service, should Pinal County Health Department permit such interim solution.

3. All requests for improvements to existing residential properties within the district that do not include a commitment or assurance to participate in a proportionate share of the public facility improvements shall conform to the base zoning district development standards for setbacks, lot coverage and other requirements.

a. The city may approve a waiver to encroach into the required setback area or exceed the lot coverage for additions and improvements which:

- i. Conform to Maricopa Station Design Guidelines;
- ii. Comply with current Pinal County health requirements for improving existing septic systems to accommodate the proposed improvements;
- iii. Meet outdoor screening and storage requirements of this code;

iv. Comply with the minimum development standards of the most comparable residential zone of this code based on existing lot size and dimensions.

J. *Transitional Standards.* Where this T4 general subdistrict adjoins an RS District, the following standards apply:

1. The maximum height within 20 feet of an RS District is 30 feet. From this point, the building height may be increased to the maximum building height.
2. The building setback from an RS District boundary shall be 25 feet for interior side and rear yards.

K. *Transparency on Ground Floor Frontages for Nonresidential Uses.* Windows, doors, or other openings should be provided for at least 50 percent of the building wall area located between three and seven feet above the elevation of the sidewalk. No wall may run in a continuous plane for more than 20 feet maximum without an opening or an exception (see subsection [\(K\)\(3\)](#) of this section listed below). Openings fulfilling this requirement shall have transparent glazing and provide views into work areas, display areas, sales areas, lobbies, or similar active spaces, or into window displays that are at least three feet deep.

1. *Exception for Structured Parking Facilities.* Multi-level parking garages, where permitted, are not required to meet the ground-floor transparency requirement.
2. *Sites with Multiple Buildings.* On sites that contain multiple buildings, the building ground-floor transparency requirement does not need to be met in buildings located in lot layers 2 or 3 or behind other buildings and not visible from the adjacent public street.
3. *Reduction through Development Plan Review.* The transparency requirement may be reduced or waived for proposed uses that have unique operational characteristics with which providing the required windows and openings is incompatible, such as in the case of a theater.

L. *Truck Docks, Loading, and Service Areas.* Truck docks, loading, and service areas are permitted within the 3rd lot layer on rear alley and lanes. In addition, such loading and service areas must be located on the side or rear of buildings and may not face a public street or a private street functioning as a public road.

M. *Pedestrian Access.* A system of pedestrian walkways shall connect all buildings on a site to each other, to on-site automobile and bicycle parking areas, to sidewalks, and to any on-site open space areas or pedestrian amenities. Direct and convenient access shall be provided to adjoining blocks to the maximum extent feasible while still providing for safety and security.

1. Walkways shall be a minimum of six feet wide, hard-surfaced, and paved with concrete, stone, tile, brick, or comparable material.
2. Where required walkways cross driveways, parking areas, or loading areas, it must be clearly identifiable through the use of a raised crosswalk, a different paving material, or similar method.
3. Where a required walkway is parallel and immediately adjacent to an auto travel lane, it must be raised or separated from the auto travel lane by a raised curb, bollards, or other physical barrier. [Ord. 20-15 § 1; Res. 20-37.]

18.76.110 Signage.

Signage shall be designed according to Chapter [18.115](#) MCC, with design standards in Table 18.76.110 per specific sign types permitted by right or by exception as indicated for each T4 and T5 subdistrict, unless otherwise specified in this code:

- A. All signage should not exceed 30 square feet total per each primary building frontage per every 50 linear feet;
- B. No back or box lit signage is allowed throughout the district. Gooseneck, down-lit lighting is encouraged;
- C. Address signs (Table 18.76.110) should be made easily visible through the use of colors or materials to contrast with their background and should be attached to the facade or principal entrance of the unit they identify;
- D. Awning signage (Table 18.76.110) should be limited to no more than 70 percent of the valance of the awning or the vertical portion of a dome awning. The height of the valance should not exceed 12 inches;
- E. One blade sign (Table 18.76.110) is permitted for each business if the facade is no more than five feet from the principal frontage line. Blade signs may encroach into the public frontage up to four feet, shall clear the sidewalk by at least eight feet, and shall not encroach above the bottom of any second story windows. Blade signs are permitted only for businesses that have a principal entrance on the first story;
- F. One nameplate (Table 18.76.110) per address limited to three square feet and consisting of either a panel or individual letters applied to a building wall, may be attached to a building wall within 10 feet of a principal entrance;
- G. Outdoor display cases (Table 18.76.110) shall not exceed six square feet with use of colors, materials to contrast with their background and/or down lit lighting should be used for illumination;
- H. One wall sign (Table 18.76.110) limited to 90 percent of the width of the building facade shall be permitted for each building;
- I. Window signs (Table 18.76.110) shall not interfere with the primary function of windows, which is to enable passersby and public safety personnel to see through windows into premises and view product displays;
- J. Mural signs (Table 18.76.110) allowed only by exception, are intended to promote community pride and celebrate Maricopa's rich cultural heritage through an outdoor visual arts program. Murals should not contain the business name, logo, and/or other branding;
- K. One single- or double-post yard sign (Table 18.76.110) may be temporarily placed with the private frontage of each business. Yard signs shall be set back from the frontage line six feet for less than 60 days per year;
- M. Rooftop signage, allowed only by exception, should not exceed six feet in height above the maximum primary building height.

Table 18.76.110 Signage Types

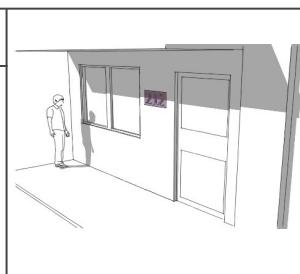

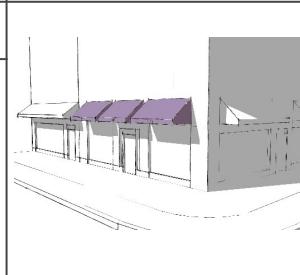

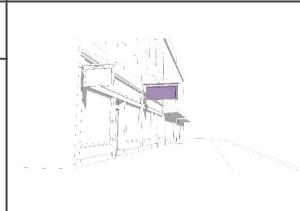

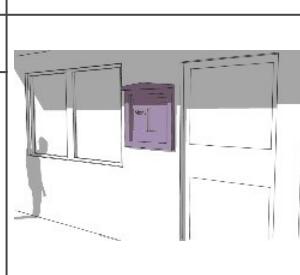

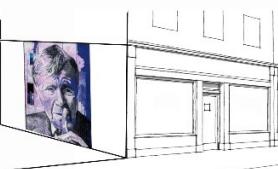

<p>Address Sign: Quantity: 1 per address; Area: 2 sf Max; Width: 24 in Max; Height: 12 in Max; Apex: N/A; Depth/Projection: 3 in Max; Clearance: 4.5 ft Min; Letter Height: 6 in Max.</p>	T5 T4

Mural Sign – Visual Arts Exhibit: Quantity: 1 per Story Wall Face; Area: 75% of a Single Story Wall Max; Width: Varies; Height: Varies; Apex: First Story; Depth/Projection: N/A; Clearance: N/A; Letter Height: 8 in Max. (Intended to Promote a Cultural Arts Program and Not Advertisement. Allowed By Exception Only)	T5 T4	
Yard Sign – Temporary: Quantity: 1 per Lot Max.; Area: 6 sf Max; Width: 24 in Max; Height: 12 in Max; Apex: N/A; Depth/Projection: 3 in Max; Clearance: 4.5 ft Min; Letter Height: 6 in Max. (Limited to 60 Days per Year. No Internal Lighting. Allowed By Exception Only)	T5 T4	

[Ord. 20-15 § 1; Res. 20-37.]

18.76.120 Public realm: CD – Civic district design standards.

Civic districts may be developed as public open spaces or public buildings as follows:

- A. Civic spaces may be designed as generally described and diagrammed on Table 18.76.120. These are provided for illustrative purposes only. Specific designs may be prepared in accordance to the descriptions for each type;
- B. Civic space designed as a green, square, or plaza shall have a minimum of 50 percent of its perimeter fronting onto a thoroughfare. Other configurations may be exempt.
- C. Civic building uses may be determined by the intent of the abutting transect-based zoning district intent.

Table 18.76.120 CD – Civic District Space Types

		CD	T4	T5
Green	An open space, available for unstructured recreation. A green may be spatially defined by landscaping rather than building frontages. Its landscape shall consist of lawn and trees, naturalistically disposed. Sections of a green may be designed specifically for the recreation of children.			
Square	An open space available for unstructured recreation and civic purposes; suitable as a main civic space. A square is spatially defined by building frontages. Landscape shall consist of paths, lawns and trees, formally disposed.		CD	T4
Square - Axial	An open space available for unstructured recreation and civic purposes; suitable as a main civic space. An axial square is spatially defined by building frontages and disposed to cause the interruption and visual termination of a thoroughfare. Two one-way streets permit the continuation of traffic flow on either side of the square. Landscape shall consist of paths, lawns and trees, formally disposed. Public art is typically located in the central area of the square to provide visual articulation for the terminated thoroughfare.		CD	T4
Square - Double Axial	An open space available for unstructured recreation and civic purposes; suitable as a main civic space. A double-axial square is spatially defined by building frontages and disposed to cause the interruption and visual termination of two thoroughfares. Two-way streets permit the continuation of traffic flow around the square. Landscape shall consist of paths, lawns and trees, formally disposed. Public art is typically located in the central area of the square to provide visual articulation for a terminated vista.		CD	T4

Table 18.76.120 CD – Civic District Space Types

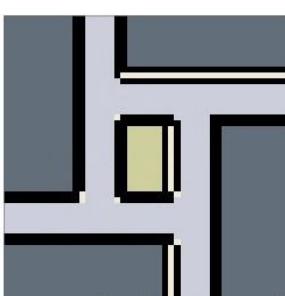

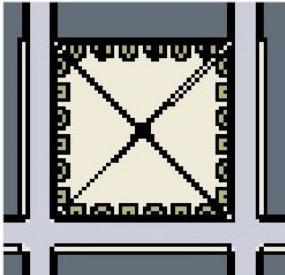

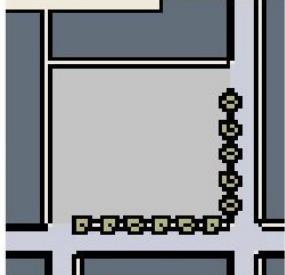

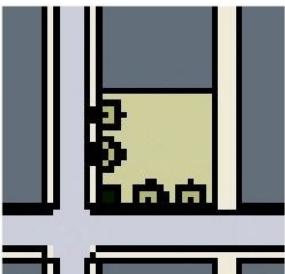

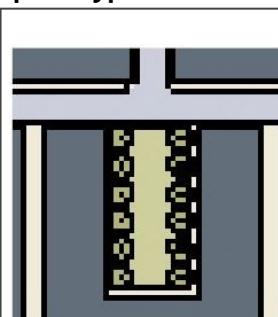

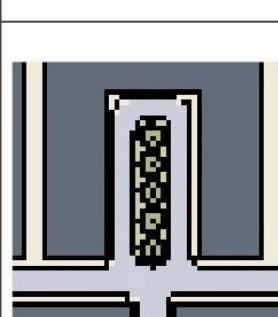

Square – Turbine An open space available for unstructured recreation and civic purposes. A turbine square is formed by four eccentrically placed thoroughfares so that from any point within the square, there is only one route leading out without the requirement of a turn; four terminated vistas are created. A turbine square disperses through traffic and is suitable as a traffic calming device in residential areas.		CD T4 T5
Plaza An open space available for civic purposes and commercial activities. A plaza shall be spatially defined by building frontages. Its landscape shall consist primarily of pavement. Trees are optional.		CD T4 T5
Commercial Plaza A multi-purpose open space available for civic purposes, commercial activities and as flex parking space. The parking or open area is designed as a plaza with brick, gravel, cobbles or artistically jointed concrete. The commercial plaza should be separated from adjacent thoroughfares and spatially defined by a landscaped buffer including street trees. Removable bollards are suggested to delineate parking from non-parking areas.		T4 T5
Playground or Pocket Park An open space, available for unstructured recreation. A pocket park provides greenery and a place to sit outdoors and is typically spatially defined by buildings because in most cases it is located within a block. Pocket parks may be created around a monument, historic marker or art project and/or may be designed specifically for the recreation of children.		CD T4 T5

Table 18.76.120 CD – Civic District Space Types

Court A semi-public open space available for unstructured recreation by those occupying the adjacent buildings. Access to abutting residential lots is from a sidewalk that circumnavigates a central landscaped area. Landscaping consists of lawn and trees, formally disposed. May include ornamental species.		CD T4 T5
Close A semi-public open space available for unstructured recreation by those occupying the adjacent buildings. A close is circumnavigated by a one-way thoroughfare with parking on one side. Landscape includes lawn and trees, formally disposed. May include ornamental species.		CD T4 T5

[Ord. 20-15 § 1; Res. 20-37.]

18.76.130 Review of plans.

Permit and review procedures should follow the standards in this chapter, and design and approval criteria listed in the Maricopa Station Design Guidelines. There are two types of permitted deviations from the requirements:

A. *Exception and Variance.*

1. *Exception.*
 - a. Requests for exception(s) shall only be permitted as specifically indicated in this chapter or as determined by the zoning administrator.
 - b. To apply for an exception, the applicant shall provide the following:
 - i. The specific exception(s) requested including citation from this chapter and why the exception(s) is being sought.
 - ii. Maps, text, drawings, and/or statistical data related to the requested exception(s).
 - c. No exception(s) shall be approved unless the zoning administrator finds the approval would:
 - i. Be consistent with MCC [18.76.040](#), Design standards intent, of this chapter, and

- ii. Must be consistent with the goals, objectives, and policies of the general plan, redevelopment area plan and the design guidelines for Maricopa Station.
- d. Any decision regarding an approval or denial of an exception shall state, in writing, the reasons for the approval or denial.
- e. If the zoning administrator denies any requested exception, the applicant may appeal; refer to MCC [18.140.140](#).

2. *Variance.*

- a. A variance shall be processed pursuant to city code.
- b. The following standards and requirements shall not be available for variances:
 - i. The maximum dimensions of traffic lanes;
 - ii. The required provision of rear alleys or lanes and/or;
 - iii. The maximum dimensions for parking lanes, spaces, and lots.

B. *Administrative Adjustment.* The zoning administrator has the discretion to approve any regulating plan conformance review, streetscape, site and/or building plan that deviates within 10 percent from any specific numerical standard prescribed in this chapter.

- 1. The following development or activities shall be exempt from the provisions of this chapter:
 - a. Ordinary repairs for the purpose of building, signage, lighting or premises maintenance.
 - b. Construction within the interior of the structure not visible from the exterior of the building.
 - c. Emergency repairs ordered by any code enforcements official in order to protect health and safety.
[Ord. 20-15 § 1; Res. 20-37.]

Division 4. Regulations Applying in Multiple Districts

Chapter 18.80 GENERAL SITE REGULATIONS

Sections:

- [18.80.010 Purpose and applicability.](#)
- [18.80.020 Accessory buildings or structures.](#)
- [18.80.030 Animal keeping.](#)

- 18.80.040 Building projections into yards.**
- 18.80.050 Reserved.**
- 18.80.060 Development on lots divided by district boundaries.**
- 18.80.070 Development on substandard lots.**
- 18.80.080 Exceptions to height limits.**
- 18.80.090 Fences and freestanding walls.**
- 18.80.100 Outdoor storage.**
- 18.80.110 Screening.**
- 18.80.120 Swimming pools and spas.**
- 18.80.130 Truck docks, loading, and service areas.**
- 18.80.140 Underground utilities.**
- 18.80.150 Visibility at intersections and driveways.**

18.80.010 Purpose and applicability.

The purpose of this chapter is to prescribe development and site regulations that apply, except where otherwise specifically stated, to development in all zoning districts. These standards shall be used in conjunction with the standards for each zoning district located in Division 2, Base Zoning Districts, and Division 3, Overlay Districts. In any case of conflict, the standards specific to a zoning district shall override these regulations. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 401.01; Ord. 14-12 § 1.]

18.80.020 Accessory buildings or structures.

A. *Applicability.*

1. The provisions of this section apply to roofed structures, including but not limited to garages, carports, sheds, workshops, arbors, gazebos, pergolas, and covered patios, that are detached from and accessory to the main building on the site. These provisions also apply to open, unroofed structures, such as decks and trellises, that are over six feet in height and that are detached from and accessory to the main building on the site.
2. When an accessory building or structure is attached to the main building, it shall be made structurally a part of and have a common wall or roof with the main building and shall comply in all respects with the requirements of this code applicable to the main building and all other applicable codes. Allowed building projections into setbacks are stated in MCC [18.80.040](#), Building projections into yards.
3. Where guest quarters are located over a detached garage, the entire structure shall be considered a main building, subject to the zoning district standards for main buildings. No portion of this building shall be

closer to any lot line than is permitted for any other main building, except on an alley where the detached garage may be within the setback.

B. *Relation to Existing Structures.* A detached accessory building may only be constructed on a lot on which there is a permitted main building to which the accessory building is related. An accessory building on an adjacent lot under the same ownership is not allowed; the two lots must be merged. However, an accessory building may be constructed prior to a permitted main building and used for not more than one year in connection with the construction of the main building; provided, that a permit is obtained for the entire project, including the accessory building, prior to the start of any construction.

C. *Location.* Accessory structures shall be located behind the front line of the primary structure, unless otherwise specified in this code.

1. *Corner Lot.* On a corner lot, no detached accessory building shall be located so as to project beyond the required front yard or the existing front line of the primary structure on any street frontage for lots less than one acre.
2. *Through Lot.* On a through lot having frontage on two or more parallel streets, no detached accessory building shall be located within one-fourth of the lot area of either street-facing property line.

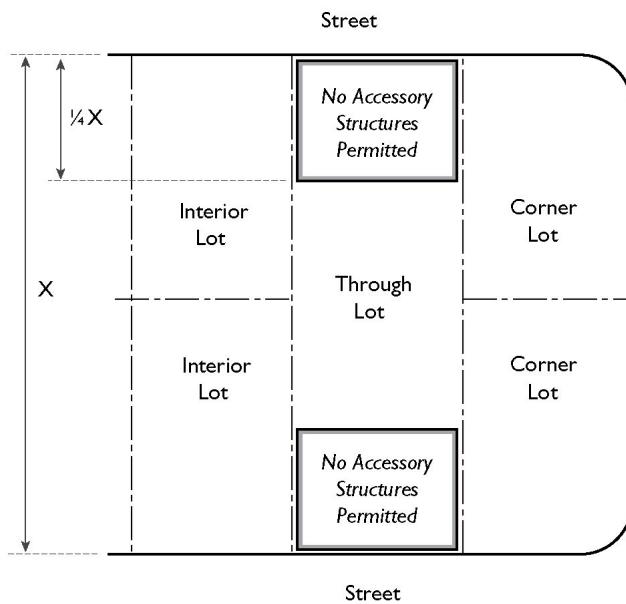

Figure 18.80.020.C.2. Through Lot

D. *Detached Garage Exception.* In rural districts, and on large lots in residential districts (12,000 square feet or more), garages may be allowed on the front half of a lot if permitted by the development standards for the applicable zoning district.

E. *Development Standards.* Detached accessory buildings or structures shall comply with the development standards provided in Table 18.80.020B and observe the regulations set forth in MCC [18.80.040](#), Building

projections into yards. The following building standards work in conjunction with base standards. If conflicting with development standards outlined in Division 2 or Division 3 of this title, those standards override these regulations.

Table 18.80.020.B Development Standards – Detached Accessory Buildings

Specific Criteria			
Building Standards	120 s/f or less	Exceeds 120 s/f	Guest Quarters
Height (ft)	15	15	15 (1)
Setbacks, min. (ft)	3 (2), (3)	5	Same as main building per zoning district's development standards (4)
Rear Yard Area	30% maximum of rear setback area – See Figure 18.80.020.E.2		
	This regulation is not to supersede the overall lot coverage for all roofed buildings/structures on the lot (see base zone district, lot coverage)		
Separation from Main Building	Six feet measured from roof eave to roof eave		
(1) Guest quarters above garages: 25 feet maximum height allowed with pitched roof.			
(2) Structures shall observe five feet of setback that: (a) exceed 25 feet in length or width, or (b) measure in excess of one-third of the width of the rear property line. See Figure 18.80.040.			
(3) Location relative to adjacent lot: if laterally forward of the adjacent lot's front half point, observe five feet of setback.			
(4) Except when above a garage facing an alley, this condition shall observe the criteria of structure square footage.			

F. *Rear Yard Area.* Detached accessory structures shall not occupy more than 30 percent of the required rear yard setback.

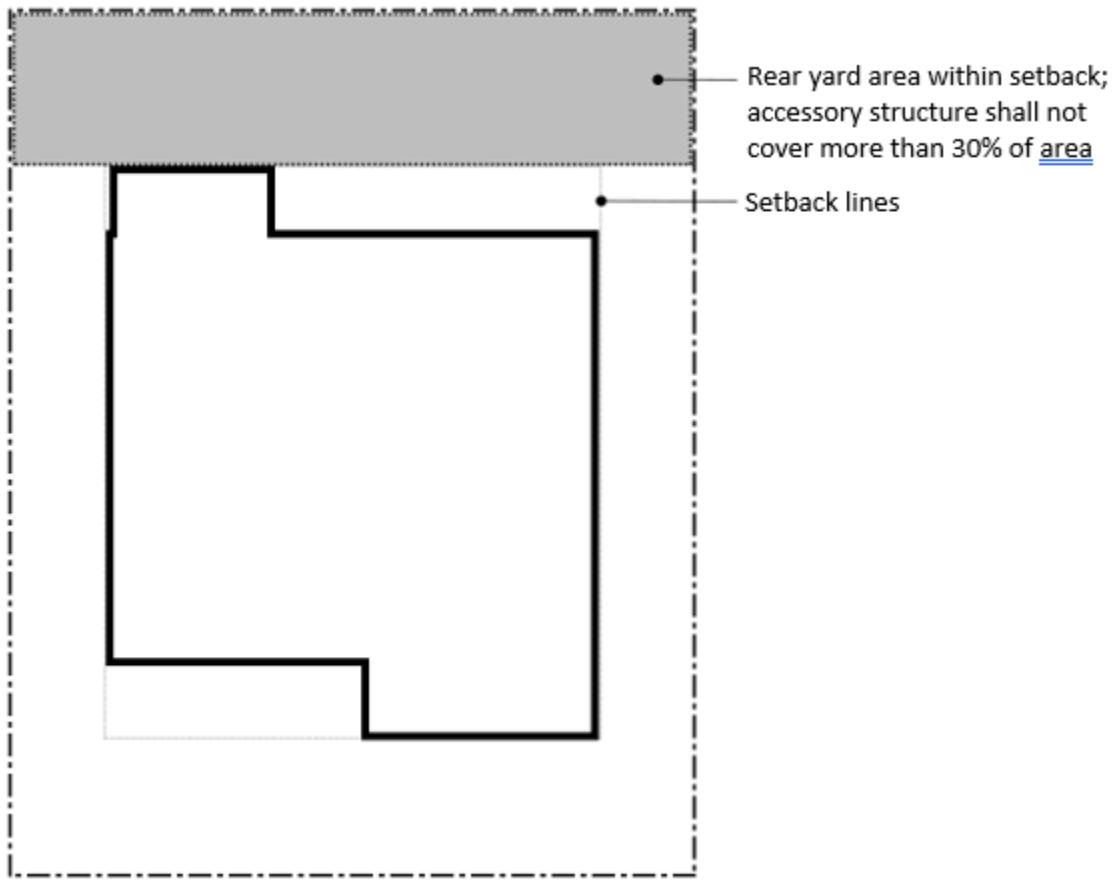

Figure 18.80.020.E.2. Rear Yard Area

G. *Facilities.*

1. A detached accessory structure that has not been approved as a guest quarter may contain bathroom facilities upon review and approval by the zoning administrator and the building official. The applicant shall obtain all necessary building permits for work to be performed. The applicant shall sign a statement, at the time of submittal for a building permit, which will prohibit the use of the accessory structure as a second dwelling unit. The signed statement shall be in the form of a restrictive covenant and shall be recorded.
2. A detached accessory structure shall not have plumbing for separate housekeeping facilities, such as a kitchen or laundry facilities, unless it has been approved as a guest quarter, meeting the standards in MCC [18.120.010](#).

H. *Permits.* Accessory structures greater than 120 square feet for residential structures and 200 square feet for commercial structures shall require zoning administrator approval.

I. *Factory-Built Modular Buildings.* Factory-built modular buildings designed, manufactured, and attached to permanent foundations are permitted in all districts; provided, that such buildings are installed in conformance with all applicable provisions of this code.

J. Modular storage containers, such as corrugated metal shipping containers, are permitted in all districts as accessory structures under the following conditions:

1. The containers are not visible from the right-of-way (meaning from the public road);
2. The containers do not disrupt the flow of traffic within the parking lot; and
3. The containers are modified so they do not look like containers (i.e., painted to match the building, siding installed, etc.). [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 401.02; Ord. 14-12 § 1.]

18.80.030 Animal keeping.

Animal keeping is subject to the following standards:

A. *Aviaries and Apiaries.*

1. Buildings or hives for apiaries may not be closer than 75 feet to any neighboring residence.
2. Pens and structures for aviaries may not be closer than 40 feet to any neighboring residence.

B. *Poultry, Bird, and Egg Farms.* Poultry, bird, and egg farms are subject to the following standards:

1. Pens, buildings, and enclosures other than open pasture may not be located closer than 200 feet to any residential, commercial, or industrial district.

C. *Livestock.* Commercial breeding, raising, training, and grazing of horses, cattle, sheep, goats, ostriches, swine and other livestock are subject to the following standards:

1. Sites must be at least 10 acres in area.
2. Pens, buildings, corrals, and similar structures may not be closer than 200 feet to any residential, commercial, or industrial district.

D. *Urban Chickens.* The raising of chickens shall be subject to the following requirements, except in rural districts in which they do not apply:

1. No more than six hens may be kept on an individual lot.
2. Roosters shall be prohibited.
3. Fowl shall be kept in an enclosure located in the rear or side yard of the property at least 10 feet from a neighboring property and restrict the size of the enclosure to a maximum of 200 square feet with a maximum height of eight feet.
4. The enclosure shall be maintained, and manure picked up and disposed of or composted, at least twice a week.

5. Enclosures located in a residential community on a lot less than one acre in size shall be shorter than the fence line of the property.
 6. The composted manure shall be kept in a way that prevents the migration of insects.
 7. A water source with adequate overflow drainage is required for enclosures.
 8. Feed shall be stored in insect-proof and rodent-proof containers.
 9. Fowl shall be prohibited from running at large.
10. These standards do not apply to an enclosure that was constructed on or before the effective date of the ordinance codified in this chapter.
11. For the purposes of this chapter, "fowl" means a hen of the domestic chicken.
- E. *Horses.* The keeping of horses is allowed on lots that are at least one acre in size. Up to three horses are allowed on one acre; an additional horse is permitted for each 3,000 square feet of lot area above one acre.
- F. *Household Pets.* In all zoning districts except rural districts, a maximum of four dogs is allowed. These limitations do not apply to small animals kept within a residence, including cats, fish, small birds, rodents, and reptiles. Dogs confined in kennels shall not be kept closer than 20 feet from the nearest residential structure on an adjacent lot.
- G. *Boarding and Training Kennels in the General Commercial Zoning District.* Boarding shall be limited to household pets; the commercial breeding of animals shall be prohibited. Hours of operation for outdoor areas shall be limited to between the hours of 6:00 a.m. and 7:00 p.m. All indoor facilities shall be completely enclosed. All outdoor dog runs or exercise areas associated with a boarding facility shall not be located within a required landscape setback or within 100 feet of any residential use or district, whichever is more restrictive. Outdoor runs and exercise areas shall not be located within 25 feet of any building's primary entrance on an abutting lot or suite and shall be enclosed by a minimum six-foot wall or fence. [Ord. 24-12 § 2; Ord. 24-01 § 2; Res. 21-09; Ord. 21-05 § 2; Ord. 18-06 § 2; Res. 14-36 § 401.03; Ord. 14-12 § 1.]

18.80.040 Building projections into yards.

Building projections may extend into required yards, subject to the following standards:

- A. No projection may extend closer than two feet to an interior lot line or into a public utility easement and may not encroach over a public utility easement, drainage easement, or other restrictive easement.
- B. No air-conditioning unit, pool pump or similar mechanical equipment, or any building encroachment, other than roof overhangs or eaves, shall be permitted in any side yard required for vehicular access.
- C. Awnings, eaves, overhangs, or basement window wells may encroach up to three feet into any required yard.

D. For single-family houses in residential districts, covered porches may project up to six feet into a required front or rear yard.

E. Vestibules, bay windows, nooks, chimneys, or similar wall projections with or without footings may encroach not more than three feet into any required front or rear yard and not more than two feet into any required side yard. The aggregate width may not exceed one-third the length of the building wall.

F. Staircases may be allowed up to three and one-half feet in height within any required front yard, and encroach up to 10 feet horizontally into any required rear yard.

G. Attached open porches, open patios, open carports, or open balconies may encroach into a required rear yard, but shall not be closer than 15 feet to a rear property line. Such open structures may include window screens, knee walls, and other partial enclosures as specified in the building code for patio covers.

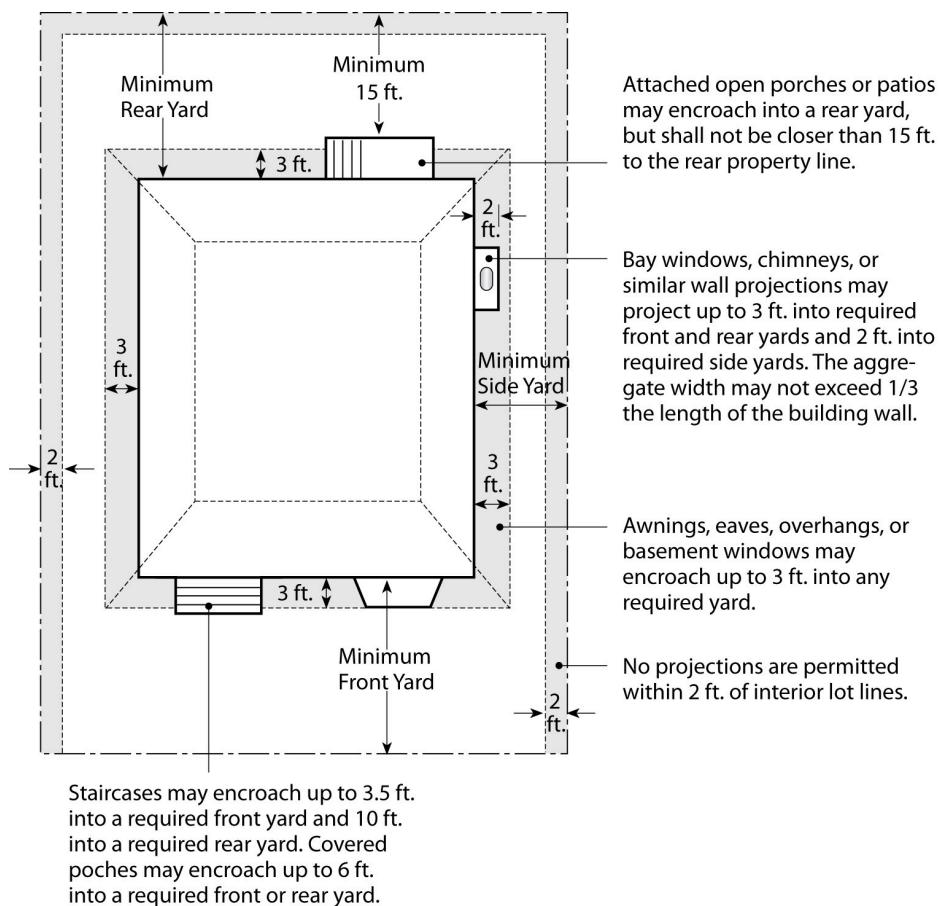

Figure 18.80.040. Building Projections

[Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 401.04; Ord. 14-12 § 1.]

18.80.050 Reserved.

[Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 401.05; Ord. 14-12 § 1.]

18.80.060 Development on lots divided by district boundaries.

A. *Generally.* The regulations applicable to each zoning district shall be applied to the area within that district, and no use shall be located in a zoning district in which it is not a permitted or conditionally permitted use, except in situations listed in subsection [\(B\)](#) of this section. When deemed appropriate, the applicant or city shall initiate a zone change to make the zoning district lines consistent with lot lines.

B. *Exception.* If more than 60 percent of the lot is in one zoning district, the hearing officer may grant exceptions to subsection [\(A\)](#) of this section, based on consideration of the proposed use of the lot and the existing uses on surrounding lots. Such an exception shall be considered through the administrative use permit process. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 401.06; Ord. 14-12 § 1.]

18.80.070 Development on substandard lots.

Any lot or parcel of land under one ownership and of record on the day of incorporation of the city may be used as a building site, even when of less area or width than that required by the regulations for the zoning district in which it is located. Such lot or parcel shall be subject to the setbacks and all other regulations applying to standard-size lots in the zoning district where the lot or parcel is located, unless a variance or waiver has been approved. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 401.07; Ord. 14-12 § 1.]

18.80.080 Exceptions to height limits.

A. *Allowed Projections Above Height Limits.* The structures listed in Table 18.80.080 may exceed the maximum permitted building height for the zoning district in which they are located, subject to the limitations stated in the table; and further provided, that no portion of a structure in excess of the building height limit may be used for sleeping quarters or advertising.

Table 18.80.080 Allowed Projections Above Height Limits

Structures Allowed Above the Height Limit	Maximum Coverage, Locational Restrictions	Maximum Vertical Projection Above the Height Limit
Skylights	No limitation	1 foot
Solar panels	No limitation	3 feet

Table 18.80.080 Allowed Projections Above Height Limits

Structures Allowed Above the Height Limit	Maximum Coverage, Locational Restrictions	Maximum Vertical Projection Above the Height Limit
Other energy production facilities located on rooftop such as wind turbines	No limitation	5 feet
Chimneys Decorative features such as domes, cupolas, pediments, obelisks, and monuments Rooftop open space features such as sun decks, sunshade and windscreens devices, open trellises, and landscaping, excluding detached residential structures	20% of roof area for all structures	20% of base height limit or 10 feet
Elevator and stair towers (for multi-unit and nonresidential buildings only)	N/A	12 feet
Mechanical penthouses	60% of roof area	10 feet
Flagpoles	Shall be set back at least to the height of the pole from all lot lines; only one per residential lot	10 feet
Fire escapes, catwalks, and open railings required by law	No restriction	No restriction
Religious facility architectural elements such as spires, bell towers, and domes	20% of roof area	No restriction
Parapets excluding detached residential structures	N/A	4 feet
Distribution and transmission towers, lines, and poles Water tanks Windmills Airway beacons	20% of the area of the lot, or 20% of the roof area of all on-site structures, whichever is less; no limit if a primary use permitted in the district	10 feet as an accessory structure; none as a primary use
Building-mounted telecommunications facilities, antennas, and microwave equipment Radio towers	Subject to provisions of Chapter 18.130 MCC, Telecommunications Facilities. A conditional use permit is required for commercial communication towers that exceed the maximum permitted height of the district in which they are located.	
Athletic field lighting	80 feet	

Table 18.80.080 Allowed Projections Above Height Limits

Structures Allowed Above the Height Limit	Maximum Coverage, Locational Restrictions	Maximum Vertical Projection Above the Height Limit
Bucket elevators, vertical conveyors and conveyor equipment, smokestack scrubbers, support towers, grain bins and grain silos, and any other height relevant industrial mechanical appurtenances	<p>1. Shall be set back an additional 3 feet for every 1 foot of height exceeding 80 feet.</p> <p>2. Increasing the street frontage landscaping an additional 10 feet of depth. Additional landscape area shall include an amount equal to or greater than 1 tree and 3 shrubs for each 30 feet of frontage, and vegetative ground cover occupying a minimum of 60%.</p> <p>Appurtenances of the facility shall be designed, constructed and/or colored in order to correspond with the aesthetic, view-shed and other characteristics of the area in which they are to be located.</p>	Maximum height: 80 feet. Additional height may be granted by the zoning administrator; however, in no event shall the total height exceed 120 feet.

[Res. 22-12; Ord. 22-03 § 2; Res. 21-09; Ord. 21-05 § 2; Ord. 18-06 § 2; Res. 14-36 § 401.08; Ord. 14-12 § 1.]

18.80.090 Fences and freestanding walls.

Fences, freestanding walls, dense hedges, and similar structures shall comply with the standards of this section.

A. *Maximum Height.*

1. *Front Yards and Street Side Yards.* No fence or freestanding wall within or along the exterior boundary of the required front or street side yard shall exceed a height of three and one-half feet. Visually transparent and nonopaque fences over three and one-half feet high may be allowed in front and street side yards, through modification by the hearing officer.

2. *Interior Side and Rear Yards.*

- a. *Residential Districts.* No fence or freestanding wall within or along the exterior boundary of the required side or rear yards shall exceed a height of six feet.
 - b. *Commercial, Mixed Use, and Industrial Districts.* No fence or freestanding wall within or along the exterior boundary of the required side or rear yards shall exceed a height of eight feet.
 - c. *Rural Districts.* A fence or freestanding wall up to eight feet in height may be allowed on interior lot lines for screening purposes and livestock fencing.
3. *Decorative Features.* One entry gateway, trellis, or other entry structure is permitted in the required front or street-facing side yard of each lot; provided, that the maximum height or width of the structure does not exceed 10 feet. Such decorative feature shall not have any solid obstruction that exceeds two feet in diameter between the height of three and 10 feet.

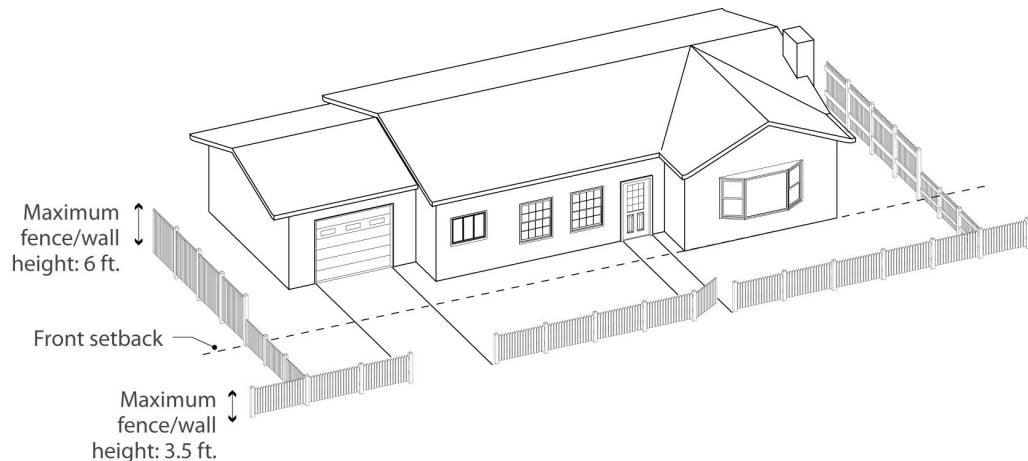

Figure 18.80.090.A. Fences

- B. *Materials.* The following fencing materials are prohibited and/or restricted:
1. Residential and open space districts: barbed wire, razor wire, embedded glass shards, ultra barrier, electrified and other hazardous fencing are prohibited;
 2. Chain link fencing: chain link fencing may only be used:
 - a. Residential districts: when not visible from off site;
 - b. All other districts: when not visible from off site, as temporary fencing for a construction project, or as approved by the zoning administrator.
- C. *Visibility at Intersections.* Notwithstanding any other provisions of this section, fences and walls shall comply with the standards of MCC [18.80.150](#), Visibility at intersections and driveways.
- D. *Corner Lots.* Fences shall be a maximum of three feet in height within the sight distance triangle, unless a waiver is obtained from the hearing officer. Trees or any portion thereof that are located within the street triangle

shall have clearance from two to seven feet as measured from the top of the curb or sidewalk. In the event that the rear property line of a corner lot abuts a side property line of an adjoining key lot, a 10-foot-deep by 20-foot-wide visibility triangle shall be maintained over the corner lot, starting at the intersection of the rear and street side property lines of the corner lot.

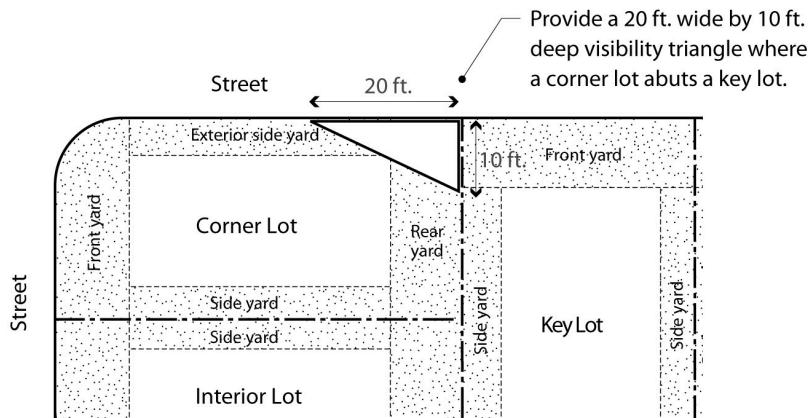

Figure 18.80.090.D. Corner Lot Abutting a Key Lot

E. *Access for Public Utilities.* Where fencing blocks public utility easements, it shall be constructed so those portions required for access to the utilities can be removed or access otherwise ensured.

F. *Rural Districts.* Corral fences for the keeping of livestock may be placed within the required front yard in rural districts. Corral fences shall be constructed of masonry, wrought iron, pipe-rail, split rail, or similar material, and shall maintain a minimum openness of 67 percent of the exterior surface of the fence. Corral fences shall not be constructed of metal wire, such as chain link or barbed wire. Corral fences shall not exceed six feet in height.

G. *Commercial, Mixed Use, and Industrial Districts.*

1. *Exceptions to Height Limits.* A waiver of fence height may be granted by the hearing officer. The maximum height that is allowed with a fence height waiver is six feet in front or street side yards, and 10 feet in interior side or rear yards.

2. *Prohibited Materials.* Chain link fencing is not permitted in any street-facing yard in any commercial or mixed use district or in a location visible from off site. In all commercial and mixed use districts and on the perimeter of industrial districts or street-facing frontages, the use of barbed wire, razor wire, embedded glass shards, ultra barrier, electrified, and other hazardous fencing is prohibited.

H. *Retaining Walls.* The height of a retaining wall shall not exceed that of freestanding wall height limits in subsection (A) of this section. Refer to MCC 18.15.030(E) for measuring wall heights for retaining and freestanding wall combinations. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 401.09; Ord. 14-12 § 1.]

18.80.100 Outdoor storage.

Open storage of goods, materials, machines, equipment, and vehicles or parts outside of a building for more than 72 hours must conform to the standards of this section. The regulations of this section do not apply to temporary storage of construction materials reasonably required for construction work on the premises pursuant to a valid building permit and to agricultural/farming equipment used for agriculture or farming on the property.

A. *Permitted Locations.* Table 18.80.100 states where outdoor storage is permitted.

Table 18.80.100 Open Storage Regulations by District and Location

Base Districts	Permissibility of Open Storage
Rural	Permitted if associated with a permitted agricultural use, located outside of all required setbacks, and screened subject to the standards of this section from adjacent residential properties and public rights-of-way.
Residential, Neighborhood Commercial, and Mixed Use	All storage must be within an enclosed building except as specified for accessory outdoor display (garden centers, plant nurseries, lumber supply areas for home centers), subject to screening standards and to review and approval of a use permit.
Industrial	Not permitted in front or street-facing side yards. Permitted in interior side and rear yards, or outside of required yards, subject to the standards of this section. All outdoor storage for industrial uses such as materials, racking, equipment, vehicles, or other similar items shall be screened from public view, public uses, and public open spaces. Such screening shall consist of a wall or fence with a minimum height of eight feet, or a height that will adequately screen the stored items as determined by the zoning administrator. Chain link fences with woven fabrics slats are not permitted.
Public Facilities and Fleet Maintenance Yards	Not permitted in front or street-facing side yards. Permitted in interior side and rear yards, or outside of required yards, subject to the standards of this section.

B. *Screening and Setbacks.* Storage areas visible from public streets that are not separated from the street by intervening building(s) shall be screened.

1. *Screening Walls.* Screening walls and fences shall be at least eight feet in height. If located on a lot line or in a required yard, they shall not exceed the maximum allowable fence heights in required yards.
2. *Setback.* A setback shall be provided for outdoor stored material at the ratio of 1:1 from all lot lines equal to total height of stored material above required screen wall. Minimum required yards visible from off site and not enclosed by an eight-foot screen wall are required to be landscaped. Outdoor storage areas shall provide the minimum required landscape buffer zones for sites abutting residential zoning districts, as established in Chapter [18.90 MCC](#).

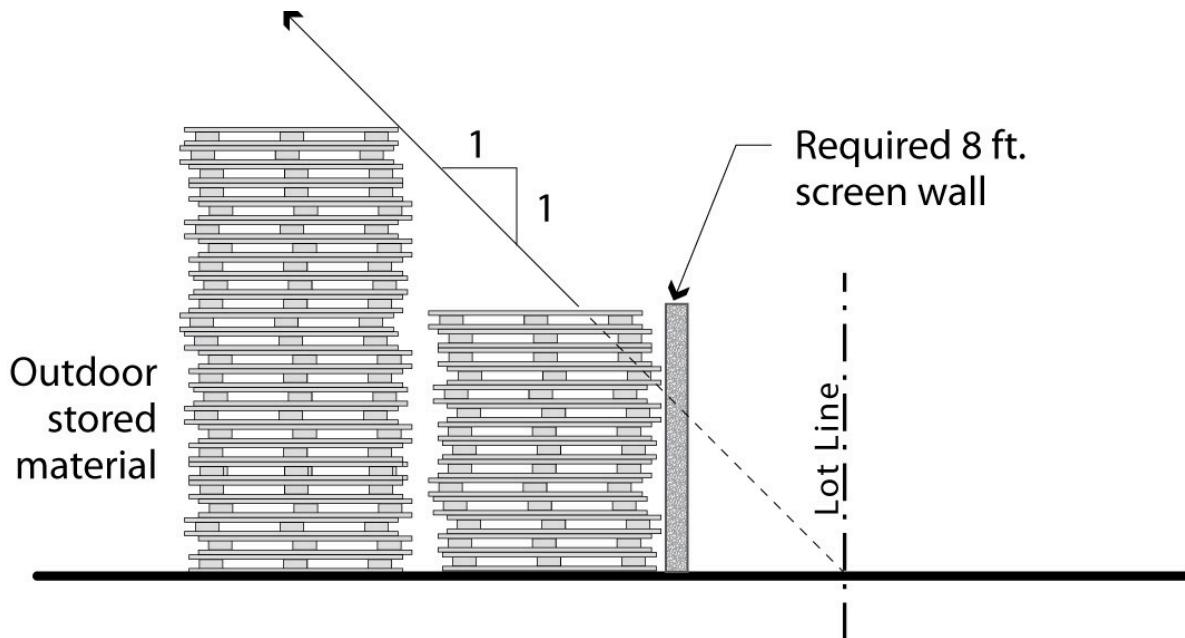

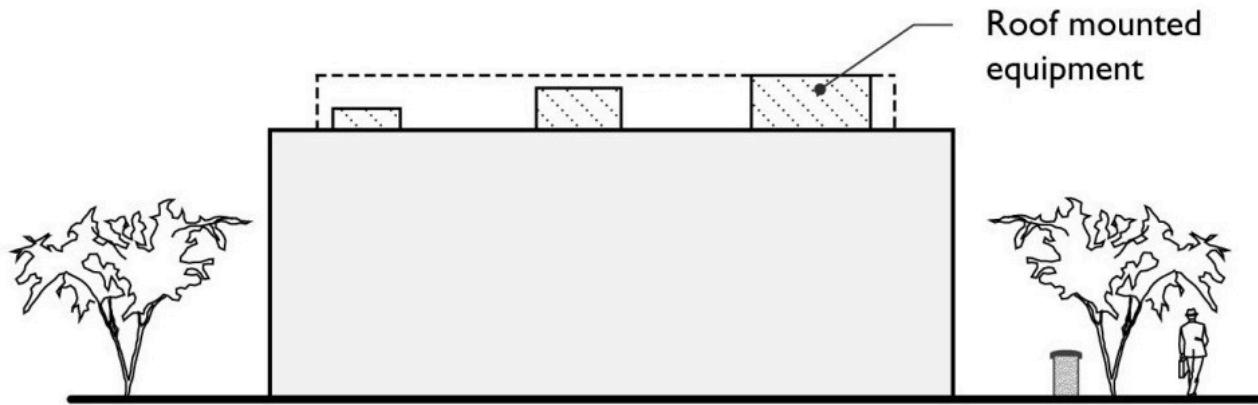

Figure 18.80.100.B. Outdoor Stored Material

[Res. 22-12; Ord. 22-03 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 401.10; Ord. 14-12 § 1.]

18.80.110 Screening.

A. *Screening of Mechanical Equipment.* All exterior mechanical equipment, whether on a roof, on the side of a structure, or located on the ground, shall be screened from public view. Exterior mechanical equipment to be screened includes, but is not limited to, heating, ventilation, air conditioning, refrigeration equipment, plumbing lines, ductwork, transformers, smoke exhaust fans, water meters, backflow preventers, service entry section and similar utility devices. Screening shall be architecturally integrated into the main structure with regard to materials, color, shape, and size to appear as an integral part of the building or structure. Equipment shall be screened on all sides, and screening materials shall be opaque. When screening with plants, evergreen types of vegetation shall be planted and maintained. Plant material sizes and types shall be selected and installed so that at the time of building occupancy such plants effectively screen their respective equipment. The use of wood, expanded metal lath, and chain link for the purpose of screening is prohibited. The following additional screening standards apply:

1. *Roof-Mounted Equipment.* Whenever feasible, roof-mounted equipment screening shall be constructed as an encompassing monolithic unit or a series of architecturally similar screening units on large roofs, rather than as several individual screens (i.e., multiple equipment screens, or "hats," surrounding individual elements shall not be permitted). The height of the screening element shall equal or exceed the height of the structure's tallest piece of installed equipment.

Roof mounted equipment screening shall be an encompassing monolithic unit and shall be the same height as the equipment.

Figure 18.80.110.A.1. Screening of Roof-Mounted Equipment

2. *Ground-Mounted Equipment.* Ground-mounted equipment including but not limited to water meters, backflow preventers, and transformers that faces a street or is not separated from the street by intervening building(s) shall be screened to a height of 12 inches above the equipment unless such screening conflicts with utility access, in which case reasonable accommodation shall be allowed. Screening devices shall consist of decorative walls and/or berms (3:1 maximum slope) with supplemental plant materials including trees, shrubs and ground covers. For screen walls that are three feet high or lower, vegetative materials may be substituted for 50 percent of the screening device. This requirement does not apply to equipment in the interior of a lot that is not visible from the street. Electrical substations, water tanks, sewer pump stations and similar utilities are required to be screened and secured with an eight-foot-high wall.

Figure 18.80.110.A.2. Screening of Ground-Mounted Equipment

3. *Exterior Wall Equipment.* Wall-mounted equipment, including but not limited to electrical meters, electrical distribution cabinets, service entry sections, and valves and cabinets that face a street, public parking and is not recessed and/or separated from the street by intervening building(s) or walls or gates, shall be screened. Screening devices shall incorporate elements of the building design, e.g., shape, color, texture and material. For screen walls that are three feet in height or lower, vegetative materials may be substituted for 50 percent of the screening device. This requirement does not apply to fire related elements.

4. *Upgrades to Existing Mechanical Equipment.* The hearing officer may waive or modify screening requirements for upgrades to existing mechanical equipment if reasonable accommodations are made to meet the intent of this code.
- B. *Truck Docks, Loading, and Service Areas.* Truck docks, loading, delivery, and service bays shall be screened according to the standards of MCC [18.80.130](#) and Chapter [18.90](#) MCC.
- C. *Roof Access Ladders and Fire Sprinkler Risers.* In all new construction, roof access ladders and fire sprinkler risers shall be located internally.
- D. *Trash and Refuse Collection Areas.* Latching view-obscuring gates shall be provided to screen trash enclosure openings where visible from street and/or public parking areas. Gates' swings shall be clear of drive aisles and gates shall have a sign posted that reads, "KEEP GATES CLOSED AT ALL TIMES" (or equivalent). The trash enclosure shall match and complement the color scheme and architecture of the building.
- E. *Parking Areas.* Parking areas and drive aisles shall be screened from street(s) with a combination of perimeter walls made of masonry (or similar material, such as gabion walls) and/or perimeter berms or landscape screening materials with supplemental shrubs and ground covers.
1. The screening device shall vary in height from a minimum of three feet and not to exceed three and one-half feet and shall be offset or staggered in plan by at least 24 inches at intervals of no more than 30 feet or include a mixture of live and solid walls.
 2. The screening device shall vary in height from 12 to 18 inches when lawful display of automobiles, trucks, recreational vehicles, manufactured homes, boats, motorcycles, and utility trailers is adjacent to public streets.
 3. Screen wall and/or berm height shall be measured from the finish grade of the parking lot.
 4. A setback of at least five feet shall be provided between the screen wall and the edge of the parking area.
 5. A setback of at least 10 feet shall be provided between the screen wall and the right-of-way, which may be reduced to five feet if the parking area frontage is 50 feet or less and there are no other conflicts, such as, but not limited to, public utility easements.
 6. The hearing officer may approve alternatives to these screening standards if reasonable accommodations are made to meet the intent of this code.
- F. *Common Lot Lines.* A screening wall shall be provided on the interior lot lines of any lot that contains any commercial use, industrial use, public or semi-public use (except cemetery or public park and recreation facility), or transportation, communication, and utilities use, and abuts a residential district or residential use. Such screening wall shall be provided at the time of new construction or expansion of buildings, or changes from one use classification to another nonresidential use classification.

1. *Location.* Screening walls shall follow the lot line of the lot to be screened, or shall be so arranged within the boundaries of the lot so as to substantially hide from adjoining lots the building, facility, or activity required to be screened.
 2. *Materials.* Industrial uses must provide a solid screening wall of stucco, decorative block, or concrete panel. Screening walls for other uses may be constructed of stucco, decorative block, concrete panel, wood or other substantially equivalent material. Chain link fencing does not fulfill the screening wall requirement.
 3. *Berms.* An earth berm may be used in combination with the above types of screening walls, but not more than two-thirds of the required height of such screening may be provided by the berm.
 4. *Relationship to Fence and Wall Height Limits.* If the minimum required screening wall height exceeds the maximum permitted height of fences and freestanding walls for the zoning district, then a screening wall shall be provided that conforms with the maximum permitted fence height in the applicable portion of the property.
- G. *Screening Along Residential District Boundaries.* A screening wall six feet in height is required wherever a site located in a commercial or mixed use district abuts a residential district. Openings in the wall are allowed for pedestrian access. The zoning administrator may require additional screening elements, up to eight feet in height, if necessary to screen commercial uses.
- H. *Screening and Separation of Parking Areas.* Parking areas located between a building and street shall be screened with a screening wall or berm at least three feet and not to exceed three and one-half feet high. In addition, parking areas shall be separated from on-site buildings by a distance of at least 10 feet, which shall be landscaped and may also include a pedestrian walkway.

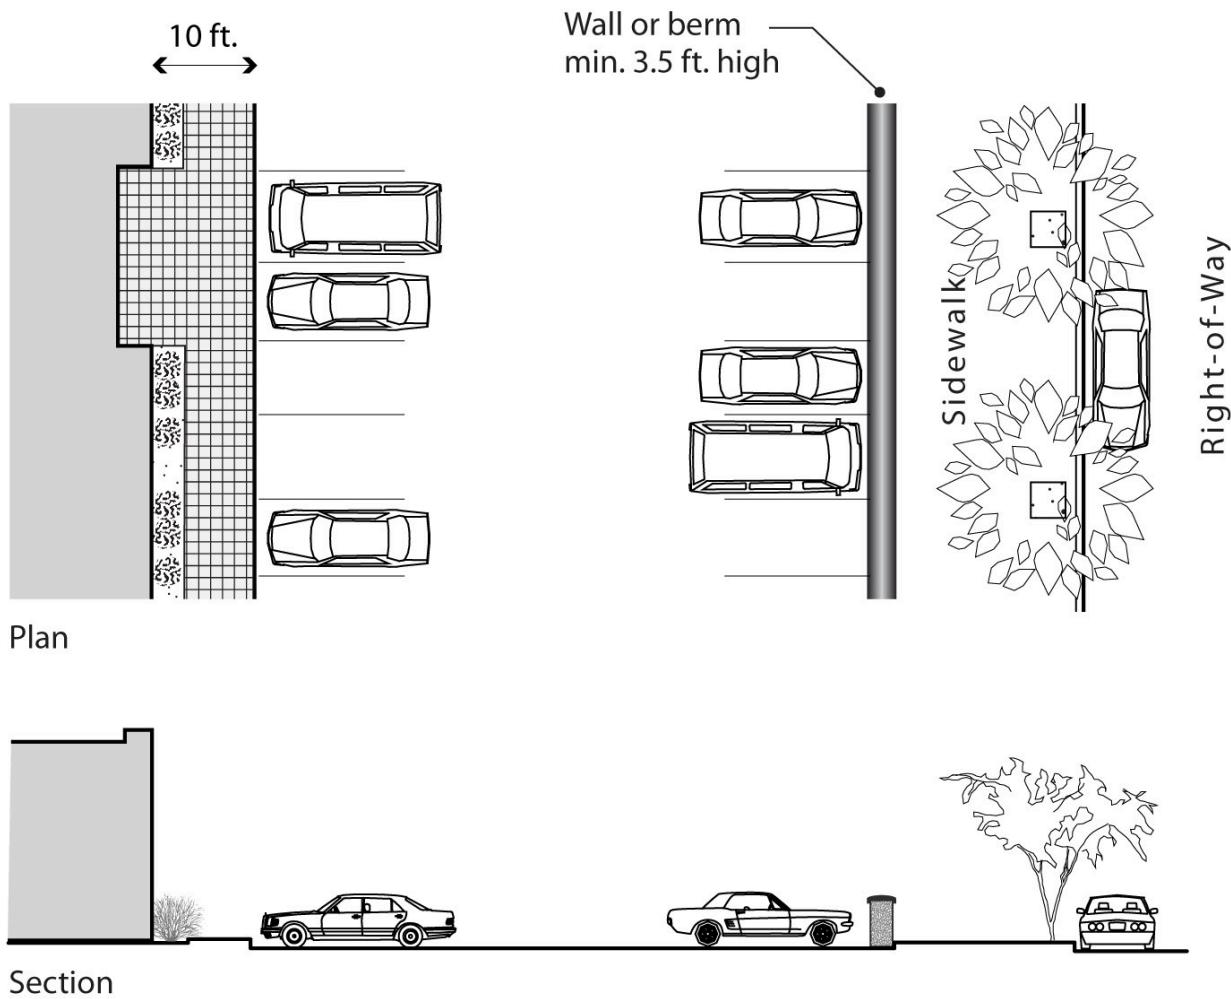

Figure 18.80.110.H. Screening and Separation of Parking Areas

I. *Screening and Location of Accessory Uses.* Outdoor accessory uses, such as, but not limited to, propane storage tanks, fuel storage and dispensing facilities not a part of a gas or service station, donation drop boxes and collection areas, are only permitted as an accessory use within commercial and industrial zoning districts and as an accessory to institutional and assembly uses. Such accessory uses shall not be located within the minimum front and street side building setback and shall meet all other applicable codes and ordinances. Accessory uses shall be shown on a site plan and provide screening and landscape in a manner to obscure views from adjacent roadways. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 401.11; Ord. 14-12 § 1.]

18.80.120 Swimming pools and spas.

A. Swimming pools and spas located in any zoning district must be developed in compliance with the following standards:

1. *Exclusive Use.* If located in a rural or residential district, the swimming pool or spa is to be solely for the use and enjoyment of residents and their guests, unless it is associated with a golf course or resort.
2. *Filtration Equipment.* Swimming pool or spa filtration equipment and pumps shall not be located in the front or street side yard. All pool/spa filtration equipment shall be mounted and enclosed so that its sound is in compliance with Chapter [18.110](#) MCC, Performance Standards.
3. *Pool Setbacks.* Pool setbacks from water edge to lot perimeter barrier/fence shall be a minimum of three feet from the water.

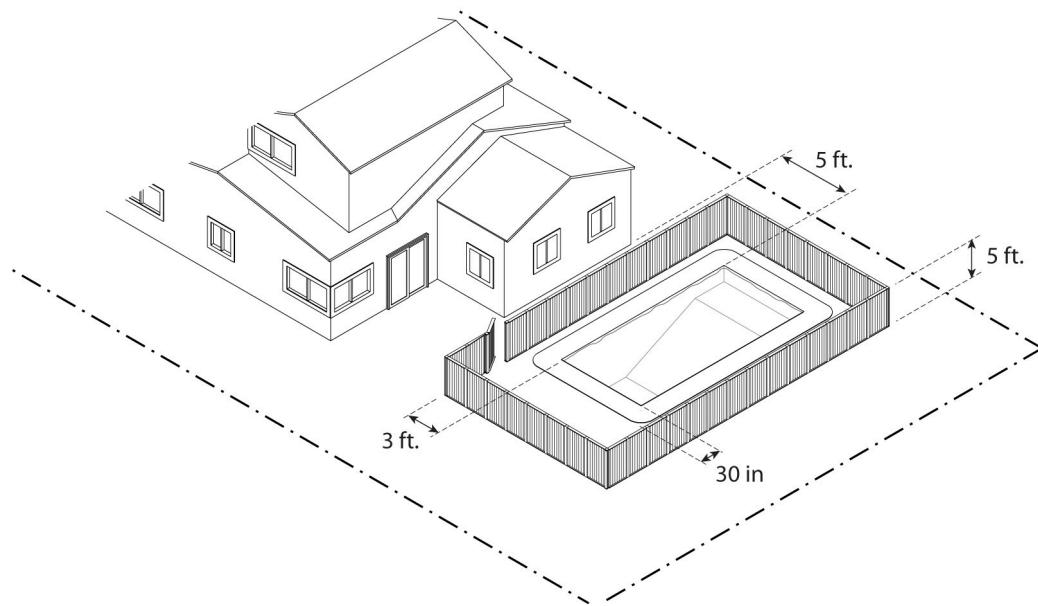

Figure 18.80.120.A.3. Pool Setbacks

4. *Enclosure.* Refer to current adopted building codes for minimum barrier requirements. [Ord. 24-01 § 2; Res. 21-09; Ord. 21-05 § 2; Ord. 14-12 § 1; Res. 14-36 § 401.12.]

18.80.130 Truck docks, loading, and service areas.

- A. In addition to the requirements outlined in Chapter [18.105](#) MCC, all truck docks, loading, and service areas shall be located and screened as follows:

1. *Minimum Distance from Residential District.* Truck docks, loading, and service areas are not permitted within the minimum required transitional setback of the district in which they are located, from any residential district or residential use.
2. *Location on Lot.* In all districts except the rural and industrial districts, truck docks, loading areas, and service areas must be located at the rear or interior side of buildings, rather than facing a street.

3. *Screening.* Truck docks, loading areas, and service areas located in any zoning district shall be screened from any adjacent residential districts or uses. Docks, loading, and service areas in any district except the industrial districts shall be screened from view of adjacent streets. Screening shall consist of a solid masonry wall at least eight feet in height or opaque automated gates. Sustainable development bonus incentives may be available for alternative screening methods; refer to Chapter [18.125](#) MCC. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 401.13; Ord. 14-12 § 1.]

18.80.140 Underground utilities.

All electrical, telephone, cable television, fiber optic cable, gas, water, sewer, irrigation/recycled water, and similar distribution lines providing direct service to a project shall be installed underground within the site. This requirement may be waived by the zoning administrator upon determining that underground installation is infeasible or the electrical line is otherwise exempt from an undergrounding requirement. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 401.14; Ord. 14-12 § 1.]

18.80.150 Visibility at intersections and driveways.

Notwithstanding any other provisions of this section, no fence, wall, shrubbery, sign, or other obstruction to vision between a height of two feet and seven feet above the centerline grades of the intersecting streets shall be erected, placed, planted, allowed to grow, or maintained within the site visibility triangle as specified in MCC Title [17](#), Subdivisions. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 401.15; Ord. 14-12 § 1.]

Chapter 18.85

ADEQUATE PUBLIC FACILITIES

Sections:

- [18.85.010 Purpose and applicability.](#)**
- [18.85.020 General requirements for public improvements.](#)**
- [18.85.030 Transportation improvements.](#)**
- [18.85.040 Sanitary sewer, storm drainage, and water system improvements.](#)**
- [18.85.050 Private utilities coordination.](#)**

18.85.010 Purpose and applicability.

A. *Specific Purpose.* The specific purpose of this chapter is to ensure the timely provision of adequate infrastructure, and promote orderly and efficient development, consistent with the general plan.

B. *Applicability.* This chapter provides general requirements for all new development to ensure that public facilities such as fire access, sewer, water, and storm drainage systems, and other facilities that are located within public rights-of-way, easements, and on land owned by the city. All new development in the city shall meet the minimum established service levels for new development. Conformance with the city's adopted plans, engineering policies, and related standards in the city's subdivision regulations also is required. [Ord. 14-12 § 1; Res. 14-36 § 402.01.]

18.85.020 General requirements for public improvements.

A. *Conformance with Public Facility Standards.* Development plans, when required to establish a use or development, shall conform to the general standards contained in this chapter, prior to the city granting land use or development approval. Public improvement design and construction of sanitary sewer and water systems, storm drainage facilities, transportation facilities, including pedestrian and bicycle pathways, street lights, public parks, or other improvements shall not be undertaken except after the appropriate plans have been approved by the city, permit fees paid, and permits issued.

B. *Impact Analysis.* The city may require an impact analysis prepared by a qualified engineer to determine sanitary sewer system, water system, storm drainage system, traffic, access, circulation and other public facility or private utility mitigation requirements.

C. *Conditions of Approval.* The city may conditionally approve a land use or development application to ensure that the proposed development complies with applicable standards. Public facility improvements required as a condition of approval (i.e., when not otherwise proposed by the applicant), shall be roughly proportional to the impact of development, as required by law.

D. *Construction Plan Review and Permitting.* Public facility improvements (i.e., improvements to be dedicated to the city) shall require a construction permit subject to review and approval by the city engineer prior to commencing work. [Ord. 14-12 § 1; Res. 14-36 § 402.02.]

18.85.030 Transportation improvements.

A. *Multi-Modal Transportation Connections.* All development projects shall provide or be served by a safe, attractive, and functional transportation system that is accessible and accommodates all modes of transportation (automobiles, pedestrian, bicycling, and transit) in conformance with the general plan.

B. *Street Access.* All developments shall have approved access to a public street.

C. *Street Layout and Design.* The layout and design of streets and alleys shall conform to the general plan, MCC Title [17](#), Subdivisions, and all other adopted plans including engineering design standards and cross-sections contained in the city's standard details.

D. *Dedications.* Required dedications shall conform to MCC Title [17](#), Subdivisions and all other adopted plans and policies of the city.

E. *Connectivity.* Appropriate provisions shall include, but are not limited to, a safe, direct, and accessible pedestrian accessway being provided through the site, conforming to the Americans with Disabilities Act (ADA).

F. *Neighborhood Accessibility and Traffic Calming.* Proposed streets, street extensions, driveways, and pedestrian accessways shall be designed and located to slow traffic on local streets between residential neighborhoods and existing or planned commercial services and amenities, such as schools, shopping areas, parks, and transit facilities. Traffic calming features may also be required for the circulation systems and street access points of larger developments on 160 acres or more. Traffic calming measures, such as curb extensions, traffic circles, roundabouts, and special paving at intersections, shall conform to the city's standard details and emergency service provider requirements. Streets, driveways and pedestrian accessways shall also conform to the ADA.

G. *Transit Facilities.*

1. Bus pull-outs, shelter pads, shelters, and related right-of-way and easements may be required when a development is adjacent to an existing or planned bus stop or transit station. These facilities shall be integrated into the overall pedestrian plan of a project and designed consistent with the city's standard details.

2. Pedestrian pathways shall be designed to provide a direct connection between the main building entrance and public sidewalks and transit stops. Landscape plans shall be designed to provide shading of the pedestrian pathways and transit stops, where applicable.

3. Furniture installed at bus stops shall be located to provide an accessible route between components and any switch boxes, mailboxes, utility boxes and similar features.

4. All bus stops shall meet or exceed current ADA requirements for transit.

H. *Street Lights.* Street lights for public streets shall be installed concurrent with other city infrastructure requirements prior to occupancy, and conform to the city's policies and utility requirements. Street light standards for private streets shall be determined through the development plan review.

I. *Street Stubs.* Streets shall be extended to the boundary lines of the parcel or tract to be developed when the decision-making body determines that the extension is necessary to give street access to future development on an adjoining parcel. These street stubs are not considered to be cul-de-sacs. The zoning administrator may require the developer to provide a temporary barricade, and/or turnaround for street stubs over 150 feet in length.

J. *Grades and Curves.* Street grades and curves shall conform to the city's standard details and emergency service provider requirements.

K. *ADA Accessibility.* The design of curbs, curb cuts, driveway approaches, ramps, gutters, sidewalks, and paving shall provide ADA-required accessibility.

L. *Private Streets.* Access control gates shall conform to police, transportation, fire, and refuse access standards and provide emergency access override switches acceptable to the fire marshal. Private streets are required to meet the same construction standards as public streets, and lighting levels shall conform to city standards. The developer must provide a warranty on private streets deliverable to the city. [Ord. 14-12 § 1; Res. 14-36 § 402.03.]

18.85.040 Sanitary sewer, storm drainage, and water system improvements.

A. *Adequate Public Facilities.* Adequate sanitary sewer, storm drainage, and water system facilities, including required fire flow, shall be provided by the developer concurrent with the development. Specific exception to this standard may be approved for development in the MU-H Overlay District; see Chapter [18.75 MCC](#).

B. *Design.* The design of sanitary sewer, storm drainage, and water system facilities shall conform to the city's standard details and engineering policies and private utility company standards where these are separately provided. An approved grading and drainage plan by the engineering division is required prior to development approval. Specific exception to this standard may be approved for development in the MU-H Overlay District; see Chapter [18.75 MCC](#).

C. *Underground Facilities.* All sanitary sewer and water system facilities shall be located underground within public rights-of-way, public utility easements or exclusive easements, with the exception of some valves, mechanical and electrical devices and similar devices, which must be located above ground. Storm water retention facilities are permitted on the surface of the land.

D. *Storm Water Retention Required.* Storm water retention is an integral component of the city's storm water management program and compliance with Arizona Pollutant Discharge Elimination System requirements. Due to limitations of discharge outlets, on-site retention is a high priority element for a successful program to minimize flooding and related property damage. [Ord. 14-12 § 1; Res. 14-36 § 402.04.]

18.85.050 Private utilities coordination.

When a development, addition, or change in use requires new or expanded utility services (e.g., water, telephone, natural gas, cable television, internet, electricity, etc.), the developer/builder is required to contact the appropriate utility companies and coordinate underground installation of the utilities. The city will not participate in the cost of constructing or relocating utilities for private development. The developer/builder also is responsible for contacting the Arizona Department of Water Resources for projects involving wells or ground water withdrawal. The city may require that existing utilities that are above ground be placed underground. [Ord. 14-12 § 1; Res. 14-36 § 402.05.]

Chapter 18.90

LANDSCAPING

Sections:

- 18.90.010 Specific purposes.**
- 18.90.020 Applicability and exemptions.**
- 18.90.030 General requirements.**
- 18.90.040 Site landscaping on non-single-family lots.**
- 18.90.050 Parking lot landscaping.**
- 18.90.060 Alternative compliance.**

18.90.010 Specific purposes.

The specific purpose of this chapter is to establish standards for landscaping. The landscaping standards are intended to:

- A. Improve the appearance of the community by requiring aesthetically pleasing landscaping on public and private sites;
- B. Soften the appearance of urban development;
- C. Ensure appropriately designed and maintained landscaping elements that allow natural surveillance;
- D. Generate and preserve community identity to reinforce a sense of place that is unique to various neighborhoods and districts throughout the city;
- E. Encourage the use of drought-tolerant, native or adapted plant species and demonstrate appropriate design and maintenance techniques and discourage the use of nonnative invasive plants which require more water and have a negative impact on the city's natural environment; and
- F. Provide environmental improvements, such as mitigating air and storm water pollution, providing shade, and reducing the effects of the urban heat island. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 404.01; Ord. 14-12 § 1.]

18.90.020 Applicability and exemptions.

- A. *Applicability.* The regulations of this chapter shall apply to:

- 1. *Proposed Developments.* All buildings and uses of land, except active agricultural buildings located further than 100 feet from public rights-of-way.

2. *Existing Properties.* After the effective date of this code, for any proposed change to the primary exterior features of a building, such as alterations to entranceways, porches, driveways, and front yards, or exterior additions that project into the front yard, an increase in parking, or a change in use or building occupancy designation, the standards of this chapter apply.
- B. *Exempt Projects.* The requirements of this chapter do not apply to:
1. Interior or upper-story additions to existing nonresidential or residential construction that add less than 20 percent to the existing floor area;
 2. The establishment of an accessory use on the same lot as an existing primary use, such as the installation of an accessory office space, with no expansion of floor area or outdoor area occupied; and
 3. A change in occupancy of a building that does not involve a change in the use type (e.g., the use classification). [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 404.02; Ord. 14-12 § 1.]

18.90.030 General requirements.

- A. *Landscaped Areas.* Required landscaped areas shall be maintained free from encroachment by any use, structure, vehicle, or feature not a part of the landscaping design, except for the fire hydrants and related fire protection devices, mailbox clusters, pedestals, poles, cabinets, utility-housing boxes, or other permanent fixtures as approved for emergency or service access.
1. Where turf abuts decomposed granite or similar inorganic landscape material, a hardscape edging material such as brick or concrete curb/mowstrip shall be provided.
 2. Where vehicular cross-access is provided between adjoining properties that are not part of group commercial, office, or industrial development, a 15-foot-wide perimeter landscape yard except where drive aisle occurs shall be provided.
- B. *Tree Size.* Required trees shall meet the growth dimensions specified in the Arizona Nursery Association "Recommended Tree Specification," latest edition, a copy of which will be maintained on file by the planning division and available upon request. The zoning administrator may approve deviations from these minimum specifications based on availability, if a deviation is requested prior to installation.
- C. *Shrubs.* Required shrubs shall have a minimum mature growth height of 18 inches. At least 50 percent of required shrubs shall be a minimum of five gallons in size upon installation, but in no case shall any shrub be less than one-gallon size.
- D. *Ground Cover.* Required ground cover may be of two types:
1. Vegetative ground cover consisting of living plant materials characterized by horizontal as well as vertical growth, generally not exceeding 18 inches in height.

2. Inert ground cover consisting of gravel, decomposed granite, crushed rock, desert tree mulch, or other approved materials. The use of "desert cobble" that looks like the desert floor, consisting of natural desert covers and seed mix, is encouraged. Minimum depth of inert material shall be two and one-half inches.

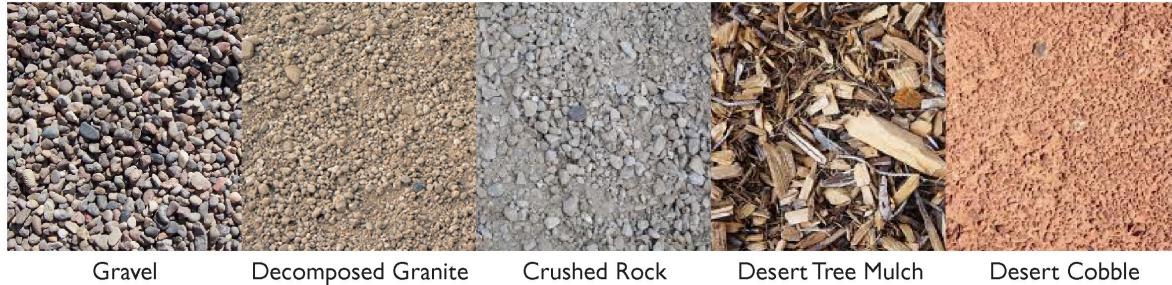

Figure 18.90.030.D. Ground Cover Types

E. *Irrigation Systems.* Required irrigation systems shall be underground automatic watering systems, unless the lot is served by functioning flood irrigation. Irrigation and plantings within three feet of public utilities, such as but not limited to electrical transformers, light poles and fixtures, and communication services, shall be limited to drip systems so as to not overspray to cause undue corrosion to utility structures.

F. *Paving and Hardscape Materials.* Paving and ground treatment shall be an integral part of site and landscape design.

G. *Minimum Open Space Required.* The following indicates the minimum required open space by zoning district:

1. Any parking area landscaping that exceeds the minimum requirements of the code shall be counted as open space if determined by the zoning administrator that the landscape area enhances the general area proposed.
2. Open space does not include parking areas except parking lots for trailheads and/or for the neighborhood parks (not parking lots required for other uses).
3. Bicycle trails (not bike lanes within the pavement section), pedestrian trails, equestrian tracts, and trailheads may also be calculated as open space.
4. Landscape buffers and landscaped medians shall be a minimum of 10 to 15 feet in width in order to be calculated as part of the required open space.
5. Open space does not include retention and/or detention basins that are concrete lined or nonlandscaped, vacant lots, or undeveloped lots.

6. Residential zoning districts shall have a minimum of 60 percent of the required open space for any development and should be developed as "useable" open space with the recreational amenities needed to support the new neighborhood demand incorporated into that open space.

7. Not more than 50 percent of the required open space shall be attributed to golf course use or ancillary golf uses.

H. *Maintenance.*

1. Individual property owners and/or homeowner's associations shall properly maintain all landscape materials and landscape areas, including that within the public rights-of-way adjacent to the development, in accordance with the approved landscape plan, except in and along public rights-of-way and easements where the city of Maricopa has agreed to provide maintenance.

2. Replacement of dead trees and required landscaping shall be by the homeowner's association or the individual property owner and shall be completed within three months from the date that the association or property owner is notified by the city.

Table 1 Open Space Requirements by Zoning Districts

Zoning District	Required Percentage of Open Space
Rural Districts	0% (1 – 49 lots; min. lot size 54,000 sq. ft.)
	2% (50+ lots; min. lot size 54,000 sq. ft.)
	10% (1 – 49 lots; min. lot size 20,000 sq. ft.)
	12% (50+ lots; min. lot size 20,000 sq. ft.)
Residential Districts	15% (1 – 99 lots; min. lot size 12,000 sq. ft.)
	17% (100+ lots; min. lot size 12,000 sq. ft.)
	20% (1 – 99 lots; min. lot size 7,000 sq. ft.)
	22% (100+ lots; min. lot size 7,000 sq. ft.)
Mixed Use Districts	15%
Commercial Districts	10% (20 acres or less in size)
	15% (greater than 20 acres in size)
Industrial Districts	10% (100 acres or less in size)
	15% (greater than 100 acres in size)
Public Institutional Districts	10% (20 acres or less in size)
	15% (greater than 20 acres in size)

[Ord. 24-04 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 404.03; Ord. 14-12 § 1.]

18.90.040 Site landscaping on non-single-family lots.

A. Landscaping in Visible Yards.

1. *Standards.* Off-site street landscaping and on-site landscape buffer setback standards must comply with MCC [17.30.050](#). Street-facing yards, parking areas, and on-site landscaping shall comply with this code.
2. *Allowable Uses.* Yards that are visible from public streets and not used for parking lanes, or pedestrian walkways or allowable outdoor facilities shall be exclusively maintained as landscaped areas with plant materials and may include monument signs, parking screen walls, and retention basins as well as utility boxes and related equipment.
3. *Exceptions.* Outdoor seating for restaurants and cafes may encroach:
 - a. In NC Districts, up to 50 percent of the width of the required landscape area; and
 - b. In mixed use districts, the entire width of the required landscape area. The city encourages the use of tree wells and planters to help define outdoor seating areas and to enhance urban spaces.
4. *Numbers of Plants.* Except as otherwise required by the subdivision regulations, the required on-site plantings for multiple-family, mixed use, commercial, and institutional developments shall include a minimum of one tree and six shrubs per 650 square feet of landscaped area, with 40 percent ground cover. Industrial developments shall provide one tree and six shrubs per 1,000 square feet of landscaped area, with 25 percent ground cover. Where conflict occurs between the provisions of this code and MCC Title [17](#), Subdivisions, the more restrictive provision shall apply.
5. *Minimum Size.* In addition to minimum landscaping required in MCC [17.30.050](#), minimum size of plant materials shall be as follows:
 - a. *Trees.*
 - i. A minimum of 50 percent of the total required trees shall be 24-inch box trees.
 - ii. No trees shall be smaller than 15-gallon size.
 - b. *Shrubs.*
 - i. A minimum of 50 percent of the total required shrubs shall be five-gallon size or larger.
 - ii. No shrubs shall be less than one-gallon size.
 - c. *Substitutions.* Substitutions for the above requirements may be made according to the following table:

Table 18.90.040.A.5.C Tree Substitutions

Tree to be placed on site	15-gallon tree equivalent	24-inch box tree equivalent
24-inch box tree	2 trees	-
36-inch box tree	3 trees	2 trees
48-inch box tree	4 trees	3 trees
60-inch or larger box tree	-	4 trees

6. *Ground Cover.* All landscape areas shall be covered with materials such as three-quarters inch Mountain Vista Brown landscape rock or similar material in combination with supplemental shrubs and ground covers, accents, flowers, and vines.

7. *Retention Basins.*

- a. Retention basins may not occupy more than 50 percent of the minimum required front yard and street side yard setback landscape areas.
- b. Basins along street frontages shall be incorporated into the landscape plan and designed to appear natural or integrated with the site plan and architecture of the site.
- c. Retention basins shall be constructed in accordance with plans approved by the city engineer and shall conform to grading and landscape plans approved by the city of Maricopa.

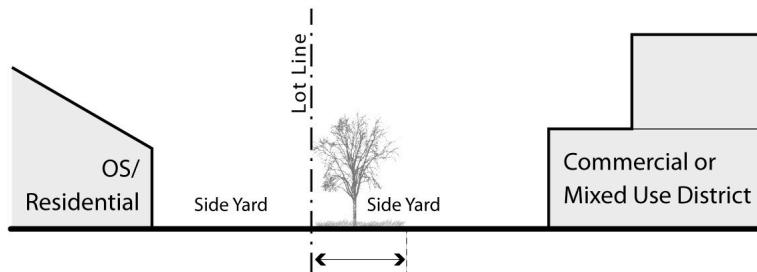

B. *Adjacent Lot Lines.*

1. *Buffer Zones Adjacent to Residential Zoning Districts and Open Space.*

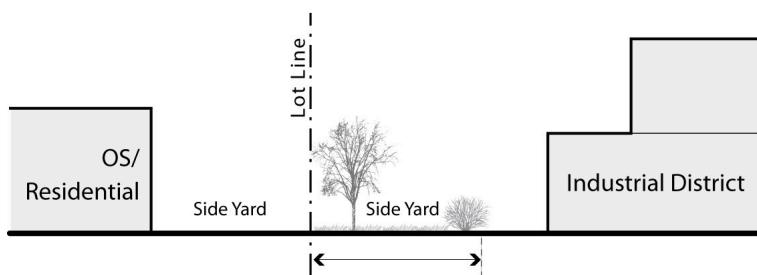

- a. *Requirement.* Properties located adjacent to residential districts, community trail systems, and open space areas shall have a landscaped buffered area with a minimum width of 25 feet for commercial and mixed use districts, and 40 feet for industrial districts. In no case shall it exceed a 3:1 slope. At a minimum, buffer areas shall contain a minimum of one tree and two shrubs every 25 feet, or portion thereof, to provide visual screening between uses in addition to the minimum required landscaping on site.
- b. *Ground Treatment.* The buffer zone except for pedestrian walkways shall be covered with materials such as decomposed granite, desert varnish or cobble, desert tree mulch, or turf, in combination with supplemental shrubs and ground covers, accents, flowers, and vines.
- c. *Areas Visible from Rows, Public Parking or Drive Aisles.* Landscape material placement shall be designed to concentrate plantings in areas of high visibility to screen parking, loading, and trash enclosures from adjacent rights-of-way, properties, and pedestrian areas.

C. *Landscaping of Interior Setbacks.* Where a lot located in a commercial or mixed use district is adjacent to a residential district, at least 25 feet of the depth of such setbacks must be landscaped, and remain free from parking, driveways, and encroachment by any structures that are not part of the landscaping design. For

properties that are adjacent to nonresidential districts, at least 40 feet of the depth of interior setbacks must be landscaped, unless specified elsewhere in this code.

Min. 25 ft. of setback must be landscaped and free from parking or encroachments.

Min. 40 ft. of setback must be landscaped and free from parking or encroachments.

Figure 18.90.040.C. Landscaping of Interior Setbacks

[Res. 22-12; Ord. 22-03 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 404.04; Ord. 14-12 § 1.]

18.90.050 Parking lot landscaping.

A. *Applicability.* The interior parking lot landscaping standards of this section apply to all off-street parking lots containing 10 or more parking spaces with exceptions where shade structures are provided for parking spaces. They do not apply to readapted residential properties in the MU-H Overlay District or vehicle/equipment storage lots or vehicle and equipment sales lots.

B. *Landscape Islands.*

- Parking lot landscape islands shall be installed at each end of a row of stalls and in between for a maximum of eight contiguous parking spaces.

2. Landscape islands shall be a minimum of eight feet wide and 15 feet in length for single-row and 30 feet in length for double-row parking. All measurements are to face of curb. Projects may be eligible for sustainable development bonus incentives if increased landscaping is provided.
3. Radius curbing shall be provided along drive aisles with a minimum four-foot radius.
4. For rows of more than 16 parking spaces, landscape islands shall be staggered.

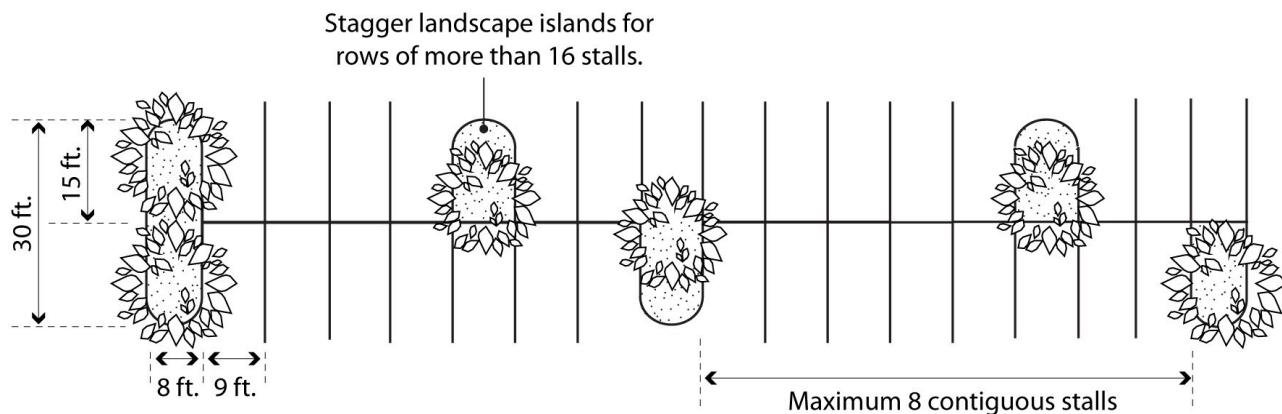

Figure 18.90.050.B.4. Landscape Islands

5. The maximum length of a covered parking canopy shall be 15 contiguous parking spaces. Landscape islands within a row of parking may be eliminated when a conflict with the covered parking canopy occurs. However, landscape islands must be installed at the end of all parking rows.

6. When parking canopies are adjacent to each other in a single row, the total length of each canopy shall not exceed 15 parking stalls and the adjoining canopies shall be separated by at least a 24-foot-wide landscape island as depicted in the following illustration:

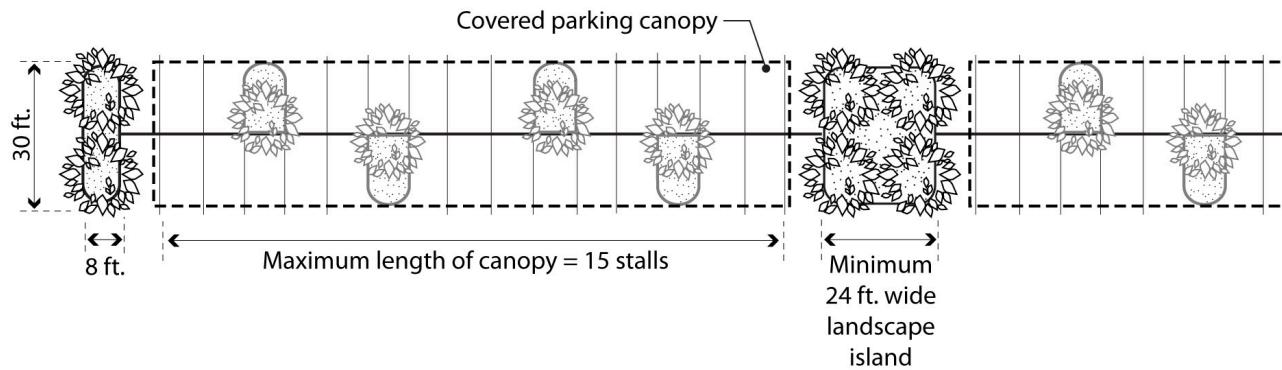

Figure 18.90.050.B.6. Adjacent Canopies

7. For parking lots containing more than 200 spaces, one eight-foot-by-15-foot staggered landscape island may be replaced with two landscape islands of at least 25 square feet clear landscape area each. Each landscape island/planter shall contain at least one tree and three shrubs. These landscape islands/planters

may be designed in any combination of shape and size provided the minimum clear landscape area dimension is five feet.

8. To minimize conflict, a landscape island shall not be located adjacent to an ADA parking stall.

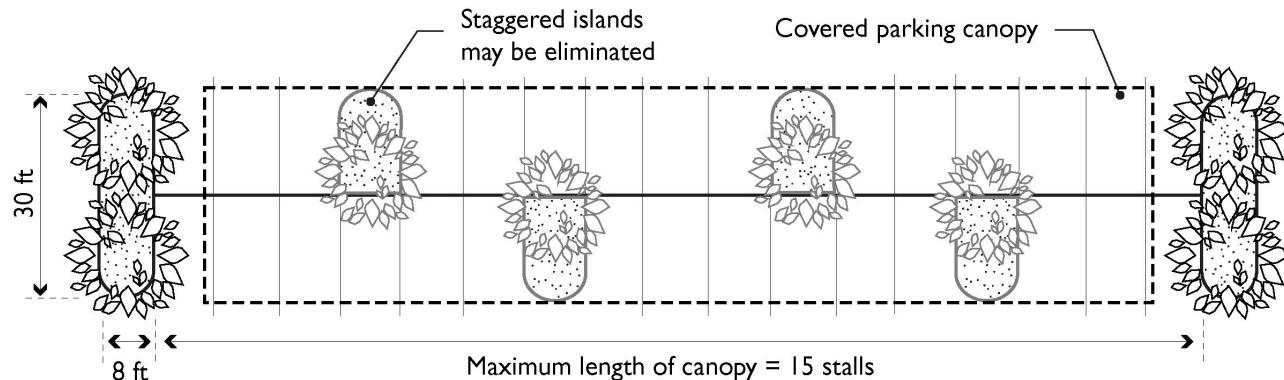

Figure 18.90.050.B.7. Covered Canopies

- C. *Medians*. Where divider medians occur adjacent to head-in parking, vehicle overhang shall be as follows:

1. *Single-Row Parking*. A minimum seven-foot (or nine feet if a two-foot overhang is provided) landscape area is required. The required median width does not include a sidewalk.

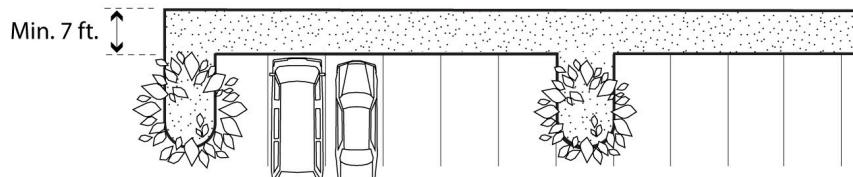

Figure 18.90.050.C.1. Single-Row Parking

2. *Double-Row Parking*. A minimum eight-foot landscape area (or 11 feet if a two-foot overhang is provided on both sides of median) measured from face of curb to face of curb is required where the median width does not include a sidewalk.

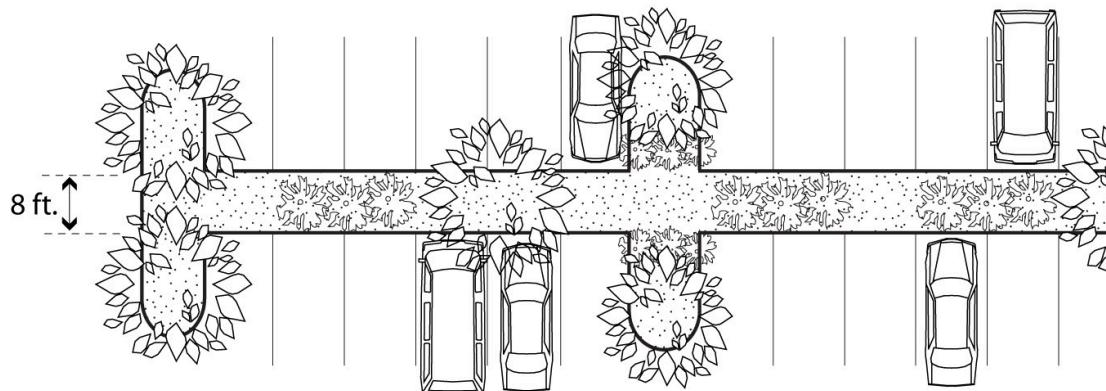

Figure 18.90.050.C.2. Double-Row Parking

3. *Medians with Sidewalks.* When a sidewalk is located within a median, shade trees should be placed so that at least 25 percent of the sidewalk is shaded at noon. The sidewalk shall be no less than four feet in width.

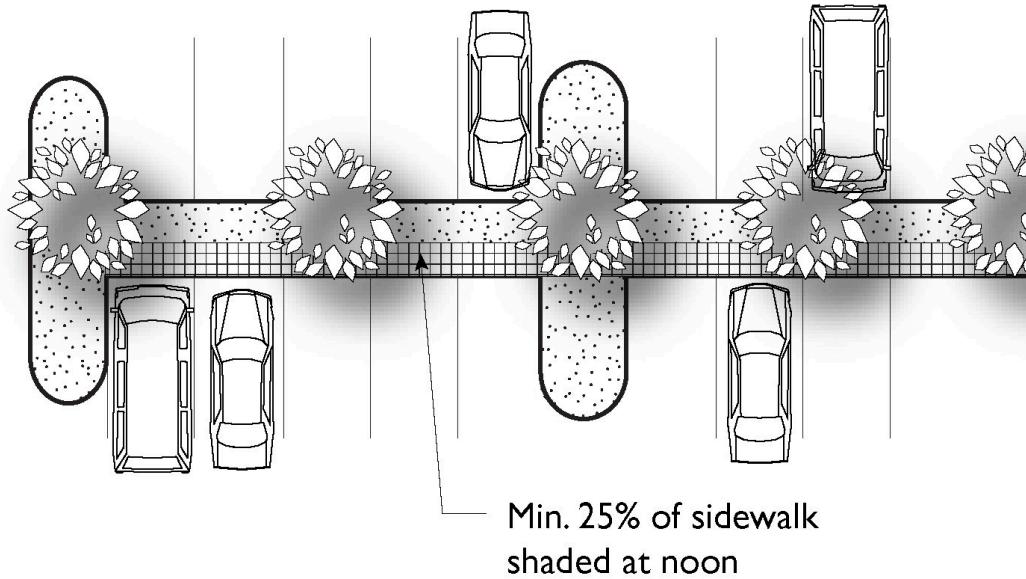

Figure 18.90.050.C.3. Medians with Sidewalks

D. *Plant Materials.*

1. *Number of Plants.*

- a. *Parking Lot Landscape Islands.* One shade tree and three shrubs shall be provided for every 15-foot parking island.
- b. *Parking Lot Divider Medians.* In addition to the above requirements, a minimum of one shade tree and six shrubs shall be provided for every eight parking spaces.

2. *Size of Plants.* A minimum 60 percent of the required trees shall be at least 24-inch box, and the remaining can be a minimum of 15-gallon box. Substitution based on plant size is not permissible for trees planted within the interior of a parking lot.
3. *Ground Cover.* All landscape planting areas that are not dedicated to trees or shrubs shall be permeable. No hardscape materials are permitted in designated planting areas. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 404.05; Ord. 14-12 § 1.]

18.90.060 Alternative compliance.

An applicant who can demonstrate that the intent of this chapter can be exceeded, in whole or in part, may submit an alternative landscape plan (ALP) prepared in accordance with this section. The ALP shall include a narrative that clearly details the modifications being requested and explains how they enhance the landscape design principles listed below.

A. *Required Elements.* In order to qualify for consideration, an ALP shall demonstrate compliance with the following:

1. *Use of Drought-Tolerant or Native Vegetation.* Preservation or incorporation of drought-tolerant or native vegetation.
2. *Compatibility with Surrounding Uses and Desert Environment.* A greater degree of compatibility with surrounding uses and the desert environment than a standard landscape plan would offer. The number of shrubs and trees proposed depends on the type of shrub or tree planted and size at full maturity.
3. *Water Efficiency.* Use of water-efficient irrigation systems and xeriscaping at appropriate locations is essential.

B. *Approval and Required Findings.* ALPs may be submitted in conjunction with any development application, including PAD plans. An ALP may be approved by the reviewing body upon finding:

1. There are unique characteristics of the property, site design, storm water management, or use that warrant special consideration to modify or deviate from the requirements of this chapter and that these characteristics are not self-created.
2. The ALP meets or exceeds the minimum standards for plant materials of this chapter, while recognizing the unusual site design or use restraints on the property and specific characteristics of the landscape design justify declaration from specific members or pre-approved plans established for standard landscape plans.
3. Approval of an ALP will provide for both increased consistency and compatibility with adjacent properties and the natural desert environment.
4. The ALP demonstrates innovative use of plants and efficient use of water. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 404.06; Ord. 14-12 § 1.]

Chapter 18.95

LIGHTING

Sections:

- 18.95.010 Purpose and applicability.**
- 18.95.020 General requirements.**
- 18.95.030 Lighting standards.**
- 18.95.040 Lighting design.**
- 18.95.050 Prohibitions and exemptions.**

18.95.010 Purpose and applicability.

- A. *Specific Purpose.* The specific purpose of this chapter is to restrict the use of outdoor artificial illuminating devices to conserve energy and reduce light pollution, while maintaining adequate visibility for safety on public and private property.
- B. *Conformance with Applicable Codes.* All outdoor artificial illuminating devices shall be installed in conformance with the provisions of this code, MCC Title [17](#), Subdivisions, and the International Green Building Code, when adopted by the city, and the International Energy Conservation Code, as adopted by the city, and all other applicable city ordinances and code requirements. Where any provisions of the Arizona Revised Statutes (A.R.S.), or any federal law, or any companion city code conflicts with the requirements of this chapter, the most restrictive shall govern.
- C. *Approved Material and Methods of Installation.* The provisions of this code are not intended to prevent the use of any material or method of installation not specifically prescribed by this code, provided any such alternate has been approved. The zoning administrator may approve any such alternate; provided, that the proposed design, material or method:
 - 1. Provides approximate equivalence to those specific requirements of this code; and
 - 2. Is otherwise satisfactory and complies with the intent of the code. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 405.01; Ord. 14-12 § 1.]

18.95.020 General requirements.

- A. *Timing Controls.* All lighting in nonresidential development shall be on a time clock or photo-sensor system so as to be turned off during daylight hours and during any hours when the building is not in use and the lighting is not required for security. Exceptions may be approved for low-level architectural or landscape lighting.

B. *Shielding and Filtering.* All lighting shall be designed to confine direct rays to the premises or onto adjacent public rights-of-way.

1. *Shielding.* All exterior illuminating devices, except those exempted from this chapter, shall be fully or partially shielded.

a. "Fully shielded" shall mean that those fixtures shall be shielded in such a manner that light rays emitted by the fixture, either directly from the lamp or indirectly from the fixture, are projected below a horizontal plane running through the lowest point on the fixture where light is emitted.

b. "Partially shielded" shall mean that those fixtures shall be shielded in such a manner that the bottom edge of the shield is below the plane center line of the light source (lamp), minimizing the light above the horizontal.

2. *Filtration.*

a. Those outdoor light fixtures requiring a filter shall be equipped with a filter whose transmission is less than five percent total emergent flux at wavelengths less than 3,900 angstroms. Total emergent flux is defined as that between 3,000 and 7,000 angstrom units.

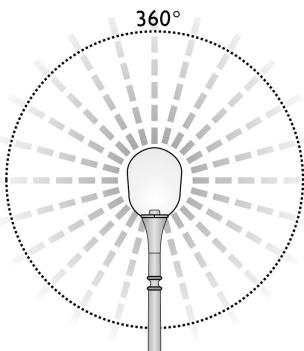

b. Low pressure sodium lamps are the preferred lamp for minimizing adverse effects on astronomical observations.

3. *Requirements for Shielding and Filtering.* The requirements for shielding and filtering light emissions from outdoor light fixtures shall be set forth in the following table:

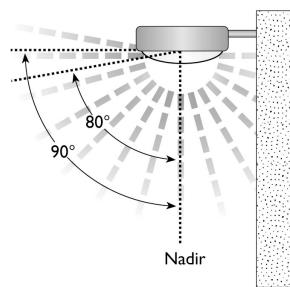

Table 18.95.020.B.3 Requirements for Shielding and Filtering

Fixture Type	Shielded	Filtered (4)
Low Pressure Sodium (1)	Partially	None
High Pressure Sodium	Fully	None
Metal Halide (6)	Fully	Yes
Fluorescent	Fully (5)	Yes (2)
Quartz (3)	Fully	None
Incandescent Greater than 150W	Fully	None
Fossil Fuel	None	None
Glass Tubes filled with Neon, Argon, Krypton	None	None
Other sources	As approved by zoning administrator	As approved by zoning administrator

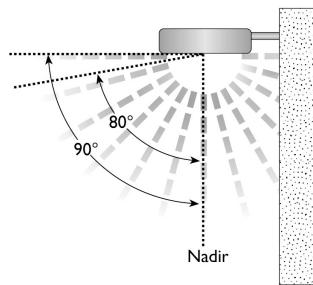

- 1** This is the preferred light source to minimize undesirable light into the night sky affecting astronomical observations.
 - 2** Warm white and natural lamps are preferred to minimize detrimental effects.
 - 3** For the purpose of this code, quartz lamps shall not be considered an incandescent light source.
 - 4** Most glass, acrylic, or translucent enclosures satisfy these filter requirements.
 - 5** Outdoor advertising signs of the type constructed of translucent materials and wholly illuminated from within do not require shielding. Dark backgrounds with light lettering or symbols are preferred.
 - 6** Metal halide display lighting shall not be used for security lighting after 11:00 p.m. (or after closing hours if before 11:00 p.m.) unless fully shielded. Metal halide lamps shall be in enclosed luminaires.
4. *Lighting Levels for Parking and Loading Areas.* The lighting system for parking and loading areas and driveways serving them shall provide not less than 1.0 foot-candle and not more than 5.0 foot-candle overall average illumination, with a minimum of 0.25 foot-candle on the paved surface of the parking and loading areas.

Not Permitted: Non-Cutoff Luminaires

Noncutoff: Unrestricted high-angle illumination. There is no candela limitation in the zone above maximum candela.

Permitted: Cutoff Luminaires

Cutoff: The luminous intensity (in candelas) at or above an angle of 90° above nadir does not numerically exceed 2.5% of the luminous flux (in lumens) of the lamp or lamps in the luminaire, and the luminous intensity at or above a vertical angle of 80° above nadir does not numerically exceed 10% of the luminous flux of the lamp or lamps in the luminaire.

Permitted: Full Cutoff Luminaires

Full cutoff: The luminous intensity (in candelas) at or above an angle of 90° above nadir is zero, and the luminous intensity (in candelas) at or above a vertical angle of 80° above nadir does not numerically exceed 10% of the (in lumens) of the lamp or lamps in the luminaire.

Figure 18.95.020.B. Light Fixture Shielding

5. *Alternative Compliance.* The zoning administrator shall evaluate, and possibly accept or recommend to the decision-making body, alternative lighting requirements and materials. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 405.02; Ord. 14-12 § 1.]

18.95.030 Lighting standards.

- A. All on-site outdoor fixtures, other than bollard lighting or garage coach lights, shall be set back from all lot lines a minimum of 10 feet or a distance equal to the height of the fixture, whichever is greater.
- B. Parking lot and pole-mounted security lighting shall not exceed maximum mounting height of 14 feet within 100 feet of a residential zoning district, or from land designated for residential uses in the general plan. In all other areas, parking and security lighting shall not exceed a maximum height of 25 feet.
- C. Wall-mounted fixtures shall be a maximum height of 12 feet above grade unless greater height is approved by the zoning administrator specifically for residential history accentuating architectural features of a building, accentuating signage, accentuating landscape features, or for security.
- D. Bollard lighting or similar low-mount landscape fixtures shall be used for illuminating pedestrian areas.
- E. Exterior pedestrian pathways and adjacent landscape areas within 20 feet of the pathway shall be illuminated from dusk to dawn, with one-half foot-candle of light at finish grade.
- F. Pedestrian gates shall be illuminated from dusk to dawn, with five foot-candles and two foot-candles within a 15-foot radius. Zoning administrator may approve alternative design methods to meet intent.
- G. Recreational facilities, such as ball fields, may exceed the height limits of a district in compliance with MCC [18.80.080](#). [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 405.03; Ord. 14-12 § 1.]

18.95.040 Lighting design.

- A. All on-site outdoor parking and building lighting fixtures shall be designed with a decorative style that complements the building architecture of the development unless otherwise accepted by the zoning administrator. Examples of decorative lighting are shown in Figure 18.95.040.A.

Figure 18.95.040.A. Light Fixture Examples

B. All public and private streets shall adhere to and install the minimum required streetlights per the city's Design Standard Manual and shall also be of a decorative style as deemed acceptable by the city of Maricopa.

C. The maintenance of street lights shall be the responsibility of the local electrical company and paying of services for the street lights shall be the responsibility of the homeowner's association or adjacent property owner. [Res. 22-12; Ord. 22-03 § 2; Res. 21-09; Ord. 21-05 § 2.]

18.95.050 Prohibitions and exemptions.

A. *Prohibitions.*

1. *Searchlights.* The operation of searchlights for advertising purposes is prohibited.

2. *Recreational Facility.* No outdoor recreational facility, public or private, shall be illuminated after 11:00 p.m. unless a temporary permit for a special event has been approved.

3. *Architectural Lighting.* Unshielded outdoor illumination on buildings is not permitted unless it is at a less than 90-degree angle and of filtration level approved by the zoning administrator. Exterior light fixtures attached to a building and designed as an integral part of the building may highlight building forms and architectural details as long as there is no direct spillover of light onto adjacent property and no light causes a hazard to motorists.

4. *Advertising Sign or Landscape Illumination.* The unshielded outdoor illumination of any advertising sign, landscaping or other purpose is prohibited. However, low voltage accent landscape lighting is allowed.

5. *Mercury Vapor.* The installation of new mercury vapor fixtures is prohibited. Existing mercury vapor fixtures shall be removed and replaced with compliant lighting fixtures wherever substantial alterations and additions are undertaken, exclusive of ordinary maintenance and repair.

6. *Fueling Service Canopies.* All lighting under fueling facility canopies, drive-through canopies, porte-cochères, and similar structures shall be fully recessed. No portion of the fixture shall project below the ceiling of the canopy structure.

B. *Permanent Exemptions.*

1. *Fossil Fuel Light.* Produced directly or indirectly by the combustion of natural gas or other utility-type fossil fuels.

2. *Federal and State Facilities.* Those facilities and lands owned or operated as protected by the U.S. federal government or the state of Arizona are exempted by law from all requirements of this code. Voluntary compliance with the intent of this code at those facilities is encouraged.

C. *Temporary Exemptions.*

1. *By-Right Exemptions.* Temporary emergency lighting needed by police, fire, and other emergency services, as well as temporary lights for holiday decorations.
2. *Request for Temporary Exemptions.* Any individual may submit a written request to the zoning administrator for a temporary exemption from the requirements of this code through filing a temporary use permit pursuant to MCC [18.150.080](#). Such exemption will be valid for up to 30 days, renewable at the discretion of the zoning administrator. The request for temporary exemption shall contain the following listed information:
 - a. Specific exemptions requested;
 - b. Type and use of exterior light involved;
 - c. Duration of time for requested exemption;
 - d. Type of lamp and calculated lumens;
 - e. Total wattage of lamp or lamps;
 - f. Proposed location of exterior light;
 - g. Previous temporary exemptions, if any; and
 - h. Physical size of exterior light and type of shielding provided.
3. *Appeal for Temporary Exemptions.* The zoning administrator, within five days from the date of the properly completed request for temporary exemption, shall approve or reject in writing the request. If rejected, the individual making the request shall have the right of appeal to the hearing officer. [Ord. 23-35 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 405.04; Ord. 14-12 § 1. Formerly 18.95.040.]

Chapter 18.100

NONCONFORMING USES AND STRUCTURES

Sections:

- [18.100.010 Specific purpose and applicability.](#)**
- [18.100.020 Establishment of legal nonconformities.](#)**
- [18.100.030 Nonconforming uses.](#)**
- [18.100.040 Expansion of nonconforming use.](#)**
- [18.100.050 Nonconforming structures.](#)**
- [18.100.060 Abatement.](#)**

18.100.010 Specific purpose and applicability.

This chapter establishes provisions for the regulation of preexisting structures, uses, lots, and sites that were lawful before the adoption or amendment of this code or previously adopted city codes, but which would be prohibited, regulated, or restricted differently under the terms of this code or future amendments to the zoning code or the zoning map. [Ord. 14-12 § 1; Res. 14-36 § 406.01.]

18.100.020 Establishment of legal nonconformities.

- A. *Nonconformities.* Nonconforming status may result from any inconsistency with the requirements of this code, including but not limited to location, density, floor area, height, yards, usable open space, buffering, screening, landscaping, provision of parking, performance standards, or the lack of an approved use permit or other required authorization. Lawful nonconforming uses and structures are addressed in this chapter.
- B. *Nonconforming Uses, Structures, and Lots.* Any lawfully established use or structure that is in existence on the effective date of this code or any subsequent amendment but does not comply with all of the standards and requirements of this code shall be considered legal nonconforming. Legal nonconforming uses and structures may only be continued subject to the requirements of this chapter. [Ord. 14-12 § 1; Res. 14-36 § 406.02.]

18.100.030 Nonconforming uses.

- A. *Classification of Nonconforming Uses.*
 - 1. The zoning administrator may classify lawfully established nonconforming uses for the purpose of determining whether to permit substitution or expansion, subject to the requirements of this chapter. The classification of any use or structure shall be optional and shall be based on written application by a qualified applicant, including such information as may be deemed necessary to determine that the use was lawfully established and to make any other findings that may be required.
- B. *Class I.* Class I nonconforming uses are designated by the zoning administrator after determining that:
 - 1. The existing nonconforming use was lawfully established;
 - 2. The proposed expansion or substitution of the nonconforming use would not be detrimental to public health, safety, or welfare;
 - 3. The proposed expansion or substitution would not be inconsistent with the general plan and would not preclude or interfere with implementation of any applicable adopted area plan;
 - 4. The proposed use will not depress the value of nearby properties; and

5. No useful purpose would be served by strict application of the provisions or requirements of this code with which the use or structure does not conform.
- C. *Class II.* Class II nonconforming uses include any lawfully established nonresidential use that involves one of the following:
1. Storage, use, or generation of hazardous materials, processes, products, or wastes;
 2. Activity that may be detrimental to public health and safety because of the potential to create dust, glare, heat, noise, noxious gases, odor, smoke, and vibration;
 3. Conditions that could be incompatible with surrounding uses; or
 4. Any nonconforming adult-oriented business.
- D. *Changes of Use.* No legal nonconforming use shall be substantially expanded or changed to a different use without approval of a conditional use permit, unless the new use is permitted by right. This requirement does not apply to a change of ownership, tenancy, or management where the new use is in the same classification as the previous use, as defined in this code, and the use is not expanded.
- E. *Change from Nonconforming to Permitted Use.* Any nonconforming use may be changed to a use that is allowed by right in the zoning district in which it is located and complies with all applicable standards for such use.
- F. *Absence of Use Permit.* Any use that is nonconforming solely by reason of the absence of a use permit may be changed to a conforming use by obtaining a conditional use permit.
- G. *Discontinuance of Use.* If a legal nonconforming use is abandoned or discontinued for a period of one year or longer, the use is determined to be abandoned and cannot be continued.
- H. *Parking.* If a use is nonconforming solely with respect to parking standards, the structure devoted to the use may be maintained and repaired, but the use may not be expanded, extended, or intensified in a manner that would increase the required number of off-street parking spaces, unless parking is provided under current standards for the addition or intensification of use only. [Ord. 14-12 § 1; Res. 14-36 § 406.03.]

18.100.040 Expansion of nonconforming use.

Only Class I nonconforming uses may be expanded as follows with approval of a conditional use permit:

- A. *Within a Conforming Structure.* A nonconforming use in a structure that conforms to the applicable requirements of this code and to the requirements of the building code as adopted by the city may expand the floor area that it occupies, subject to the approval of a conditional use permit; provided, that no structural alteration is proposed or made for the purpose of the expansion.

B. *Within a Structure That Does Not Conform to the Building Code.* Any nonconforming use in a structure that does not conform to the building code, as adopted by the city, may not expand the area it occupies until and unless the structure is brought into conformance with all applicable building code requirements.

C. *Expansions to Other Structures or Lots.* A nonconforming use may not be expanded to occupy all or part of another structure or another lot that it did not occupy on the effective date of this code, except as provided in MCC [18.100.030\(D\)](#).

D. *Area Limit.* The expansion of the nonconforming use shall not exceed 50 percent of the floor area that the nonconforming use legally occupies at the time of application.

E. *Abandonment.* No legal nonconforming use may be resumed, reestablished, or reopened after it has been abandoned, vacated, or discontinued for a period of one year, except:

1. The legal nonconforming status of a single residence or duplex residence shall not lapse, regardless of the length of time of nonuse; or
2. The owner/operator can provide evidence of continual operation, including:
 - a. Monthly business receipts and an active business license with no lapse;
 - b. Tax returns received within the previous 12 months; or
 - c. Other materials acceptable by the zoning administrator. [Ord. 14-12 § 1; Res. 14-36 § 406.04.]

18.100.050 Nonconforming structures.

A. *Nonconforming Building or Structure.* This term means any building or structure that was lawfully established and in compliance with all applicable codes and laws, but no longer complies with all applicable regulations and standards of development in the zoning district in which it is located.

B. *Right to Continue.* Any legal nonconforming building or structure that was lawfully established prior to the effective date of this code or of any subsequent amendments to its text or to the zoning map may only be continued and maintained provided there is no alteration, enlargement, or addition to any building or structure; no increase in occupant load; nor any enlargement of the area, space, or volume occupied by or devoted to such use, except as otherwise provided in this chapter. The right to continue a nonconforming building or structure shall attach to the land and shall not be affected by a change in ownership. No substitution, expansion, or other change in use and no alteration or other change in structures is permitted, except as otherwise provided in this chapter. Legal nonconforming structures may be repaired, maintained, or replaced in compliance with the requirements of this section, unless deemed to be a public nuisance because of health or safety conditions.

C. *Enlargements or Alterations.* Nonconforming structures may be enlarged, extended, structurally altered, or repaired in compliance with all applicable laws, subject to the following provisions:

1. Alterations and enlargements that comply with the following, subject to the approval of the zoning administrator:
 - a. Alterations or enlargements necessary to meet city or state requirements; and
 - b. Alterations or enlargements necessary to meet current requirements of the zoning district in which the structure is located or otherwise allowed in that zoning district.
 2. Alterations and enlargements that comply with the following are subject to approval of a conditional use permit:
 - a. Alterations or enlargements that extend into a nonconforming yard or height limit, where the alteration or enlargement would not:
 - i. Further reduce any existing nonconforming yard;
 - ii. Exceed applicable building height limits;
 - iii. Further reduce existing nonconforming lot coverage or floor area ratio requirements; and
 - iv. Increase the required number of off-street parking spaces unless parking is provided under current standards for the addition of the use only.
 3. Alterations or enlargements up to 50 percent of floor area of a legal, nonconforming single residence or duplex residence may be made without providing any additional parking space or changes to an existing driveway; provided, that such alterations or enlargements do not increase the number of dwelling units on the lot and a conditional use permit is approved.
 4. Notwithstanding the requirements of subsection [\(C\)\(3\)](#) of this section, a second unit in compliance with this code may be developed on a lot that contains a nonconforming single-unit dwelling, if the single-unit dwelling is nonconforming only because it does not meet current parking standards. The second dwelling unit may only be established when parking is provided to meet the applicable requirements of this code for both the primary dwelling and the second dwelling unit.
- D. *Maintenance and Nonstructural Repairs.* Maintenance, nonstructural repairs, and nonstructural interior alterations are permitted to a nonconforming structure or to a structure occupied by a nonconforming use, so long as the changes and improvements do not enlarge or extend the structure.
- E. *Structural Repairs.* Structural repairs that do not enlarge or extend the structure, including modification or repair of bearing walls, columns, beams, or girders, may be undertaken only when the building division determines that such modification or repair is immediately necessary to protect public health and safety of the occupants of the nonconforming structure, or occupants of adjacent property, or when the cost of such work does not exceed 50 percent of the appraised value of the nonconforming structure.
- F. *Restoration of a Damaged Structure.*

1. A legal nonconforming building or structure that is damaged or partially destroyed may be restored or rebuilt if the cost of repair or reconstruction does not exceed 50 percent of the appraised value of the building or structure. Replacement of the damaged portions of the building is allowed by right; provided, that the replaced portions are the same size, extent, and configuration as previously existed.
2. If the cost of repair or reconstruction exceeds 50 percent of the appraised value of the building or structure replacement, the land and building shall be subject to all of the requirements of this code. However, the zoning administrator may approve an administrative permit for the structure to be rebuilt to the same size, extent, and configuration as previously existed as long as the previous use is continued or the original use is reestablished, as provided for in this chapter. [Ord. 14-12 § 1; Res. 14-36 § 406.05.]

18.100.060 Abatement.

The provisions of this chapter shall not apply to a use or structure that is or becomes a public nuisance. In the event that a legal nonconforming use or structure is found to constitute a public nuisance, appropriate action may be taken by the city pursuant to MCC [8.20.020](#), Nuisances. [Ord. 14-12 § 1; Res. 14-36 § 406.06.]

Chapter 18.105

ON-SITE PARKING AND LOADING

Sections:

- [**18.105.010 Specific purposes.**](#)
- [**18.105.020 Applicability.**](#)
- [**18.105.030 General regulations and standards.**](#)
- [**18.105.040 Required parking spaces.**](#)
- [**18.105.050 Parking area design.**](#)
- [**18.105.060 Parking reductions.**](#)
- [**18.105.070 Alternative compliance with minimum parking requirements.**](#)
- [**18.105.080 Bicycle and motorcycle parking.**](#)

18.105.010 Specific purposes.

The specific purpose of this chapter is to provide standards for parking and loading facilities to accommodate the various land uses permitted by this code. It is the intent of this chapter to require the minimum number of on-site parking and loading spaces with maneuvering areas, driveways, and surface materials for the efficient movement of vehicular traffic and also to provide flexibility in meeting these requirements for sites with special needs.

Additional purposes of this chapter include:

- A. Ensuring the provision of safe and convenient places to park bicycles and motorcycles;
- B. Providing paved surfaces and alternative dust control measures to control and reduce the amount of dust and particles released to the atmosphere;
- C. Limiting the area of land consumed by parking by allowing reductions to the number of required parking spaces and sharing of parking spaces among multiple uses where appropriate;
- D. Minimizing conflicts between pedestrian and vehicular circulation; and
- E. Reducing the scale of paved surfaces and shading these surfaces, both of which are intended to reduce heat gain that contributes to the urban heat island effect. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 407.01; Ord. 14-12 § 1.]

18.105.020 Applicability.

The parking and loading requirements of this chapter apply to all development in the city. They may be modified pursuant to the provisions for certain zoning districts and overlay districts.

- A. *Additions to Existing Buildings and Changes in Use.* When a change in use, expansion of a use, or expansion of floor area creates an increase of five percent or more in the number of required off-street parking or loading spaces, based on the initially approved and constructed facility or development, off-street parking and loading shall be provided according to the provisions of this chapter. The additional parking shall be required only for such addition, enlargement, or change in use and not for the entire building or site. A change in occupancy is not considered a change in use unless the new occupant is in a different use classification than the former occupant.
- B. *Alterations That Increase Number of Dwelling Units.* If an alteration to an existing building increases the number of residential dwelling units on the site, off-street parking to serve the new dwelling units must be provided according to the provisions of this chapter.
- C. *When Required.* Off-street parking and loading facilities required by this chapter shall be constructed or installed prior to the issuance of a certificate of occupancy for the uses that they serve. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 407.02; Ord. 14-12 § 1.]

18.105.030 General regulations and standards.

- A. *Location.* All required parking and loading spaces and maneuvering areas shall be located on the lot upon which the use served is located. Parking spaces may also be located upon a contiguous lot, within the same zoning district, given the number of required parking spaces are met for both sites, and a city enforceable “off-site parking agreement” is provided in accordance with MCC [18.105.070\(C\)\(3\)](#). Parking spaces and maneuvering areas shall not be located within any RS District or in any required front or street side yard or landscaped area in any zoning district, except driveways that directly and immediately allow a vehicle to access the site from a street or

abutting property. All vehicles shall enter the public rights-of-way in a forward motion except within the RS Districts when driveway access to local streets or private roadways is permitted for individual lots.

B. *Standards.* The following standards apply to required on-site parking and loading spaces, maneuvering areas, and access:

1. Required parking and loading spaces, maneuvering areas, and driveways shall be paved with asphalt, concrete, paving stone, or masonry to a sufficient thickness to withstand repeated vehicular traffic. The zoning administrator, in collaboration with the city engineer, may establish alternative standards for porous surface paving.
2. Required parking spaces shall be permanently marked and shall be accessible from a street or alley by a driveway or aisle such that all vehicles shall approach the street or alley in forward motion, except for single-unit dwellings and agricultural uses.

C. *Compact Parking.* On a site with at least 10 required parking spaces, up to 20 percent of the total required parking spaces may be compact spaces; provided, that the following standards are met:

1. Where covered parking is required all covered parking spaces shall be standard size;
2. All compact spaces are to be designated with a sign or pavement marking; and
3. Compact spaces shall be distributed throughout the parking area, with no more than eight compact spaces in a single row. No more than four compact parking spaces placed end-to-end shall make up any cluster of 10 parking spaces.

D. *Accessible Parking.* Accessible parking spaces shall be provided and maintained pursuant to the federal Americans with Disabilities Act and Arizonans with Disabilities Act of 1992.

E. *Structured Parking.* The exterior elevations of any multi-level parking structure must be designed so as to screen or conceal parked cars from view from public streets and open space on the first and second floors of the structure. The floors of structured parking garages must be screened or concealed by one or more of the following methods:

1. *Ground-Floor Commercial.* The garage's ground-level street frontage (except for driveways and pedestrian entrances) for the designated front of the structure shall be improved with general retail sales, food and beverage sales, eating and drinking establishments, personal services, or similar pedestrian-oriented uses.
2. *Landscaping.* Landscaping shall be provided in the form of perimeter planters within openings, and/or the incorporation of hanging baskets, flower boxes, planting trellises, or desert plants.
3. *Setback.* A parking structure that does not incorporate ground-floor retail or other commercial use or is not otherwise screened or concealed at street frontages on the first and second levels must provide a densely planted landscaped yard that is a minimum of 10 feet in depth, or the required setback for the district in which it is located, whichever is greater.

4. *Combination of Opaque Screen Walls and Open Decorative Panels.* A combination of opaque screening devices and decorative panels may be used to screen parking within aboveground structures. Opaque screen walls shall not be higher than three feet six inches relative to the abutting floor height, and shall not exceed 45 percent of the aggregate surface area of the exterior wall. Decorative panels or other devices with opacity of at least 40 percent shall be used to screen the remainder. The decorative panels shall be constructed of durable materials, such as iron, steel, copper, aluminum, formed concrete, glass block, brick or other textured masonry.

F. *Recreational Vehicle (RV) Parking.* A single recreational vehicle may only be parked or stored on property within a residential district as follows:

1. In a driveway, exterior, or interior side yard, or the rear yard for the purpose of loading or unloading or repairs or maintenance, not to exceed 24 hours before or after a trip; or
2. In a driveway, exterior, or interior side yard, or the rear yard, if at least 10 feet from the rear property line and screened so as not to be visible from the street; or
3. In a garage or accessory structure; and
4. The vehicle does not block access to a sidewalk or driveway.

G. *Size of Parking Spaces and Maneuvering Aisles.* Parking spaces and maneuvering aisles shall be provided to meet the minimum dimensions required by this subsection. Screening walls, roof support posts, columns, or other structural members shall not encroach the minimum required dimensions for parking spaces. A paved space may be reduced by two feet for vehicle overhang if it abuts the landscape median.

1. *Standard Parking Spaces.* The minimum basic dimension for standard parking spaces is nine feet by 18 feet. Table 18.105.030.G.1 shows the dimensions of a stall and aisle according to the angle of parking spaces.

Table 18.105.030.G.1 Standard Parking Space and Aisle Dimensions

Angle of Parking (degrees)	Stall Width	Curb Length Per Stall	Stall Depth	One-Way Aisle Width	Two-Way Aisle Width
Parallel	9 ft.	22 ft.	8 ft.	12 ft.	20 ft.
30°	9 ft.	18 ft.	17 ft. 4 in.	11 ft.	20 ft.
40°	9 ft.	14 ft.	19 ft. 2 in.	12 ft.	22 ft.
45°	9 ft.	12 ft. 9 in.	19 ft. 10 in.	13 ft.	24 ft.
50°	9 ft.	11 ft. 9 in.	20 ft. 5 in.	15 ft.	24 ft.
60°	9 ft.	10 ft. 5 in.	21 ft.	18 ft.	24 ft.
70°	9 ft.	9 ft. 8 in.	21 ft.	19 ft.	24 ft.
90°	9 ft.	9 ft.	18 ft.	24 ft.	24 ft.

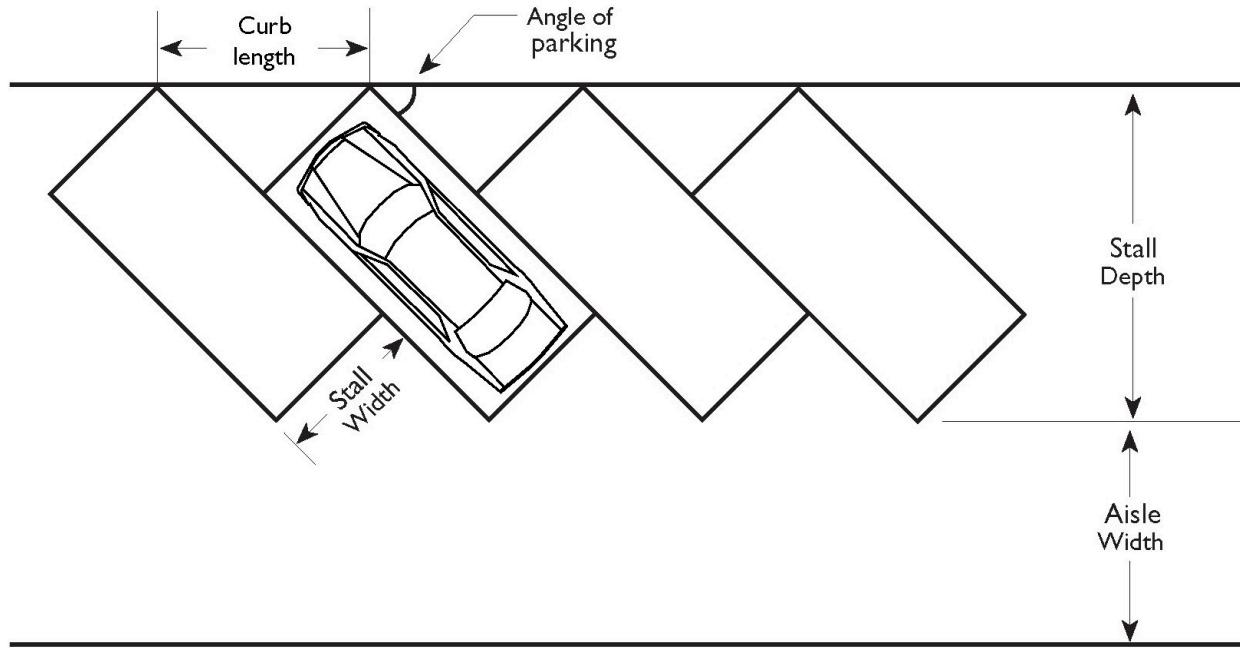

Figure 18.105.030.G.1. Parking Spaces and Aisles

2. *Compact Parking Spaces.* The minimum basic dimension for compact parking stalls shall be eight feet by 16 feet. Table 18.105.030.G.2 shows the dimension of standards and aisles according to the angles of parking spaces.

Table 18.105.030.G.2 Compact Parking Space and Aisle Dimensions

Angle of Parking (degrees)	Stall Width	Curb Length Per Stall	Stall Depth	One-Way Aisle Width	Two-Way Aisle Width
Parallel	8 ft.	22 ft.	8 ft.	11 ft.	20 ft.
30°	8 ft.	18 ft.	14 ft. 11 in.	11 ft.	20 ft.
40°	8 ft.	14 ft.	16 ft. 5 in.	11 ft.	22 ft.
45°	8 ft.	12 ft. 9 in.	17 ft.	11 ft.	24 ft.
50°	8 ft.	11 ft. 9 in.	17 ft. 5 in.	13 ft.	24 ft.
60°	8 ft.	10 ft. 5 in.	17 ft. 10 in.	16 ft.	24 ft.
70°	8 ft.	9 ft. 8 in.	17 ft. 9 in.	16 ft.	24 ft.
90°	8 ft.	9 ft.	16 ft.	21 ft.	24 ft.

H. *Size of Parking Spaces for Loading Vehicles.* Each on-site loading space required by this chapter shall not be less than 12 feet wide, 45 feet long, and 14 feet high, exclusive of driveways for ingress and egress, maneuvering areas and setbacks. The minimum size requirement may be modified if the zoning administrator finds that the applicant

has satisfactorily demonstrated that, due to the nature of the proposed use, such size will not be needed. Space shall be signed for exclusive use for loading vehicle.

1. Required loading spaces:

- a. *Nonresidential Uses.* One loading space for 15,000 – 50,000 square feet of building; two spaces if over 50,000 square feet of building.
- b. *Residential Uses.* One loading space if 50 or more dwelling units on site.

I. *Size of Parking Spaces for Motorcycles, Scooters, and Golf Carts.* Motorcycle and scooter parking spaces shall have a minimum dimension of five feet by nine feet. Golf cart parking spaces shall have a minimum dimension of five feet by 10 feet. All motorcycle and scooter parking areas shall be clearly marked and dedicated to these vehicles.

J. *Electric Vehicle Charging Stations.* In parking facilities containing 20 or more spaces serving multiple-unit dwellings, offices, hotels, and motels, and large-scale resorts, at least five percent of parking spaces shall be electric vehicle (EV) charging stations. For all other uses, EV charging stations are eligible for sustainable development incentives under Chapter [18.125](#) MCC.

1. Each EV charging station shall be clearly marked with a sign reading "Electrical Vehicle Charging Station."
2. EV charging stations may be equipped with card readers, controls, connector devices, and other equipment as necessary for public use. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 407.03; Ord. 14-12 § 1.]

18.105.040 Required parking spaces.

A. *Minimum Parking Requirements.* Table 18.105.040.A specifies the minimum parking spaces required for each use. MCC [18.105.060](#) provides a procedure for reducing these requirements for reasonable cause, and MCC [18.105.070](#) includes provisions for alternative compliance.

Table 18.105.040.A Parking Regulations

Use	Minimum Parking Requirement
Rural Uses	
Animal and Crop Sales	1 space per 100 s/f of sales area
Residential Uses	
Single Unit	
Single Unit Detached	2 covered spaces per dwelling
Single Unit Attached	2 covered spaces per unit
Second Dwelling Unit	1 additional space

Table 18.105.040.A Parking Regulations

Use	Minimum Parking Requirement
Duplex	2.1 spaces per dwelling unit
Multiple-Unit Dwelling	Guest – 0.2 space per unit Studio – 1 space per unit 1 Bedroom – 1.5 spaces per unit 2 Bedroom – 2 spaces per unit 3 Bedroom – 2.5 spaces per unit 4 Bedroom – 3 spaces per unit
Supportive Housing; Transitional Housing	1.2 spaces per dwelling unit for development with distinguishable dwelling units 1 space for each room plus 2 additional spaces for development with congregate dining and no distinguishable separate dwelling units
Senior and Long-Term Care	0.3 space per dwelling unit plus 1 per employee
Residential and Group Care Home	1 space per dwelling unit plus 2 additional spaces. Required spaces may be tandem
Manufactured and Mobile Dwellings	2 spaces for each unit (may include tandem spaces); plus 2 guest parking spaces per 10 (or fraction thereof) dwelling units for the overall development
Public and Semi-Public Uses	
Colleges and Trade Schools, Public and Private	1 space per 200 s/f of classroom plus 1 per 375 s/f of office space
Community Assembly	1 space per 125 s/f used for public assembly
Cultural Facilities	1.5 spaces per 1,000 s/f
Day Care Centers	1 space per 375 s/f
Educational Facility, Public and Private	1 space per 125 s/f for public assembly space, such as auditoriums and theaters Elementary/junior high – 1 space per 300 s/f of classroom plus 1 per 375 s/f of office space Instructional – 1 space per 200 s/f of classroom plus office High school/college – 1 space per 200 s/f of classroom plus 1 per 375 s/f of office

Table 18.105.040.A Parking Regulations

Use	Minimum Parking Requirement
	Vocational – 1 space per 200 s/f of classroom plus 1 per 375 s/f of office
Emergency Shelters and Facilities	1 space per 1,000 s/f
Government Buildings	1 space per 200 s/f
Libraries, Cultural Institutions	1 space per 300 s/f of public area plus 1 per 375 s/f of office space
Hospitals and Clinics	
Hospital	1 space per 400 s/f
Clinic	1 space per 200 s/f 1 space per 150 s/f for urgent care facilities
Parks and Recreation Facilities, Public	Campground – 1 (10' x 30') per campsite plus 1 (10' x 30') per 6 campsites plus 4 per laundry and shower facility All other – 20 per athletic field or ball diamond or 1 per 4 seats, whichever results in more spaces
Public Safety Facility	1 per 250 s/f of office space
Social Service Facility	1 space per 500 s/f
Commercial Use Classifications Uses	
Adult-Oriented Business	1 space per 350 s/f
Animal Sales, Care and Services	
Animal Sales and Grooming	1 space per 250 s/f of sales/service area
Kennels	1 space per 250 s/f of office/service space
Riding Schools and Stables	1 space per 2 horse stalls
Small Animal Day Care	1 space per 250 s/f of office/service space
Veterinary Services	1 space per 250 s/f of office/service space
Automobile/Vehicles Sales and Services	
Automobile Rentals	1 space per 150 s/f of customer service area
Automobile/Vehicle Repair, Major and Minor	3 spaces per service bay plus 1 space per 100 s/f of office and sales area

Table 18.105.040.A Parking Requirements

Use	Minimum Parking Requirement
Automobile/Vehicle Sales and Leasing	1 space per 250 s/f of interior display space; plus 1 space per 3 service bays; plus 1 space per 25 vehicles displayed outdoors
Automobile/Vehicle Washing and Services	1 space per 375 s/f, including service bays, wash tunnels, and retail areas Automated/self-service – 2 spaces minimum Full service – 10 spaces minimum
Large Vehicle and Equipment Sales, Service, and Rental	1 space per 250 s/f of interior display space
Service Station	1 space per 100 s/f of convenience retail sales
Banks and Credit Unions	1 space per 300 s/f
Building Materials Sales and Service	Retail – 1 space per 375 s/f Wholesale – 1 space per 800 s/f
Business Services	1 space per 375 s/f
Commercial Entertainment and Recreation	
Banquet and Conference Centers	Determined by hearing officer
Large-Scale Facility	1 space per 500 s/f of public area Driving ranges – 1 space per tee plus ancillary use requirements
Small-Scale Facility	1 space per 150 s/f or sum of components (courts, day care, office, etc.), whichever is less 10 spaces plus 1 per 200 s/f in excess of 1,000 s/f
Theaters	1 space per 3 seats
Golf Courses and Resorts	2 spaces per tee plus ancillary use requirements
Club or Lodge	1 space per 200 s/f
Commercial Kitchen	1 space per 250 s/f
Eating and Drinking Establishments	
Bars and Lounges	1 space per 100 s/f of customer seating area, and 1 space per 400 s/f for outdoor seating area
Restaurants, Full Service	1 space per 100 s/f of customer seating area, and 1 space per 400 s/f for outdoor seating area

Table 18.105.040.A Parking Requirements

Use	Minimum Parking Requirement
Restaurants, Limited Service	1 space per 75 s/f of customer seating area, and 1 space per 400 s/f for outdoor seating area
Restaurant, Take-Out Only	1 space per 300 s/f of customer seating area, and 1 space per 200 s/f for outdoor seating area
Food and Beverage Sales	
Convenience Market	1 space per 300 s/f
General Market	1 space per 300 s/f
Liquor Store	1 space per 350 s/f
Specialty Food Sales and Facilities	1 space per 300 s/f
Funeral Parlors and Mortuaries	1 space per 100 s/f used for public assembly plus 1 space per 400 s/f of office area
Instructional Services	1 space per 200 s/f of instructional area
Light Fleet-Based Services	1 space per 350 s/f of floor area
Live/Work Quarters	1 space for each 750 s/f of residential area, minimum of 1 space per unit
Lodging	
Hotels and Motels; Bed and Breakfast Inns	0.8 space per room or suite of rooms with individual exits plus ancillary use requirements
Large-Scale Resorts	Determined by hearing officer
Maintenance, Repair, and Rental Services	1 space per 500 s/f
Medical Marijuana Uses	
Dispensary Facilities	Determined by zoning administrator
Cultivation	Determined by zoning administrator
Nurseries and Garden Centers	1 space per 400 s/f of sales and service building, but not less than 4 spaces per use
Office	
Business and Professional	1 space per 375 s/f
Medical and Dental	1 space per 200 s/f
Off-Track Betting Establishments	1 space per 100 s/f of betting area plus 1 space per 400 s/f of office space

Table 18.105.040.A Parking Requirements

Use	Minimum Parking Requirement
Outdoor, Temporary, and Seasonal Sales	1 space per 375 s/f of display area, but not less than 4 spaces per use
Personal Services	1 space per 375 s/f
Retail Sales	
General, Small-Scale	1 space per 300 s/f
General, Large-Scale	1 space per 250 s/f plus 1 per 5,000 s/f of outdoor display area
Tobacco Paraphernalia	1 space per 250 s/f
Industrial Uses	
Artist Studio and Production	1 space per 500 s/f but not less than 2 spaces per use
General Industrial	1 space per 1,000 s/f
Light Industrial	1 space per 600 s/f
Research and Development	1 space per 250 s/f
Salvage and Wrecking	1 space per 500 s/f
Storage and Warehouse	
Chemical and Mineral Storage	1 space per 250 s/f of office area
Indoor Warehousing and Storage	1 space per 5,000 s/f (based on storage space), includes manager's office
Outdoor Storage	1 space per 250 s/f of office area
Personal Storage	4 spaces plus 1 space per 20,000 s/f of storage not drive-up accessible
Wholesaling and Distribution	1 space per 900 s/f
Transportation, Communication, Utility Uses	
Airports and Heliports	2 spaces per aircraft, plus ancillary use requirements
Communication Facilities	
Antennas and Transportation Towers	1 space per service employee
Facilities within Buildings	1 space per service employee
Freight/Truck Terminals and Warehouses	1 space per 1,000 s/f

Table 18.105.040.A Parking Regulations

Use	Minimum Parking Requirement
Recycling Facilities	1 space per 900 s/f
Utilities	
Major	1 space per 250 s/f of office area
Minor	None
Waste Transfer Facility	1 space per 250 s/f of office area

B. *Basis of Calculation.* The on-site parking requirements specified in this section are based on gross floor area, unless otherwise stated.

1. In the case of mixed uses, the total requirements for off-street parking spaces shall be the sum of the requirements of the various uses, computed separately, as specified in this section, and the off-street parking space for one use shall not be considered as providing the required off-street parking for any other use.
2. In case of fractional results in calculating parking requirements from the chart above, the required number shall be rounded up to the nearest whole number if the fraction is one-half or greater.

C. *Covered Spaces.* Covered parking spaces shall be provided as follows:

1. Single-unit dwellings shall provide a minimum of two covered parking spaces per unit, one of which must be enclosed (a garage space).
2. Multiple-unit projects shall provide one covered parking space per unit.
3. Office-use developments shall provide one covered parking space per office or suite.

D. *Minimum Number.* All uses, except single-unit dwellings, shall provide at least four on-site parking spaces.

E. *Maximum Number.* The maximum number of parking spaces shall not exceed 10 percent more than the number required by Table 18.105.040.A, unless the applicant demonstrates that the additional parking is required to meet the anticipated parking demand of the proposed uses and the additional parking will not result in an overdependence on automobiles to the detriment of other modes of access to the site. Additional parking lot landscaping may be required at the discretion of the zoning administrator.

F. *Credit for On-Street Spaces.* On-street parking spaces located immediately adjacent to the frontage of properties may be counted toward required off-street parking at the zoning administrator's discretion. One on-street parking space may be substituted for each required off-street space. These provisions only apply to street frontages where all-day on-street parking is allowed.

G. *Calculation of Parking Requirements for Industrial Uses.* The following standards apply to specified and unspecified tenant spaces in industrial buildings:

1. *Specified Tenants.* Where tenants are specified and listed by name of company, parking is calculated according to uses identified on the floor plan.
 2. *Unspecified Tenants.* Where tenants are not specified, and the use described on the plans is industrial or warehouse, parking is calculated based on 25 percent of the floor space being used for office uses, and 75 percent of the space being used for warehouse use, based on the parking ratios for those uses specified in Table 18.105.040.A.
- H. *Uses Not Specified.* The parking requirement for any use not listed in Table 18.105.040.A, such as, but not limited to, public or private rideshare parking areas, shall be determined by the zoning administrator based upon the requirements for the most similar comparable use, the particular characteristics of the proposed use, and any other relevant data regarding parking demand. In order to make this determination, the zoning administrator may require the applicant to submit a parking demand study or other information, at the applicant's cost. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 407.04; Ord. 14-12 § 1.]

18.105.050 Parking area design.

Regulations of this section are complemented by MCC [18.80.110](#), Screening, and MMC [18.90.050](#), Parking lot landscaping.

- A. *Setback of Cross Drive Aisles.* Parking spaces or cross drive aisles along main drive aisles connecting directly to a street shall be set back at least 50 feet from the property line abutting the street to avoid traffic conflicts.

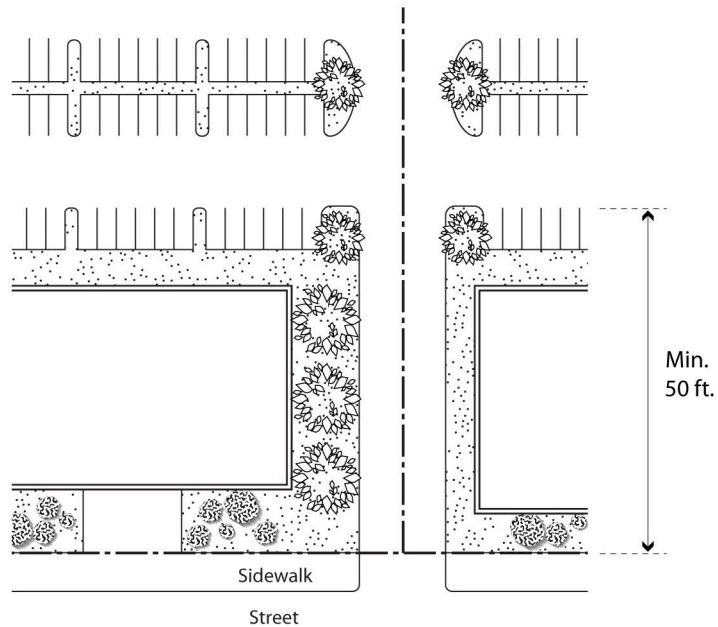

Figure 18.105.050.A. Setback of Cross Drive Aisles

B. *Parallel Parking Spaces Abutting Wall or Fence.* Each parallel parking space abutting a wall, fence, column, or other obstruction higher than one-half foot shall be increased by two feet on each obstructed side; provided, that the increase may be reduced by one-quarter foot for each one foot of unobstructed distance from the edge of a required aisle, measured parallel to the depth of the parking space.

C. *Optional Double-Line Striping.* Each parking space shall measure nine feet from center to center, with double stripes two feet apart.

D. *Minimum Dimensions for Residential Carports.* Each single-car carport shall measure at least 10 feet wide by 20 feet long. Each double carport shall measure at least 18 feet wide by 20 feet long. The width of the carport is to be measured from inside face of support to inside face of opposite support. The carport roof shall cover the entire 20-foot length of the space.

E. *Surfacing.* All parking spaces and driveways shall be paved and maintained with asphalt or other surface approved by the zoning administrator. Plans shall contain a cross-section of the parking lot indicating the composition and thickness of the materials to be used, as well as indicating the structural strength of the parking area. Any approval of an alternative dust-control surface by the zoning administrator shall specify and require routine maintenance method(s) and schedule. Failure by the owner of the site to maintain the alternative surface according to the approved method(s) and schedule shall be considered a violation of this code.

F. *Circulation and Safety.*

1. *Internal Circulation.*

- a. Visibility shall be assured for pedestrians, bicyclists, and motorists entering individual parking spaces, circulating within a parking facility, and entering or leaving a parking facility.
- b. Internal circulation patterns, and the location and traffic direction of all access drives, shall be designed and maintained in accordance with accepted principles of traffic engineering and traffic safety.
- c. Off-street parking and loading areas shall be provided with sufficient maneuvering room so that all vehicles can enter and exit from a public street by forward motion only. This regulation does not apply to parking areas serving single-unit dwellings served by individual driveways. The maneuvering of vehicles necessary to enter or exit loading areas shall not occur on city streets.
- d. Parking lots shall be designed so that sanitation, emergency, and other public service vehicles can provide service without backing unreasonable distances or making other dangerous or hazardous turning movements.

2. *Parking Lot Layout.* No more than 200 parking spaces shall be allowed together in one group or cluster. Parking lot clusters shall be separated by landscaping, pedestrian connections, cross aisles, retention basins or similar features.

- a. In office projects, a minimum of 25 percent of the required parking spaces shall be provided within 200 feet of the building served, with the balance of the required parking within 400 feet.

- b. In commercial and industrial projects, a minimum of 50 percent of the required parking spaces shall be located within 300 feet of the building served.
- c. In residential mixed use projects, required parking spaces shall be arranged to provide at least one parking space per unit within 200 feet of the dwelling units they are intended to serve.
- d. Drive aisle intersections are to be perpendicular to each other.
- e. Separate vehicular and pedestrian circulation systems shall be provided where possible.

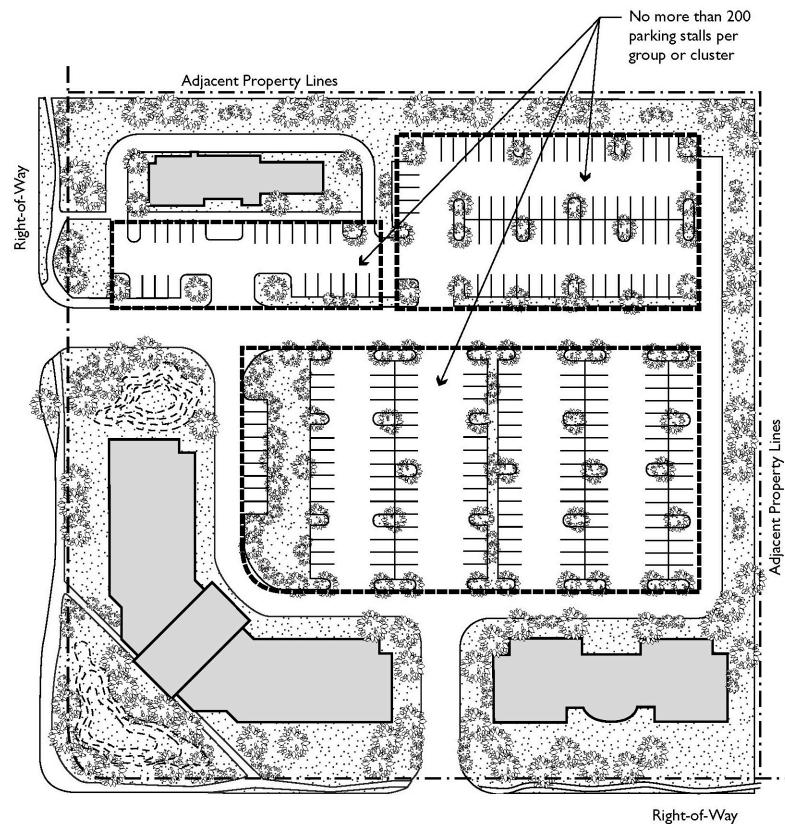

Figure 18.105.050.G.2. Parking Lot Layout

3. *Pedestrian Access in Multi-Unit Development.* Multi-unit residential developments of five or more units must provide pedestrian access that is separate and distinct from driveways.

- a. *Connection to Public Sidewalk.* An on-site walkway shall connect the main building entry to a public sidewalk on each street frontage. Such walkway shall be the shortest practical distance between the main building entry and sidewalk, generally no more than 125 percent of the straight-line distance.
- b. *Materials and Width.* Walkways shall provide at least four feet of unobstructed width and be hard-surfaced.

4. *Pedestrian Access in Commercial and Mixed Use Development.* Parking areas for commercial and mixed use developments that are 80 feet or more in depth and/or include 50 or more parking spaces must have distinct and dedicated pedestrian access from the commercial use to parking areas and public sidewalks, according to the following standards:

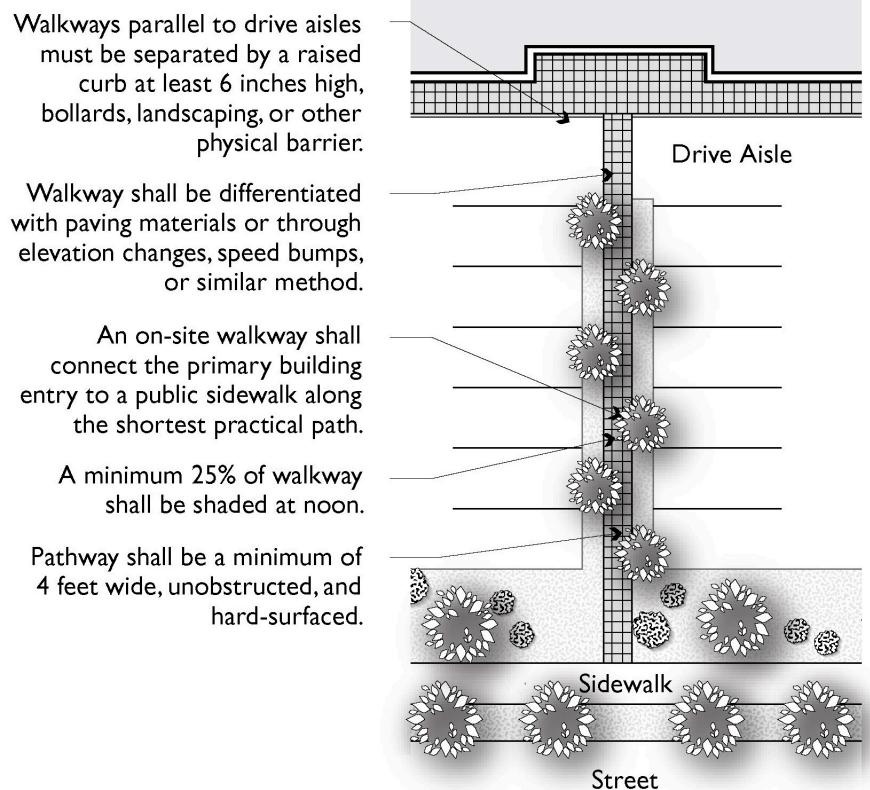

Figure 18.105.050.G.4. Pedestrian Access through Parking Areas

- a. *Connection to Public Sidewalk.* An on-site walkway shall connect the main building entry to a public sidewalk on each street frontage. Such walkway shall be the shortest practical distance between the main building entry and sidewalk, generally no more than 125 percent of the straight-line distance.
- b. *Materials and Width.* Walkways shall provide at least five feet of unobstructed width and be hard-surfaced.
- c. *Identification.* Pedestrian walkways shall be clearly differentiated from driveways, parking aisles, and parking and loading spaces through the use of elevation changes, a different paving material, a different color, or similar method.

- d. *Separation.* Where a pedestrian walkway is parallel and adjacent to an auto travel lane, it must be raised and separated from the auto travel lane by a raised curb at least six inches surfaced high, bollards, or other physical barrier.
5. *Pedestrian Access in Industrial Development.* Parking areas for industrial developments, including manufacturing, warehousing, call centers, and similar employment uses, that are 80 feet or more in depth and/or include 50 or more parking spaces must have distinct and dedicated pedestrian access from the industrial use to parking areas and public sidewalks, according to the following standards:
- a. *Connection to Public Sidewalk.* An on-site walkway shall connect the main building entry and/or primary employee entrance and exit to a public sidewalk on each street frontage. Such walkway shall be the shortest practical distance between the main building entry and sidewalk, generally no more than 125 percent of the straight-line distance. This distance may increase up to 50 percent of the total straight-line distance in the event the route is designed to take account of afternoon shade patterns from buildings or similar shading devices.
 - b. *Materials and Width.* Walkways shall provide at least five feet of unobstructed width and be hard-surfaced.
6. *Minimum Lighting Levels.* All parking and loading areas shall meet the lighting requirements of MCC [18.95.020\(B\)](#).

G. *Alternative Parking Area Designs.* Where an applicant can demonstrate to the satisfaction of the decision-maker that variations on the dimensions otherwise required by this section are warranted in order to achieve environmental design and green building objectives, including, but not limited to, achieving certification under the LEED™ Green Building Rating System or equivalent third-party system, a specific parking area design may be approved. Sustainable development bonus incentives may be available for projects that apply alternative designs, as described in Chapter [18.125](#) MCC. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 407.05; Ord. 14-12 § 1.]

18.105.060 Parking reductions.

Required parking for any use may be reduced through approval of an administrative use permit.

A. *Criteria for Approval.* An administrative use permit for reduced parking shall only be issued if the following criteria are found to be true:

1. Special conditions, including but not limited to the nature of the proposed operation; proximity to frequent transit service; transportation characteristics of persons residing, working, or visiting the site; or parking facilities exist that will reduce parking demand at the site;
2. The use will adequately be served by the proposed parking, including any shaded parking; and
3. Parking demand generated by the project will not exceed the capacity of or have a detrimental impact on the supply of on-street parking in the surrounding area considering the days and times of parking demand.

B. *Parking Demand Study.* In order to evaluate a proposed project's compliance with the above criteria, the zoning administrator may require submittal of a parking demand study that substantiates the basis for granting a reduced number of spaces and includes any of the following information:

1. Total square footage of all uses within existing and proposed development and the square footage devoted to each type of use.
2. A survey of existing on-street and off-street parking within 350 feet of the project site.
3. Standard parking requirements for the use, based on Table 18.105.040.A.
4. Estimated parking demand for the use, using any available existing parking generation studies from the Institute for Transportation Engineers (ITE), or other professionally recognized and/or accredited sources. If appropriate parking demand studies are not available, the city may require the applicant to conduct a parking demand survey of a development similar to the proposed.
5. Comparison of proposed parking supply with parking requirements.
6. A shared parking analysis, as appropriate.
7. A description of any other characteristics of the site or measures being undertaken that could result in reduced parking demand, including but not limited to staggered work shifts, staggered opening times, telecommuting, shuttles to transit stations, or similar programs. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 407.06; Ord. 14-12 § 1.]

18.105.070 Alternative compliance with minimum parking requirements.

A. *Authorized Alternatives.* The zoning administrator is authorized to approve alternative compliance parking permits for the following:

1. Off-site parking (see subsection [\(C\)](#) of this section);
2. Valet parking (see subsection [\(D\)](#) of this section);
3. Residential special needs (see subsection [\(E\)](#) of this section); and
4. Community building(s) for residential development (see subsection [\(F\)](#) of this section).
5. Other design requirements (see subsection [\(G\)](#) of this section).

B. Applicants seeking approval of an alternative compliance parking plan must secure approval by the city's zoning administrator.

C. *Off-Site Parking.* The zoning administrator may permit all or a portion of the required off-street parking spaces to be located on a remote and separate lot from the lot on which the principal use is located, subject to the standards of this section.

1. *Location.* No off-site parking space may be located more than 1,000 feet from the primary entrance of the use served, measured along the shortest legal, practical walking route. This distance limitation may be waived by the zoning administrator if adequate assurances are offered that van or shuttle service will be operated between the shared lot and the principal use.

2. *Zoning Classification.* Off-site parking areas are accessory to the principal uses that the parking spaces serve. Off-site parking areas require the same or a more intensive zoning classification as required for the most intensive of the uses served by the shared parking area.

3. *Off-Site Parking Agreement.* An agreement providing for the use of off-site parking, executed by the parties involved, must be filed with the zoning administrator, in an approved form. Off-site parking privileges will continue in effect only as long as the agreement, binding on all parties, remains in force. Agreements must guarantee long-term availability of the parking, commensurate with the use served by the parking. If an off-site parking agreement lapses or is no longer valid, then parking must be provided as otherwise required by this chapter.

D. *Valet Parking.* Valet parking may be authorized through an administrative use permit as a means of satisfying up to 100 percent of otherwise applicable off-street parking ratios. In order to approve an alternative parking plan for valet parking, the zoning administrator must determine that the proposal satisfies the approval criteria of off-site parking (see subsection [\(C\)](#) of this section) and that the valet parking will not cause interference with the public use of rights-of-way or imperil public safety.

E. *Residential Special Needs.* If a developer can demonstrate that a multi-unit residential or supportive housing project designed for residents with special needs, such as senior citizens or handicapped individuals, will not generate a need for as much parking as such a project designed for a general market, the approving body shall have the authority to allow a reduction in the number of required parking spaces. Upon conversion of a senior citizen or other special needs group housing project to a general market apartment or condominium complex, parking must be provided consistent with the requirements of Table 18.105.040.A, as amended from time to time.

F. *Community Building(s) for Residential Developments.* Community buildings used for the common benefit of residents within residential subdivisions or otherwise designed to be used by multiple-residence projects, such as townhouse developments, apartments, residential condominiums, or residential manufactured home parks, may substitute up to 50 percent of required full-size parking spaces with golf-cart spaces, motorcycle/scooter spaces, or bicycle parking.

G. Other design requirements listed within this chapter the zoning administrator shall evaluate, and possibly accept or recommend to the decision-making body, alternative design that meets the intent and spirit of the code. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 407.07; Ord. 14-12 § 1.]

18.105.080 Bicycle and motorcycle parking.

A. *Bicycle Parking.*

1. *Spaces Required.* Bicycle parking is required for multi-unit residential buildings and nonresidential development. Unless otherwise expressly stated, buildings and uses subject to bicycle parking requirements must provide at least three bicycle parking spaces, or at least one bicycle space per 10 off-street vehicle parking spaces actually provided, whichever is greater. After the first 50 bicycle parking spaces are provided, the required number of additional bicycle parking spaces is one space per 20 vehicle parking spaces.
2. *Design and Location.* Required bicycle parking spaces must:
 - a. Consist of racks or lockers anchored so that they cannot be easily removed and of solid construction, resistant to rust, corrosion, hammers, and saws;
 - b. Allow both the bicycle frame and the wheels to be locked using a standard U-lock;
 - c. Be designed so as not to cause damage to the bicycle;
 - d. Facilitate easy locking without interference from or to adjacent bicycles;
 - e. Be located in convenient, highly visible, active, well-lit areas without interfering with pedestrian movements; and
 - f. Have minimum dimensions of two feet in width by six feet in length, with a minimum overhead vertical clearance of seven feet.

B. *Motorcycle and Scooter Parking.* For any nonresidential use providing 50 or more off-street spaces, a maximum of two required off-street parking spaces per 50 vehicle spaces may be reduced in size or otherwise redesigned to accommodate parking for motorcycles and scooters. When provided, motorcycle and scooter parking must be identified by a sign. Motorcycle and scooter parking spaces can be counted toward meeting the minimum number of spaces required for the development. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 407.08; Ord. 14-12 § 1.]

Chapter 18.110

PERFORMANCE STANDARDS

Sections:

- 18.110.010 Specific purposes.**
- 18.110.020 Applicability.**
- 18.110.030 General standard.**
- 18.110.040 Location of measurement for determining compliance.**
- 18.110.050 Noise.**

- 18.110.060 Vibration.**
- 18.110.070 Odors.**
- 18.110.080 Heat and humidity.**
- 18.110.090 Fire and explosive hazards.**

18.110.010 Specific purposes.

The specific purposes of this chapter are to:

- A. Establish permissible limits and permit objective measurement of nuisances, hazards, and objectionable conditions;
- B. Ensure that all uses will provide necessary control measures to protect the community from nuisances, hazards, and objectionable conditions; and
- C. Protect industry from arbitrary exclusion from areas of the city. [Ord. 14-12 § 1; Res. 14-36 § 408.01.]

18.110.020 Applicability.

The minimum requirements and standards in this chapter apply to all land uses and all developments in the city. [Ord. 14-12 § 1; Res. 14-36 § 408.02.]

18.110.030 General standard.

Land or buildings shall not be used or occupied in a manner creating any dangerous, injurious, or noxious fire, explosive or other hazard that would adversely affect the surrounding area. [Ord. 14-12 § 1; Res. 14-36 § 408.03.]

18.110.040 Location of measurement for determining compliance.

Measurements necessary for determining compliance with the standards of this chapter shall be taken at the lot line of the establishment or use that is the source of a potentially objectionable condition, hazard, or nuisance. [Ord. 14-12 § 1; Res. 14-36 § 408.04.]

18.110.050 Noise.

- A. *Purpose.* Certain noise levels must be tolerated by all citizens in order for the normal functions of city life to continue. However, any loud, unnecessary, or unusual noise that is excessive, disruptive, and/or annoying is

subject to regulation as provided in this chapter. Children playing, construction equipment, barking dogs, amplified musical instruments, trash trucks, airplanes, and loud parties are all examples of noise found within the community.

B. *Prohibited Noises, Standards of Acceptable Levels.*

1. The following activities listed in subsections [\(B\)\(2\)](#) through [\(B\)\(5\)](#) of this section are prohibited if they:
 - a. Produce any loud, unnecessary, or unusual noise that is excessive, disruptive, and/or annoying; and
 - b. Are continuous or intermittent for a period of at least 15 minutes; or
 - c. Occur after 10:00 p.m. but before 6:00 a.m. (noise produced as a result of construction or landscape maintenance on golf courses and parks may begin at 5:00 a.m.); and
 - d. Are plainly audible beyond the property line of the property on which conducted; and
 - e. Disturb the peace and quiet of a neighborhood, a reasonable person of normal sensibilities, or are not a temporary event.
2. Allowing or causing any noise by using, operating, or permitting to be played any electronic music device, television, amplifier, musical instrument, or instrument, machine or device used for the production, reproduction or emission of sound.
3. Creating or allowing any noise in connection with the loading or unloading of any vehicle.
4. Owning, possessing, harboring, or permitting any animal or bird which frequently or for continuous duration howls, barks, meows, squawks, or makes other sounds.
5. Allowing or causing any malicious or willful shouting, yelling, screaming, or any other form of raucous vocalization by a person or group of people.

C. *Other Prohibited Noises.*

1. Use of any automobile, motorcycle or other vehicle, engine or motor of whatever size, stationary or moving, instrument, device or thing, in such a manner as to create loud and unnecessary grating, grinding, rattling, or other noise.
2. Operating any mechanical device operated by gasoline, or otherwise, without having a muffler, in good working order and in constant operation, to prevent excessive or unusual noise and smoke; and no person shall use a muffler cutout, bypass, or similar device.
3. Operating or permitting the operation of any sound amplification system in or on a vehicle in such a manner or with such volume as to annoy or disturb the peace and quiet of any reasonable person of normal sensibilities or neighborhood in the vicinity.

4. Operating or permitting the operation of any sound amplification system in or on a vehicle in such a manner that the sound is plainly audible at a distance of 50 feet, or in such a manner that it causes a person's normal sensibilities to be aware of vibration accompanying the sound at a distance of 50 feet.

5. Maintaining or operating an outdoor speaker that is affixed to any structure or placed upon any property where:

- a. The speaker is audible for a distance of more than 50 feet from the source; or
- b. The speaker is 250 feet or closer to a residential district. This restriction shall not apply to intercommunication systems that are utilized from 9:00 a.m. to 6:00 p.m. for the sole purpose of conducting the internal business affairs of the establishment.

This provision does not prohibit use of an outdoor speaker where a temporary use permit has been granted for a special event.

D. *General Exemptions.* The following activities are exempt from the provisions of this chapter:

1. Emergency work necessary to restore property to a safe condition following a fire, accident or natural disaster; to restore public utilities; or to protect persons or property from an imminent danger;
2. Sound made to alert persons to the existence of an emergency, danger, or attempted crime;
3. Activities or operations of governmental units or agencies;
4. Parades, concerts, festivals, fairs, or similar activities that have been approved by the city for a temporary use permit for special events;
5. Athletic, musical or cultural activities or events (including practices and rehearsals) conducted by or under the auspices of public or private schools, and public or private colleges or universities; and
6. Construction, repair, remodeling, demolition, drilling, landscape maintenance, landscaping, lawn or yard work, wood cutting, including crafts and hobbies, or excavation work conducted between 5:00 a.m. through 8:00 p.m. Mondays through Fridays. Also, a person may engage in or allow such activities at that person's residence between 6:00 a.m. and 8:00 p.m. on Saturdays and Sundays.

E. *Temporary Exemptions.*

1. The city manager or designee is authorized to grant a temporary exemption from the requirements established by this chapter if such temporary exemption would be in the public interest and there is no feasible and prudent alternative to the activity, or the method of conducting the activity, for which the temporary exemption is sought.
2. A temporary exemption must be in writing and signed by the city manager or designee and must set forth the name of the party granted the exemption, the location of the property for which it is authorized, and the date(s) and time(s) for which it is effective.

3. A temporary exemption may be granted only for the period of time that is reasonably necessary to conduct the activity, which in no case may exceed 30 days, unless otherwise specified.

4. The following factors shall be considered by the city manager or designee in determining whether to grant a temporary exemption:

- a. The balancing of the hardship to the applicant, the community and other persons in not granting the variance against the adverse impact on the health, safety and welfare of persons adversely affected and any other adverse effects of the granting of the variance;
- b. The nearness of any residence or residences, or any other use;
- c. The level of the sound to be generated by the event or activity;
- d. Whether the type of sound to be produced by the event or activity is usual or unusual for the location or area for which the variance is requested;
- e. The density of population of the area in which the event or activity is to take place;
- f. The time of day or night which the activity or event will take place; and
- g. The nature of the sound to be produced, including but not limited to whether the sound will be steady, intermittent, impulsive or repetitive.

F. *Persons Responsible for Noise Violations.* The person responsible for an activity that violates this section shall be deemed responsible for the violation. If the person responsible for an activity that violates this section cannot be determined, the owner, property manager or agent of the owner, sponsor of the event, lessee or occupant of the property on which the activity is located shall be deemed responsible for the violation. Any person in attendance who engaged in any conduct causing the disturbance may also be deemed responsible for the violation. After three violations on the same property, in addition to the individuals listed above, the owner of the property may also be deemed responsible for the violation.

G. *Exterior and Interior Noise Limits Related to Land Use or Activities Permitted by Zoning.* No use or activity permitted by the zoning code shall create noise levels that exceed the following standards. The maximum allowable noise levels do not apply to noise generated by automobile traffic or other mobile noise sources in the public right-of-way.

Table 18.110.050.G Exterior and Interior Noise Limits

Land Use Receiving the Noise	Noise-Level Descriptor	Exterior Noise Level Standard in Any Hour (dBA)		Interior Noise-Level Standard In Any Hour (dBA)	
		Daytime (6:00 a.m.–10:00 p.m.)	Nighttime (10:00 p.m.–6:00 a.m.)	Daytime (6:00 a.m.–10:00 p.m.)	Nighttime (10:00 p.m. – 6:00 a.m.)
Residential	L_{50}	55	45	40	30
	L_{max}	70	60	55	45
Medical, convalescent	L_{50}	55	45	45	35
	L_{max}	70	60	55	45
Theater, auditorium	L_{50}	-	-	35	35
	L_{max}	-	-	50	50
Church, meeting hall	L_{50}	55	-	40	40
	L_{max}	-	-	55	55
School, library, museum	L_{50}	55	-	40	-
	L_{max}	-	-	55	-

1. *Adjustments to Noise Limits.* The maximum allowable noise levels of Table 18.110.050.G, Exterior and Interior Noise Limits, shall be adjusted as follows. No more than one increase in the maximum permissible noise level shall be applied to the noise generated.

- a. *Ambient Noise.* If the ambient noise level at a noise-sensitive use is 10 dBA or more below the standard, the allowable noise standard shall be decreased by five decibels.
- b. *Duration.* The maximum allowable noise level (L_{50}) shall be increased as follows to account for the effects of duration:
 - i. Noise that is produced for no more than a cumulative period of 15 minutes in any hour may exceed the noise limit by five decibels;
 - ii. Noise that is produced for no more than a cumulative period of five minutes in any hour may exceed the noise limits by 10 decibels; and
 - iii. Noise that is produced for no more than a cumulative period of one minute in any hour may exceed the noise limits by 15 decibels.
- c. *Character of Sound.* If a noise contains a steady audible tone or is a repetitive noise (such as hammering or riveting) or contains music or speech conveying informational content, the maximum allowable noise levels shall be reduced by five decibels.

H. *Acoustic Study.* The zoning administrator may require an acoustic study, at the applicant's sole cost, for any proposed project that could be exposed to noise levels exceeding the limits in Table 18.110.050.G. When the zoning administrator has determined that there could be cause to make adjustments to the standards, a minimum 24-hour duration noise measurement shall be conducted. The noise measurements shall collect data utilizing noise metrics that are consistent with the noise limits presented in Table 18.110.050.G; e.g., L_{max} (0 minutes), L₀₂ (1 minute), L₀₈ (5 minutes), L₂₅ (15 minutes) and L₅₀ (30 minutes). An arithmetic average of these ambient noise levels during the three quietest hours shall be made to demonstrate that the ambient noise levels are regularly 10 or more decibels below the respective noise standards. Similarly, an arithmetic average of ambient noise levels during the three loudest hours should be made to demonstrate that ambient noise levels regularly exceed the noise standards.

I. *Noise Attenuation Measures.* Any project subject to the acoustic study requirements of subsection [\(H\)](#) of this section may be required as a condition of approval to incorporate noise attenuation measures deemed necessary to ensure that noise standards are not exceeded.

1. New noise-sensitive uses (e.g., schools, hospitals, churches, and residences) shall incorporate noise attenuation measures to achieve and maintain an interior noise level of 45 dBA.
2. Noise attenuation measures identified in an acoustic study shall be incorporated into the project to reduce noise impacts to satisfactory levels.
3. Emphasis shall be placed upon site planning and project design measures. The use of noise barriers shall be considered and may be required only after all feasible design-related noise measures have been incorporated into the project. [Ord. 14-12 § 1; Res. 14-36 § 408.05.]

18.110.060 Vibration.

No vibration shall be produced that is transmitted through the ground and is discernible without the aid of instruments by a reasonable person at the lot lines of the site. Vibrations from temporary construction, demolition, and vehicles that enter and leave the subject parcel (e.g., construction equipment, trains, trucks, etc.) are exempt from this standard. [Ord. 14-12 § 1; Res. 14-36 § 408.06.]

18.110.070 Odors.

No use, process, or activity shall produce objectionable odors that are perceptible without instruments by a reasonable person at the lot lines of a site. Odors from temporary construction, demolition, and vehicles that enter and leave the site (e.g., construction equipment, trains, trucks, etc.) are exempt from this standard. [Ord. 14-12 § 1; Res. 14-36 § 408.07.]

18.110.080 Heat and humidity.

Uses, activities, and processes shall not produce any emissions of heat or humidity that cause distress, physical discomfort, or injury to a reasonable person, or interfere with ability to perform work tasks or conduct other customary activities. In no case shall heat emitted by a use cause a temperature increase in excess of five degrees Fahrenheit on another property. [Ord. 14-12 § 1; Res. 14-36 § 408.08.]

18.110.090 Fire and explosive hazards.

All activities, processes and uses involving the use of, or storage of, flammable and explosive materials shall be provided with adequate safety devices against the hazard of fire and explosion. Fire fighting and fire suppression equipment and devices standard in industry shall be approved by the fire department. All incineration is prohibited with the exception of those substances such as, but not limited to, chemicals, insecticides, hospital materials and waste products, required by law to be disposed of by burning, and those instances wherein the fire department deems it a practical necessity. [Ord. 14-12 § 1; Res. 14-36 § 408.09.]

18.115.180 Nonconforming limitations on signs.**18.115.190 Enforcement.****18.115.010 Purpose.**

The purpose of this chapter is to establish comprehensive provisions that will eliminate confusing, distracting and unsafe signs, establish reasonable regulations to promote economic vitality for local organizations and services, and enhance the visual environment of the city of Maricopa. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.01.]

18.115.020 Intent.

The intent of these provisions is to maximize establishment identification, minimize visual clutter, and maintain a high quality of signs throughout the city. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.02.]

18.115.030 Applicability.

The regulations, requirements, and provisions set forth in this chapter shall apply to all signs erected, placed, or constructed within the city. This includes all signage in an approved comprehensive sign plan, wall signs, under canopy signs, monument signs, individual sign panels on a multi-tenant monument sign (which may require a structural permit from the building safety division), temporary banners, and as deemed necessary by the zoning administrator. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.03.]

18.115.040 Exempt signs.

A. *Permits Not Required.* Permits are not required for the following signs; provided, that such signs are subject to all other provisions of this chapter. An electric permit is required for all exterior electronic signs.

1. Standard sign maintenance;
2. Yard, carport or garage sale signs;
3. Political signs;
4. Real estate and open house signs. See MCC [18.115.120\(C\)](#) for regulations;
5. Nameplate signs for individual residences;

6. Messages painted directly on, or adhesive vinyl film affixed to, the exterior surface of existing mineral glass windows; except that the aggregate square footage of such signs shall be calculated as window signage;
 7. Signs required by a county, state or federal agency provided such signs are regulated by those agencies and signs are posted per the regulations as determined by the governing agency;
 8. Portable signs.
- B. *Exempted Signage.* The provisions of this chapter shall not apply to the following:
1. Pennants or insignia of any nation, state, county, city, or school;
 2. Memorial plaques, statuary or remembrances of persons or events noncommercial in nature, or building identification signs and building cornerstones when cut or carved into a masonry surface or when made of noncombustible material and made an integral part of the building or structure;
 3. Works of fine art, historic or cultural artifacts when not displayed in conjunction with a commercial enterprise that may derive direct commercial gain from such display;
 4. Temporary decorations or displays celebrating the occasion of traditionally accepted patriotic, religious or local holidays or events;
 5. Signs that are relevant to the function of the property that are not visible beyond the boundaries of the lot or parcel upon which they are located, or from any public right-of-way;
 6. Signs displayed within the interior of a building;
 7. The placement and maintenance of official traffic, fire and police signs, signals and devices and markings of the state of Arizona and the city of Maricopa or other authorized public agency, and the posting of notices as required by law;
 8. Signs displayed during recognized holidays as identification of temporary sales areas for trees and similar holiday items in conjunction with an approved temporary use permit. Such signs shall be exempted only when displayed within 30 days of the recognized holiday. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.04.]

18.115.050 Prohibited signs.

A. *Prohibited Signs.* Any sign not specifically listed as permitted by this chapter is prohibited, including but not limited to the following:

1. Billboards;
2. Signs mounted, attached, or painted on trailers, boats, or motor vehicles primarily, or left in a location for more than 24 hours, stored, or displayed in a manner intended to attract the attention of the public for

advertising purposes. This does not prohibit the identification of a firm or its principal products on a vehicle operating during the normal course of business for an organization or being taken home;

3. Signs attached to any utility pole or structure, street light, traffic signal, tree, fence, fire hydrant, park bench or other location on public property, unless otherwise specifically addressed in this chapter;
4. The use of pennants, banners, balloons, streamers, and similar displays, except as permitted in MCC [18.115.120](#);
5. Off-site signs, except those listed in MCC [18.115.120](#) and [18.115.130](#);
6. Subdivision weekend directional signs (bandit signs);
7. Signs displayed in a manner or locations that prevent free ingress and egress from a door, window or other exit;
8. Signs displayed in a location in such a manner as to obstruct or interfere with an official traffic sign, signal or device, or signs that obstruct or interfere with the driver's view of approaching, merging or intersecting traffic and signs within the road medians or signs that are otherwise prohibited by this chapter;
9. The use of reader panel signs, except as permitted in MCC [18.115.080](#);
10. Signage on wireless communication facilities unless otherwise required by the city;
11. Signs placed on walls, utility poles and housings, traffic control poles, or control panels, and mailboxes.
[Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.05.]

18.115.060 Rules for sign measurement.

- A. *Sign Area.* "Sign area" is defined and shall be measured as follows:

1. Sign copy mounted or painted on a background panel or area distinctively painted, textured or constructed as a background for the sign copy shall be measured as that area within the outside dimensions of the background panel or surface. The base of a freestanding monument sign shall not be calculated as sign area unless said base contains signage.
2. Sign copy mounted as individual letters and/or graphics against a wall, fascia, or other structure that has not been painted, textured, or otherwise altered to provide a distinctive background for the sign copy shall be measured as a sum of the smallest rectangle that will enclose each word, grouping of such letters, words, or graphics in the total sign copy.

Figure 18.115.060.A.2. Sign Area

3. Multi-face signs shall be measured as follows:

- a. A double-faced sign shall be considered as one sign when determining the sign area, provided both faces are parallel and the distance between faces does not exceed two feet or the interior angle between the two sign faces is 45 degrees or less. If the interior angle is greater than 45 degrees or two feet, the sign area shall be the sum of the area of the two faces and shall be considered as two signs.
- b. Where a sign has three or more faces, the area of the sign shall be calculated as the total sum of the area of all faces and shall be considered as three signs.

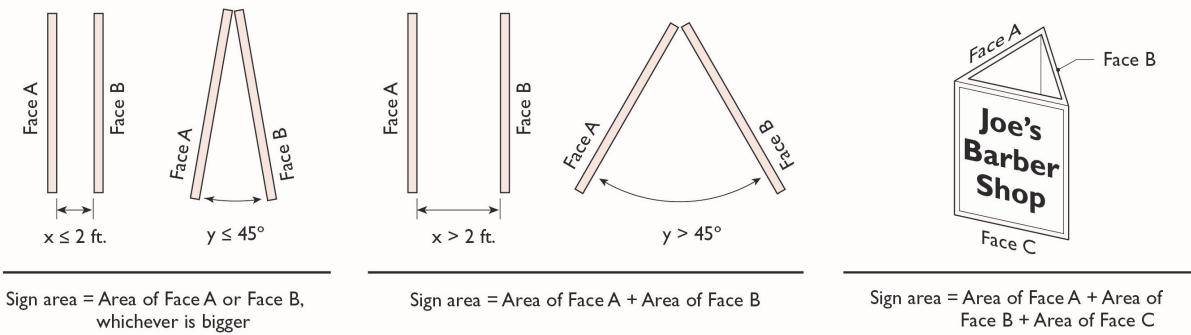

Figure 18.115.060.A.3.b. Multi-Face Signs

- c. Where a sign is a spherical, free-form, sculptural or other nonplanar sign, the sign area shall be 50 percent of the sum of the area of the sides of the smallest polygon that will encompass the sign structure.

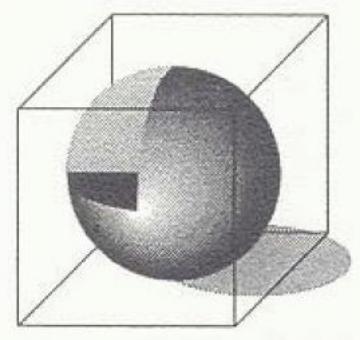

Figure 18.115.060.A.3.c. Nonplanar Signs

4. The aggregate sign area for all signs on a lot or parcel shall be the sum of the areas of all the signs except the area for the following:
- a. Directional signs, assisting in the flow of traffic, which do not exceed an area of three square feet or a height of three feet and do not include advertising or logos;
 - b. Street address wall signs, which do not exceed an area of two square feet;
 - c. Signs necessary for safety, which do not exceed an area of two square feet or height of three feet;
 - d. For sale, lease, or rent signs.
- B. *Sign Height.* "Sign height" is defined and shall be measured as follows:
1. The height of a freestanding monument sign shall be measured as the vertical distance from the top of the highest element of the sign or sign structure to the top of the curb or sidewalk, or the street grade of the nearest adjacent roadway where no curb exists. The height of any monument base or other structure erected to support or ornament the sign, above curb, sidewalk, or street grade, shall be measured as part of the sign height.
 2. Wall or fascia sign height shall be measured as the vertical distance to the top of the sign or sign structure from the base of the wall on which the sign is located. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.06.]

18.115.070 General standards.

- A. *Permit Required.* A zoning permit shall be required for all signs except those signs specified in MCC [18.115.040](#), Exempt signs. The city of Maricopa shall issue a zoning permit only if the proposed sign, construction, alteration, re-erection, maintenance, and location of the sign comply with these regulations.
- B. *Code Compliance.* All signs shall be structurally designed, constructed, erected and maintained in accordance with all applicable provisions and requirements of the city adopted codes.
- C. *Maintenance.* All signs and sign structures, conforming and nonconforming, shall be maintained in good order, repair, and appearance at all times so as not to constitute a danger or hazard to the public safety or create visual blight as determined by the zoning administrator.
- D. *Visibility.* Signs shall not be located in a manner that interferes with pedestrian or vehicular travel, or poses a hazard to either pedestrians or vehicles, or within the specified sight visibility triangle.
- E. *Signs in the Public Right-of-Way.* Signs shall not be located within or projecting over any public street, right-of-way, or other public property, except for city of Maricopa approved kiosk sign structures, under canopy signs and projecting signs as permitted by this code. The city may install signs on its own property.

- F. *Illumination Adjacent to Residential Districts.* Signs directly facing residential districts shall not be illuminated.
- G. *Concealed Electrical Systems.* The source of the sign's illumination, except neon illumination, shall not be visible from any street, sidewalk, or adjacent property. This shall not preclude the use of neon sign elements that shall be limited to use within the commercial zoning districts only.
- H. *Concealed Mechanical Systems.* There shall be no visible angle iron supports, guy wires, braces or secondary supports except in the case of under canopy signs. All sign supports shall be an integral part of the sign design.
- I. *Conflict with Other Provisions.* Where there is a conflict between these regulations and other city regulations or a comprehensive sign plan, the more restrictive shall apply.
- J. *Planned Area Developments.* Signage within approved planned area developments (PAD) may deviate only from the requirements governing the total aggregate sign area and sign dimensional requirements of this chapter provided the PAD or MPD has an approved comprehensive sign plan, and all proposed signage within the PAD is in compliance with an approved comprehensive sign plan.
- K. *Signs Creating a Traffic Hazard or Affecting Pedestrian Safety.* Signs and/or banners shall not be placed in such a manner that they obstruct city required informational, traffic or safety signs.
- L. *Height.* The overall building height is inclusive of any signs projecting above the building or roofline.
- M. *Administrative Interpretation and Discretionary Approval.*
1. Interpretations of this chapter may be made by the zoning administrator pursuant to this section. All interpretations of this chapter are to be exercised in light of the policies, purposes and intent set forth herein.
 2. Whenever a sign permit or other approval is subject to discretion, such discretion shall not be exercised as to message content, but instead shall be directed to structural and location factors, including, as applicable:
 - a. Whether the location and placement of the sign will endanger motorists;
 - b. Whether the sign will cover, blanket or interfere with any prominent view of a structure or façade of historical or architectural significance;
 - c. Whether the sign will obstruct views of users or adjacent buildings to side yards, front yards or open space;
 - d. Whether the sign will negatively impact the visual quality of a public open space, such as a public recreation facility, square, plaza, park, courtyard and the like;
 - e. Whether the sign is compatible with building heights of the existing neighborhood;
 - f. Whether the sign's lighting or illumination system will cause hazardous or unsafe driving conditions for motorists.

- N. *Lighting.* All lighting for signage shall be in conformance with the adopted city of Maricopa codes.
- O. *Electrical Signs.* Where permitted, all electric digital signs shall comply with the following requirements:
 - 1. Each message displayed on an electronic sign must be static or depicted for a minimum of 30 seconds.
 - 2. Where text is displayed on a background, the text shall be brighter than the background, i.e., dark text shall not be displayed on a bright background.
 - 3. Electronic signs may not contain animation or any flashing of lights, moving lights, or any type of video.
 - 4. Lighting from the sign must not exceed an intensity of 0.5 foot-candles of light at the property line.
- P. Government signs displaying government speech are exempt from regulation. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.07.]

18.115.080 Standards for residential and rural districts.

For all signs within the residential and rural zoning districts the following shall apply. Additionally, any residential district that has an approved PAD or MPD may apply for a comprehensive sign plan.

- A. *Total Signage.*
 - 1. *Multiple Unit Uses.* Only one sign per individual unit or dwelling may be permitted. A maximum of two freestanding monument signs per development may be permitted.
 - 2. *Nonresidential Uses.* Maximum of one wall sign and one monument sign may be permitted. If located on a corner lot a maximum of two wall signs, one per public street frontage, and one monument sign may be permitted.
- B. *Multiple Unit Uses.* Within the RH, RM, and RMHP districts:
 - 1. Building number or letter signs for multiple building developments shall be in compliance with fire department requirements and shall not be counted as part of the aggregate sign area.
 - 2. A maximum of two freestanding monument identification signs with an aggregate area of 24 square feet may be permitted per development. The maximum height shall be five feet. Signs should be located near the main entrance(s).
- C. *Nonresidential Uses.*
 - 1. Examples of nonresidential uses in a residential district include, but are not limited to, assembly uses, schools, public buildings, assisted living facilities (with more than five persons receiving care) and farms, but do not include home occupations.
 - 2. One wall-mounted sign per lot or parcel not exceeding 32 square feet in area shall be permitted.

3. Additionally, any complex/single building development in excess of 15,000 square feet (gross floor area) may submit a comprehensive sign plan to be reviewed and approved by the city.
 4. One freestanding monument sign shall not exceed 32 square feet in area nor a height of five feet, may be permitted.
- D. *Residential Freestanding or Monument Signage.*
1. Up to two entryway wall or monument sign locations may be permitted for each arterial roadway frontage of a residential development. The signage shall be integrated to complement the streetscape and landscaping frontages. A maximum aggregate area of no more than 48 square feet per subdivision nor more than one sign on each side of the entry, if wall mounted, may be permitted. Backlit signs are preferred; using external spotlights to light signage is strongly discouraged. All lighting shall be in conformance with the adopted city codes.

E. *Reader Panel Signs.*

1. Assembly uses may use up to one-half of the allowed freestanding monument sign area for a reader panel. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.08.]

18.115.090 Standards for nonresidential districts.

For all signs within the commercial and industrial zoning districts the following regulations shall apply. Additionally, any complex of two or more organizations or any single building development in excess of 5,000 square feet (gross floor area) may submit a comprehensive sign plan and any single building development in excess of 25,000 square feet shall be required to submit a comprehensive sign plan to be reviewed and approved through an administrative use permit.

A. *Total Signage.*

1. The combination of all of the below types and styles of allowed signage shall be included in calculating the total aggregate sign area, except where specifically excluded or otherwise exempted by this chapter. For corner buildings or developments only the main entrance frontage shall be measured when determining the allowable signage.
2. The combined total aggregate sign area of all signs for any one organization in commercial, mixed-use, office and industrial zoning districts shall not exceed 100 square feet.

B. *Wall or Building Signage.*

1. The sign area for any one organization or individual tenant shall not exceed one and one-half square feet for each two linear feet of street or store frontage with the maximum not to exceed 32 square feet.

2. Single buildings/organizations with less than 25,000 square feet (gross floor area) are allowed one wall or building sign per organization.
 3. Single buildings/organizations with two street frontages are allowed one wall sign per street frontage.
 4. Signage shall not extend horizontally a distance greater than 50 percent of the width of the building wall on which it is displayed.
- C. *Freestanding or Monument Signage.*
1. One freestanding identification sign shall be permitted per development, per street frontage.
 2. The sign shall not exceed six feet in height.
 3. For a single tenant building the sign area shall not exceed one and one-half square feet for each two lineal feet of street frontage with the maximum not to exceed 32 square feet.
 4. If street frontage is not available then the allowable sign area may be based on the lineal feet of store frontage at a ratio of one square foot of signage for each five linear feet of store frontage.
 5. For multiple building developments or commercial centers: One sign may be permitted on any lot with 100 feet of street frontage and one additional freestanding sign for every 300 feet of street frontage over 100 feet for the entire development. The individual buildings within the development and/or the PAD sites within the commercial center shall not be considered as separate developments. The minimum distance between two signs on the same street frontage shall be 300 feet. Each sign may be eight feet high and a maximum of 48 square feet in area. One-half of the monument sign area may be a changeable message sign, subject to administrative approval.
 6. Up to one-half of the allowed freestanding monument sign area for a reader panel may be digital.
- D. *Driveway and Drive-Through Signs.*
1. One sign per complex entrance may be used when useful to identify the location of various buildings, offices, or organizations within a complex. A directory sign may be internally illuminated, externally illuminated, or nonilluminated and have a maximum area of six square feet, and a maximum height of six feet, and shall not be included in calculating the total aggregate area for signage allowed on a parcel or lot or for a particular organization.
 2. One driveway or drive-through sign may be used for each entrance and exit to or from a parking area or drive-through lane provided that the sign is limited to three square feet in area and four feet in height. A driveway or drive-through sign may be double faced.
 3. Each drive-through lane and/or drive-in restaurant may be permitted one sign without a call box and one sign with a call box. These boards may be freestanding or wall-mounted and shall be located not less than 45 feet from the street property line.

4. The front of the board shall not be visible from the public street. Call boxes shall be oriented away from adjacent residential uses or screened in a manner to diffuse the sound emitted from the call box beyond the drive-through lane.

5. Maximum sign area per drive-through area shall not exceed 48 square feet and shall not be included in calculating the total aggregate area for signage allowed on a parcel or lot or for a particular organization.

6. The sign shall not exceed six feet in height.

7. Signs with call boxes fronting roadways shall be screened with a decorative wall and/or landscaping.

E. *Window and Interior Display Signage.*

1. The total aggregate area of all window and interior display signs shall not exceed 50 percent of the total area of the windows through which they are visible.

F. *Flags.*

1. Flagpoles shall not exceed 50 feet in height, measured from the top of grade to top of pole.

2. United States and state of Arizona flags shall be maintained with flag etiquette.

3. A maximum of three poles per site will be permitted.

G. *Awning Signs.*

1. A maximum of 25 percent of the front face area of the awning may be used for signage.

2. Signage shall be specific to the tenant.

H. *Under Canopy Signs and Projecting Signs.*

1. One under canopy sign or projecting sign which is designed and oriented primarily for the aid of pedestrians may be allowed per primary organization and shall be located immediately adjacent to the organization it identifies.

2. Shall have an eight-foot minimum clearance between the bottom of the sign and the sidewalk.

3. Projecting and under canopy signs shall not project less than six inches nor more than three feet from the building wall or building face.

4. Under canopy signs shall have a maximum area of three square feet.

5. Projecting signs for each ground-floor organization, on a street, shall not exceed one square foot for each linear street frontage of organization, up to a maximum of 15 square feet.

6. Sign shall be specific to the primary tenant.

7. A wall or fascia sign is not permitted if a projecting sign is used to identify the organization on the same wall.

I. *Gasoline Service Station Signs.*

1. One freestanding sign per street frontage on which the service station has frontage; but not including freeway or interstate frontage.
2. Maximum sign area shall not exceed 12 square feet.
3. Maximum sign height for a freestanding sign shall not exceed six feet.
4. One canopy sign per street frontage.
5. Maximum sign area of canopy sign shall not exceed 12 square feet per sign.
6. Price sign cannot be located on the canopy or building. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.09.]

18.115.100 Standards for open space, public, and institutional zoning districts.

For all signs within open space, public and institutional districts, the following shall apply:

A. *Wall Sign.*

1. One wall-mounted sign per lot or parcel not exceeding six square feet in area may be permitted.

B. *Freestanding Sign.*

1. One freestanding sign per entrance not exceeding 12 square feet in area nor a height of five feet may be permitted.

C. *Directional or Informational Signage.*

1. No more than one directional or informational sign per complex entrance may be used when useful to identify the location of various facilities within a complex. A directory sign may be internally illuminated, externally illuminated, or nonilluminated and have a maximum area of six square feet.

D. *Banners.*

1. Sign shall be one sided and may only be displayed on park fences facing internally to the park. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.10.]

18.115.110 Standards for government signage.

For all city of Maricopa facilities (city of Maricopa facilities include but are not limited to City Hall, libraries, fire stations, community centers, police stations, city parks, etc.), the following regulations shall apply:

A. *Wall or Building Signage.*

1. Sign shall not exceed one and one-half square feet for each two linear feet of street or building frontage with the maximum not to exceed 32 square feet.
2. Signage shall not extend horizontally a distance greater than 50 percent of the width of the building wall on which it is displayed.
3. Only one wall or building sign per facility.
4. The city may submit a comprehensive sign plan.

B. *Freestanding or Monument Signage.*

1. One freestanding identification sign shall be permitted per city facility and may include only the name of the facility and the address.
2. The sign shall not exceed six feet in height. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.11.]

18.115.120 Temporary signs.

A. *General Criteria for Temporary Signs.* General criteria and limitations are by zoning district.

B. Signs must be maintained in a safe condition and not cause blighting.

C. *A-Frame, T-Frame and Banner Signs.* A-frame, T-frame and banner signs are unlawful if they do not meet the criteria and limitation set forth in the following Tables 18.115.120.B and 18.115.120.C.

1. A-frame, T-frame and banner signs are permitted in all zoning districts but may be placed in single-family residential zoning districts only in conjunction with nonresidential uses.
2. Unless otherwise specifically allowed herein, A-frame, T-frame and banner signs must be located on the parcel or organization advertised thereon, supported by a base of sufficient weight and durability to withstand wind gusts, constructed of durable material (i.e., no paper, cardboard or similar material) and maintained in a professional manner free from fading, tearing, and tattering.
3. A-frame, T-frame and banner signs shall not be placed in raised or painted medians, with stakes fastened to or driven into concrete, or on equestrian or multi-use trails.

4. A-frame and T-frame signs must be placed and displayed at grade level.
5. Off-site temporary signs must have the responsible person or owner name and contact number displayed on the sign.
6. *Authority to Remove Unauthorized Signs.* The city's code enforcement officer may remove unauthorized signs. Unauthorized signs so removed shall be disposed of after the city provides notice to the organization, responsible person, or establishment identified by the sign. A notice shall be sent within five days of the removal notifying the organization, responsible person, or establishment to claim the unauthorized sign at a location specified in the notice within a specified time period. If unclaimed after the time period lapses, the city may dispose of the sign. If an organization, responsible person or establishment is not identified by the sign, the sign may be disposed of no sooner than five days after removal.

Table 18.115.120.A Temporary Signs: Criteria and Limitations Residential Use in Residential Zones

Temporary Sign Type Residential	General Criteria
Maximum Number of Signs per Parcel	Maximum of one temporary sign within a five- to 10-foot setback of the right-of-way (ROW), on private property and up to four signs within five feet of the primary structure, on private property
Maximum Combined Sign Area	6 square feet
Maximum Sign Height, Freestanding	4 feet
Minimum Setback From Street Edge (must also be on private property)	5 feet
Minimum Spacing From Any Other Sign (Temporary)	10 feet
Permit Required	No
Permission of Owner Required	Yes
Allowed Within Sight Visibility Triangle	No
Movement Allowed	No
Allowed on Roof	No

Table 18.115.120.B Temporary Signs: Criteria and Limitations Nonresidential Use in Residential Zone

Temporary Sign Type Residential – Nonresidential Use	General Criteria	A-Frame and T-Frame Signs	Banner Signs	Flying Banner Signs
Maximum Number of Signs per Parcel ¹	1	Up to 10 ¹	1	1
Maximum Sign Area	6 square feet	6 square feet	32 square feet	12 square feet

Table 18.115.120.B Temporary Signs: Criteria and Limitations Nonresidential Use in Residential Zone

Temporary Sign Type Residential – Nonresidential Use	General Criteria	A-Frame and T-Frame Signs	Banner Signs	Flying Banner Signs
Maximum Sign Height, Freestanding ²	4 feet	4 feet	4 feet	15 feet
Maximum Sign Height, Wall Sign	4 feet	NA	8 feet	NA
Minimum Setback From Street Edge (must also be on private property) ³	10 feet 20 feet if located on State Route	10 feet 20 feet if located on State Route	10 feet	20 feet
Minimum Spacing From Any Other Sign (Temporary) ²	5 feet	5 feet	30 feet	30 feet
Permit Required	No	No	Yes	Yes
Permission of Owner Required	Yes	Yes	Yes	Yes
Allowed Within Sight Visibility Triangle	No	No	No	No
Movement Allowed	No	No	No	Yes
Allowed on Roof	No	No	No	No
Duration	Up to two hours prior to event and two hours after the event has concluded.		Signs and displays shall not be displayed for longer than 30 days for signs requiring a permit. A minimum of 14 days shall pass between each such display, after which a new permit shall be required.	

1 In residential zoning districts, each single-family residential lot with at least one principal structure may place up to 10 off-site temporary signs for the purpose of directing the public to a nonresidential use activity (e.g., real estate open house, garage/yard sale, estate sale). No more than one sign per turning movement within one mile from event shall be displayed. Signs shall be constructed of durable material, not exceed six square feet in area per sign and shall be maintained in good repair.

2 Not applicable to flags displayed on flagpoles.

3 Minimum sign setbacks are measured from back of curb or, in the event there is no curb, the edge of pavement.

Table 18.115.120.C Temporary Signs: Criteria and Limitations for Nonresidential Zones

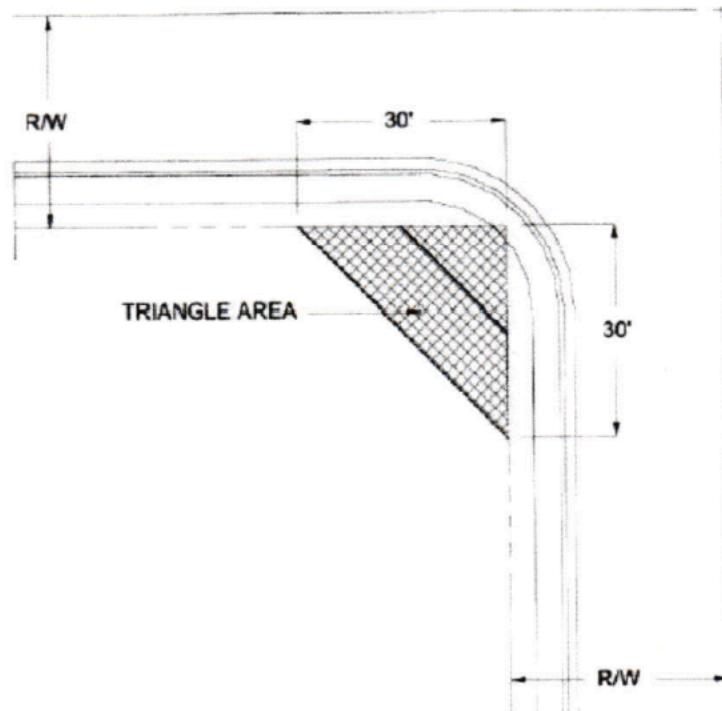

Temporary Sign Type Nonresidential	General Criteria	A-Frame and T- Frame Signs	Banner Signs	Flying Banner Signs
Maximum Number of Signs per Parcel ¹	1	1	1 ^{2,3}	1
Maximum Sign Area	6 square feet	6 square feet	32 square feet	12 square feet
Maximum Sign Height, Freestanding	4 feet	4 feet	8 feet	15 feet
Minimum Setback From Street Edge (must also be on private property) ⁴	10 feet	5 feet	10 feet	10 feet
Minimum Spacing From Any Other Sign (Temporary or Permanent)	20 feet	20 feet	30 feet	30 feet
Permit Required	Yes	No	Yes	Yes
Permission of Owner Required	Yes	Yes	Yes	Yes
Allowed Within Sight Visibility Triangle	No	No	No	No
Allowed on Sidewalk	Only A-frames and no more than 1/3 of the width of a sidewalk may be obstructed and must provide at least five feet of sidewalk clearance.			
Movement Allowed	No	No	No	Yes
Allowed on Roof	No	No	No	No
Duration	Sunup to sundown during hours when organization is open for inspection.		Signs and displays shall not be displayed for longer than 30 days for signs requiring a permit. A minimum of 14 days shall pass between each such display, after which a new permit shall be required.	

1 The combined total number of signs (including flying banner signs, A-frame signs, and T-frame signs) shall not exceed four per organization.

2 One per public street frontage.

3 Construction sites with an active building permit shall be allowed to display one banner sign per contractor until completion of the building or when a certificate of occupancy is issued. Setbacks do not apply to wall signs or signs affixed to a temporary construction fence.

- 4 Minimum sign setbacks are measured from back of curb or, in the event there is no curb, the edge of pavement.

Sight Visibility Triangle

D. *Special Event Signage.*

1. *Off-Site Event/Directional Signs.*

- a. A sign plan shall be required in conjunction with the special event permit. Said sign plan shall show the proposed location, placement, and size of all off-site event/directional signs.
- b. Directional signs shall be no greater than four square feet and event signs shall be no greater than 32 square feet. Said signs may be permitted within the city right-of-way, excluding medians, in accordance with the approved sign plan for an approved special event permit and an approved right-of-way permit.
- c. Directional signs may be placed 24 hours prior to event and event signs may be placed five days prior to the event or as specified in the approved special event permit request and shall be removed within 48 hours after the conclusion of the event.

E. *Political Signs.*

1. Political signs are permitted in all districts.

2. All other requirements shall adhere to A.R.S. § [16-1019](#), as may be amended from time to time.

F. *Builder Sign Plan.* A builder sign plan shall be approved by zoning permit and is required for each model home complex prior to any certificate of occupancy being issued for a temporary use permit for sales trailer/model home complex. The following shall apply for the builder's sign plan:

1. A zoning permit for a builder sign plan is valid for one year from the date of issuance. A builder sign plan may be renewed annually upon formal application to the city.
2. All signs permitted per the builder sign plan shall be removed upon the expiration of the temporary use permit.
3. On-site signage shall mean the lot(s) for the specific temporary use permit. A maximum of 240 square feet total of on-site signage is permitted for each builder in a recorded subdivision plat. Sign area includes items such as builder/real estate signs, model home complex signs, banners, awnings, and flags. All signs less than 32 square feet shall be set back a minimum of 10 feet from the front yard lot line and shall not encroach upon sight visibility triangle. The height of any sign shall be a maximum of 12 feet.
4. No more than two builder signs shall be allowed and no larger than 96 square feet of sign area. Builder signs shall be limited to 12 feet in height and shall be set back a minimum of 10 feet from the right-of-way.
5. Flags are permitted, not to exceed 15 feet in height. Flags shall be spaced a minimum of 40 feet apart and shall be set back a minimum of five feet behind the right-of-way. Maximum of three flagpoles allowed per lot in the temporary use permit. Each flag shall have a maximum area of 12 square feet, may contain lettering or logo, and may not be higher than 15 feet above grade.
6. No more than one flagpole may be placed per temporary use permit. Flagpoles shall be limited to 50 feet in height.
7. No builder signage shall be allowed to be placed outside the recorded subdivision in which the builder is located.

G. *Sign Walkers.*

1. Sign walkers shall be located 30 feet from a street or driveway intersection measured from the back of the curb or edge of pavement if no curb exists.
2. Once 30 feet from the street or driveway intersection, the sign walker must stand at least five feet back from the roadway, measured from the back of curb or edge of pavement if no curb exists.
3. Sign walkers must maintain a minimum distance of 20 feet from any other sign walker.
4. Signs held by sign walkers must be held, worn, or balanced at all times. At no time is a sign walker allowed to toss or throw their sign.
5. Sign walkers shall allow a minimum distance of four feet for pedestrian passage on all sidewalks and walkways.

6. The following elements are prohibited for use on the signs held by sign walkers:
 - a. Any form of illumination, including flashing, blinking, or rotating lights.
 - b. Animation on the sign itself.
 - c. Mirrors or other reflective materials.
 - d. Attachments including but not limited to balloons, ribbons and speakers. [Ord. 24-01 § 2; Ord. 23-31 § 1; Res. 22-12; Ord. 22-03 § 2; Ord. 21-18 § 1; Ord. 14-12 § 1; Res. 14-36 § 409.12.]

18.115.130 Kiosk signs.

- A. *Kiosk Signs.* Sign panels on a city approved kiosk structure may be or double faced. Maximum sign height for a single sign structure (kiosk) shall be 12 feet.
1. Sign panels shall be located on designated city kiosk structures within the public right-of-way, or, upon finding that such location will not permit adequate information, kiosk structures may be approved on private property (with a sign easement designating the city as a third-party beneficiary) with the written permission of the property owner. Such permission shall include the consent of the property owners to allow the city, in the event of noncompliance, to enter said property and remove the sign. A kiosk location plan shall be prepared showing the site of each kiosk and shall be submitted to and approved by the zoning administrator or their designee, prior to the acceptance of a zoning permit application.
 2. No kiosk sign shall be placed within 100 feet of another except when they are on opposite sides of the same street.
 3. Any sign panels shall conform to colors and design standards approved by the zoning administrator or their designee.
 5. Any sign panel approved for a project within the city shall not be changed to another project without prior approval of the zoning administrator. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.13.]

18.115.140 Submittal and permit requirements.

- A. Approval of a zoning permit is required for constructing or altering any nonexempt sign. A zoning permit application shall be made in writing on forms provided by the city. The following information shall be required as part of all zoning permit applications:
1. Owner's name, address, telephone and fax numbers.
 2. Sign contractor's name, address, telephone and fax numbers.

3. Inventory of all existing signs on the property showing the type and dimensions of each sign as well as a site plan showing the locations of each sign.
 4. Fully dimensioned plans and elevations showing the dimensions, design copy, and location of each proposed sign in relation to the property line(s) and public right-of-way.
 5. Plans indicating the scope and structural detail of the work to be done, including details of all connections, supports, footings, and materials to be used.
 6. Required information for an electrical permit for all signage illumination.
- B. Two copies of all information listed in subsection [\(A\)](#) of this section shall be submitted with the application for each sign, one copy being returned to the applicant at the time the permit is issued.
- C. Before issuing any zoning permit required by this code, the city shall collect a fee in accordance with a fee schedule established by the city council. If work for which a permit is required by this code is started before a permit has been issued, the fees specified above shall be doubled. The payment of such double fee shall not relieve any persons from complying fully with the requirements of this code in the execution of the work or from any penalties prescribed herein.
- D. All signs for which a permit is required shall be subject to inspections or additional permits during various stages of construction as prescribed by the city building safety division and the city zoning permit number affixed to each sign. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.14.]

18.115.150 Comprehensive sign plan.

- A. An administrative use permit for comprehensive sign plan shall comply with the standards and submittal requirements as outlined below. A comprehensive sign plan is intended to provide for the establishment of signage criteria that are tailored to a specific development location, and which may vary from specific code provisions. The intent is to provide flexible sign criteria that promote superior design through architectural integration of the site, buildings and signs. A comprehensive sign plan shall demonstrate consistency and uniformity among all signs. Additionally, all signs with an approved comprehensive sign plan must have an approved zoning permit with the city and any additional permits as necessary.
- B. The requirements of a comprehensive sign plan shall apply for any organization and/or development within a related project even if the properties have been subdivided. A comprehensive sign plan shall be evaluated based upon the following criteria:
1. *Placement.* All signs shall be placed where they are sufficiently visible and readable for their function. Factors to be considered shall include the purpose of the sign, its location relative to traffic movement and access points, site features and structures. In commercial centers in which some tenants are in locations having little or no street visibility, in order to provide identification, wall signs may be placed on walls of the building in which such tenants are located, even though not a wall of the space is occupied by those tenants.

2. *Quantity.* The number of signs that may be approved within any development shall not be greater than that required to provide project identification and entry signs, internal circulation and information to destinations and/or development sub-areas, and organization identification. Factors to be considered shall include the size of the development, the number of development sub-areas, and the division or integration of sign functions.
 3. *Size.* All signs shall be no larger than necessary for visibility and readability. Factors to be considered in determining appropriate size shall include topography, amount of sign copy, placement of display (location and height), lettering style and the presence of distractive influences. Specific justification must be made if a request is submitted for a freestanding or wall sign to exceed by more than 25 percent any maximum height standard or by 50 percent any maximum area standard allowed in the regular ordinance.
 4. *Materials.* Sign materials shall be compatible with architectural and/or natural features of the project. This may be accomplished through similarity of materials for sign structures and faces, the use of complementary colors, similarity of architectural style, or the use of a consistent lettering style or copy.
 5. *Context.* The design of all signs should respect the context of the surrounding area and the character established by existing signage. Items to be considered include, but are not limited to, lettering style, sign placement, and architectural style.
 6. *Submittals.* Three copies of the following should be submitted with the sign application to be reviewed by city staff and the planning and zoning commission. The specific submittal shall include at a minimum the following information:
 - a. Information regarding the color(s), material(s), type of sign (e.g., attached or detached), letter samples that are for all tenants, freestanding center identification signage, window signs, and any other information deemed necessary by the city to adequately review the comprehensive sign plan (both in a graphic and written format).
 - b. A justification letter describing the request and how the sign structure, materials, and colors are compatible with the project's building architecture. Include a list in outline form of each sign requested, both freestanding and wall, to include verbiage, area in square feet, and height.
 - c. Preliminary site/landscape plan including property boundaries; dimensions; adjacent street right-of-way, existing and proposed; and street and sidewalk improvements, existing and proposed, noted to centerline. Show location of conceptual or existing landscape concepts including trees, shrubs, ground covers, berms, and screen walls.
 - d. Show location of proposed freestanding signs including dimensions, height, materials, colors, and method of illumination. Include elevations of buildings showing wall sign locations with dimensions.
- C. *Amendments.* Applications for amendments to the comprehensive sign plan shall be processed in the same way as an original application. Revisions or amendments to the comprehensive sign plan shall require documentation from all tenants and/or property owners on the property prior to approval.

D. *Minor Alterations.* Minor alterations in sign locations resulting from unexpected conditions on site may be approved by the zoning administrator. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.15.]

18.115.160 Discontinuance and change of use.

Whenever the use of land or structures changes, signs including any supporting structures that do not relate to the new use or to any product or service associated with the new use shall be removed or appropriately altered within 30 days of the cessation of such use. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.16.]

18.115.170 Unsafe signs.

- A. If the building official, or their designee, determines any sign or sign structure to be in an unsafe condition, they shall immediately notify, in writing, the owner of such sign who shall correct such condition within 48 hours.
- B. If the correction has not been made within 48 hours, the building official, or their designee, may have the sign removed if it creates a danger to the public safety or have any necessary repairs or maintenance performed at the expense of the sign owner or owner or lessee of the property upon which the sign is located. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.17.]

18.115.180 Nonconforming limitations on signs.

- A. *Legal Nonconforming Signs.*
 1. Legal nonconforming sign(s) shall mean a sign which is/are lawfully existing at the time of the enactment of the ordinance codified in this chapter which does not conform to the regulations as specified in this chapter.
 2. A legal nonconforming sign may continue to be utilized in association with an approved permitted use only in the manner and to the extent that it existed at the time of the adoption of the ordinance codified in this chapter or any amendment thereto.
 3. A legal nonconforming sign may not be altered in any manner not in conformance with this chapter.
 4. This does not apply to the normal repair, maintenance, or replacing of existing copy; provided, that structural alterations are not required as part of the repairs, maintenance, or replacing of existing copy.
 5. Any sign that becomes nonconforming subsequent to the effective date of the ordinance codified in this chapter, either by reason of annexation to the city or amendment to this chapter, shall be subject to the provisions of this code.

6. Notwithstanding any other provision of this chapter, legal nonconforming signs that are located on a parcel of property that is severed from a larger parcel of property and acquired by a public entity for public use by condemnation, purchase, or dedication may be relocated on the remaining parcel without extinguishing the legal nonconforming status of that sign; provided, that the nonconforming sign:

- a. Is not increased in area or height;
- b. Remains structurally unchanged except for reasonable repairs or alterations;
- c. Is placed in the same relative position on the remaining property that it occupied prior to the relocation; and
- d. Is relocated in a manner so as to comply with all applicable safety requirements.

B. *Signs for a Legal Nonconforming Use.*

1. New or additional signs for a legal nonconforming use shall not be permitted.
2. A nonconforming sign for a legal nonconforming use which ceases to be used for a period of 365 consecutive days or is suspended by a conforming use shall be considered a prohibited sign and shall be removed or brought into conformance upon establishment of a conforming use.

C. *Alteration or Removal of Nonconforming Signs.*

1. A nonconforming sign structure shall not be re-erected, relocated, or replaced unless it is brought into compliance with the requirements of this chapter, except as provided for in subsection [\(A\)](#) of this section.
2. Any construction permit that invokes certificate of occupancy requirements shall specify and require that any nonconforming sign located within the boundaries of the development site authorized by said permit shall be brought into conformance with the provisions of this code. If the nonconforming sign is a type of sign that is prohibited under MCC [18.115.050](#), it shall be removed.
3. Any nonconforming sign that is allowed to deteriorate to such an extent that the cost of repair or restoration is more than 50 percent of the cost of reconstruction shall either be removed or be rebuilt in full conformity with this chapter. Notwithstanding this provision, nonconforming signs may be repaired or replaced if the repairs or restoration are necessary due to acts of God, or the negligent act of or vandalism to the sign by a third party.

D. *Signs Rendered Discontinued.*

1. Sign structures that remain vacant, unoccupied, devoid of any message, or display a message pertaining to a time, event or purpose that no longer applies shall be deemed to be discontinued.
2. Any sign that is located on property that becomes vacant and unoccupied for a period of 90 consecutive days shall be deemed to be discontinued.

3. A sign whose use has been deemed discontinued is prohibited and shall be removed by the owner of the sign or owner of the premises. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.18.]

18.115.190 Enforcement.

A. *Illegal Signs.*

1. The zoning administrator, or other designated city official, shall require removal of all illegal signs or legal signs placed in prohibited locations. [Res. 22-12; Ord. 22-03 § 2; Ord. 14-12 § 1; Res. 14-36 § 409.19.]

- 18.120.230 Recycling facilities.**

- 18.120.240 Group home.**
- 18.120.250 Restricted retail uses.**
- 18.120.260 Temporary uses.**
- 18.120.270 Transitional and supportive housing facilities.**
- 18.120.280 Food and beverage sales.**
- 18.120.290 Charitable donation containers.**

18.120.010 Accessory uses.

Accessory uses shall be located, developed, and operated in compliance with the following standards:

A. *General Requirements.* No use shall be considered to be accessory to a principal or conditional use which involves or requires any of the following:

1. *In Residential and Rural Districts.* The use of more than one-quarter of the total floor area in the principal building and accessory building.
2. *In All Other Districts.* The use of more than one-third of the total floor area in the principal building and the accessory building.

B. *Prohibited Uses.* The following uses are prohibited from being accessory uses:

1. *In Residential and Rural Districts.*
 - a. Any bar, restaurant, or any other retail establishment that serves liquor for consumption on site, except in resorts and golf courses; and
 - b. The employment of any person not a resident in the dwelling unit, other than an approved home occupation employee, domestic servant, gardener, janitor, farm employee, or other person concerned in the operation or maintenance of the dwelling unit.
2. *In All Other Districts.*
 - a. Adult-oriented businesses;
 - b. Medical marijuana uses;
 - c. Liquor stores;
 - d. Bars and lounges, except in hotels, resorts, and golf courses; and
 - e. General and heavy manufacturing.

C. *Limitations.* Accessory uses shall be restricted to interior areas of a structure except in rural districts where exterior accessory use on a lot is allowed, subject to other standards of this code. In addition, outdoor dining is permitted if specified standards are met. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.01; Ord. 14-12 § 1.]

18.120.020 Adult-oriented businesses.

Adult-oriented businesses shall be located, developed, and operated in compliance with the following standards:

A. *Permits and Licenses.* Adult-oriented businesses must be in conformance with Maricopa City Code and subject to the following:

1. An adult-oriented business must, prior to commencement or continuation of such business, apply for and receive from the planning and zoning commission a conditional use permit. Reasonable conditions may be imposed, such as limitation on hours of operation, exterior lighting, display materials, security, and other similar conditions, as may be necessary to protect the health, safety, and welfare.
2. Subsequent to receipt of an approved conditional use permit, but prior to establishment of the business, the applicant shall apply for and receive a valid business license, as provided in the Maricopa City Code.

B. *Location.* Adult-oriented businesses shall be located a minimum of:

1. One thousand five hundred feet from the lot line of vacant or developed land in any residential or mixed use districts, or land reserved for a future school site;
2. One thousand five hundred feet from any existing or proposed elementary or secondary educational facility, junior colleges and universities, vocational schools, family day care facility, day care facility, religious facility, cultural institution, family-oriented entertainment business, or public park and recreational areas;
3. One thousand five hundred feet from any business that is licensed to sell alcoholic beverages; and
4. One thousand feet from any other legally established adult-oriented business.

C. *Number of Businesses – Expansion.* Only one adult-oriented business is permitted in each building, structure, or lot. No existing adult-oriented business can expand or intensify their business if there is another adult-oriented business in the same building, structure, or lot.

D. *Hours of Operation.* Hours of operation shall be limited to the time period between 8:00 a.m. and 1:00 a.m. Monday through Saturday and 12:00 noon and 1:00 a.m. on Sunday, or as otherwise approved by conditional use permit.

E. *Screening.* All windows, doors, or other apertures shall be architecturally screened or otherwise obscured so as to prevent public viewing of the interior of the adult-oriented business from a public street or sidewalk.

F. *Signs.* No advertisement displays or merchandise available for sale or rent that includes or depicts specified sexual activities or specified anatomical areas shall be visible from any public right-of-way. Total wall sign area

shall not exceed 20 square feet. Businesses located on a corner lot may have a maximum of 25 square feet of sign area. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.02; Ord. 14-12 § 1.]

18.120.030 Alcoholic beverage sales.

Businesses with alcoholic beverage sales of packaged liquor shall be located, developed, and operated in compliance with the following standards:

- A. *Permit Required.* Conditional use permit approval is required for any use involving the sale of alcoholic beverages as defined in subsection (B) of this section.
- B. *Liquor Stores and Convenience Markets.* Liquor stores, convenience markets, and other off-sale establishments that dedicate more than 50 percent of the sale floor to sales of alcoholic beverages for off-premises consumption, but excluding general markets, shall be located, developed, and operated in compliance with the following standards:
 1. *Location.* Such establishment shall be located a minimum of:
 - a. One thousand five hundred feet from elementary and secondary educational facilities, religious facilities, cultural facilities, or public parks and recreational facilities.
 - b. Five hundred feet from restricted personal services, off-track betting establishments, and adult-oriented business.
 - c. One thousand feet from any other legally established businesses with packaged alcoholic beverage sales.
 2. *Litter.* Trash receptacles and separate recycling receptacles shall be provided by entrances and exits from the building.
 3. *Pay Telephones, ATM Machines, and Vending Machines.* Pay telephones, ATM machines, and vending machines are prohibited externally. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.03; Ord. 14-12 § 1.]

18.120.040 Automobile/vehicle sales and leasing.

Automobile/vehicle sales and leasing shall be located, developed, and operated in compliance with the following standards:

- A. *Location.* Automobile/vehicle sales and leasing are permitted on sites with at least one frontage on an arterial street or regional highway.
- B. *Minimum Lot Size.* Ten thousand square feet.

C. *Landscaping and Screening.* In addition to complying with the following standards, automobile/vehicle sales and leasing uses shall meet landscaping standards in Chapter [18.90](#) MCC.

1. *Maintenance.* All landscaped areas, walls, and barriers must be maintained in conformance with approved landscape plans in perpetuity.
 2. *Other Requirements.* Additional screening and landscaping may be required where necessary to prevent visual impacts on adjacent residential or mixed use districts.
 3. *Accessory Sales and Leasing.* Automobile sales and leasing that are accessory to another use must meet the landscaping and screening requirements above.
 4. *Relation to MCC Title 17, Subdivisions.* Where the requirements of this section conflict with landscaping and screening requirements of MCC Title [17](#), Subdivisions, the most restrictive shall govern. Where there is a conflict between a general requirement and specific requirement, the specific requirement shall apply.
- D. *Vehicle Display.* A minimum 12-foot-wide planter strip shall separate vehicle display areas from sidewalks and pedestrian entries.
- E. *Vehicle Loading and Unloading.* All vehicle loading and unloading shall occur in the rear half of the site. If the lot abuts a property in a residential district, the loading and unloading may be located to have a lesser impact on the adjacent properties, but in all cases, loading and unloading shall occur during weekday business hours. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.04; Ord. 14-12 § 1.]

18.120.050 Automobile/vehicle service and repair, major.

Major automobile/vehicle repair facilities shall be located, developed, and operated in compliance with the following standards:

- A. *Location.* Automobile/vehicle service and repair are permitted on sites with at least one frontage on an arterial street or regional highway.
- B. *Minimum Lot Size.* Ten thousand square feet.
- C. *Orientation of Bay Doors.* All bay doors shall be oriented to minimize visibility from public streets by locating bay entries at least 90 degrees from the roadway and screen with a combination of landscaping, neighboring buildings, or the use of decorative screen walls, or in a manner acceptable to the zoning administrator or approving authority.
- D. *Landscaping and Screening.* In addition to complying with the following standards, major automobile/vehicle service and repair uses shall meet landscaping standards in Chapter [18.90](#) MCC. All vehicular use areas that are adjacent to the public right-of-way shall provide a screening feature around the perimeter of the lot adjacent to the public right-of-way.

1. Screening shall add to the visual diversity of the use and need not be an opaque barrier. This feature shall be at least one of the following:
 - a. Ornamental fencing or a solid wall that is three feet in height and an eight-foot-deep permeable surface with landscaping along the perimeter of the lot that is adjacent to a public right-of-way; or
 - b. A combination of permeable landscaping and ornamental fencing where the permeable surface and landscaping is the equivalent area of an eight-foot-deep average perimeter landscaping that has been otherwise configured to result in either a public space or amenity that is accessible from the public right-of-way, or a natural drainage system, such as combined swales, retention basins, detention basins, or rain gardens, to reduce storm water runoff.
 2. *Relation to MCC Title 17, Subdivisions.* Where the requirements of this section conflict with landscaping and screening requirements of MCC Title [17](#), Subdivisions, the most restrictive shall govern. Where there is a conflict between a general requirement and specific requirement, the specific requirement shall apply.
- E. *Litter.* No used or discarded automotive parts or equipment or permanently disabled, junked, unregistered, or wrecked vehicles may be stored outside of the main building. Parts or equipment may be temporarily stored outdoors for no longer than one week but must be screened from view.
- F. *Noise.* All body and fender work or similar noise-generating activity shall be enclosed in a masonry or similar building with sound-attenuating measures incorporated into the building design and construction to absorb noise. Bay openings shall be oriented so as to minimize the effects of sound emanating from the auto repair building towards residential uses, outdoor restaurant seating, and outdoor reception areas. Compressors shall be located within separately enclosed, sound-attenuated rooms. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.05; Ord. 14-12 § 1.]

18.120.060 Automobile/vehicle service stations and washing.

Automobile/vehicle service stations and washing shall be located, developed, and operated in compliance with the following standards:

- A. *Location.* Automobile/vehicle service stations and washing are only allowed on sites with at least one frontage on an arterial street.
- B. *Setbacks.* No building or structure shall be located within 25 feet, or as provided by MCC Title [17](#), Subdivisions, whichever is greater, of any interior lot line abutting a residential or mixed use district.
- C. *Drive-Up Aisles.* Vehicle lanes for car wash operations shall be screened from public streets to a height of three and one-half feet in front or street side areas. Screening devices shall consist of walls and/or berms with supplemental plant materials.

D. *Street-Facing Walls.* Street-facing walls, including car wash tunnels, over 75 feet long shall include breaks in the building plane, projections, recesses, and trim to provide architectural articulation and modulate building mass to enhance the streetscape.

E. *Landscaping and Screening.* In addition to complying with the following standards, automobile/vehicle service stations and washing uses shall meet landscaping standards in Chapter [18.90](#) MCC:

1. Additional screening and landscaping may be required where necessary to obscure view of automatic car washing equipment and prevent visual impacts on adjacent properties.

2. *Relation to MCC Title 17, Subdivisions.* Where the requirements of this section conflict with landscaping and screening requirements of MCC Title [17](#), Subdivisions, the most restrictive shall govern. Where there is a conflict between a general requirement and specific requirement, the specific requirement shall apply.

F. *Litter.* One trash receptacle per wash bay is required.

G. *Outside Storage.* No outdoor storage is allowed. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.06; Ord. 14-12 § 1.]

18.120.070 Community assembly.

Community assembly facilities shall be located, developed, and operated in compliance with the following standards:

A. *Access.* Community assembly facilities shall take primary access from a public street with a minimum of 50 feet in width and improved with curbs, gutters, sidewalks, and street lights.

B. *Buffer.* In all districts except industrial districts, a minimum of 25 feet perimeter buffer shall be included where interior lot lines abut a residential district. Industrial districts shall have a 40-foot buffer. This buffer area may be used for parking and landscaping but shall not be used for structures or outside activities.

C. *Outdoor Play Areas.* Outdoor play areas shall be at least 25 feet from any residential district and shall not be located adjacent to an arterial street or industrial use. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.07; Ord. 14-12 § 1.]

18.120.080 Day care facilities.

Day care facilities shall be either operated as the principal (primary) use or the in-home (accessory) use. Day care facilities are not to be confused for residential and group care homes, which are regulated separately.

A. Day care facilities shall be located, developed, and operated in compliance with the following standards:

1. *Structures.* Day care facilities shall conform to all development standards of the zoning district in which they are located unless otherwise provided in this section. They must be in a stand-alone facility and cannot be co-located in a single-family residence.
 - a. *Hours of Operation in RS Single-Family District.* When the site is located within a residential single-family district, day care facilities shall operate only Monday through Friday. No outdoor play is allowed before 7:00 a.m. or after 8:00 p.m.
 - b. *Pick-Up and Drop-Off.* A plan and schedule for the pick-up and drop-off of children or clients shall be provided prior to approval. The plan shall demonstrate that adequate parking and loading are provided to minimize congestion, and it shall demonstrate that the plan for pick-up and drop-off of children or clients does not require passing through traffic.
 - c. *Outdoor Play Areas.* Outdoor play areas shall not be located along major arteries or adjacent to industrial uses.
 - d. *Screening of Outdoor Play Areas.* Outdoor play areas shall have a screening feature around the perimeter adjacent to the public right-of-way, outside of the minimum front and street side setbacks. Screening shall add to the visual diversity of the use and need not be an opaque barrier.
 - e. *State and Other Licensing.* All day care facilities shall be state licensed and operated according to A.R.S. Title [36](#), Chapter [7.1](#) et seq. and all other applicable regulations.
 - f. *Concentration of Uses.* No more than one day care facility shall be permitted within 500 feet of the lot line of another existing day care facility.
- B. In-home day care facilities shall be managed in accordance with the following good neighbor policies:
 1. The family day care use shall be incidental to the principal use of the dwelling unit for residential purposes.
 2. All outdoor play areas shall be screened and enclosed by a six-foot-high solid masonry fence with solid, self-closing and self-latching gates.
 3. The minimum separation between family day care uses on the same street shall be 500 feet, measured from the lot lines.
 4. Existing garages, carport structures, or driveways shall not be expanded, modified, displaced or otherwise altered for the purposes of accommodating the family day care use.
 5. No sign visible from a street, except for approved live/work units in the MU Districts shall be publicly displayed relating to the home occupation or products thereof.
 6. *State and Other Licensing.* All day care facilities shall be state licensed and operated according to A.R.S. Title [36](#), Chapter [7.1](#) et seq. and all other applicable regulations. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.08; Ord. 14-12 § 1.]

18.120.090 Drive-in and drive-through facilities, including fast-food facilities.

Drive-in and drive-through facilities, including fast-food facilities, shall be located, developed, and operated in compliance with the following standards:

- A. *General.* Drive-through facilities shall provide safe, unimpeded movement of vehicles at street access points, in travel aisles, and parking areas. Drive-through aisles shall be a minimum of 12 feet in width and 20 feet in length, or as otherwise required by Table 18.120.090.D. Drive-through aisles shall have a minimum interior turning radius of 15 feet and an exterior turning radius of 30 feet.
- B. *Screening.* Drive-through aisles shall be screened from view from public and private streets, areas accessible to the general public, and areas shown for residential use in the general plan by:
 - 1. A decorative masonry fence a minimum of three and one-half feet in height measured from the grade of the aisle; or
 - 2. A continuous landscape planter a minimum of six feet in width; or
 - 3. A combination of a masonry fence and landscape planter.
- C. *Landscaping.* When applicable, in addition to complying with the following standards, drive-in and drive-through facilities shall meet landscaping standards in Chapter [18.90](#) MCC.
- D. *Stacking.* Vehicular stacking areas shall be provided in accordance with Table 18.120.090.D, Drive-Through Facility Stacking Space Requirements.

Table 18.120.090.D Drive-Through Facility Stacking Space Requirements

Use Classification	Stacking Space Requirement
Banks and Financial Institutions	5 spaces per teller or ATM drive-through
Eating and Drinking Establishments	
Restaurants	3 spaces per window. See subsection (D) of this section.(1)
Restaurants, Limited Service	4 spaces
Retail Sales, General	
Dry Cleaning	2 spaces per window
Pharmacy	2 spaces per aisle
Photo Drop	1 space per window
Automobile/Vehicle Equipment Sales and Services	

Table 18.120.090.D Drive-Through Facility Stacking Space Requirements

Use Classification	Stacking Space Requirement
Automobile/Vehicle Washing, Automated or Self-Service	4 spaces per bay
Automobile/Vehicle Washing, Full Service	8 spaces minimum
Service Station	1 space on each end of each side of each fuel pump island (one-way facilities require 2 spaces on approach end of each island).
Fueling Facility, Alternative	1 space on each end of each side of each fuel pump island (one-way facilities require 2 spaces on approach end of each island).
Automobile/Vehicle Repair, Major	1 space per service bay
Automobile/Vehicle Repair, Minor	1 space per service bay

1 Drive-through restaurants' stacking shall be calculated beginning from call box.

E. Eating and drinking establishments providing a designated take-out counter or window shall identify one or more parking spaces adjacent to the take-out entrance for exclusive use by take-out customers.

F. *Site and Building Design.*

1. If the proposed building is located within 50 feet of the public street, locate the main entrance door directly off (oriented towards) the public sidewalk or provide clear and direct access from the public sidewalk to the main entrance or secondary entrance.

2. Walls along the street face and visible from the street shall be transparent with windows, doors and other forms of transparent building materials to maximize views in and out of the building and the relationship between interior and exterior to support and animate the public street and sidewalk.

3. Drive-through elements shall be placed to the side or rear of the building. Orient the drive-through window away from the street frontage and provide adequate screen measures through landscaping and design to minimize visibility of drive-through.

4. The architecture of drive-through uses shall be compatible and harmonious with that of the shopping center motif or immediate neighborhood, in terms of building color, materials, mass, scale, and form.

G. *Menu and Preview Boards.* All menu and preview boards are signage and are subject to the sign regulations in Chapter [18.115 MCC](#).

H. *Pedestrian Walkways.* Interior pedestrian walkways shall not intersect vehicle aisles, unless no alternative exists. In such cases, pedestrian walkways shall have clear visibility, emphasized by enhanced paving or markings.

- I. *Litter.* Trash receptacles shall be provided at the exit of the drive-through facility. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.09; Ord. 14-12 § 1.]

18.120.100 Eating and drinking uses.

Eating and drinking uses shall be developed and operated in accordance with the following good neighbor policies:

- A. The safety and cleanliness of the establishment and its adjacent area(s) shall be maintained.
- B. Proper and adequate storage and disposal of debris and garbage shall be provided.
- C. Noise and odors shall be contained within immediate area of the establishment so as not to be a nuisance to neighbors.
- D. The establishment shall pick up and dispose of any discarded beverage containers and other trash left by patrons within a 100-foot radius from the facility periodically during regular hours of operation. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.10; Ord. 14-12 § 1.]

18.120.110 Family day care facilities.

Repealed by [Res. 21-09](#).

18.120.120 Home occupations.

Home occupations shall be operated in compliance with the following standards:

- A. *Residential Character Maintained.* No dwelling or accessory buildings shall be built, altered, finished, or decorated externally for the purposes of conducting the home occupation in such a manner as to cause the structure to be reasonably recognized as a place where a home occupation is conducted.
- B. *Permitted Uses.* Home occupations require a zoning permit and are limited to the following uses:
 - 1. Professional offices;
 - 2. Offices for personal services, such as janitorial, garden, or offices services;
 - 3. Dressmaking, tailoring, millinery, and other home sewing work;
 - 4. Handicrafts, such as weaving, leatherwork, and other arts and crafts;
 - 5. Instructional classes, not exceeding five students at a time;

6. Mail order or direct sales; provided, that no direct sales to customers occur from the residence;
7. Uses that entail food handling, processing or packing of specialized minor cooking or baking; and
8. Businesses such as plumbers, electricians, contractors, pool service providers, locksmiths, minor electronics and watch repair.

C. *Prohibited Uses.* The following uses are not permitted as a home occupation:

1. Firearms manufacturing/storage/on-site sales;
2. Medical marijuana dispensaries or commercial cultivation or medical marijuana infusion;
3. The repair, reconditioning, servicing or manufacture of any internal combustion or diesel engine or of any motor vehicle, including automobiles, trucks, motorcycles, and boats;
4. Drop-off, repair, fix-it, or plumbing shops; and
5. Kennels, storage, caring, or grooming of animals.

D. *Maximum Floor Area Allowed.* A home occupation shall not occupy more than one-quarter of the total floor area in the principal building and any accessory building on the lot.

E. *Signage.* No sign visible from a street, except for approved live/work units in the MU Districts, shall be publicly displayed relating to the home occupation or products thereof.

F. *Limitations on On-Site Employees.* No more than two persons shall be employed or work on site, excepting occupants of the dwelling who are members of the resident family. However, with approval of a conditional use permit, one additional employee may be allowed if the planning and zoning commission determines that there would be no adverse impacts on the immediately adjoining neighborhood in addition to the other required findings.

G. *Merchandise.* On-site display of merchandise or goods for the purposes of sale on the premises shall not be permitted. Walk-in customers and on-site sales of the merchandise or goods shall not be permitted.

H. *Storage.* Storage related to the home occupation must be confined to the interior of the dwelling or accessory building. No hazardous materials storage is allowed.

I. *Traffic and Parking.* The home occupation shall not generate more than five additional daily trips related to the business (e.g., deliveries and drop-off), on average over a work-week, nor require additional off-street parking spaces for delivery of materials or supplies to or from the premises. No garage or accessory building shall be altered or used in such a manner that would reduce the number of covered parking spaces required in the district in which it is located.

J. *Nuisance.* No equipment or process shall be used which creates noise, vibration, glare, fumes, odor, or electrical interference detectable to the normal senses. No equipment or process shall be used which creates visual or audible electrical interference in any radio or television receiver off the premises, or causes fluctuations

in line voltage off the premises. The home occupation shall not involve the use of power equipment on the premises using motors exceeding one horsepower combined capacity. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.12; Ord. 14-12 § 1.]

18.120.130 Hospitals and clinics.

Hospitals and clinics shall be located, developed, and operated in compliance with the following standards:

- A. *Location.* Hospitals are only allowed on sites with at least one frontage on an arterial street.
- B. *Minimum Frontage.* One hundred feet minimum street frontage on the arterial street.
- C. *Landscaping and Screening.* In addition to complying with the following standards, hospitals and clinics shall meet landscaping standards in Chapter [18.90](#) MCC:
 - 1. *Ancillary Areas.* All service areas, ambulance, storage, trash storage areas, ground- or roof-mounted mechanical equipment shall be screened from ground-level view from adjacent lots and public rights-of-way.
- D. *Litter.* One permanent, nonflammable trash receptacle shall be installed in the parking area adjacent to the entrance/exit. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.13; Ord. 14-12 § 1.]

18.120.140 Live/work units.

Live/work units shall be located, developed, and operated in compliance with the following standards:

- A. *Locations Allowed.* Live/work units are allowed in the NC, GC, and Mixed Use Districts.
- B. *Establishment.* Live/work units may be established through new construction or through the conversion of existing residential, commercial and industrial buildings.
- C. *Allowable Uses.* Work activities in live/work units are limited to uses that are permitted outright, or permitted subject to a conditional use permit in the district in which the live/work units are located. Live/work units may contain only residential uses, but they are not permitted to contain only work or commercial uses above the ground floor. On-site storage and sale of materials and merchandise are allowed.
- D. *Sale or Rental of Portions of Unit Above the Ground Level Prohibited.* No portion of a live/work unit located above the ground level may be separately rented or sold as a commercial space.
- E. *Floor Area Distribution.* An applicant shall submit a floor plan of all proposed units to the zoning administrator to show which areas are designated for work activities and which areas for living or as common areas.
- F. *Outdoor Living Area.* Common or private on-site open space shall be provided for the use of occupants at a rate of 150 square feet per live/work unit. This space may be attached to individual units or located on the roof or

adjoining the building in a yard. Some temporary outdoor storage of materials and merchandise related to the work activity, such as merchandise, is allowed during hours of operation. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.14; Ord. 14-12 § 1.]

18.120.150 Manufactured home/recreational vehicle uses.

A. *Recreational Vehicle Parks, Resorts, and Subdivisions – Permitted Uses.*

1. One recreational vehicle (RV) or park model home trailer on each approved lot or space. No manufactured homes or dwelling units of conventional construction shall be permitted on a lot or space for living purposes, except as specified below.
2. Recreational vehicle or park model home trailer accessory structures:
 - a. Aggregate floor area of all enclosed RV accessory structures shall be limited to 520 square feet, including storage rooms (attached or detached) and patio enclosures.
 - b. Additional requirements applying to patio enclosures:
 - i. Parking spaces shall not be enclosed.
 - ii. All roof materials shall be lightweight aluminum or other noncombustible material.
 - iii. A smoke alarm shall be installed in each room within a patio enclosure.
 - iv. Partitions may be used to accommodate laundry, bath, and toilet facilities.
 - v. Convenience electrical outlets and air conditioning equipment may be installed.
 - vi. Removal of sliding doors, windows, or other modification of the existing recreational vehicle enclosed by the patio enclosure is prohibited.
 - vii. Walls may consist of conventional wood framing or modular (prefabricated) construction.
 - viii. Glass located within 24 inches of a doorway or 18 inches of a floor must be tempered.
 - ix. Openings may be covered with screen mesh, plastic panels, or mineral glass. The combined surface area of openings facing the front, including doors and windows, shall account for 33 percent of the surface area of the front elevation.
 - x. The front wall may contain a solid knee wall not more than 32 inches above a finished floor.
 - xi. An open area located within the front wall shall be a minimum of 36 inches in height.
 - c. Additional requirements applying to storage buildings or space, attached or detached, subject to:

- i. A maximum area of 120 square feet;
 - ii. A maximum height of 10 feet above grade when detached or 10 feet above finished floor when attached; and
 - iii. Location within the buildable area unless placed in the rear quarter of the space or lot and separated from the recreational vehicle by at least six feet.
3. Manager's office, clubhouse and residence, which may be of conventional construction and not to exceed a maximum height of 25 feet.
 4. Recreation and social centers, which may be used for dancing, crafts, hobbies, games, child care, meetings, banquets, theatrical performances, movie viewing, and similar entertainment uses which are intended and used primarily as a resident amenity. Such facility may be of conventional construction and not exceed a maximum height of 25 feet.
 5. Outdoor recreation facilities such as parks, swimming pools, ramadas, playground equipment, shuffleboard and tennis courts, putting greens, and similar recreational uses intended for use by the residents of the park or subdivision.
 6. Common-use laundry facilities, maintenance buildings, and security guard houses, which may be of conventional construction.
 7. Designated areas for boat and recreational vehicle storage which are used solely by the residents of the park or subdivision.
 8. Recreation center parking lots and guest parking areas.
 9. Manufactured homes, mobile homes, or modular homes may be placed on designated recreational vehicle lots or spaces subject to approval of an administrative use permit.

B. *Residential Manufactured Home Parks and Subdivisions – Permitted Uses.*

1. One manufactured home, mobile home, or modular home on each approved space. No dwelling units of conventional construction shall be permitted on any space for living purposes, except as specified below.
2. Manufactured home, mobile home, or modular home accessory structures.
3. Storage buildings, attached or detached, subject to:
 - a. A maximum area of 150 square feet;
 - b. A maximum height of 10 feet;
 - c. Location within the buildable area unless placed in the rear quarter of the space or lot and separated from the recreational vehicle by at least six feet.

4. Manager's office and residence, which may be of conventional construction and not to exceed a maximum height of 25 feet.
5. Recreation and social centers, which may be used for dancing, crafts, hobbies, games, child care, meetings, banquets, theatrical performances, movie viewing, and similar entertainment uses which are intended and used primarily as a resident amenity. Such facility may be of conventional construction and not to exceed a maximum height of 25 feet.
6. Outdoor recreation facilities such as parks, swimming pools, ramadas, playground equipment, shuffleboard and tennis courts, putting greens, and similar recreational uses intended for use by the residents of the park.
7. Common-use laundry facilities, maintenance buildings, and security guard houses, which may be of conventional construction.
8. Designated areas for boat and recreational vehicle storage which are used solely by the residents of the park.
9. Recreation center parking lots and guest parking areas.

C. *Development Requirements.*

1. A minimum of five percent of the required recreational area shall be enclosed within a recreation hall or building. Public or private streets, vehicle storage areas, and exterior boundary landscaping areas shall not be included when calculating required recreational area.
2. A six-foot-high screen wall shall be required along all park and subdivision boundaries. Such wall shall be placed on the interior side of the required landscape strip.
3. Access to lots or spaces shall be from the interior of the park or subdivision.
4. Private streets shall be paved to a minimum width of 32 feet including required sidewalks when flush with the surface of the paving.
5. Concrete sidewalks at least three feet in width shall be provided on each side of interior private streets.
6. Required parking spaces shall be paved with either two inches of asphalt or four inches of concrete.

D. *Temporary Parking.*

1. Manufactured homes, mobile homes, modular homes, recreational vehicles, and park model home trailers shall not be parked, stored, or occupied on any property which is not part of an approved manufactured home or recreational vehicle park, subdivision, sales, or storage lot or approved under this section.
2. Temporary parking of a manufactured home, mobile home, modular home, park model home trailer, or recreational vehicle is subject to the following regulations:

- a. Emergency parking of a manufactured home, mobile home, modular home, park model home trailer, or recreational vehicle for a period of no longer than eight hours is permitted on any public thoroughfare subject to the provisions of the parking and traffic regulations of the city.
- b. The temporary parking of a recreational vehicle or park model home trailer on a public street in a residential area for the purposes of loading, unloading, or cleaning for a period of time not to exceed 48 hours shall also be permitted subject to the parking and traffic regulations of the city and provided the vehicle is not parked so as to create a traffic hazard or obstruct traffic visibility.
- c. On-site parking or storage of a recreational vehicle or park model home trailer is permitted in accordance with the following, provided such recreational vehicle is not used for living quarters or commercial purposes:
 - i. Within an enclosed accessory building or garage in all zoning districts.
 - ii. Where outdoor storage is otherwise allowed in the commercial and industrial districts. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.15; Ord. 14-12 § 1.]

18.120.160 Qualifying marijuana facilities.

Qualifying marijuana facilities shall be located, developed, and operated in compliance with the following standards:

A. *Compliance with Law.* All qualifying marijuana facilities shall conform with the Arizona Qualifying Marijuana Act, A.R.S. §§ 36-2801 through 36-2819, and any applicable Maricopa City Code.

B. *Allowable Zones.* GC (dispensaries only, no cultivation), LI and GI (infusion and cultivation facilities).

C. *Location.*

1. Qualifying marijuana facilities shall be a minimum distance from the uses set forth in the following table, including marijuana qualifying facilities located in neighboring jurisdictions. Measurements shall be made in a straight line in any direction from the exterior wall of the qualifying marijuana facility to the exterior wall of the protected use. If a manmade or natural barrier separates the uses but is within the separation requirement, then an exception can be made at the discretion of the zoning administrator.

Table 18.120.160 Marijuana Qualifying Facilities

Use or Use Classification	Separation Requirement (feet)
Another Marijuana Qualifying Facility	1,500 feet
Public/Private/Charter School	1,500 feet
Public or Private Park	500 feet

Table 18.120.160 Marijuana Qualifying Facilities

Use or Use Classification	Separation Requirement (feet)
Religious Facilities	500 feet
Civic Facilities	500 feet
Day Care Center	500 feet
Group and Residential Care Home	500 feet
Residential District Boundary	250 feet

- D. *Alcohol.* No alcohol can be sold or distributed on the premises for on- or off-site consumption.
- E. *Hours of Operation.* Hours of operation shall be limited to the time period between 8:00 a.m. and 10:00 p.m.
- F. *Minors.* Any minor who is allowed by law to enter a qualifying marijuana facility shall be supervised by an adult.
- G. *No Drive-Through Facilities.* No drive-through facilities are permitted.
- H. *Odor Control.* Qualifying marijuana facilities shall not emit dust, fumes, vapors, or odors into the environment and business shall ensure that ventilation, air filtration, building and design standards are compatible with adjacent uses and the requirements of adopted building codes of the city.
- I. *Consumption.* No marijuana consumption may occur on the same premises as a dispensary.
- J. *Security Plan Required.* The applicant shall furnish to the licensing office, for review and approval by the police department, a security plan containing the following information:
 - 1. Plan of operation, program plan and hours;
 - 2. Site/building information;
 - 3. Safety conditions;
 - 4. Patron parking, ingress and egress, vehicular and pedestrian traffic control;
 - 5. Staffing and operations;
 - 6. Conditions of plan;
 - 7. On-site contact person/manager;
 - 8. Any and all responsible parties for business operations;
 - 9. Employee background checks excluding violent felons;

10. Floor plan and evacuation routes; and
11. Any other reasonable information the police department deems necessary for review and approval of the security plan.

K. *Dispensary.*

1. *Size.* The maximum size for a qualifying marijuana facility dispensary is 5,000 square feet. Storage cannot be larger than 500 square feet.
2. *Cultivation.* No marijuana cultivation may occur on the same premises as a dispensary.
3. *Signage.* Signage shall be limited to one wall sign not to exceed 10 square feet in area, and one identifying sign not to exceed two square feet in area. Signs shall not be directly illuminated.
4. *Disposal of Products.* The dispensary shall provide for proper disposal of marijuana remnants of by-products, and which are not to be placed within the facility's exterior refuse containers.

L. *Cultivation.*

1. *Size.* The maximum size for a qualifying marijuana cultivation facility is 5,000 square feet. Storage cannot be larger than 1,000 square feet.
2. *Amount.* Authorized patients may grow up to 12 marijuana plants.
3. *Enclosed Locked Facility.* All marijuana plants must be cultivated in a permanent, enclosed, locked facility, which is a closet, room, greenhouse or other enclosed area equipped with locks or other security devices that permit access only by a cardholder. It may not be located in a trailer, cargo container, or motor vehicle.
4. *Sales.* Customer sales are prohibited.

M. *Abandonment.* If a qualifying marijuana facility closes for a duration longer than 12 months or if its license is revoked, the use will be considered abandoned and any authorization for the use on the lot shall be null and void.
[Res. 23-18; Ord. 23-22 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.16; Ord. 14-12 § 1.]

18.120.170 Mobile merchants.

Mobile merchants shall be located, developed, and operated in compliance with the following standards:

A. *Compliance with State Licensing Requirements.*

1. It shall be unlawful for any person to operate a mobile food unit or act as a mobile food vendor without having first obtained a valid license from Pinal County Department of Health Services pursuant to A.R.S. § [36-1761](#).

B. *Permit Requirements.*

1. It shall be unlawful for a person to operate a mobile sales unit at any location within the city without obtaining a zoning permit in accordance with city permit requirements. The mobile merchant shall comply with the requirements of this title.

2. A permit issued pursuant to this title, including a renewal of a permit, is valid from the date of issuance if the mobile merchant is in compliance with this title. The permit is nontransferable.

C. *Operation Requirements.*

1. *Fire Safety and Inspection.* A mobile merchant must ensure that all mobile sales units comply with the version of the International Fire Code in effect at the time when the permit is issued, state law, and the city code relating to fire and explosion safety standards.

2. It is unlawful for any person to operate a mobile sales unit that does not meet the requirements in this section.

3. A mobile sales unit(s) shall be inspected by the city's fire division, or the mobile merchant shall provide evidence that the mobile sales unit passed a fire inspection by another city or town fire department in this state within the preceding 12 months.

4. Provide a minimum of one 15-gallon trash receptacle within 15 feet of each individual mobile sales unit for customers and employees.

5. Transport the trash from the area of operation to an authorized waste disposal location.

6. A mobile sales unit shall have adequate lighting to ensure customer safety in the vending area. Lighting shall be directed downward and away from rights-of-way and adjacent properties.

D. *Insurance.*

1. If the mobile food unit operates at an event sponsored by the city or operates on public property, including rights-of-way or property owned by the city, the mobile merchant shall obtain insurance naming the city as an additional insured in amounts as required by the city and in accordance with the requirements of A.R.S. Title [9](#), Chapter [4](#), Article [7.2](#).

2. The insurance company issuing the policy shall be authorized to issue commercial liability policies in Arizona by the Arizona Department of Insurance.

3. The policy shall designate by manufacturer's serial or identification number all mobile sales units for which coverage is granted.

4. The policy shall insure the person named in the policy and any other person using the mobile merchant with the express or implied permission of the named insured against any liability arising out of the ownership, maintenance or use of the mobile sales unit in Arizona.

5. No sales of food items in glass containers shall be permitted.

6. No vendor shall ring bells, play chimes, play an amplified musical system, or make any other notice to attract attention to its business while operating within city limits.
 7. One A-frame sign shall be allowed within 10 feet of the mobile food vendor. Refer to city sign regulations for size limitations in Chapter [18.115 MCC](#).
- E. *Location.* A mobile merchant shall operate a mobile sales unit only in commercial zoning districts in accordance with the city zoning code and subject to the following limitations and conditions:

1. *Residential Area.* A mobile food vendor shall not operate in an area zoned for residential use or within 250 feet of an area zoned for residential use, except:
 - a. A mobile food vendor selling only ice cream may operate on public rights-of-way in areas zoned for residential use; or
 - b. Subject to applicable laws and the city code, a mobile merchant may operate on private property in a residential area if the mobile merchant or property owner obtains a special event permit through the city for a maximum of six hours within a 24-hour period on the private property.
2. *City-Owned Property.* A mobile merchant shall only operate in a legal parking space. If the mobile food vendor desires to operate on city property other than a legal parking space in a right-of-way, the mobile food vendor shall obtain from the city:
 - a. A separate licensing for use, services contract, or similar agreement, which will be entered into at the city's sole discretion and applicable law; or
 - b. A special event permit or similar permission in accordance with the city code.
3. *Private Property.* A mobile merchant shall obtain written permission to use any private property where a mobile sales unit is operating and shall provide proof of such written permission on demand by the city.

Notwithstanding the permission of a person owning or having lawful control of private real property, a mobile sales unit shall not remain in one location on private property for longer than 96 consecutive hours, unless the city grants permission for a permitted event greater than four days. "One location" within this subsection means a location within a parcel of land and includes movements from different parked positions within the same parcel.

4. *Airports/Public Transit.* Mobile merchants shall not operate at any city airport or public transit facility unless the mobile merchant has entered into a separate licensing for use agreement or similar services agreement with the city, which the city will enter in its sole discretion and applicable law.
- F. *Parking.* A mobile sales unit shall comply with this subsection and applicable law as it pertains to parking, unless parking is governed by a separate subsection in this title.

1. A mobile sales unit shall only operate in a legal parking space.

2. A mobile sales unit, including any semi-permanent structure used or associated with the mobile sales unit, may use no more than one legal parking space, unless the mobile merchant has a separate agreement with the city to use additional legal parking spaces or parking spaces on city property other than the right-of-way.
3. No mobile sales unit exceeding 24 feet may park diagonally in a diagonal parking space or park in any manner that occupies more than one diagonal parking space.
4. No mobile sales unit shall operate with the serving window facing street traffic.
5. A mobile sales unit shall not obstruct the movement of pedestrians or other vehicles using the sidewalk, street, alley, or other public right-of-way.
6. A mobile sales unit shall abide by all parking regulations, including posted time limits. If there are no other time restrictions on the use of a legal parking space, a mobile sales unit shall not occupy a legal parking space for more than six hours in a 24-hour period. "Occupy" within this subsection means within 100 feet of the place in which the mobile sales unit was initially parked.
7. A mobile food unit shall not occupy a legal parking space with insufficient parking capacity as prescribed by the city zoning code and applicable law, and includes occupying a legal parking space that reduces the number of available parking spaces surrounding the area which is required for the principal use or uses of the property associated with the parking spaces as set forth in A.R.S. Title [9](#), Chapter [4](#), Article [7.2](#).
8. A mobile merchant shall not claim or attempt to establish any exclusive right to park at a particular street location, unless the parking space is part of a permitted event. [Ord. 24-01 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.17; Ord. 14-12 § 1.]

18.120.180 Off-track betting establishments.

Off-track betting establishments shall be an accessory use located, developed, and operated in compliance with the following standards:

- A. *License.* An off-track betting establishment shall be required to have a valid business license from the city and state which must be renewed annually.
- B. *Location.* An off-track betting license will not be granted unless located a minimum of 1,000 feet from any other such establishment, any public park, and any elementary or secondary educational facility. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.18; Ord. 14-12 § 1.]

18.120.190 Outdoor dining and seating.

Outdoor dining and seating shall be designed, located, and operated consistent with the following standards:

- A. *Purpose.* The purpose of this section is to permit outdoor dining and seating that enhance the pedestrian ambience of the city and ensure that they do not adversely impact adjacent properties and surrounding neighborhoods consistent with the goals, objectives, and policies of the general plan.
- B. *Applicability.* The provisions of this section shall apply to all new sidewalk cafes and to all existing sidewalk cafes at such a time as the outdoor dining and seating is expanded or enlarged.
- C. *Accessory Use.* Outdoor dining and seating shall be conducted as an accessory use to a legally established eating and drinking establishment that is located on the same parcel, a contiguous adjacent parcel, or on public right-of-way immediately adjacent to the tenant space.
- D. *License Agreement.* A license agreement for outdoor dining and seating on the public right-of-way shall be approved in a form required by the city.
- E. *Barriers.* If barriers are provided, they shall be in the manner required by the city.
- F. *Enclosure.* Awnings or umbrellas may be used in conjunction with a sidewalk cafe, but there shall be no permanent roof or shelter over the outdoor dining and seating area. Awnings shall be adequately secured and retractable, and shall comply with the building code adopted by the city and any applicable design guidelines.
- G. *Fixtures.* The furnishings of the interior of the outdoor dining and seating shall consist only of movable tables, chairs and umbrellas. Lighting fixtures may be permanently affixed onto the exterior front of the principal building.
- H. *Refuse Storage Area.* No structure or enclosure to accommodate the storage of trash or garbage shall be erected or placed on, adjacent to, or separate from the sidewalk cafe on the public sidewalk or right-of-way. Outdoor dining and seating shall remain clear of litter at all times.
- I. *Hours of Operation.* The hours of operation of the outdoor dining and seating shall be limited to the hours of operation of the associated restaurant or other eating and drinking establishment.
- J. *Parking.* Where outdoor dining and seating occupy less than 200 square feet of area, additional parking spaces for the associated eating and drinking establishment shall not be required. Parking shall be provided according to the required ratio in Chapter [18.105](#) MCC, On-Site Parking and Loading, for any area exceeding 200 square feet dedicated to outdoor dining. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.19; Ord. 14-12 § 1.]

18.120.200 Noninstitutional banking.

A noninstitutional banking establishment (a.k.a. nonchartered financial institutions), other than a state or federally chartered bank, credit union, mortgage lender, or savings and loan association, must meet the following standards:

- A. *License.* A noninstitutional banking establishment shall be required to have a valid business license from the state which must be renewed annually.

B. *Conditional Use Required.* A noninstitutional banking establishment must obtain a conditional use permit from the planning and zoning commission.

C. *Location.* Minimum 1,000 lineal feet from another noninstitutional bank location, pawn shop, tobacco paraphernalia sales, off-track betting establishment, and tattoo or body modification parlor. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.20; Ord. 14-12 § 1.]

18.120.210 Personal services and restricted personal services.

Personal services and restricted personal services shall be located, developed, and operated in compliance with the following standards:

A. *Hours of Operation.* Hours of operation shall be limited to 7:00 a.m. to 10:00 p.m. unless otherwise specified.

B. *Massage and Massage Services.*

1. *Location.* Massage and massage service uses shall be located a minimum of 1,000 feet from any other such establishment or smoke shop, hookah lounge, check-cashing facility, off-track betting establishment, any public park, and any elementary or secondary educational facility.

C. *Tattoo or Body Modification Parlor.*

1. *Location.* Tattoo and body modification parlors shall be located a minimum of 1,000 feet from any other such establishment or smoke shop, hookah lounge, check-cashing facility, off-track betting establishment, any public park, and any elementary or secondary educational facility.

2. *Registration Required.* Any person who is engaged in the business of tattooing or body modification shall provide evidence of registration with the Pinal County public health department and city codes.

3. *No Persons Under 18.* A sign shall be posted on the door or in view of the entrance stating that no person under the age of 18 is allowed on site, unless accompanied by a parent or legal guardian. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.21; Ord. 14-12 § 1.]

18.120.220 Personal storage facilities.

Personal storage facilities shall be located, developed, and operated in compliance with the following standards:

A. *Business Activity.* All personal storage facilities shall be limited to inactive items. No retail, repair, or other commercial use shall be conducted out of the individual rental storage units.

B. *No Hazardous Materials Storage.* No storage of hazardous materials is permitted.

C. *Notice to Tenants.* As part of the rental process, the facility manager shall inform all tenants of conditions restricting storage of hazardous materials and limitations on the use of the storage units. These restrictions shall be included in rental contracts and posted at a conspicuous location within the front of each rental unit.

D. *Open Storage.* Open storage, outside an enclosed building, shall be limited to vehicles and trailers with a valid registration and screened from public view by building facades or solid fences of eight feet with view-obscuring gates.

E. *Circulation.* Driveway aisles shall be a minimum of 24 feet wide.

F. *Exterior Wall Treatment and Design.* Exterior walls visible from a public street or residential district shall be constructed of decorative block, concrete panel, stucco, or similar material. These walls shall include architectural relief through articulation, trim, change in color at the base, variations in height, the use of architectural "caps," attractive posts, or similar measures. A gate(s) shall be decorative iron or similar materials. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.22; Ord. 14-12 § 1.]

18.120.230 Recycling facilities.

Recycling facilities shall be located, developed, and operated in compliance with the following standards:

A. *Reverse Vending Machines.*

1. *Accessory Use.* Reverse vending machines may be installed as an accessory use to a permitted or conditionally permitted primary use on the same site.
2. *Location.* Machines shall be located adjacent to the entrance of the commercial host use and shall not obstruct pedestrian or vehicular circulation.
3. *Identification.* Machines shall be clearly marked to identify the type of material to be deposited, operating instructions, and the identity and phone number of the operator or responsible person to call if the machine is inoperative.
4. *Signs.* The maximum sign area on a machine is four square feet, exclusive of operating instructions.
5. *Lighting.* Machines shall be illuminated to ensure comfortable and safe operation between dawn and dusk.
6. *Trash Receptacle.* Machines shall provide a 40-gallon garbage can for nonrecyclable materials located adjacent to the reverse vending machine.

B. *Recycling Collection Facilities.*

1. *Size.* Recycling collection facilities that are not part of a recycling processing facility shall not exceed a building site footprint of 1,000 square feet or include more than three parking spaces (not including space periodically needed for the removal or exchange of materials or containers).

2. *Equipment.* No power-driven processing equipment, except for reverse vending machines, may be used.
 3. *Location.* Facilities shall not be located within 50 feet of a residential district.
 4. *Setback.* Facilities shall be set back at least 10 feet from any street lot line and not obstruct pedestrian or vehicular circulation.
 5. *Containers.* Containers shall be constructed of durable waterproof and rustproof material(s) and secured from unauthorized removal of material. Capacity shall be sufficient to accommodate materials collected in the collection schedule.
 6. *Identification.* Containers shall be clearly marked to identify the type of accepted material, the name and telephone number of the facility operator and the hours of operation.
 7. *Signs.* The maximum sign area shall be 20 percent of the area of the side of facility or container or 16 square feet, whichever is larger. In the case of a wheeled facility, the side is measured from the pavement to the top of the container. The zoning administrator may authorize increases in the number, size, and nature of additional signs for necessary directional or identification purposes but not for outdoor advertising.
 8. *Parking.* Patrons and the attendant shall not reduce available parking spaces below the minimum number required for the main use unless a parking study shows available capacity during recycling facility operation.
 9. *Site Maintenance.* Sites shall be maintained clean, sanitary, and free of litter and any other undesirable materials. Noise and odors shall be contained within the immediate area of the establishment so as not to be a nuisance to neighbors.
- C. *Recycling Processing Facility.*
1. *Location.* Facilities shall not abut a residential district.
 2. *Screening.* The facility must be screened from public rights-of-way by solid masonry walls or located within an enclosed structure.
 3. *Outdoor Storage.* Exterior storage of material shall be in sturdy containers or enclosures that are secured and maintained in good condition. Storage shall not be visible above the height of the required solid masonry walls.
 4. *Identification.* Facilities shall be clearly marked with the name and phone number of the facility operator and hours of operation.
 5. *Site Maintenance.* Sites shall be maintained clean, sanitary, and free of litter and any other undesirable materials. Noise and odors shall be contained within immediate area of the establishment so as not to be a nuisance to neighbors. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.23; Ord. 14-12 § 1.]

18.120.240 Group home.

Group homes are permitted in all single-family districts subject to the requirements provided herein. The purpose of these regulations is to permit minors, disabled, handicapped or elderly persons to reside together in single-family residential neighborhoods in compliance with the Fair Housing Act, while preserving the residential character of the neighborhood.

A. *Registration.* Group homes with seven to 10 residents shall submit a completed zoning permit application and required supplemental materials to the planning division on a form established by the zoning administrator. For group homes with seven to 10 residents that are licensed by the state, county or other governmental authority, a tentative zoning permit may be issued upon verifying the application complies with the standards below. Said group homes shall be considered to be registered with the city at the time they receive a tentative zoning permit. In all cases, permits for group homes shall terminate when the group home use ceases.

B. *Standards.* Group homes shall be located, developed, and operated in compliance with the following standards:

1. *Occupancy.* The number of residents, excluding staff, shall not exceed:
 - a. One to six residents: No zoning permit required.
 - b. Seven to 10 residents: A zoning permit is required.
2. *Separation.* The minimum separation between group homes shall be 1,200 feet, as measured from the closest property lines.
3. *Exterior Appearance.* There shall be no sign or other exterior indication of a group home visible from a street. A minimum six-foot-high wall or fence shall be provided for purposes of screening and securing outdoor recreational areas.
4. *Compliance with All Applicable Building and Fire Safety Regulations.* Group homes shall comply with any and all other applicable state or local requirements including, but not limited to, the city's building and fire codes. These requirements may require safety measures such as fire sprinklers, alarms and monitoring systems depending on such factors as the number of residents and whether the residents are capable of self-preservation.
5. *Licensing.* Group homes shall comply with any and all applicable state licensing requirements.
6. *Parking.* Any parking for the group or residential care homes shall be on site and comply with the requirements of Chapter [18.105](#) MCC, On-Site Parking and Loading.
7. *Exclusive Use.* All administrative activities, including staffing, counseling, and other visitations, shall serve only the residents of the group home.

8. *Preemptions.* Notwithstanding the foregoing, if the state has adopted laws or rules for the regulation of a specific type of group home, then any such state law or rule shall apply in addition to the conditions listed herein and/or shall preempt any conflicting condition listed herein.
- C. *Request for Accommodation.* If a group home owner believes any requirement of the zoning code prevents the establishment of a group home in an economically viable manner, the owner shall submit to the zoning administrator a written request for accommodation and the reasons why the accommodation is required. The written request shall contain sufficient facts to allow the zoning administrator to make an individualized determination of the group home's needs, to address the city's safety and welfare concerns, and to assure compliance with this section. The zoning administrator shall review the written request and determine:

1. Whether an accommodation should be made pursuant to the requirements of the Fair Housing Act;
2. If so, the nature of the accommodation taking into consideration the requirements of the Fair Housing Act, public safety and welfare concerns, and the residential character of the neighborhood; and
3. The accommodation shall be made only to the extent necessary to comply with the Fair Housing Act. Profitability or financial hardship of the owner/service provider of a facility shall not be considered by the zoning administrator in determining to grant a reasonable accommodation waiver. An appeal of the decision of the zoning administrator may be made regarding reasonable accommodation to the hearing officer pursuant to Chapter [18.135](#) MCC. [Ord. 23-35 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 18-20; Ord. 18-05 § 2; Res. 14-36 § 410.24; Ord. 14-12 § 1.]

18.120.250 Restricted retail uses.

Restricted retail uses shall be located, developed, and operated in compliance with the following standards:

- A. *Hours of Operation.* Hours of operation shall be limited to the time period between 7:00 a.m. and 10:00 p.m.
- B. *Tobacco-Oriented Retailers.* Application for tobacco-oriented retailers shall comply with and show the method of complying with the following standards:
1. The use shall be at least 1,000 feet from another tobacco retailer, public, private, or charter school, parks/playgrounds or licensed day care facilities, noninstitutional banking establishment, or off-track betting establishment.
 2. The separation distance shall be measured in a straight line from the store footprint of the tobacco-oriented retailer use to the nearest building footprint of the other listed uses.
- C. *Pawn Shop.*
1. *Location.* Pawn shops shall be located a minimum of 1,000 feet from any other such establishment or smoke shop, hookah lounge, noninstitutional banking establishment, off-track betting establishment, any public park, and any elementary or secondary educational facility.

D. *Hookah Lounge.*

1. *Location.* Hookah lounges shall be located a minimum of 1,000 feet from any other such establishment or smoke shop, hookah lounge, noninstitutional banking establishment, off-track betting establishment, any public park, and any elementary or secondary educational facility.
2. *No Persons Under 18.* A sign shall be posted on the door or in view of the entrance stating that no person under the age of 18 is allowed on site, unless accompanied by his or her parent or legal guardian. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.25; Ord. 14-12 § 1.]

18.120.260 Temporary uses.

Temporary uses require an approved temporary use permit to operate pursuant to MCC [18.150.080](#) unless otherwise specified in this code. Temporary uses shall be located, developed, and operated in compliance with the following standards:

- A. *General.* A temporary use is intended to operate only for a limited period of time.
- B. *Carnivals, Fairs, and Festival Events.* Carnivals, fairs, and festival events, including arts and neighborhood and community fairs, in connection with an existing commercial use or in conjunction with an activity of a civic organization, church, lodge, public or private educational facility, or other such group or organization are permitted in accordance with the following standards:
 1. *Location.* Carnivals, fairs, and festival events are limited to areas within commercial, mixed use, and employment districts, or on property owned by a public or private educational facility, institution, or religious facility. Corn mazes and similar activities are permitted in rural districts. Neighborhood and community fairs are permitted in rural and residential districts.
 2. *Time Limit.* When located within or adjacent to a residential district, the hours of operation shall be limited to 8:00 a.m. to 9:00 p.m., unless a longer time period is approved with a temporary use permit.
 3. *Duration.* Carnivals, fairs, revivals and festival events are limited to no more than 10 consecutive days, separated by at least 30 calendar days four times a year. A more limited duration may be established in order to prevent the use from becoming a nuisance with regard to the surrounding neighborhood or the city as a whole.
 4. *Existing Parking.* Where such a use is proposed within a developed parking lot, the available parking shall not be reduced to less than 75 percent of the minimum number of spaces required by this code (or an alternative method for parking is approved by staff), and traffic access shall be maintained.
- C. *Farmers Markets.* Farmers markets shall be located, developed, and operated consistent with the following standards:

1. *Operator.* Farmers markets must be operated by one or more certified producers, a nonprofit organization, or a local government agency.
 2. *Vendors.* At least 70 percent of vendors must be farmers, ranchers, and other businesses who sell food, plants, flowers, and added-value products such as jams and jellies.
 3. *Management Plan.* A management plan shall be prepared and provided to the zoning administrator. The management plan shall include the following:
 - a. Identification of a market manager or managers, who shall be present during all hours of operation.
 - b. A set of operating rules addressing the governance structure of the market, the method of assigning booths and registering vendors, hours of operation, maintenance, security, refuse collection, and parking.
 4. *Hours of Operation.* Market activities shall be conducted between the hours of 7:00 a.m. and 7:00 p.m. Setup of market operations shall begin no earlier than 6:00 a.m., and takedown shall end no later than 8:00 p.m.
 5. *Waste Disposal.* Adequate composting, recycling, and trash containers shall be provided during hours of operation, and shall be removed from the site for appropriate disposal. The site shall be cleaned at the end of each day of operations, including the removal of all stalls and debris.
- D. *Garage Sales.* A garage or yard sale may be conducted on any developed lot in a residential or rural district, subject to the following requirements. No permit is necessary to conduct a garage sale.
1. No more than four such sales may be conducted on any one lot in any one calendar year.
 2. Each sale period shall be for no more than three days within a three-month duration.
 3. All merchandise to be sold shall be displayed on a private lot and not within the public right-of-way. Merchandise shall be personal property of the family or families hosting the sale and shall not have been purchased for resale.
- E. *Model Homes.* Model homes with sales offices and temporary information/sales trailers in new residential subdivisions are subject to the following requirements:
1. *Time Limits.* A temporary information/sales trailer may be used during the construction of the model homes for a maximum period of 12 months.
 2. *Location of Sales.* Real estate sales conducted from a temporary sales office are limited to sales of lots within the subdivision it is located in and to other subdivision projects under the same ownership.
 3. *Return to Residential Use.* Prior to the close of a sale of any of the model homes as a single-family residence, any portion used for commercial purposes will be converted to its intended residential purpose, including flagpoles.

4. *Term of Use.* The model home may be established and operated until completion of the sale of the lots or residences within the subdivision, or for a duration specified as a condition of the temporary use permit.

F. *Swap Meets.* Outdoor swap meets, antique markets, and similar multi-vendor open-air ventures are allowed in accordance with the following standards:

1. *Location.* Outdoor markets are limited to areas within public/semi-public, commercial, mixed use, and employment districts, or on property owned by a public or private educational facility, institution, or religious facility.

2. *Time Limit.* When located within or adjacent to a residential district, the hours of operation shall be limited to 8:00 a.m. to 9:00 p.m., unless a longer time period is approved with a temporary use permit.

3. *Duration.* Swap meets may only operate once per month for no more than two consecutive days.

4. *Existing Parking.* Where such a use is proposed within a developed parking lot, the available parking shall not be reduced to less than 75 percent of the minimum number of spaces required by this code (unless an alternative method for parking is approved by city staff), and traffic access shall be maintained.

G. *Temporary and Seasonal Outdoor Sales.* Temporary and seasonal outdoor sales are allowed in accordance with the following standards. An approved administrative use permit is required.

1. *General Requirements.* Temporary outdoor sales, including but not limited to grand opening events, and other special sales events, on private property in nonresidential districts are subject to the following standards:

a. Except for seasonal sales, temporary outdoor sales are part of an existing business on the same site and are limited to a seven-day period four times a year.

b. Sales events must be conducted solely on private property and not encroach within the public right-of-way or occupy required parking, unless an alternative parking scenario is approved by staff to meet the intent. Location of the displayed merchandise must not disrupt the normal circulation of the site, nor encroach upon driveways, pedestrian walkways, or required landscaped areas, or obstruct sight distances or otherwise create hazards for vehicle or pedestrian traffic.

2. *Seasonal Sales.* The annual sales of Christmas trees, fireworks, pumpkins and similar items are permitted in accordance with the following standards:

a. *Time Period.* Pumpkin sales are permitted from October 1st through November 7th. Christmas tree sales are permitted from November 15th through December 31st. Seasonal sales associated with other holidays are permitted up to a month preceding and one week following the holiday.

b. *Goods, Signs and Temporary Structures.* All trees, pumpkins, or other items for sale, as well as signs and temporary structures, shall be removed within five days after the end of sales, and the appearance of the site shall be returned to its original state.

3. *Nonprofit Fundraising.* Fundraising sales by a nonprofit organization for up to three days per event.
4. *Long-Term Special Events and Sales.* Other special events, outdoor sales, and displays that exceed seven consecutive days may be permitted in accordance with the following standards:
 - a. *Location.* Events are limited to nonresidential districts.
 - b. *Number and Duration of Events.* No more than four events at one address shall be allowed within any 12-month period unless a temporary use permit is obtained. The duration of any single event shall not exceed 30 days.
 - c. *Existing Business.* Temporary outdoor sales shall be part of an existing business on the same site.
 - d. *Signs.* Signs shall conform with the provisions of Chapter [18.115](#) MCC.
5. *Vehicle Sales Prohibited.* The parking of privately owned used automobiles in parking lots for the express purpose of offering the vehicle for sale is prohibited, unless permission is granted by the property owner and multiple cars are not offered for sale at one time. This restriction does not apply to automobile/vehicle sales and leasing uses. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.26; Ord. 14-12 § 1.]

18.120.270 Transitional and supportive housing facilities.

Transitional and supportive housing facilities shall be located, developed and operated only with an approved conditional use permit and in conformance to the following standards:

- A. *Location – Separation from Dissimilar Uses.* A minimum distance of at least 500 feet from all of the following:
 1. A public or private school building with kindergarten programs or grades one through 12, and any recreational area adjacent to such school building; and
 2. A church; and
 3. A public park.
- B. *Location – Separation from Similar Uses.* Transitional housing facilities shall provide a separation of at least 5,280 feet from any other transitional housing facility, and a minimum of 500 feet to another residential use.
- C. *Location Exception Criteria.* The city council, at its discretion, may grant an exemption to the separation provisions of subsection [\(A\)](#) of this section if it makes all of the following findings:
 1. That the location of the proposed activity will not have a detrimental effect on nearby properties or be contrary to the public safety or welfare; and
 2. That the granting of the exception will not violate the spirit and intent of this section; and

3. That compliance with this separation requirement will place an undue hardship on the owner of the facility; and
 4. That all other applicable provisions of the city code will be observed.
- D. *Maximum Occupancy - Transitional Housing.* The maximum number of residents in transitional housing facilities is limited to 30.
- E. *Restrictions on Related Uses.* Transitional housing facilities may include any boarding house, dormitory, or multiple-unit dwelling, or other dwelling when developed, promoted, and advertised as a correctional transitional housing facility, but shall not include group homes for the handicapped, or any facility providing counseling or other services to individuals who do not reside on the premises.
- F. *Criteria for Review of Conditional Use Permit.* The review of the conditional use permit shall include a review and determination regarding the following items:
1. The use is found to be in compliance with the general plan and other recognized development plans or policies, and will be compatible with surrounding uses; and
 2. A finding that a plan of operation has been submitted, which includes, but is not limited to, acceptable evidence of compliance with all zoning, building, and fire safety regulations; and
 3. A finding that a "good neighbor policy" in narrative form has been submitted, which includes, but is not limited to, descriptions of acceptable measures to ensure ongoing compatibility with adjacent uses. Such policies shall include, but are not limited to, the name and telephone number of the manager or person responsible for the operation of the facility; complaint response procedures, including investigation, remedial action, and follow-up; and litter control measures; and
 4. Evidence that acceptable documentation is present demonstrating that the building or site proposed for the use is in conformance with all current city development standards, including, but not limited to, landscaping, parking, screen walls, signage, and design guidelines. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 410.27; Ord. 14-12 § 1.]

18.120.280 Food and beverage sales.

- A. *Site Operations and Management.* Facilities that utilize shopping carts shall be operated in compliance with the following standards:

1. *Shopping Carts.* Refer to MCC Title [5](#). [Res. 21-09; Ord. 21-05 § 2.]

18.120.290 Charitable donation containers.

A. *Permitted in Commercial and Industrial Zoning Districts Within the City of Maricopa.* The drop box containers are governed by the following requirements:

1. A zoning permit shall be required prior to placement of the container(s) within the city of Maricopa.
2. Applicant shall obtain owner authorization from the property owner and provide documentation.
3. The container is permitted only as an accessory use to a primary use on the property and shall be located on a paved surface.
4. The container shall not be permitted in a location that impacts required parking, vehicular circulation, site visibility triangles, loading zones, or landscaping.
5. The container shall not be located within the minimum front and street side building yard setbacks.
6. No more than two donation containers shall be clustered together in any one location.
7. The container shall be constructed of durable material and be maintained in a safe non-blighted condition.
8. The container shall be fully screened and landscaped if visible from a public roadway.
9. The container shall be clearly marked to identify the specific items and materials requested to be left for donations. The name, telephone number, and email address of the container owner or operator shall be posted on the container.
10. A notice shall also be posted on the container that items shall not be left outside the container and that no hazardous materials may be placed inside the containers.
11. The container shall also list the name of the non-profit entity that benefits from the donated item profits.
12. The owner or operator of the container shall remove any material left in and around the container within 24 hours of receiving a written warning from the property owner or the city of Maricopa.
13. The property owner shall control the permit, not the permittee; the property owner or authorized agent may rescind their authorization for the container at any time.
14. A zoning permit may be revoked by the city of Maricopa if approval was obtained by means of fraud or misrepresentation, the use in question has ceased to exist, failure to observe the terms or conditions of the approval or the use has been conducted in a manner detrimental to the public safety, health and welfare, or so as to be a nuisance. (Refer to MCC [18.140.130](#) for further details).

15. Any donation/recycling drop-box (including its contents) which is determined to be unauthorized, unpermitted, or is otherwise in violation of this chapter shall be deemed a public nuisance as defined in MCC [8.20.040](#), Nuisances, and may be removed pursuant to those provisions. [Ord. 24-12 § 2.]

Chapter 18.125

SUSTAINABLE DEVELOPMENT INCENTIVE PROGRAM

Sections:

- [18.125.010 Purpose.](#)**
- [18.125.020 Applicability.](#)**
- [18.125.030 Incentives program.](#)**
- [18.125.040 Qualifying sustainable development features.](#)**
- [18.125.050 Procedure for granting an incentive.](#)**

18.125.010 Purpose.

The purpose of this chapter is to establish incentives for development to support the city's desire to create a more sustainable community. The sustainable development incentive program is designed:

- A. To increase energy and water efficiency in existing and new developments;
- B. To increase resource conservation;
- C. To provide durable development that is efficient and economical to own, operate, and maintain; and
- D. To promote sustainable development practices. [Ord. 14-12 § 1; Res. 14-36 § 411.01.]

18.125.020 Applicability.

For all development projects, this program is voluntary. [Ord. 14-12 § 1; Res. 14-36 § 411.02.]

18.125.030 Incentives program.

A project must include the specific number of sustainable development features listed in Table 18.125.030 to obtain development incentive. The following table lists the specific incentives that can be granted by the zoning administrator and requirements necessary to receive each incentive. The qualifying sustainable development incentives are described in MCC [18.125.040](#). The award levels are cumulative. If a proposed project meets the

number of requirements listed in the "Requirements" and "Additional Requirements" columns, then a project may receive the incentive in the "Development Incentive" column.

Table 18.125.030 Requirements for Development Incentives

Development Incentive	Description	Requirements	Additional Requirements
Expedited Zoning Clearance/Development Review Permit	Development review permit may be expedited administratively, planning and zoning commission not required.	Development must achieve 9 out of the 17 sustainable development features.	Sustainable feature #14 required.
Increased Building Height	A development may increase the allowable building height up to 15 feet.	Development must achieve 7 out of the 17 sustainable development features.	
Setback Reduction	A development may reduce the required front, rear or side yard setback/buffer up to 5 feet.	Development must achieve 5 out of the 17 sustainable development features.	Sustainable feature #11 required.
Parking Reduction and Project Award Recognition by Development Services	A development may reduce the minimum parking requirements up to 20 percent.	Development must achieve 3 out of the 17 sustainable development features.	Parking study may be required, at developer's sole cost and expense, as determined by the zoning administrator.

[Ord. 14-12 § 1; Res. 14-36 § 411.03.]

18.125.040 Qualifying sustainable development features.

The components of the sustainable development incentive program are listed below along with the specific requirement that must be met for a qualifying feature to be approved. In accordance with MCC [18.125.030](#), certain sustainable features must be incorporated into a development in order to be awarded with some of the development incentives available.

Table 18.125.040 Qualifying Sustainable Development Features

Category	#	Sustainable Development Features and Requirements
Site Design	1	Building or development is built to LEED™ or equivalent third-party certification standard, as approved by the city.

Table 18.125.040 Qualifying Sustainable Development Features

Category	#	Sustainable Development Features and Requirements
	2	Development uses a roofing material with a solar reflectance index (SRI) equal to or greater to the following: <ul style="list-style-type: none"> • Low sloped roof – less than or equal to 2:12 – SRI value of 78 • Steep slope roof – greater than 2:12 – SRI value of 29 (Refer to U.S. Green Building Council LEED NC Credit 7.2 Heat Island Effect – Roof.)
	3	Development increases the on-site refuse container screening area to accommodate a six-yard container for the purpose of recycling.
	4	Development incorporates a parking garage structure or underground parking structure subject to MCC 18.90.050 .
	5	Site development parking area is built to a standard of one landscape island for every four spaces. Minimum landscape island area shall be 25 square feet.
	6	Preferred parking for low-e vehicles: Site designates one parking stall nearest to the building for low emission vehicles. Where building floor area is equal to or greater than 5,000 square feet, at least five percent, but not less than two, of the parking spaces provided are designated as preferred parking.
	7	Site hardscape heat island reduction: Not less than 50 percent of site hardscape is (a) hardscape materials with an initial solar reflectance value of not less than 0.30; (b) combination of shade structures and shaded by trees; or (c) pervious paving, open-grid pavers. Reference: Section 408 of the International Green building code.
	8	Site development does not exceed minimum parking requirements by more than five percent.
	9	Development incorporates purple piping (for reclaimed water) for irrigation of landscape areas or other nonpotable reclaimed water use.
Water Efficiency	10	Site development incorporates functional rainwater harvesting that irrigates at least 20 percent of the total landscape area.
	11	Development installs and maintains live vegetation screen walls where reduced setback or buffer yard is requested in addition to the minimum required landscaping and boundary wall(s) or screen wall(s).
	12	Development installs alternative on-site rain water runoff systems that incorporate rainwater harvesting features, pervious paving, and other similar systems.
Landscaping	13	Development incorporates exterior landscaping/planters extending six feet from the finished grade and integrated into the structure, such as a green wall and green roof systems.

Table 18.125.040 Qualifying Sustainable Development Features

Category	#	Sustainable Development Features and Requirements
Energy Reduction	14	Site development incorporates solar parking lot lights for at least 50 percent of the proposed fixtures.
	15	Site development incorporates roof top solar panels, with a minimum size of 2.5 kwh for each panel.
	16	Site development incorporates minimum 3 ft. window overhang(s) or equal architectural features to shade 100 percent of all west facing windows and 75 percent of all proposed windows, and entrance doors with glazing.
Innovative	17	Any other innovative sustainable design feature(s) found to meet the intent of this chapter, to be reviewed and accepted at the discretion of the zoning administrator.

[Ord. 14-12 § 1; Res. 14-36 § 411.04.]

18.125.050 Procedure for granting an incentive.

The zoning administrator shall review opportunities for a sustainable development incentive and determine whether the project includes the required number of qualifying features to justify granting the requested incentive. This review shall occur prior to granting a permit for the project. Compliance for authorization of incentive(s), schematic drawings, and other documentation may be required at the discretion of the zoning administrator for verification of the proposed sustainable development features. [Ord. 14-12 § 1; Res. 14-36 § 411.05.]

Chapter 18.130

TELECOMMUNICATIONS FACILITIES

Sections:

- [18.130.010 Purpose.](#)**
- [18.130.020 Applicability.](#)**
- [18.130.030 General requirements.](#)**
- [18.130.040 Permitted antennas and towers.](#)**
- [18.130.050 Antennas and towers requiring conditional use permits.](#)**
- [18.130.060 Co-location.](#)**
- [18.130.070 Removal of abandoned antennas and towers.](#)**
- [18.130.080 Nonconforming antennas and towers.](#)**
- [18.130.090 Special district requirements.](#)**

18.130.010 Purpose.

The purpose of this chapter is to establish general guidelines for the installation of wireless communications towers and antennas. The goals of this chapter are to:

- A. Minimize the adverse visual effects of towers through careful design, siting, and screening, while preserving the rights of wireless telecommunications providers;
- B. Encourage the location of towers in nonresidential areas;
- C. Minimize the total number of towers throughout the community;
- D. Strongly encourage the joint use (co-location) of new and existing tower sites as a primary option rather than construction of additional single-use towers;
- E. Encourage users of towers and antennas to locate them, to the extent possible, in areas where the adverse impact on the community is minimal;
- F. Encourage users of towers and antennas to configure them in a way that minimizes the adverse visual impact of the towers and antennas through careful design, siting, screening, and innovative camouflaging techniques;
- G. Enhance the ability of the providers of telecommunications services to provide such services to the community quickly, effectively and efficiently; and
- H. Avoid potential damage to adjacent properties from tower failure through engineering and careful siting of tower structures. [Ord. 17-01 § 1; Res. 17-01; Ord. 14-12 § 1; Res. 14-36 § 412.01.]

18.130.020 Applicability.

- A. *New Towers and Antennas.* All new towers or antennas in the city shall be subject to these regulations.
- B. *Mobile and Temporary Antennas.* All new mobile and temporary antennas in the city shall be subject to these regulations and require a temporary use permit. In the event an approved conditional use permit for a permanent tower or antenna does not provide for an interim mobile or temporary antenna, mobile and temporary antennas shall be reviewed and permitted by temporary use permit for a period not to exceed six months. More than one temporary use permit may be approved for the same temporary antenna.
- C. *Amateur Radio Towers and Antennas.* This chapter shall govern the installation of any tower or antenna that is an amateur radio station operators/receive only operation, that is under the maximum building height of the zoning district in which such structure is located and which is owned and operated by a federally licensed amateur radio station operator or is used exclusively for receive only operations.
- D. *Exceptions.* The following are exempt from the provisions of this chapter:

1. Legally established preexisting towers and preexisting antennas with a valid conditional use permit shall not be required to meet the requirements of this chapter. Modifications to preexisting towers and antennas that substantially increase the physical dimensions of the tower, antenna, or equipment, as deemed by the zoning administrator or designee, are required to comply with this chapter. A substantial change to an existing wireless facility includes any increase to the existing height of a tower or antenna and/or a proposed increase in the existing mass of the antenna or appurtenances greater than 20 percent. All other preexisting towers and preexisting antennas without an approved use permit shall meet the requirements of this chapter accordingly.
2. For purposes of implementing this chapter, an AM array, consisting of one or more tower units and supporting ground system which functions as one AM broadcasting antenna, shall be considered one tower. Additional tower units may be added within the perimeter of the AM array by right. [Ord. 17-01 § 1; Res. 17-01; Ord. 14-12 § 1; Res. 14-36 § 412.02.]

18.130.030 General requirements.

- A. *Principal or Accessory Use.* Antennas and towers may be considered either principal or accessory uses. A different existing use of an existing structure on the same lot shall not preclude the installation of an antenna or tower on such lot.
- B. *Inventory of Existing Sites.* Each applicant for an antenna and/or tower shall provide to the zoning administrator an inventory of all existing towers, antennas, or sites within five miles of the proposed location for towers or antennas, that are either within the jurisdiction of the city or within one mile of the border thereof, including specific information about the location, height, and design of each tower. The development services department shall maintain a map and database with the above information available for public review and purchase; however, the accuracy of the information is subject to change. It shall be the responsibility of the applicant to verify and update any information provided by the city.
- C. *State or Federal Requirements.* All towers must meet or exceed current standards and regulations of the FAA, the FCC, and any other agency of the state or federal government with the authority to regulate towers and antennas. If such standards and regulations are changed, then the owners of the towers and antennas governed by this chapter shall bring such towers and antennas into compliance with such revised standards and regulations within six months of the effective date of such standards and regulations, unless a different compliance schedule is mandated by the controlling state or federal agency. Failure to bring towers and antennas into compliance with such revised standards and regulations shall constitute grounds for the removal of the tower or antenna at the owner's expense.
- D. *Lighting.* Towers shall not be artificially lit, unless required by the FAA or other applicable authority, or as otherwise approved by the city council. If lighting is required for ground equipment, a lighting plan shall be submitted in accordance to MCC [17.30.130](#).
- E. *Building Codes and Safety Standards.* To ensure the structural integrity of towers, the owner of a tower shall ensure that it is maintained in compliance with standards contained in applicable state or local building codes and

the applicable standards for towers that are published by the Electronic Industries Association (EIA) and by the Telecommunications Industries Association (TIA), as amended from time to time. If, upon inspection, the city concludes that a tower fails to comply with such codes and standards and constitutes a danger to persons or property, then upon notice being provided to the owner of the tower, the owner shall have 30 days to bring such tower into compliance with such standards, or as otherwise specified in writing by the building official. Failure to bring such tower into compliance within said 30 days, or as otherwise specified, shall constitute grounds for the removal of the tower or antenna at the owner's expense.

F. *Measurement.* For purposes of measurement, tower setbacks and separation distances shall be calculated and applied to facilities located in the city irrespective of municipal and county jurisdictional boundaries.

G. *Not Essential Services.* Towers and antennas shall be regulated and permitted pursuant to this chapter and shall not be regulated or permitted as essential services, public utilities, or private utilities, unless the tower and antennas' sole purpose is to provide government sanctioned public safety communications.

H. *Franchises.* Owners and/or operators of towers or antennas shall certify that all franchises required by law for the construction and/or operation of a wireless communication system in the city have been obtained and shall file a copy of all required franchises with the city.

I. *Signs.* No signs shall be allowed on an antenna, a tower, or any portion of the premises leased for wireless telecommunication use, except for a permanent, weather-proof identification sign, approximately 16 inches by 32 inches in size, must be placed on the gate of the fence or wall surrounding the facility or, if there is no fence or wall, on the facility itself. The sign must identify the facility operator(s), provide the operator's address, and specify a 24-hour telephone number for reaching the operator or an agent authorized to provide 24/7 response to emergency situations.

J. *Buildings and Support Equipment.* Buildings and support equipment associated with antennas or towers shall comply with the following requirements:

1. Roof-mounted or facade-mounted antennas proposed on an existing building, or on a tower, pole, or other structure, shall not extend or project more than 10 feet above the existing height of the building or structure.
2. Antenna support equipment that is roof mounted shall meet the screening requirements of this chapter and code.

K. *Design Standards.* Antennas, antenna support structures, and related equipment shall be located, designed, and screened to integrate and complement the existing natural or built surroundings and existing supporting structures.

1. *Design and Visibility.* All facilities shall be designed and located to minimize their visibility to the greatest extent feasible. All wireless telecommunication facilities proposed for locations where they would be readily visible from adjacent property and public right-of-way (measured from the center of the tower location) shall incorporate appropriate techniques to disguise the facility and/or blend into the surrounding environment, to the extent feasible. Facilities shall be compatible in scale and integrated architecturally with the design of

surrounding buildings or the natural setting. The city's Design Standards for Wireless Communication Facilities provide additional standards with supporting illustrations to assist applicants in designing facilities to meet the intent of this code.

2. *Screening.* Antenna support equipment for stand-alone facilities shall be screened by a maximum eight-foot-high masonry wall or placed within a fully enclosed building. When placed within a fully enclosed building, the building design shall be no taller than one story or 15 feet in height with elevations designed and constructed in a manner compatible with architectural designs found in the area.

3. *Freestanding Antenna(s).*

- a. Antenna facilities that are not camouflage or stealth shall be close mount, to the extent possible.
- b. Stealth or camouflaged facilities shall not have antenna mounts that extend beyond the outside edge (array) of the materials used to provide the stealth or camouflage design.
- c. At a tower site, the design of the buildings and related structures shall use materials, colors, textures, screening, and landscaping that will blend them into the natural setting and surrounding buildings.
- d. Wireless telecommunications facility support structures and antennas shall be a nonglossy color and/or exterior finish shall be painted so as to minimize visual impacts from surrounding properties.

4. *Building Mounted Antenna(s).*

- a. If an antenna is installed on a building, the antenna and supporting electrical and mechanical equipment must be architecturally integrated in a manner that is identical to, or closely compatible with, the color of the building structure so as to make the antenna and related equipment as visually unnoticeable as possible.

5. *Alternative Tower Mounted Antenna(s).*

- a. Antennas proposed on the exterior of a structure shall be designed in a manner to appear as an integral element of the structure.

6. *Stealth Tower and Antenna(S).*

- a. When an alternative tower or co-location does not exist on a parcel adjacent to residential use, stealth design shall be provided. A stealth facility shall be designed and constructed to appear architecturally integrated with the surrounding built environment or the natural setting to minimize the adverse visual impact and ensure the facility is compatible with the environment in which it is located.

L. *Co-Location and Multiple Antenna/Tower Plan.* The city encourages tower and antenna users to submit a single application for approval of multiple towers and/or antenna sites and to submit applications which utilize co-location with an existing wireless telecommunications provider.

M. *Modification of Building Size Requirements.* The requirements of this chapter may be modified by the city council in the case of uses permitted by conditional use to encourage co-location.

N. *Site Security.* Outdoor ground equipment shall be enclosed with a maximum eight-foot-high masonry wall, shall be constructed of a block or masonry, or secured in a method as otherwise determined by the zoning administrator. All towers shall be equipped with an anti-climbing device.

O. *Landscaping.* The following requirements shall govern the landscaping surrounding towers; provided, however, that the city council may reduce or waive such requirements if the goals of this chapter would be better served thereby:

1. Tower facilities shall be landscaped with a buffer of plant materials that effectively screens the view of the tower compound from residential property and commercial property or viewable from public right-of-way. The standard buffer shall consist of a landscaped strip at least eight feet wide outside the perimeter of the compound and any other areas disturbed during construction.
2. Every 20 lineal feet on center of the perimeter of the enclosure of the building shall be landscaped with drought-tolerant plants at a rate of one 24-inch box tree and 10 ten-gallon size shrubs. All landscaping shall be irrigated for a minimum period of one year. Landscaping shall be maintained throughout the life of the facility.
3. Additional landscaping may be required at the discretion of the zoning administrator as needed to effectively blend applications with the surrounding environment.
4. Existing mature plant growth and natural land forms on the site shall be preserved to the maximum extent possible.

P. *Parking.* A minimum of one nine-foot-by-18-foot off-street parking shall be required for the ongoing and maintenance of the facility. Parking and maneuvering areas shall be surfaced with approved all-weather access as determined by the city engineer.

Q. *Noise.* No permit (conditional or administrative use permit) shall be issued for any facility which generates a noise level greater than 50 decibels (dB) as measured at the edge of the property upon which such facility is sited.

R. *Term.* In the event a building permit is not received within two years or as otherwise stipulated, or reasonable effort is not made to receive a building permit as determined by the zoning administrator, the administrative use permit or conditional use permit shall expire. Each administrative use permit or conditional use permit issued shall be for a period of five years for freestanding tower and antenna applications, and a period of 10 years for building-mounted antennas, alternative tower-mounted antennas, and stealth tower and antennas. At the end of the above specified term, the permit shall automatically expire unless a written request for renewal is submitted by the applicant, prior to expiration, to the zoning administrator. The city shall notify the applicant in writing at least 90 days prior to the expiration date of the permit for the facility. Upon the expiration of any required permits for the facility, it shall be removed in accordance with the requirement of this chapter. If a request for renewal of the required permit(s) is received, the permit shall remain in effect until a decision on the renewal is made. The renewal request shall be reviewed in a similar manner as the original approval. The review is to ensure that the

facility is still in operation; that it has been properly maintained; that the original conditions of approval have been adhered to and whether they are to remain the same or need to be modified; and to determine if new technology exists to upgrade the facility to better meet the purpose, intent, goals and provisions of this chapter. If new technology exists that will allow the redesign or relocation of the facility to better meet the purpose, intent, goals and provisions of this chapter, then the facility must be redesigned and/or relocated accordingly. Failure to comply with this requirement may be considered grounds for denial of a new permit.

S. The city may add conditions to any new permits as necessary to advance a legitimate governmental interest related to health, safety, or welfare; provided, however, that any condition shall comply with applicable FCC regulations and standards, and that reasonable advance notice thereof has been provided to all affected parties. If a permit is not renewed, the city shall give the applicant written notice thereof together with the rationale on which the city's decision was made. [Ord. 17-01 § 1; Res. 17-01; Ord. 14-12 § 1; Res. 14-36 § 412.03.]

18.130.040 Permitted antennas and towers.

A. *General.* The uses listed in this section are deemed to be permitted uses and shall require zoning clearance through a zoning permit application.

B. *Permitted Uses.* The following uses are specifically permitted:

1. *Wireless Communication Facility.* Permissible in any rural, industrial, or commercial district; provided, however, that freestanding towers or antennas shall not exceed the maximum height of the applicable zoning district, unless specifically allowed elsewhere in this code. The facility shall comply with the following:

- a. Meet the minimum setback within the zoning district in which the facility is proposed; and
- b. Towers and antennas shall be set back a distance equal to at least 100 percent of the height of the tower and antenna from any adjoining lot line. In industrial zoning districts, towers and antennas are allowed a maximum height of 65 feet when the tower is located greater than 400 feet from the property line of a residential use. Such requests shall provide the information required in this chapter, prior to permit issuance.

2. *Towers.* Amateur radio towers, antennas, and freestanding towers or antennas located in any rural, industrial, or residential zoning district shall not exceed the maximum height of the applicable zoning district and shall comply with the following:

- a. *Setback.* Towers and antennas shall be set back a distance equal to at least 100 percent of the height of the tower or antenna from any adjoining lot line.
- b. *Front Yard.* Amateur radio towers and antennas are prohibited in any front yard and shall not be placed in front of the front face plane of the principal building.
- c. If an amateur radio tower is located within a controlled homeowners association, the applicant is encouraged to comply with the community's conditions, covenants and restrictions (CC&Rs).

3. *Limitation on Quantity of Towers by Zoning District.* In all zoning districts:
 - a. One radio tower and/or antenna permitted per lot of record.
 - b. Additional towers, greater in number than prescribed above, may be permitted in any zoning district, but shall be subject to securing a conditional use permit as set forth in MCC [18.130.050](#).
 - c. Towers are prohibited in any airport clear zone or landing zone designated by the FAA. [Ord. 17-01 § 1; Res. 17-01; Ord. 14-12 § 1; Res. 14-36 § 412.04.]

18.130.050 Antennas and towers requiring conditional use permits.

A. *General.* The following provisions shall govern the issuance of conditional use permits for towers or antennas by the city council:

1. For purposes of this section, any conditional use permit request shall require public notice pursuant to MCC [18.140.060](#), Public Hearing Notification.
2. If the tower or antenna does not meet the requirements of MCC [18.130.040](#) or does not meet the requisite dimensional requirements, then a conditional use permit shall be required for the construction of a tower or the placement of an antenna in all zoning districts.
3. Applications for conditional use permits under this chapter shall be subject to the procedures and requirements of Chapter [18.150](#) MCC except as specifically modified in this chapter.
4. In granting a conditional use permit, the reviewing authority may impose conditions to the extent such conditions are necessary to minimize any adverse effect of the proposed tower.
5. Any information of an engineering nature that the applicant submits, whether civil, mechanical, or electrical, shall be certified by an Arizona-licensed professional engineer.
6. A conditional use permit issued under this chapter shall be conditioned upon verification by a licensed structural engineer that such tower or antenna is structurally sound, prior to final inspection.

B. *Tower and Antenna Information Required.* In addition to any information required for applications for a conditional use permit pursuant to Chapter [18.150](#) MCC, applicants for a conditional use permit for a tower or antenna shall submit the following information:

1. A scaled site plan clearly indicating the location, type, and height of the proposed tower or antenna, including:
 - a. On-site structures, land uses and zoning designation(s);
 - b. Adjacent structures, land uses and zoning within 20 feet of the property line (including when adjacent to other municipalities);

- c. The setback distance between the proposed tower or antenna to all nearest building structures, residential uses, and commercial and industrial zoned properties as set forth in Table 18.130.050.E;
 - d. Adjacent roadways and proposed means of access; and
 - e. Required and proposed setbacks from property lines.
2. Color elevation drawings of the proposed wireless facility and associated structures as deemed by the city to be necessary to assess compliance with this chapter;
 3. A photo simulation of the proposed tower and structures associated with the wireless facility as seen from adjacent right-of-way(s). The city may request additional simulations as necessary to determine the visual impact of the proposed facility;
 4. The separation distance from other towers or antennas described in the inventory of existing sites submitted, pursuant to MCC [18.130.030](#), shall be shown on a site plan or map. The applicant shall also identify the type of construction of the existing tower(s) or antenna(s) and the owner/operator of the existing tower(s) or antenna(s), if known;
 5. A description of compliance with MCC [18.130.030](#), General Requirements, and all applicable federal, state, county or local laws;
 6. A notarized statement by the applicant as to whether construction of the tower or antenna will accommodate co-location of additional towers or antennas for future users;
 7. An analysis explaining the reasons co-location is not feasible on existing towers, antennas, or other vertical structures in the vicinity, and describing the alternative technologies considered to provide similar services in lieu of a new tower or antenna;
 8. A description of the feasible alternative location(s) of future towers or antennas within the city based upon existing physical, engineering, technological or geographical limitations in the event the proposed tower or antenna is not erected;
 9. A statement of compliance with applicable Federal Communications Commission (FCC) radio frequency (RF) exposure standards; and
10. Additional information may be required as deemed necessary to determine compliance with the goals of this chapter.

C. *Factors Considered in Granting Conditional Use Permits for Towers or Antennas.* In addition to any standards for consideration of conditional use permit applications pursuant to this chapter, the reviewing authority shall consider the following factors in determining whether to issue a conditional use permit, although the reviewing authority may waive or reduce the burden on the applicant of one or more of these criteria if it is determined that the goals of this chapter are better served thereby:

1. Height of the proposed tower or antenna;

2. Proximity of the tower or antenna to any residential structures and uses;
 3. Nature of uses on adjacent and nearby properties;
 4. Surrounding topography;
 5. Surrounding tree coverage and vegetation;
 6. Design of the tower or antenna, with particular reference to design characteristics that have the effect of reducing or eliminating visual obtrusiveness;
 7. Proposed ingress and egress; and
 8. Analysis on the availability of suitable existing towers, antennas, other structures, or alternative technologies not requiring the use of towers or antennas, as discussed in subsection [\(D\)](#) of this section.
- D. *Availability of Suitable Existing Towers, Antennas, Other Structures, or Alternative Technology.* No new tower or antenna shall be permitted unless the applicant demonstrates that no existing tower, antenna, structure, or alternative technology that does not require the use of towers, antennas, or structures can accommodate the applicant's proposed tower or antenna. An applicant shall submit information requested by the city related to the availability of suitable existing towers, antennas, other structures, or alternative technology. Evidence submitted to demonstrate that no existing tower, antenna, structure, or alternative technology can accommodate the applicant's proposed tower or antenna may consist of any one or more of the following:
1. No existing towers, antennas or structures are located within the geographic area which meets applicant's engineering requirements;
 2. Existing towers, antennas or structures are not of sufficient height to meet applicant's engineering requirements;
 3. Existing towers, antennas or structures do not have sufficient structural strength to support applicant's proposed tower or antenna and related equipment;
 4. The applicant's proposed tower or antenna would cause electromagnetic interference with the equipment on the existing towers, antennas or structures, or the existing towers, antennas or structures would cause interference with the applicant's proposed tower or antenna;
 5. The fees, costs, or contractual provisions required by the owner in order to share an existing tower, antenna or structure or to adapt an existing tower, antenna or structure for sharing are unreasonable. For this purpose, costs exceeding the construction of a new tower or antenna are presumed to be unreasonable;
 6. The applicant demonstrates that there are other limiting factors that render existing towers, antennas and structures unsuitable;
 7. The applicant demonstrates that an alternative technology that does not require the use of towers, antennas or structures, such as a cable microcell network using multiple low-powered transmitters or

receivers attached to a wireless system, is unsuitable. For this purpose, costs of alternative technology that exceed new tower or antenna development shall be presumed to render the technology unsuitable; or

8. If the proposed location is in a residential district, that the location is necessary for the provision of personal wireless services to Maricopa residents and businesses, or their owners, customers, guests, or invitees, or other persons traveling in or about the city, based on substantial evidence that siting the facility outside of a residential district is infeasible and without the proposed facility, the operator will be unable to provide personal wireless services to its customers in the proposed coverage area, or unable to provide the capacity necessary to meet call and data volumes.

E. *Minimum Setback, Separation and Maximum Height Requirements.* The following height, setback, and separation standards shall apply to all towers and antennas for which a conditional use permit is required; provided, however, that the reviewing authority may reduce the standard setback, separation and height requirements if the goals of this chapter would be better served thereby:

1. Towers and antennas shall be set back a distance equal to at least 100 percent of the height of the tower or antenna from any adjoining lot line, excluding existing alternative tower structures; provided, however, that separation distances from residential uses shall be in accordance with Table 18.130.050.E, set forth below.
2. Accessory buildings must satisfy the minimum zoning district setback requirements set forth in this code.
3. Separation distances between towers and antennas shall be measured between the proposed tower or antenna and preexisting towers or antennas. The separation distances shall be measured by drawing or following a straight line between the base of the existing tower or antenna and the proposed base, pursuant to a site plan, of the proposed tower or antenna. The separation distances (listed in linear feet) shall be as shown in Table 18.130.050.E, set forth below.

Table 18.130.050.E Conditional Use Permit – Setback, Separation and Maximum Height by Zoning District

	Maximum Height in All Zoning Districts	Setback from Residential Uses	Separation from Other Antennas over 50 ft. Height
Freestanding	65 ft.	400 ft.	600 ft.
Alternative/Co-Location	10 ft. above existing structure	300 ft.	600 ft.
Buildings	15 ft. above existing structure	150 ft.	-
Stealth	75 ft.	100 percent of height to property line	-

[Ord. 17-01 § 1; Res. 17-01; Ord. 14-12 § 1; Res. 14-36 § 412.05.]

18.130.060 Co-location.

- A. *Good Faith.* Applicants and permittees shall cooperate and exercise good faith in co-locating wireless telecommunications facilities on the same support structures or site, if the city so requests. For the purposes of this section only, a site may accommodate more than one tower and its accompanying equipment so long as the site exceeds five acres. Good faith shall include sharing technical information to evaluate the feasibility of co-location, and may include negotiations for erection of a replacement support structure to accommodate co-location. A competitive conflict to co-location or financial burden caused by sharing such information normally will not be considered as an excuse to the duty of good faith.
- B. *Third-Party Technical Review.* In the event a dispute arises as to whether a permittee has exercised good faith in accommodating other users, the city may require the applicant to obtain a third-party technical study at the applicant's expense. The city may review any information submitted by the applicant and permittee(s) in determining whether good faith has been exercised.
- C. *Exceptions.* No co-location may be required where the shared use would or does result in significant interference in the broadcast or reception capabilities of the existing wireless telecommunications facilities or failure of the existing wireless telecommunications facilities to meet federal standards for emissions.
- D. *Violation and Penalty.* Failure to comply with co-location requirements when feasible may result in denial of a permit request or revocation of an existing permit. [Ord. 17-01 § 1; Res. 17-01; Ord. 14-12 § 1; Res. 14-36 § 412.06.]

18.130.070 Removal of abandoned antennas and towers.

Any antenna or tower that is not operated for a continuous period of 180 days shall be considered abandoned, and the owner of such antenna or tower shall remove the same within 60 days of receipt of notice from the city notifying the owner of such abandonment. Failure to remove an abandoned antenna or tower within said 60-day period shall be grounds for the city to remove the tower or antenna at the owner's expense. If there are two or more users of a single tower, then this provision shall not become effective until all users cease using the tower for the prescribed period. [Ord. 17-01 § 1; Res. 17-01; Ord. 14-12 § 1; Res. 14-36 § 412.07.]

18.130.080 Nonconforming antennas and towers.

- A. *Not Expansion of Nonconforming Use.* Towers that are constructed and antennas that are installed in accordance with the provisions of this chapter shall not be deemed to constitute the expansion of a nonconforming use or structure.
- B. *Preexisting Towers.* Preexisting towers or antennas shall be allowed to continue their usage as they presently exist. Routine maintenance (including replacement with a new tower of like construction and height) shall be permitted on such preexisting towers or antennas. New construction other than routine maintenance on a preexisting tower or antenna shall comply with the requirements of this chapter.

C. *Rebuilding Damaged or Destroyed Nonconforming Towers or Antennas.* Notwithstanding other provisions of this chapter, bona fide nonconforming towers or antennas that are damaged or destroyed may be rebuilt without having to first obtain a conditional use permit and without having to meet the separation requirements specified herein. Bona fide nonconforming towers or antennas that are damaged or destroyed may be rebuilt without having to first obtain a conditional use permit and without having to meet the separation requirements specified in MCC [18.130.050](#). The type, height, and location of the tower or antenna on site shall be of the same type and intensity as the original facility approval; provided, however, that any destroyed lattice or guyed tower shall be replaced with a monopole structure only. Building permits to rebuild the facility shall comply with the current adopted building codes and shall be obtained within 90 days from the date the facility is damaged or destroyed. If no permit is obtained or if said permit expires, the tower or antenna shall be deemed abandoned as specified in MCC [18.130.070](#). [Ord. 17-01 § 1; Res. 17-01; Ord. 14-12 § 1; Res. 14-36 § 412.08.]

18.130.090 Special district requirements.

A. *Heritage District.* All proposed tower and antenna conditional use permit requests for properties located within the MU-H Mixed Use – Heritage Overlay District require review and written recommendation from the zoning administrator or designee to the planning and zoning commission, prior to the initial public meeting for such request. [Ord. 24-01 § 2; Ord. 17-01 § 1; Res. 17-01; Ord. 14-12 § 1; Res. 14-36 § 412.09.]

Division 5. Administration and Permits

Chapter 18.135 COMMISSIONS, COMMITTEES, BOARDS, AND OFFICERS

Sections:

- [**18.135.010 Specific purpose.**](#)
- [**18.135.020 City council.**](#)
- [**18.135.030 Planning and zoning commission.**](#)

- [**18.135.100 Other agencies.**](#)

18.135.110 Summary of review authorities for permit types.**18.135.010 Specific purpose.**

This chapter identifies the purpose, duties, organization, and powers of the city bodies, officials, and administrators charged in making decisions under various divisions and chapters of the zoning code. Subsequent chapters provide detailed information regarding various procedures, applications, and permits, including use permits, general plan text and map amendments, fees, and enforcement. When carrying out their assigned duties and responsibilities, all bodies, administrators, and officials shall interpret and apply the provisions of this code as minimum requirements adopted to implement the policies and achieve the objectives of the general plan. [Res. 23-19; Ord. 23-17 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 501.01; Ord. 14-12 § 1.]

18.135.020 City council.

A. *Duties and Powers Related to Zoning.* The city council shall have the duty to carry out the provisions and intent of the general plan and this code. Specifically, the city council has the powers to do the following:

1. *Appointment Powers.* The city council shall have the power to appoint and remove members of the planning and zoning commission and the hearing officer.
2. *Initiation Powers.* The city council or planning and zoning commission shall have the power to initiate legislation and hold public meetings and public hearings on the following:
 - a. General plan amendments;
 - b. Zoning code map or text amendments. The city council shall have the power to initiate applications with or without owner authorizations for either zoning code map or text amendments as provided by state law; and
 - c. Area specific plans.
3. *Decision-Making Powers.* The city council shall have the power to make final decisions and hold public meetings and public hearings to review and approve, continue, deny, or approve with conditions the following requests:
 - a. General plan amendments;
 - b. Zoning code text and zoning map amendments;
 - c. Final subdivision plats pursuant to MCC Title [17](#), Subdivisions;

- d. Planned area development (PAD) districts and PAD plans in PAD zoning districts, and major amendments or major modifications to conditions of approved planned area development districts and plans, as defined in this code;
 - e. Area specific plans; and
 - f. Annexations.
4. *Appeal Powers.* Refer to Table 18.140.140.
- B. The city council may prescribe, in connection with a decision noted in subsections [\(A\)\(3\)\(c\)](#) and [\(A\)\(3\)\(d\)](#) of this section, conditions of approval as the council deems necessary, in order to fully carry out the provisions and intent of the general plan and this code, pursuant to MCC [18.140.100](#), Conditions of approval. Violations of any city council condition of approval shall be a violation of this code.
- C. *Appeals.* Any person aggrieved by a decision of the city council under this code may file an appeal to the Pinal County superior court within 30 calendar days after the city council has rendered its final decision, in accordance with MCC [18.140.140](#), Appeals. [Ord. 24-01 § 2; Res. 23-19; Ord. 23-17 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 501.02; Ord. 14-12 § 1.]

18.135.030 Planning and zoning commission.

A. *Creation and Purpose.* The planning and zoning commission is created to hold public meetings and hearings, to provide analysis and recommendations to the city council regarding general land use policies where the commission has such advisory responsibility, and to render decisions where the commission has been assigned decision-making power by this code. The purpose of the planning and zoning commission is to support creation of a desirable environment throughout the city for residents, business, and industry in areas for which it is responsible by promoting harmonious, safe, attractive, and compatible development that is in the best interest of public health, safety, and general welfare.

B. *Duties and Powers.* The planning and zoning commission shall have the duty to carry out the duties outlined in Chapter [2.15](#) MCC.

1. *Decision-Making Responsibilities.* The planning and zoning commission shall have the power to hold public meetings and public hearings to review and approve, continue, deny, or approve with conditions:
 - a. Conditional use permits and modifications to such permits; and
 - b. Preliminary plats.
2. *Advisory Responsibilities.* The planning and zoning commission shall hold public meetings and hearings to advise and recommend to the city council:
 - a. General plan amendments and major amendments;

- b. Zoning map amendments (e.g., rezonings) for base and overlay zoning districts;
 - c. Zoning code text amendments;
 - d. *Repealed by Ord. Repealed.*
 - e. PAD districts and PAD plans; and
 - f. Area specific plans.
3. The planning and zoning commission may recommend in connection with any application such conditions as the commission deems necessary in order to fully carry out the provisions and intent of this code.
- C. *Organization.*
- 1. *Number of Members.* The commission shall have seven members, with each nominated by a member of the council.
 - 2. *Eligibility of Members.*
 - a. Members must be a current city of Maricopa resident, property owner or business owner for a minimum of one year.
 - b. Members must be at least 18 years of age and registered to vote in Pinal County.
 - c. Members appointed to the commission shall not be a direct family member (parent, spouse, sibling or child) of a sitting member of council unless there are not sufficient applicants for the position.
 - 3. *Term of Members.*
 - a. A member's tenure shall be coterminous with the term of office of the nominating member of council.
 - b. Members shall continue to serve until their successor is approved by a vote of council.
 - c. In the event of death, resignation, or removal of a member, a vacancy will be declared and the nominating member of council shall be informed of the vacancy and allowed to begin the selection process for a new member.
 - 4. *Resignations or Removal of Members.*
 - a. Members will notify the nominating member of council of their intent to resign their appointment prior to the end of their term.
 - b. Any member may be removed by a majority vote of council.

- c. Any member who is absent for three consecutive meetings or is absent from any four meetings over a six-month period, without contacting the chairperson, shall be considered as having resigned his/her position.
5. Hearings of the planning and zoning commission shall be scheduled at a time and place as declared by the planning and zoning commission. Special meetings of the commission may be called by the chairperson, or by any three members of the planning and zoning commission. Meetings shall be open to the public, with only such exceptions as may be permitted by state law with respect to executive session, and public input shall be permitted in all public meetings on matters before the commission. The public shall be given an opportunity to testify orally or in writing. The minutes of its proceedings showing the vote of the body, records of the commission's deliberations, and other official actions shall be kept by the city clerk as a public record.
6. The planning and zoning commission shall adopt rules of procedure consistent with the provisions of the city code for the conduct of its business and procedure.
7. A quorum consists of four members of the planning and zoning commission. The concurring vote of the majority of the quorum of the planning and zoning commission shall be necessary to act on any matter on its agenda. In the event that planning and zoning commission members are not sufficiently available to make a quorum, there shall be no meeting. Robert's Rules of Order shall govern any other motion.
8. The development services director, or a designated representative, shall serve ex officio as secretary of the planning and zoning commission.
- D. *Appeals.* Planning and zoning commission recommendations to the city council are not final decisions. Any person aggrieved by a final decision of the planning and zoning commission may file an appeal to the city council in accordance with MCC [18.140.140](#). [Ord. 24-01 § 2; Res. 23-19; Ord. 23-17 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 501.03; Ord. 14-12 § 1.]

18.135.040 Board of adjustment.

Repealed by [Res. 23-19](#).

18.135.050 Development services director.

- A. *Creation and Purpose.* The director of the development services department (the "director"), or his designee, directs the work of the department and the planning and zoning division and leads the department in fulfilling its mission.
- B. *Duties and Powers.*

1. The development services director shall have the duty to carry out the provisions and intent of the general plan and this code. The development services director, or designee, shall have the power to do the following:
 - a. Serve as staff of the planning and zoning commission and the hearing officer;
 - b. Issue administrative regulations for the submission and review of applications subject to the requirements of this code and A.R.S. § [9-831](#) et seq.;
 - c. Process and make recommendations to the planning and zoning commission and the city council on all applications, amendments, appeals and other matters upon which the council has the authority and the duty to act under this code;
 - d. Investigate and make reports to the planning and zoning commission on violations of permit terms and conditions when the city has initiated revocation procedures;
 - e. Appoint and oversee the hearing officer and zoning administrator; and
 - f. Delegate administrative and enforcement functions as they so deem to members of the development services department staff. [Res. 23-19; Ord. 23-17 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 501.05; Ord. 14-12 § 1.]

18.135.060 Hearing officer.

- A. *Creation and Purpose.* The hearing officer is created to hold public hearings to provide relief from the terms of this code by variance applications and to hear and decide appeals from decisions of the zoning administrator.
- B. *Duties and Powers.* The hearing officer shall have the duty to carry out the provisions outlined in Chapter [2.15](#) MCC and this code.
 1. The hearing officer shall hold a public hearing or public meeting to review and approve, continue, deny, approve with conditions, or to the extent applicable, enter the appropriate order, the following:
 - a. Appeals from decisions made by the zoning administrator or designee, regarding the following:
 - i. Waivers;
 - ii. Temporary use permits;
 - iii. Modifications to waivers and temporary use permits;
 - iv. Zoning permits;
 - v. Development review permits;

- vi. Modifications to approved zoning permits, development review permits, and zoning permits; and
 - vii. Any other decision made by the zoning administrator or designee.
2. The hearing officer shall not:
- a. Make any changes in the uses permitted in any zoning classification or zoning district, or make any changes in the terms of the zoning code, provided the restriction in this subsection shall not affect the authority to grant variances pursuant to this code; or
 - b. Grant a variance if the special circumstances applicable to the property are self-imposed by the property owner.
3. The hearing officer may, in connection with any application, impose conditions as the hearing officer deems necessary in order to fully carry out the provisions and intent of this code. Violation of any hearing officer condition shall be a violation of this code.
4. Authorize a reduction of the off-street parking and loading requirements of this code, if it should find that in the particular case the peculiar nature of the building or premises, or an exceptional situation or condition, would mitigate the need for the parking spaces specified. The hearing officer shall consider such requests only after the remedies available in this code have been exhausted.
- C. *Organization.*
- 1. The provisions of Chapter [2.15](#) MCC shall apply for the composition, number, and qualifications of the hearing officer.
 - 2. Hearing officer meetings shall be open to the public. The public shall be given an opportunity to testify orally or in writing. The minutes of its proceedings, records of the hearing officer discussion and other official actions shall be kept by the city clerk as a public record.
 - 3. The hearing officer shall adopt rules of procedure consistent with the provisions of the city code for the conduct of its business and procedure.
 - 4. The development services director, or a designated representative, shall serve ex officio as the secretary of the hearing officer.
- D. *Appeals.* Refer to MCC [18.140.140](#). [Res. 23-19; Ord. 23-17 § 2.]

18.135.070 Zoning administrator.

- A. *Creation and Purpose.* The zoning administrator is appointed by the development services director. The zoning administrator is created to interpret the meaning and intent of the general plan and this code and enforce the provisions contained therein.

B. *Duties and Powers.*

1. The zoning administrator shall have the duty to carry out the provisions and intent of the general plan and this code. The zoning administrator shall have the power to hold a public hearing to review and approve, continue, deny, or approve with conditions the following:
 - a. Zoning permits;
 - b. Minor development review permits;
 - c. Temporary use permits;
 - d. Waivers;
 - e. Minor modifications to waivers and temporary use permits;
 - f. Modification to zoning permits, temporary use permits and minor development review permits;
 2. The zoning administrator shall interpret the code as needed. Interpretation of this code includes, but is not limited to, clarification of intention, determination of zoning classifications of land uses not specified in this code, and the delegation of processing procedures and requirements. The zoning administrator shall keep a record of interpretations made pursuant to this section. The record of interpretations shall be available to the public;
 3. The zoning administrator shall serve on the technical advisory committee and advise on matters relating to development and subdivision plat applications;
 4. The zoning administrator may carry out any functions and duties specified in this code; and
 5. The zoning administrator shall delegate administrative functions as deemed necessary to execute the intent of this code to members of the development services department staff.
- C. *Appeals.* Any person aggrieved by a decision of the zoning administrator under this code may file an appeal to the hearing officer in accordance with MCC [18.140.140](#), Appeals. Decisions shall be heard de novo by the hearing officer as applicable. [Res. 23-19; Ord. 23-17 § 2; Res. 21-09; Ord. 21-05 § 2; Ord. 19-05 § 2; Res. 14-36 § 501.07; Ord. 14-12 § 1.]

18.135.080 Heritage District Advisory Committee.

Repealed by [Res. 21-09](#).

18.135.090 Technical advisory committee.

- A. *Creation and Purpose.* The technical advisory committee is created to act in an advisory capacity to the planning and zoning commission regarding all development applications and applications for subdivision plats and improvements.
- B. *Duties and Powers.* For the purpose of this code, the technical advisory committee shall have the power to review all applications for development permits and subdivision plats and improvements and make recommendations to the zoning administrator, hearing officer, planning and zoning commission and city council. Such review shall be based on the criteria as specified in this code and in MCC Title [17](#), Subdivisions.
- C. *Organization.* The technical advisory committee shall consist of city staff members, local utilities, governmental agencies, school districts, and other organizations as deemed appropriate for their expertise. [Res. 23-19; Ord. 23-17 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 501.09; Ord. 14-12 § 1.]

18.135.095 Transit advisory committee.*

- A. *Creation and Purpose.* The transit advisory committee is created to act in an advisory capacity to the city council regarding grant funding monitoring for transit operations.
- B. *Duties and Powers.* For the purpose of this code, the transit advisory committee shall have the power to review grant funding for transit operations.
- C. *Organization.*
 - 1. The provisions of Chapter [2.15](#) MCC shall apply for the composition, number, and qualifications of the transit advisory committee.
 - 2. The transit advisory committee shall elect a chairperson and vice-chairperson from among its own regular members annually, coinciding with appointment dates.
 - 3. The transit advisory committee shall be open to the public. The public shall be given an opportunity to testify orally or in writing. The minutes of its proceedings showing the vote of the body, records of the board's deliberations and other official actions shall be kept by the city clerk as a public record.
 - 4. The transit advisory committee shall adopt rules of procedure consistent with the provisions of the city code for the conduct of its business and procedure.
 - 5. A quorum consists of four members of the committee. The concurring vote of the majority of the quorum of the transit advisory committee shall be necessary to act on any matter on its agenda, except that consent agenda items may be approved or continuances administratively granted as provided for in this section. In the event that members are not sufficiently available to make a quorum, there shall be no meeting. Robert's Rules of Order shall govern any other motion.

6. The development services director, or a designated representative, shall serve ex officio as the secretary of the transit advisory committee. [Res. 23-19; Ord. 23-17 § 2.]

* **Code reviser's note:** Ord. [23-17](#) adds the provisions of this section as 18.135.090. The section has been editorially renumbered to prevent duplication of numbering.

18.135.100 Other agencies.

A. *Ak-Chin and Gila River Indian Communities.* Any proposal that abuts or is within 300 feet of the Ak-Chin Reservation or the Gila River Reservation or involves any land under the jurisdiction of the Ak-Chin or Gila River Indian Tribe or their designees must be referred to the respective Indian Tribal Council for review and comment. Nothing in this code shall be interpreted to interfere with the sovereignty and powers of the Ak-Chin Indian Community, the Gila River Indian Community, or their designee(s). Refer to MCC [18.05.050](#) for additional regulations applying to the development of land within two and one-half miles of the Ak-Chin Tribal Community.

B. *Other Governmental Agencies.* Any development proposal that abuts property owned or under the jurisdiction of a government agency, including but not limited to federal lands, Arizona State Land Department, lands covered by an intergovernmental agency agreement, or any other body that has jurisdiction must be referred to the applicable agency or body for review. [Res. 23-19; Ord. 23-17 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 501.10; Ord. 14-12 § 1.]

18.135.110 Summary of review authorities for permit types.

Table 18.135.110 summarizes review authorities for each permit type, including the advisory body, the decision-maker, and the appeal body. Decisions of the hearing officer are final, and the only appeal is to the city council.

18.140.010 Purpose.

This chapter establishes procedures that are common to the application and processing of all permits and approvals provided for in the code unless superseded by specific requirement of this code or Arizona law. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.01; Ord. 14-12 § 1.]

18.140.020 Application submittal and review.

- A. *Initiation of Application.* The following persons may file applications:
 - 1. The owner of the subject property; and
 - 2. An agent representing the owner, duly authorized to do so in writing by the owner, including a person with a duly executed written contract or exclusive option to purchase the subject property or a lessee in possession of the subject property.
 - 3. The planning and zoning commission and city council also may initiate applications for amendments to the general plan and to this code and the zoning map.
- B. *Application Forms and Supporting Materials.*
 - 1. *Application Forms.* The development services director (director) or their designee shall prepare and issue application forms and lists that specify the information that will be required from applicants for projects subject to the provisions of this code. As required by A.R.S. § [9-836](#), application forms shall include the following:

- a. A list of all required steps in the application/approval process;
 - b. Applicable time frames;
 - c. Contact person (name and telephone number);
 - d. Website address; and
 - e. Notice for opportunity to clarify codes/regulations.
2. *Supporting Materials.* The director may require the submission of supporting materials as part of the application, including but not limited to statements, photographs, plans, drawings, renderings, models, material samples and other items necessary to describe existing conditions and the proposed project. Unless otherwise specified, all renderings shall depict the proposed structure, landscaping, other improvements, and surrounding land uses as they would appear after project completion.
 3. *Claim for Diminution in Value Pursuant to A.R.S. § 12-1134.* No application for a discretionary permit, including amendments to the zoning map, general plan, zoning text, use permits, variance and development review permits, will be deemed complete without submission of a waiver of claims for diminution in value pursuant to A.R.S. §§ 12-1131 through 12-1138 executed by all the owners of the property. The owner(s) shall verify property ownership by submitting a title report.
 4. *Availability of Materials.* All material submitted in support of a specific application becomes the property of the city, may be distributed to the public, and shall be made available for public inspection. At any time upon reasonable request, and during normal business hours, any person may examine an application and materials submitted in support of or in opposition to an application in the development services department offices. Unless barred by law, copies of such materials shall be made available at a reasonable cost to be established through city council resolution.
- C. *Payment, Waiver, and Refund of Application Fees.*
1. *Schedule of Fees.* The city council shall establish fees for permits, informational materials, penalties, copying, and other such items. No application shall be processed without payment of a fee unless a fee waiver or deferral has been approved.
 2. *Multiple Applications.* The city's processing fees are cumulative. When more than one type of action is being requested, the total fee shall be the sum of the individual fees specified on the fee schedule.
 3. *Refund of Fees.* Once an application is filed with the economic and community development department, no portion of any application fee shall be refundable, unless the director determines such a refund is justified. Refunds will be made within 30 business days. No refund shall be provided for any application that has been denied. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.02; Ord. 14-12 § 1.]

18.140.030 Preliminary review process.

A. *Purpose.* The purpose of the preliminary review is intended to acquaint the prospective applicant or applicant's representative(s) with the requirements of this code, the general plan and other relevant city policies and regulations. Preliminary review is intended to be informative and identify potential issues.

B. *Applicability.*

1. Preliminary review may be requested by a prospective applicant or applicant's representative for any proposal.

2. Preliminary review is required for:

- a. Conditional use permits;
- b. Major and minor development review permits;
- c. Home-based businesses in the MU-H District;
- d. Planned area developments;
- e. General plan amendments;
- f. Zoning map and text amendments;
- g. Proposed subdivisions;
- h. Any project on a site that is not currently providing sanitary sewer service;
- i. Projects proposing 10 or more residential units; and
- j. Projects proposing over 5,000 square feet of new nonresidential space.

3. Preliminary review is not required for individual single-unit dwelling applications or applications regarding individual structures that are accessory to a single-unit dwelling, unless the project is on a site which does not receive sanitary sewer service (see subsection (B)(2) of this section).

C. *Requirements.* Applications for preliminary review under this code shall be submitted to the development services department, in accordance with the format and upon such forms as established by the director.

D. *Preliminary Review Conference.* Upon a preliminary review request being filed, staff will notify the applicant or applicant's representative of a preliminary review conference which shall take place within 30 business days of the preliminary review application being filed and be held at the development services department by appointment. After reviewing the information provided from the applicant, staff from the reviewing city departments and divisions will prepare comments. Staff will review the comments with the applicant or applicant's representative at the preliminary review conference and provide information on code requirements, procedures, and other relevant

city policies and regulations. If the city is unable to comply with these time frames, notification will be made to the applicant and proceed as soon as practicable.

E. *Recommendations Are Advisory.* Neither the preliminary review conference nor the provision of information and/or pertinent policies shall be construed as a recommendation for approval or denial of the application by city representatives. Any recommendations that result from preliminary review are considered advisory only and shall not be binding on either the applicant or the city. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.03; Ord. 14-12 § 1.]

18.140.040 Review of applications.

A. *Review for Completeness.* The zoning administrator or his designee shall review all applications for completeness, in conformance with this section. The city will not schedule a meeting or hearing date or begin a substantive review until the application is complete.

B. *Complete Application.* A complete application is one which fulfills the general requirements as described on official application forms available from the development services department. A determination of whether an application is administratively complete shall be made within 15 days after receiving the application.

C. *Incomplete Application.* The zoning administrator shall determine whether a resubmitted application is administratively complete within 15 days after receiving the resubmitted application. After determining that the application is administratively complete, the city shall approve or deny the application within 180 days.

1. Notwithstanding subsection [\(C\)](#) of this section, the city may extend the time frame to approve or deny the request beyond 180 days for either of the following reasons:

- a. For extenuating circumstances, the city may grant a one-time extension of not more than 30 days.
- b. If an applicant requests an extension, the city may grant extensions of 30 days for each extension granted.

2. This section does not apply to land that is designated as a district of historical significance pursuant to A.R.S. § [9-462.01](#), Subsection A, Paragraph 10 or an area that is designated as historic on the National Register of Historic Places or planned area developments.

D. If an application is incomplete and the applicant fails to submit the missing information within 60 days of the first submittal, the zoning administrator may notify the applicant that the application cannot be accepted, and a new or correctly revised application and a new fee will be required for the proposed project, as determined by the zoning administrator. A decision by the zoning administrator requiring a reapplication shall be subject to administrative appeal and shall not be construed as denial of the application. A letter shall cite a list of all deficiencies in the application and provide references to the applicable regulation(s) or policy and inform the applicant that the city's mandatory time frame is suspended pending receipt of requested corrections or any missing information. If the city fails to provide this notice to the applicant the application is then deemed complete in accordance with the state's compliance policy. (A.R.S. §§ [9-835\(D\)](#), [9-835\(E\)](#), and [9-835\(F\)](#).)

E. If the city fails to provide a written or electronic notice of administrative completeness or deficiencies within the administrative completeness review time frame, the application is then deemed administratively complete in accordance with the state's compliance policy. (A.R.S. §§ [9-835\(D\)](#), [9-835\(E\)](#), and [9-835\(F\)](#).) [Ord. 24-12 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.04; Ord. 14-12 § 1.]

18.140.050 Neighborhood meetings and notifications.

A. *Purpose.* The purpose of a neighborhood meeting is to provide a means for the applicant, surrounding residential neighbors, and registered neighborhood and homeowners association representatives to review a preliminary project and solicit input and exchange information about the proposed project prior to public hearings. Spanish-speaking and ASL interpreters shall be provided at the neighborhood meeting, if requested prior to the meeting scheduled. This preliminary meeting is intended to result in an application that is responsive to neighborhood concerns and to expedite and lessen the expense of the review process by avoiding needless delays, appeals, remands or denials. The applicant is responsible for all costs associated with the neighborhood meeting.

B. *Applicability.* A neighborhood meeting is required for the following types of applications:

1. Conditional use permits;
2. Variances;
3. Planned area development;
4. Major modification to an approved plan or condition of approval (when original approval requires neighborhood meeting);
5. Annexation requests;
6. Zoning map amendments; and
7. General plan map amendments.

C. *Meeting Schedule.* The applicant is required to hold one meeting prior to the first public hearing on an application for a specific site, but may hold more if desired. The required meeting shall be held at least 15 days and not more than 90 days before the first public hearing on the application. Meetings held more than 90 days before the first public hearing shall be required to hold an additional neighborhood meeting. Neighborhood meetings shall not occur until after any required preliminary review meeting and consultation with the planning division staff.

D. *Meeting Location.* Neighborhood meetings shall be held at a location near the proposed development site. The meeting shall be held on a weekday evening or weekends at any reasonable time and in a publicly accessible location.

E. *Application Submittal.*

1. The neighborhood notice and meeting materials must be submitted with the project application(s) to the development services department, unless otherwise deferred by the zoning administrator to a later date. At a minimum, the following materials must be submitted:
 - a. A narrative discussing the proposed time, place and location within the city of the neighborhood meeting;
 - b. A list of names and addresses, labeled, stamped envelopes of all the property owners within the target area, and a notarized affidavit by the applicant that the list of names and addresses is accurate, current and complete;
 - c. A list of names and addresses of all other interested parties who have requested that they be placed on a notification list maintained by the city clerk;
 - d. A notification letter written in both English and Spanish, including a general explanation of the substance of the proposed application; the date, time and place within the city scheduled for a neighborhood meeting and for all other city meetings; and the city and applicant contacts;
 - e. An eight-and-one-half-inch by 11-inch reduction of the proposed neighborhood sign; and
 - f. The applicant's schedule for completion of the neighborhood meeting.

2. The zoning administrator or their designee shall be responsible (a) to review and approve all notification materials, neighborhood meeting location, a brief description of the property change and a land map; (b) to notify the applicant to proceed with the neighborhood meeting; and (c) for mailing the property owner notifications provided by the applicant.

F. *Notification Requirements.* Notice of the neighborhood meeting shall be provided at least 15 calendar days prior to the neighborhood meeting by the applicant in the following manner:

1. *Mailed Notice.* Written notice shall be mailed to all owners and occupants within 600 feet of the subject property, or a larger area as determined by the zoning administrator, and to such other persons as the economic and community development department, or authorized designee, determines to be other potentially affected citizens.
2. *Posted Notice.* Notice shall be provided on the proposed site. The sign shall be waterproof and have a minimum size of 24 inches by 36 inches for all variances, temporary use permits and conditional use permits and a four-foot by eight-foot sign for all general plan amendments, for planned area developments, zoning code amendments, and development review permits. All information on the sign shall be evenly spaced and organized in a readable manner. The number of signs and the location of the sign shall be determined by the zoning administrator or authorized designee.
3. *Electronic Notice.* Where applicable and not in violation of state law, notice may be provided by electronic means such as emailed notice, posted notice on the city's website, or other means determined by the zoning

administrator. This type of notice may be substituted for advertised notice. Any persons or organizations may request that electronic notice be substituted for mailed notice through a request to the zoning administrator. Electronic notice cannot be substituted for certain legislative actions, such as rezoning.

4. *Contents of Notices.* All notices shall contain information about the proposal, project description, time, date, location of neighborhood meeting and subsequent city meetings for review and approval (if available), the availability of Spanish-speaking and ASL interpreters upon request, the names and telephone numbers citizens may call with questions and issues, and applicant and city of Maricopa contacts, including name and telephone number.

G. *Meeting Summary.* The applicant shall submit to the development services department 10 calendar days before the first public hearing on the matter a written summary of the issues and discussions from the meeting and the meeting notes. This report will be attached to the development services department's public hearing report and, at a minimum, include the following information:

1. Details of techniques the applicant used to involve the public, including:
 - a. Date(s) and location of meeting;
 - b. Content, dates mailed, and number of mailings, including letters, meeting notices, newsletters, maps and other publications;
 - c. A copy of the sign-in sheet from the neighborhood meeting which shall include attendee signatures, physical property address, date and the following language: "This sign-in sheet is intended to serve as proof that public input was pursued. Your personal information will not be used for solicitation purposes.;"
 - d. A photograph of the posted neighborhood meeting sign showing the date and time at which the photo was taken; and
 - e. A newspaper clipping of the legal advertisement as published in the newspaper of general circulation in the city or the electronic notice if allowed as set forth in subsection (F)(4) of this section.
2. A summary of concerns, issues and problems expressed during the process, including:
 - a. The substance of the concerns, issues, and problems;
 - b. How the applicant has addressed or intends to address concerns, issues and problems expressed during the process; and
 - c. Concerns, issues and problems the applicant is unwilling or unable to address and why. [Ord. 24-01 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.05; Ord. 14-12 § 1.]

18.140.060 Public hearing notification.

A. *Purpose.* This section is intended to provide the public information about upcoming public hearings on land use issues and to provide property owners and interested organizations that may be impacted by a project of a pending action on a land use application. Public hearings shall be preceded by public notice in accordance with this section and state law.

B. *Applicability.* Notice is required for all applications that require a public hearing before the city council, planning and zoning commission, board of adjustment, hearing officer, or zoning administrator.

1. When multiple applications are under review for the same project, the city may simultaneously issue notice for multiple applications. The requirement that provides for greater notice shall apply.
2. The zoning administrator may require additional notification if necessary to meet the requirements of this code and the A.R.S.

C. *Notification Requirements.* Notification shall be provided in the following manner:

1. *Mailed Notice.* The applicant shall mail notices provided by the applicant by first class mail, in both English and Spanish.

a. Time period:

i. Public hearings: Not less than 15 or more than 45 days before the date of the public hearing.

b. Recipients:

i. The applicant, the owner, and any occupant of the subject property; and

ii. All property owners of record and tenants of property within a minimum 600-foot radius of the subject property.

c. *Notification List.* The applicant shall provide a list of property owners and occupants within the prescribed area of notification and shall sign an affidavit verifying that the list has been prepared in accordance with the procedure outlined in this section.

i. *Property Owner Notice.* The last known name and address of each property owner as contained in the records of the Pinal County Assessor shall be used;

ii. *Tenant Notice.* The address of the residential and commercial tenants shall be determined by visual site inspection or other reasonably accurate means;

iii. All neighborhood and community organizations that have previously filed a written request for notice of projects in the area where the site is located; and

iv. Any person or group who has filed a written request for notice regarding the specific application.

2. *Newspaper Notice.* The development services department shall review the notice prior to the applicant publishing in at least one newspaper of general circulation in the city.

- a. Time period: At least 15 days before the date of the public hearing.

3. *Posted Notice.* Notice shall be provided on the proposed site. The sign shall be colored and waterproof and have a minimum size of 24 inches by 36 inches for all variances, temporary use permits, and conditional use permits and a four-foot by eight-foot sign for all general plan amendments, planned area developments, and development review permits. All information on the sign shall be evenly spaced and organized in a readable manner. The sign shall include the proposal, project description, time, date, location of neighborhood meeting, the names and telephone numbers that citizens may call with complaints and applicant and city contacts, including name and telephone number. The number of signs and the location shall be determined by the zoning administrator or authorized designee.

- a. Time period: At least 15 days before the date of the public hearing.

- b. Size requirements: 24 inches by 36 inches.

4. *General Plan and Zoning Code Amendments.* All notification procedures outlined in A.R.S. §§ [9-462.03](#) and [9-462.04](#) must be met. Any general plan or zoning code amendments must meet the following requirements:

a. *Newspaper Notice.* Notice shall be provided by a "display ad" covering not less than one-eighth of a full page in a newspaper of general circulation in the city (A.R.S. § [9-462.04\(A\)\(5\)](#)).

b. *Posted Notice.* If there is no newspaper of general circulation published or circulated in the city, then notice shall be posted on the affected property and in at least 10 public places in the municipality. The posted notice shall be printed in such a manner so that the following are visible from a distance of 100 feet: the word "zoning," the present zoning district classification, the proposed zoning district classification, and the date and time of the hearing (A.R.S. § [9-462.04\(A\)\(1\)](#)).

5. *Electronic Notice.* Notice will be provided by electronic means such as emailed notice, posted notice on the city's website and social media, or other means determined by the zoning administrator. This type of notice may be substituted for advertised notice. Any persons or organizations may request that electronic notice be substituted for mailed notice through a request to the zoning administrator. Electronic notice shall not substitute for any notification required by state law.

D. *Contents of Notice.* All notices shall include the following information:

1. The location of the real property, if any, that is the subject of the application;
2. A general description of the proposed project or action;
3. The names of the applicant and the owner of the property that is the subject of the application;
4. The location and times at which the complete application and project file, including any environmental review, if required, may be viewed by the public;

5. A statement that any interested person or authorized agent may appear and be heard;
 6. A statement describing how to submit written comments;
 7. The date, time, location, and purpose of the public hearing;
 8. The identity of the hearing body or officer; and
 9. For city council hearings, the planning and zoning commission recommendation, if any.
- E. *Failure to Receive Notice.* Notwithstanding the notice requirements of this section, the failure of any person or entity to receive notice shall not constitute grounds for any court to invalidate the actions of the city for which the notice was given.
- F. *Summary of Notification Requirements.* Table 18.140.060 summarizes the notification requirements under this code for each application or action, including the type of notice, the notice requirement and the applicable projects for which such notice is required.

Table 18.140.060 Notification Requirements

Application or Action	Chapter	Decision-Making Body	Type of Notice	Notice Requirements	Applicable Projects
Zoning Permit	<u>18.145</u>	Zoning administrator	n/a	n/a	All requests requiring a zoning permit

Planned Area Development Districts	<u>18.180</u>	Recommendation: Planning and zoning commission Final Action: City council	Hearing Notice	Mailed: 15 days, 600 ft. owners and occupants Poster: 15 days Ad: 15 days	All PAD applications, including those initiated by the city council or planning and zoning commission

1 Refer to MCC [18.155.040](#) for definition of a minor development review permit and MCC [18.155.050](#) for definition of a major development review permit.

[Ord. 24-01 § 2; Res. 23-19; Ord. 23-17 § 2; Res. 21-09; Ord. 21-05 § 2; Ord. 19-05 § 3; Res. 14-36 § 502.06; Ord. 14-12 § 1.]

18.140.070 Multiple applications.

When multiple applications that require public hearings are filed for the same project, the zoning administrator may determine whether all issues and items shall be heard together. Those actions are subject to appeals according to MCC [18.140.140](#). [Ord. 22-18 § 2; Res. 22-37; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.07; Ord. 14-12 § 1.]

18.140.080 Conduct of public hearings.

All public hearings held pursuant to this code shall comply with the following procedures:

- A. *Public Hearing Testimony.* Any person may appear at a public hearing and submit oral or written evidence, either individually or as a representative of a person or an organization. Each person who appears at a public hearing shall be identified, state their city of residence, or geographic area of residence if they live in an unincorporated area, and, if appearing on behalf of a person or organization, state the name and mailing address of the person or organization being represented. The presiding officer may establish time limits for individual testimony and may require that individuals with shared concerns select one or more spokespersons to present testimony on behalf of those individuals.
- B. *Continuance of Public Hearing.* The body conducting the public hearing may, by motion, continue the public hearing to a fixed date, time and place or may continue the item to an undetermined date and provide notice of the continued hearing.
- C. *Investigations.* The body conducting the hearing may request that the director undertake investigations to be made as it deems necessary and in the public interest. The facts established by such investigation shall be submitted to the hearing body either in writing, to be filed with the records of the matter, or in testimony before the hearing body, and may be considered by the hearing body in making its decision.
- D. *Record of Hearing.* The body conducting the hearing shall cause a written summary of all pertinent testimony heard at such public hearing, together with a record of the names and addresses of all persons testifying, to be prepared and filed with the papers relating to such matter. These minutes shall be kept on record with the city clerk. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.08; Ord. 14-12 § 1.]

18.140.090 Findings required.

When making a decision to approve, approve with conditions, modify, revoke, or deny any permit or approval under this code, the decision-making body shall make findings of fact as required by this code.

- A. *Date of Action.* The decision-making body shall decide to approve, modify, revoke, or deny any permit or approval following the close of the public hearing, or if no public hearing is required, within the time period required by this code. The date of action shall be the date of the hearing when a hearing is required by this code.

B. *Notice of Action.* After the decision-making body takes any action to approve, modify, or deny an application that is subject to appeal under the terms of this code, notice of action shall be sent to the applicant. The notice of action shall describe the action taken, including any applicable conditions, and shall list the findings that were the basis for the decision. The notice shall be mailed, within seven calendar days from the date of taking the action, to the applicant at the address (including electronic addresses) stated in the application and to any other person or entity who has filed a written request of such notification.

C. *Findings.* Findings, when required by state law or this code, shall be based upon consideration of the application, plans, testimony, reports, and other materials that constitute the administrative record and shall be stated in writing by the decision-making authority. The findings shall be set forth in the notice of action that the city issues following an appealable decision by the decision-making body and in any resolution the city council adopts following action. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.09; Ord. 14-12 § 1.]

18.140.100 Conditions of approval.

A. *Authority.* The decision-making body may impose conditions on any approval. Such conditions shall be designed to implement the requirements of this code, the general plan, the city's strategic plan, and other city policies, codes, or requirements; protect the public from potential adverse impacts from the proposed use or development; or to fulfill an identified need for public services. In addition to those conditions imposed by the decision-making body, the city may consider as a requirement or condition any plan, exhibit, statement, or other material provided by the applicant and on record with the decision.

B. *Contract for Conditions.* When a land use approval requires a contract, such as but not limited to a development agreement or lease of city property, conditions shall be set forth in a contract executed by the city and the applicant and approved as to form by legal counsel for the city. The contract shall be recorded on the property within 30 days or the time required by state law; the approval will become void unless (1) the project is overturned or modified on appeal; or (2) it is extended by the zoning administrator. The contract shall appear in the chain of the title of the subject property and shall constitute a burden running with the land in favor of the city and, unless otherwise provided, shall be removed only with the written authorization of the city council. The contract shall be enforceable by and against the parties, their heirs, successors and assigns. The contract, however, shall not restrict the authority of the city from taking actions affecting the property.

C. *Time Limits on Conditions.* Conditions shall be fulfilled within the time limitations set forth or a reasonable time if no time limitations are specified. Failure to fulfill a condition within said time may result in initiation of revocation of the approval, citation or such other enforcement action as the city deems appropriate.

D. *Failure to Fulfill Previous Conditions.* The decision-making body may withhold a requested approval if it determines that the current applicant has not fulfilled a previous condition or requirement from a previous approval, granted to the applicant, on the subject property, and withholding the permit would encourage compliance or is necessary to protect the public from future noncompliance.

E. *Modification or Removal of Conditions.* Modification or removal of conditions of approval may be requested on appeal or by application for a minor or major amendment to the existing approval as determined by the zoning

administrator. Such proposals shall be processed through the same procedure that was used to impose the conditions, or as otherwise provided in this code. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.10; Ord. 14-12 § 1.]

18.140.110 Effective dates.

Decisions made under this code are effective on the date of approval or disapproval unless otherwise indicated by the decision-making body or if the decision is subject to a vesting period. An appeal shall stay all proceedings in the matter appealed from, unless the zoning administrator certifies in writing to the decision-making body that, by reason of the fact stated in the certificate, the stay would, in his opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed, except by a restraining order granted by a court of competent jurisdiction on application and notice to the zoning administrator. In the event that a decision made under this code is appealed, the appeal does not invalidate the approval. The holder of the approval may proceed with a use or development at their own risk. Any appeal granted may be subject to such conditions as the decision-making body on the appeal deems applicable.

A. *Expiration.* The decision-making body may specify the time within which the proposed use must be undertaken and actively and continuously pursued. The decision-making body may impose upon the permit a term of such period of time as is found to be consistent with the purposes of the use and necessary to safeguard the public safety, health and welfare. If no time period is otherwise specified, any permit granted under this code may be declared lapsed and of no further force and effect if it is not exercised or extended within two years of its issuance.

1. A permit for the use of a building or a property is exercised when, if required, a valid city business license has been issued, and the permitted use has commenced on the property.
2. A permit for the construction of a building or structure is exercised when a valid city building permit, if required, is issued, and construction has lawfully commenced.

B. *Extensions.* The zoning administrator may approve a one-year extension of any permit granted under this code upon receipt of a written application with the required fee within two years of the date of the original approval. All additional extensions shall require approval by the original decision-making body. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.11; Ord. 14-12 § 1.]

18.140.120 Modification.

Modifications are not variances that would otherwise require formal approval.

A. *Minor Modifications of Approvals.* The zoning administrator may approve modifications that are minor in scope and do not result in a 10 percent increase in square footage or in number of dwelling units to approved plans that are consistent with the original findings and conditions approved by the decision-making body that would not intensify any potentially detrimental effects of the project.

B. *Changed Plan.* A request for changes in conditions of approval of a discretionary permit or a change in an approved site plan or building plan that would affect a condition of approval shall be treated as a new application, except that such changes determined to be minor may be approved by the zoning administrator.

C. *Major Modifications of Approvals.* Any modification that cannot be modified by the zoning administrator under subsection [\(A\)](#) of this section must be reviewed and approved by the original decision-making body and is subject to appeal. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.12; Ord. 14-12 § 1.]

18.140.130 Revocation of permits and approvals.

Any permit or approval granted under this code may be revoked if any of the conditions or terms of such permit or approval are violated or if any law or code is violated in connection therewith. For any development activity in progress when a permit is revoked, a notice to suspend the activity may be issued, with due cause. Zoning revocation shall only be processed in the same manner prescribed by A.R.S. § [9-462.01\(E\)](#). Notwithstanding this provision, no lawful residential use can lapse regardless of the length of time of the vacancy.

A. *Initiation of Proceeding.* The original decision-making body on a permit or approval may, by its own action or following a recommendation from the zoning administrator, initiate revocation proceedings to the extent provided by state law.

B. *Public Notice.* Notice of revocation of the permit or approval must be provided in the same manner if the original permit(s) required notice.

C. *Public Hearing.* If the original permit(s) approval required a public hearing, that decision-making body shall conduct a hearing to determine whether to revoke the permit. The hearing shall be conducted in the same manner.

D. *Decision of Revocation.* A permit(s) or approval may be revoked under any one of the following findings:

1. The approval was obtained by means of fraud or misrepresentation of a material fact;
2. The use in question has ceased to exist or has been suspended for two years or more;
3. There is or has been a violation of or failure to observe the terms or conditions of the approval, permit or variance, or the use has been conducted in violation of the provisions of this code, law or regulation; or
4. The use to which the permit or variance applies has been conducted in a manner detrimental to the public safety, health and welfare, or so as to be a nuisance. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.13; Ord. 14-12 § 1.]

18.140.140 Appeals.

A. *Purpose.* This section provides procedures to be used whenever an applicant or person is aggrieved by a decision by a decision-making body.

B. *Applicability.* A final decision on any discretionary permit is subject to appeal in accordance with this section. Table 18.140.140, Appeal Bodies and Time Limitations, summarizes the appeal timeline for each body issuing a discretionary permit.

Table 18.140.140 Appeal Bodies and Time Limitations

Application or Action	Appeal Submittal Deadline	Decision-Making Body	Appeal Body
Zoning Permit	10 days	Zoning Administrator	Hearing Officer
Conditional Use Permit	20 days	Planning and Zoning Commission	City Council
Temporary Use Permit	10 days	Zoning Administrator	Hearing Officer
Development Review Permit	Major(1): 20 days	Major(1): Zoning Administrator Minor(1): Zoning Administrator	Major(1): Hearing Officer Minor(1): Hearing Officer
Waiver from Dimensional Standards	10 days	Zoning Administrator	Hearing Officer
Variances	10 days	Hearing Officer	City Council

1 Refer to MCC [18.155.040](#) for definition of a minor development review permit and MCC [18.155.050](#) for definition of a major development review permit.

C. *Rights of Appeal.* Appeals may be filed by the applicant, by the owner of property, or by any other person aggrieved by a decision that is subject to appeal under the provisions of this code.

D. *Procedures.*

1. *Proceedings Stayed by Appeal.* The timely filing of an appeal may stay all proceedings in the matter appealed including but not limited to the issuance of demolition permits, building permits, and business licenses.

2. *Filing of Appeals.* All decisions of the director, zoning administrator, hearing officer, and planning and zoning commission may be appealed to the appropriate body as specified in Table 18.140.140 by filing a written appeal not later than 5:00 p.m. on the appeal due date. If the date occurs on a weekend, then the appeal shall be filed on the Monday after the deadline. If the date occurs on a holiday when the city offices are closed, the deadline is the next business day. All appeals must be accompanied by payment of the required fee unless specifically waived.

3. *Submittal Requirements and Criteria.* The appeal shall set forth, in concise language, the following:

- a. Date of appeal;
- b. Name of appellant and the individual representing appellant;
- c. Address to which notices shall be sent;
- d. Telephone number of representative;

- e. Name of applicant, if different from appellant;
- f. Action or decision being appealed and the date of such action or decision;
- g. Address and description of real property involved; and
- h. The specific grounds for appeal. The appeal shall be limited to the issue(s) raised in the petition.

4. *Public Notice.* In addition to providing notice in the same manner required for the action that was the subject of the appeal, notice shall be provided to all persons who spoke on the matter at any prior hearings on the same matter, if such persons provided their names and addresses at the time they spoke at the prior hearing. The names and addresses shall be maintained by the city clerk.

5. *Action.* The appeal body shall review the appeal, the record, including the application, plans, related project materials that were the subject of the original decision, any additional materials as may be presented at the appeal hearing, and any written correspondence submitted after the appeal has been filed. The appeal body shall conduct a public hearing, after which it may affirm, reverse, or modify the previous decision.

E. *Standards of Review.* When reviewing any decision on appeal, the same standards and criteria shall apply as were required for the original decision.

F. *Failure to File an Appeal.* Failure to file an appeal with the appropriate appeal body by 5:00 p.m. on the due date shall preclude the filing of an appeal after the due date and renders any such appeal invalid. [Res. 23-19; Ord. 23-17 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.14; Ord. 14-12 § 1.]

18.140.150 Claim for diminution in value pursuant to A.R.S. § 12-1134.

A. *Filing of Claim.* All claims for diminution in value pursuant to A.R.S. § [12-1134](#) shall be filed with the city clerk on a form prescribed by the city.

B. *City Review.* After a claim is filed, city staff shall review the claim to determine whether the enactment or application of a land use law has diminished the value of the claimant's property. A certified land appraiser, economist, or other qualified expert may be consulted to determine the amount of the diminution of value, if any.

C. *Staff Recommendation.* The director shall prepare a recommendation to the city council to deny the claim, pay compensation for diminution in value or rescind or modify the land use regulation.

D. *City Council Determination.* Within 90 days of the filing of the claim, city council shall make a determination whether to deny the claim, pay compensation, modify or rescind the land use law or its application to the claimant's property. The city council's determination shall be made in writing and a copy shall be provided to the claimant. Any rescission or modification of the application of a land use law to an individual property shall be recorded against the property in the office of the Pinal County Recorder.

E. *Satisfaction of Notice of Claims Requirements.* Filing a claim pursuant to this section shall be deemed to satisfy the requirements set forth in A.R.S. § [12-821.01](#) for filing an administrative claim against the city. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.15; Ord. 14-12 § 1.]

18.140.160 Interpretations and determinations.

A. Requests for interpretations of this code and verifications relating to prior approvals or permits may be made to the zoning administrator. Requests shall be in writing. The decision of the zoning administrator on such requests may be appealed to the hearing officer.

B. An applicant may request from the zoning administrator clarification of a regulation pertaining to an application. A request must be in writing and include all information required by A.R.S. § [9-839](#). The zoning administrator may provide the requestor with an opportunity to meet and discuss the request. In compliance with A.R.S. § [9-839](#), the zoning administrator shall provide a written response within 30 calendar days of receipt of the request. [Ord. 23-35 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 502.16; Ord. 14-12 § 1.]

Chapter 18.145 ZONING PERMIT

Sections:

- [**18.145.010 Purpose.**](#)
- [**18.145.020 Applicability.**](#)
- [**18.145.030 Application requirements.**](#)
- [**18.145.040 Determination.**](#)
- [**18.145.050 Exceptions.**](#)
- [**18.145.060 Conditions.**](#)
- [**18.145.070 Appeals.**](#)

18.145.010 Purpose.

The specific purpose of this chapter is to establish procedures for conducting zoning permit review and issuing the associated permit to verify that each new or expanded use, activity, or structure complies with all of the applicable requirements of this code. [Ord. 14-12 § 1; Res. 14-36 § 503.01.]

18.145.020 Applicability.

A zoning permit is required for certain uses and structures as specified within the provisions of this code. Where required by this code, no person shall construct any structure, use any land, or change the use of any structure or land until a zoning permit has been obtained from the planning division and a building permit has been obtained from the development services department. [Ord. 14-12 § 1; Res. 14-36 § 503.02.]

18.145.030 Application requirements.

Applications and fees for a zoning permit shall be submitted in accordance with the provisions set forth in MCC [18.140.020](#), Application Submittal and Review. In addition to any other application requirements, the application for a zoning permit shall include data or other evidence in support of the applicable findings required below. [Ord. 14-12 § 1; Res. 14-36 § 503.03.]

18.145.040 Determination.

A. The zoning administrator shall determine whether the zoning code allows the proposed uses or structures as-of-right. A zoning permit shall be issued if the zoning administrator determines that the proposed use or building is permitted and conforms to all the applicable use standards. An approved zoning permit may include attachments of other written or graphic information, including but not limited to statements, numeric data, site plans, floor plans and building elevations and sections, as a record of the proposal's conformity with the applicable regulations of this code.

B. The zoning administrator may direct that a request be heard instead by the planning and zoning commission based on a review which includes, but is not limited to, the following factors:

1. Previous decisions by the city regarding the site on which the proposed use is located;
2. The probable impact of the requested use on its immediate surroundings; or
3. The consistency of the requested use with the projected land uses, policies and principles of the general plan. [Ord. 14-12 § 1; Res. 14-36 § 503.04.]

18.145.050 Exceptions.

No zoning permit shall be required for the continuation of previously approved or permitted uses and structures, uses and structures that are not subject to any building or zoning regulations, or other uses or buildings already subject to administrative use permits, temporary use permits, conditional use permits, variances, or other discretionary approvals in the district in which they are located. [Ord. 14-12 § 1; Res. 14-36 § 503.05.]

18.145.060 Conditions.

A zoning permit may have conditions of approval imposed as part of an approval in order to make the required findings. [Ord. 14-12 § 1; Res. 14-36 § 503.06.]

18.145.070 Appeals.

A zoning permit is subject to appeal in accordance with MCC [18.140.140](#). [Ord. 14-12 § 1; Res. 14-36 § 503.07.]

Chapter 18.150

USE PERMITS

Sections:

- [**18.150.010 Purpose.**](#)
- [**18.150.020 Applicability.**](#)
- [**18.150.030 Application requirements.**](#)
- [**18.150.040 Administrative use permits.**](#)
- [**18.150.050 Conditional use permits.**](#)
- [**18.150.060 Required findings.**](#)
- [**18.150.070 Conditions of approval.**](#)

- [**18.150.090 Expiration and extension – Modification – Revocation.**](#)
- [**18.150.100 Appeals.**](#)

18.150.010 Purpose.

This chapter describes the process and general requirements applicable to those uses for which an administrative use permit, temporary use permit, or conditional use permit is required. These uses require consideration to ensure that they can be designed, located, and operated in a manner that will not interfere with the use and enjoyment of surrounding properties. The process for review of applications is designed to evaluate possible adverse impacts and to minimize them, where possible, through the imposition of specific conditions of approval. [Ord. 14-12 § 1; Res. 14-36 § 504.01.]

18.150.020 Applicability.

Approval of a use permit is required for uses or developments specifically identified in Division 2, Base Zoning Districts, Division 3, Overlay Districts, and/or any other section of this code that requires a use permit. [Ord. 14-12 § 1; Res. 14-36 § 504.02.]

18.150.030 Application requirements.

Applications and fees for permits shall be submitted in accordance with the provisions set forth in MCC [18.140.020](#), Application Submittal and Review. In addition to any other application requirements, the application for a permit shall include data or other evidence in support of the applicable findings required below. [Ord. 14-12 § 1; Res. 14-36 § 504.03.]

18.150.040 Administrative use permits.

A. *Applicability.* An administrative use permit is required for comprehensive sign plans, buildings or structures constructed, the use of vacant land, changes in the character of the use of land or building, or for substantial expansions in the use of land or building, which have been found not to be inherently detrimental to the use and enjoyment of land but require an additional level of review and have a higher threshold of approval in certain circumstances. They are identified as an "A" in the use regulation tables in this code.

B. *Determination.* An administrative use permit is granted upon the discretion of the zoning administrator or his designee after it is determined that the proposed use or building conforms to all the applicable use standards. The burden of proof for satisfying the requirements for granting of an administrative use permit, as stated in this code, rests with the applicant. The issuance of an administrative use permit may require that the existing development site be brought into substantial conformance with the terms of the city code, including but not limited to: landscaping, screening, parking, and storm water retention.

C. *Referral to Planning and Zoning Commission.* The zoning administrator may direct that a request be heard instead by the planning and zoning commission based on a review that includes, but is not limited to, the following factors:

1. Previous decisions by the city regarding the site on which the proposed use is located;
2. The probable impact of the requested use on its immediate surroundings; or
3. The consistency of the requested use with the planned land uses and policies of the general plan.

D. *Conditions.* An administrative use permit may have conditions of approval imposed.

E. *Protected Uses.* A request for any activity that is protected by the First Amendment of the United States Constitution shall be reviewed by the decision-making body reviewing the application upon determination of a

complete application in a timely manner. Upon determination of a complete application, the item shall be scheduled at the next regularly scheduled public hearing complying with legal notice requirements where applicable. No continuances or other delays in such processing may occur without the concurrence of the applicant for such permit; provided, that there is sufficient time to complete any public notification requirement. If approved, the use shall be commenced within one year after the approval is granted. [Ord. 14-12 § 1; Res. 14-36 § 504.04.]

18.150.050 Conditional use permits.

A. *Applicability.* A conditional use permit is required for buildings or structures constructed, the use of vacant land, changes in the character of the use of land or building, or for substantial expansions in the use of land or building, which may have an impact upon the general welfare and safety of the public. These uses require an additional level of review and have a higher threshold of approval to ensure that they are compatible with the adjacent land uses and comply with the goals and intent of the general plan. They are identified as a "C" in the use regulation tables in this code.

B. *Public Hearing and Notice.* Conditional use permits shall be subject to a hearing by the planning and zoning commission, who shall review the recommendation of the zoning administrator and approve, conditionally approve, or disapprove the application. The burden of proof for satisfying the requirements for granting of a conditional use permit, as stated in this code, rests with the applicant. The issuance of a conditional use permit may require that the existing development site be brought into substantial conformance with the terms of the city code. All notification requirements must be followed prior to the public hearing.

C. *Additional Findings.* In addition to the findings listed in MCC [18.150.060](#), the planning and zoning commission, in approving a conditional use permit, must find that the proposed use or feature, at the size and intensity contemplated and at the proposed location, will provide a development that is necessary or desirable for, and compatible with, the neighborhood and the community.

D. *Conditions.* A conditional use permit may have conditions of approval.

E. *Protected Uses.* A request for any activity that is protected by the First Amendment of the United States Constitution shall be reviewed by the appropriate decision-making body upon determination of a complete application in a timely manner. Upon determination of a complete application, the item shall be scheduled at the next regularly scheduled public hearing complying with legal notice requirements where applicable. No continuances or other delays in such processing may occur without the concurrence of the applicant for such permit; provided, that there is sufficient time to complete any public notification requirement. If approved, the use shall be commenced within one year after the approval is granted. [Ord. 14-12 § 1; Res. 14-36 § 504.05.]

18.150.060 Required findings.

All use permits shall be granted if the decision-making body determines that the project, as submitted or as modified, conforms to all of the following criteria, in addition to any criteria that may be required or associated with the specific request. If it is determined that it is not possible to make all of the required findings, taking into consideration all of the conditions of approval, the application shall be denied. The specific basis for denial shall be established for the record. The following findings must be made:

- A. The proposed use is allowed within the applicable zoning district and complies with all other applicable provisions of this code and the Maricopa City Code;
- B. Approval of the proposed project will advance the goals and objectives of and is consistent with the policies of the general plan and any other applicable plan and/or policies that the city has adopted;
- C. The location, size, design, and operating characteristics of the proposed project are consistent with the purposes of the zoning district where it is located and conform in all significant respects with the general plan and with any other applicable plan or policies adopted by the city council;
- D. The proposed project will not be injurious or detrimental to the property or improvements in the neighborhood or to the general welfare of the city, specifically:
 - 1. The proposed use will not emanate any nuisances arising from the emission of odor, dust, gas, noise, vibration, smoke, heat, or glare at a level exceeding that of ambient conditions;
 - 2. The proposed use will provide adequate control of disruptive behavior both inside and outside the premises, which may create a nuisance to the surrounding area or general public, where applicable;
 - 3. The proposed use will not create any significant increase in vehicular or pedestrian traffic; and
 - 4. The proposed use will be compatible with existing uses and structures;
- E. Adequate public services and facilities and infrastructure are available to serve the proposed project; and
- F. For conditional use permits, that the proposed use or feature, at the size and intensity contemplated and at the proposed location, will provide a development that is necessary or desirable for, and compatible with, the neighborhood and the community. [Ord. 14-12 § 1; Res. 14-36 § 504.06.]

18.150.070 Conditions of approval.

The decision-making body may impose reasonable conditions on an administrative use permit or conditional use permit that are related and proportionate to what is being requested by the application in order to ensure that the standards and requirements of this code are met, including but not limited to:

- A. Limiting the hours, days, place and/or manner of operation;

- B. Requiring site or architectural design features that minimize impacts due to removal of vegetation, noise, vibration, exhaust/emissions, light, glare, erosion, water quality impacts, odor and/or dust;
- C. Requiring landscaping, screening, drainage, water quality facilities, and/or improvement of parking and loading areas;
- D. Designating the size, number, location and/or design of vehicle access points or parking areas;
- E. Requiring additional setbacks and planting if deemed necessary;
- F. Limiting the building height, size or lot coverage, and/or location on the site; and
- G. Any other conditions that are found to be necessary to ensure that the provisions of the general plan and this code are met. [Ord. 14-12 § 1; Res. 14-36 § 504.07.]

18.150.080 Temporary use permits.

This section establishes a process for review and approval of certain uses that are intended to be of limited duration of time and will not permanently alter the character or physical facilities of the site where they occur.

- A. *Applicability.* Uses for which a temporary use permit is required are established in Chapter [18.120 MCC, Standards for Specific Uses](#).
- B. *Permit Procedures.*
 - 1. *Application.* Any person may apply to the zoning administrator for approval of a temporary use not more than 90 days and not less than 45 days before the use is intended to begin accompanied by payment of the required fee.
 - 2. *Required Findings.* The zoning administrator may approve an application for a temporary use permit to allow a temporary use for a period of time, only upon making all of the following findings:
 - a. The proposed use will not unreasonably affect or have a negative impact on adjacent properties, their owners and occupants, or the surrounding neighborhood, and will not in any other way constitute a nuisance or be detrimental to the health, safety, peace, comfort, or general welfare of persons residing or working in the area of such use or to the general welfare of the city;
 - b. The proposed use is consistent with a land use permitted by the present zoning district within which the site is located, or a land use considered permitted by a zoning district listed in the general plan as being consistent with the general plan land use designation of the site;
 - c. The proposed use will not unreasonably interfere with pedestrian or vehicular traffic or circulation in the area surrounding the proposed use, and will not create a demand for additional parking that cannot be safely and efficiently accommodated by existing parking areas; and

d. Appropriate controls are in place that will ensure the premises will be kept clean, sanitary, free of litter, and all circulation and parking surfaces will include a suitable dust-controlled surface.

C. *Conditions of Approval.* In approving a temporary use permit, the zoning administrator may impose reasonable conditions deemed necessary to achieve the findings for a temporary use permit listed above, including but not limited to:

1. Regulation of vehicular ingress and egress and traffic circulation;
2. Regulation of dust-controlled surfaces;
3. Regulation of lighting;
4. Regulation of hours, total number of events/duration for the permit, and other characteristics of operation;
5. Submission of final plans to ensure compliance with conditions of approval;
6. Requirement of a public hearing held by the zoning administrator for his/her approval;
7. Requirement of bonds or other guarantees for cleanup or removal of structure or equipment; and
8. Such other conditions as the zoning administrator my deem necessary to carry out the intent and purpose of this chapter.

D. *Public Notification.* Notice of the proposed temporary use permit shall be posted on the subject property for a period of 15 days. Notice shall also be mailed to property owners within 600 feet of the property boundaries proposed for the temporary use, in accordance with MMC [18.140.050\(F\)\(1\)](#) and [\(F\)\(3\)](#). Additional notification may be required at the zoning administrator's discretion.

E. *Effective Dates.*

1. *Permit Period 45 Days or Less.* A temporary use permit issued for 45 days or less shall become effective on the date the permit is approved by the zoning administrator.
2. *Permit Period More Than 45 Days.* A temporary use permit for more than 45 days shall become effective seven days from the date the permit is approved by the zoning administrator. [Ord. 24-01 § 2; Ord. 14-12 § 1; Ord. 19-05 § 4; Ord. 14-12 § 1; Res. 14-36 § 504.08.]

18.150.090 Expiration and extension - Modification - Revocation.

A. Administrative use permits, conditional use permits, and temporary use permits granted pursuant to this chapter shall expire if they have not been exercised, or if a building permit has not been issued within two years of the official action, or within the time stipulated, unless extended by the decision-making body.

B. A minor modification of an administrative use permit, conditional use permits, and temporary use permits granted pursuant to this chapter may be approved under MCC [18.140.120](#), Modifications. Changed plans, including changes in conditions of approval, shall be reviewed and processed in accordance with the procedures of this code.

C. An administrative use permit, conditional use permit, and temporary use permit granted pursuant to this chapter may be suspended, revoked, or modified upon a finding that any condition, stipulation, or term of the approval of the permit has been violated. [Ord. 14-12 § 1; Res. 14-36 § 504.09.]

18.150.100 Appeals.

An administrative use permit, conditional use permit, and temporary use permit are subject to appeal in accordance with MCC [18.140.140](#). [Ord. 14-12 § 1; Res. 14-36 § 504.10.]

Chapter 18.155 DEVELOPMENT REVIEW PERMIT

Sections:

- [**18.155.100 Appeals.**](#)

18.155.010 Purpose.

This chapter establishes objectives, standards, and procedures for conducting and issuing development review permits for the purpose of identifying, maintaining, strengthening, and enhancing a neighborhood and zoning district's cohesive and distinctive physical characteristics. These regulations shall be carried out in a manner that encourages creative and appropriate solutions while avoiding unnecessary delays in project approval. The specific purposes of development review are to:

- A. Promote excellence in site planning and design and the harmonious appearance of buildings and sites;

B. Ensure that new and modified uses and development will conform to all of the regulations and standards of this code and be compatible with the existing and potential development of the surrounding area; and

C. Supplement other city regulations and standards in order to ensure control of aspects of design that are not otherwise addressed. [Res. 23-19; Ord. 23-17 § 2; Ord. 14-12 § 1; Res. 14-36 § 505.01.]

18.155.020 Application.

A development review permit is required for uses or developments identified in Division 2, Base Zoning Districts, Division 3, Overlay Districts, and/or any other section of this code that requires development review. The provisions of this section may apply to projects that do not require review under MCC Title [17](#), Subdivisions, depending on the scope of the project and if a subdivision will be requested or required concurrently or in the future. Appropriate procedures should be identified at a preliminary review meeting. When there are projects that are subject to both sets of regulations, the most restrictive shall govern. Where there is a conflict between a general requirement and specific requirement, the specific requirement shall apply. The development review permit process is intended to replace the prior zoning code site plan review procedures. Site plan approval under the previous code shall expire within one year of the adoption of this code, or at a time specified as a condition of approval, whichever comes first. [Res. 23-19; Ord. 23-17 § 2; Ord. 14-12 § 1; Res. 14-36 § 505.02.]

18.155.030 Application requirements.

Applications and fees for development review permits shall be submitted in accordance with the provisions set forth in MCC [18.140.020](#), Application submittal and review. In addition to any other application requirements, the application for a development review permit shall include data or other evidence in support of the applicable findings required in this chapter. [Res. 23-19; Ord. 23-17 § 2; Ord. 14-12 § 1; Res. 14-36 § 505.03.]

18.155.040 Minor development review permit.

A. *Applicability.* A minor development review permit is required for all new and modified buildings or structures, or for expansions to a building or structure that result in an increase less than 5,000 gross square feet or 20 percent of the existing building area, alter more than 10 percent of the surface area of the exterior portion of any facade, or as otherwise required in this code. A minor development review permit is not required for individual single-unit dwellings or second dwelling units on separately owned lots.

B. *Determination.* The zoning administrator shall conduct review of all minor development permits and shall approve, conditionally approve, or deny applications based on required findings and criteria in this chapter. An approved minor development review permit may include attachments of other written or graphic information, including but not limited to statements, numeric data, site plans, floor plans, elevations, sections, material samples, as a record of the proposal's conformity with the applicable regulations of this code.

C. *Referral to Planning Commission.* The zoning administrator may direct that a request be heard by the planning and zoning commission based on a review that includes, but is not limited to, the following factors:

1. Previous decisions by the city regarding the site on which the proposal is located;
2. The probable impact of the requested use on its immediate surroundings; and
3. The consistency of the requested use with the projected land uses and policies of the general plan.

D. *Conditions.* A minor development review permit may have conditions of approval imposed, consistent with MCC [18.155.080](#). [Res. 23-19; Ord. 23-17 § 2; Ord. 14-12 § 1; Res. 14-36 § 505.04.]

18.155.050 Major development review permit.

A. *Applicability.* A major development review permit is required for all new and modified buildings or structures, or for alterations to a building or structure that result in over 5,000 additional gross square feet, facade alterations that encompass more than 10 percent of the surface area, or as otherwise required in this code.

B. *Public Notification.* The issuance of a major development review permit may require that the existing development site be brought into substantial conformance with the terms and standards of this code. Notice of the proposed development review permit shall be posted on the subject property for a period of 15 days. Notice shall also be mailed to property owners within 600 feet of the property boundaries proposed for the use, in accordance with MCC [18.140.050\(F\)\(1\)](#). Additional notification may be required at the zoning administrator's discretion.

Determination. The zoning administrator shall conduct review of all major development review permits and shall approve, conditionally approve, or deny applications based on required findings and criteria in this chapter. An approved major development review permit may include attachments of other written or graphic information, including but not limited to statements, numeric data, site plans, floor plans, elevations, sections, material samples, as a record of the proposal's conformity with the applicable regulations of this code.

C. *Conditions.* A major development review permit may have conditions of approval imposed, consistent with MCC [18.155.080](#).

D. *Referral to Planning Commission.* The zoning administrator may direct that a request be heard by the planning and zoning commission based on a review that includes, but is not limited to, the following factors:

1. Previous decisions by the city regarding the site on which the proposal is located;
2. The probable impact of the requested use on its immediate surroundings; and
3. The consistency of the requested use with the projected land uses and policies of the general plan. [Res. 23-19; Ord. 23-17 § 2; Ord. 14-12 § 1; Res. 14-36 § 505.05.]

18.155.060 Scope of development review.

Development review shall be based on consideration of the requirements of this chapter as they apply to the design of the site plan, structures, landscaping, signs, and other physical features of a proposed project, including but not limited to:

- A. Building proportions, massing, and architectural details;
- B. Site design, orientation, location, and architectural design of buildings relative to existing structures, outdoor areas, walkways, trails, and streets on or adjacent to the property;
- C. Topography, and other physical features of the natural and built environment;
- D. Size, location, design, development, and arrangement of circulation, parking, pedestrian ways, and other paved areas;
- E. Exterior colors and materials as they relate to each other, to the overall appearance of the project, and to surrounding development;
- F. Height, materials, colors, and variety of fences, walls, and screen plantings;
- G. Location and screening of mechanical equipment and refuse storage areas;
- H. Location and design of exterior lighting features;
- I. Location and type of landscaping, including selection and size of plant materials, design of hardscape, and irrigation; and
- J. Size, location, design, color, lighting, and materials of all signs. [Res. 23-19; Ord. 23-17 § 2; Ord. 14-12 § 1; Res. 14-36 § 505.06.]

18.155.070 Required findings.

When conducting development review, the zoning administrator shall evaluate applications to ensure that they satisfy the following criteria, conform to the policies of the general plan and any applicable specific or PAD plan, the regulations and standards in this code, and are consistent with any other policies or guidelines the city council may adopt for this purpose. To obtain development review approval, projects must satisfy these criteria to the extent they apply:

- A. The overall design of the project, including its scale, massing, site plan, exterior design, and landscaping, will enhance the appearance and features of the project site and surrounding natural and built environment.
- B. The project site plan is appropriate to the function of the project and will provide a suitable environment for occupants, visitors, and the general community.

- C. Project details, colors, materials, and landscaping are internally consistent, fully integrated with one another, and used in a manner that is visually consistent with the proposed architectural design.
- D. The project is compatible with neighboring development by avoiding big differences in building scale and character between developments on adjoining lots in the same zoning district and providing a harmonious transition in scale and character between different districts.
- E. The project contributes to the creation of a visually interesting built environment that includes a variety of building styles and designs with well-articulated structures that present varied building facades, rooflines, and building heights within a unifying context that promotes increased pedestrian activity and compatibility among neighboring land uses within the same or different districts.
- F. The streetscapes, including trees, lighting, and pedestrian furniture, are consistent with the character of commercial districts and adjacent residential neighborhoods.
- G. Street frontages are attractive and interesting for pedestrians and provide for greater safety by allowing for surveillance of the street by people inside buildings and elsewhere.
- H. The proposed landscaping plan is suitable for the type of project and site conditions and will improve the appearance of the community by enhancing the building and site design; and the landscape plan incorporates plant materials that are drought tolerant, will minimize water usage, and are compatible with Maricopa's microclimate. [Res. 23-19; Ord. 23-17 § 2; Ord. 14-12 § 1; Res. 14-36 § 505.07.]

18.155.080 Conditions of approval.

The zoning administrator may impose reasonable conditions on a development review permit that are related and proportionate to what is being requested by the application in order to ensure that the standards and requirements of this code are met, including but not limited to:

- A. Modification of materials;
- B. Additional building setbacks;
- C. Additional landscaping;
- D. Height and area limitations of structures;
- E. Limited vehicular access;
- F. Walls, fences and screening devices;
- G. Noise attenuation construction;
- H. Any other restriction necessary to protect adjacent properties, preserve neighborhood character, or mitigate adverse impacts; or

I. Any other conditions that are found to be necessary to ensure that the provisions of the general plan and this code are met. [Res. 23-19; Ord. 23-17 § 2; Ord. 14-12 § 1; Res. 14-36 § 505.08.]

18.155.090 Expiration and extension – Modification – Revocation.

A. A development review permit granted pursuant to this chapter shall expire if it has not been exercised or if a building permit has not been issued within two years of the date of the approval, or within the time stipulated, whichever is longer. A one-time extension may be approved by the planning and zoning commission, upon recommendation by the zoning administrator, after a completed application to extend, and fee is submitted.

B. A minor modification of a development review permit granted pursuant to this chapter may be approved by the initial approval authority, or as otherwise specified in this code. If the modification is deemed a changed plan, including changes in conditions of approval, it shall be treated as a new application.

C. A development review permit granted pursuant to this chapter may be suspended, revoked, or modified, upon a finding that any condition, stipulation, or term of the approval of the permit has been violated. [Res. 23-19; Ord. 23-17 § 2; Ord. 14-12 § 1; Res. 14-36 § 505.09.]

18.155.100 Appeals.

A development review permit is subject to appeal in accordance with MCC [18.140.140](#). [Res. 23-19; Ord. 23-17 § 2; Ord. 14-12 § 1; Res. 14-36 § 505.10.]

Chapter 18.160

VARIANCES

Sections:

- [18.160.010 Purpose.](#)**
- [18.160.020 Applicability and scope of variances.](#)**
- [18.160.030 Limitations on authority to grant variances.](#)**

- [18.160.050 Public hearing.](#)**
- [18.160.060 Required findings.](#)**
- [18.160.070 Use variances prohibited.](#)**
- [18.160.080 Conditions of approval.](#)**
- [18.160.090 Expiration and extension – Modification – Revocation.](#)**
- [18.160.100 Appeals.](#)**

18.160.010 Purpose.

This chapter is intended to provide a mechanism for relief from certain dimensional and performance standards in this code where the strict application will deprive the property owner of privileges enjoyed by similar properties because of the subject property's unique and special conditions. [Ord. 14-12 § 1; Res. 14-36 § 506.01.]

18.160.020 Applicability and scope of variances.

Variances may be granted with respect to dimensional and performance standards, but variances from the use regulations of this code are not allowed. The hearing officer shall have power to grant such variances only to the extent necessary to overcome such practical difficulty or unnecessary hardship as may be established in accordance with the provisions of this chapter. [Ord. 23-35 § 2; Ord. 14-12 § 1; Res. 14-36 § 506.02.]

18.160.030 Limitations on authority to grant variances.

- A. No variance shall be granted, in whole or in part, that would have an effect substantially equivalent to a reclassification of property, alter any use or grant a privilege for which a conditional use permit is required. A variance is not a vested right and is granted upon the discretion of the hearing officer. The burden of proof for satisfying the requirements for granting of a variance, as stated in this code, rests with the applicant.
- B. No variance shall be granted based on an owner-imposed hardship on a lot. [Ord. 23-35 § 2; Ord. 14-12 § 1; Res. 14-36 § 506.03.]

18.160.040 Application requirements.

Applications and fees for a variance shall be submitted in accordance with MCC [18.140.020](#), Application Submittal and Review. In addition to any other application requirements, the application for a variance shall include data or other evidence showing that the requested variance conforms to the required findings set forth below. [Ord. 14-12 § 1; Res. 14-36 § 506.04.]

18.160.050 Public hearing.

Variances shall be subject to a hearing by the hearing officer which shall review the recommendation of the zoning administrator and approve, conditionally approve, or disapprove the application. The issuance of a variance may require that the existing development site be brought into substantial conformance with the terms and standards of this code. All notification requirements of MCC [18.140.060](#), Public hearing notifications, must be followed prior to the public hearing. [Ord. 23-35 § 2; Ord. 14-12 § 1; Res. 14-36 § 506.05.]

18.160.060 Required findings.

Variance applications shall only be granted if the hearing officer determines that the project as submitted or as modified conforms to all of the following criteria, in addition to any criteria that may be required or associated with the specific request. If it is determined that it is not possible to make all of the required findings, the variance application shall be denied. The specific basis for denial shall be established for the record. The following findings must be met in order to grant a variance:

- A. There are special circumstances applicable to the property, including its size, shape, topography, location, or surroundings, whereby the strict application of this code will deprive such property of privileges enjoyed by other property of the same classification in the same zoning district;
- B. The special circumstances or conditions are preexisting and are not created or self-imposed by the owner or applicant;
- C. The variance does not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and zoning district in which such property is located; and
- D. The granting of such variance will not be materially detrimental to persons residing or working in the vicinity, to adjacent property, to the neighborhood or public welfare in general.
- E. Any other requirements as defined in A.R.S. § [9-462.06\(G\)\(2\)](#). [Ord. 23-35 § 2; Ord. 14-12 § 1; Res. 14-36 § 506.06.]

18.160.070 Use variances prohibited.

A variance shall not be granted to permit a use otherwise not permitted in the applicable zoning district. [Ord. 14-12 § 1; Res. 14-36 § 506.07.]

18.160.080 Conditions of approval.

In approving a variance, the hearing officer may impose reasonable conditions necessary to ensure that the variance shall not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and the zoning district in which the subject property is located, including but not limited to:

- A. Achieve the general purposes of this code or the specific purposes of the zoning district in which the site is located;
- B. Protect the public health, safety, and general welfare;
- C. Ensure operation and maintenance of the use in a manner compatible with existing and potential uses in the surrounding area; and

D. Any other conditions that are found to be necessary to ensure that the provisions of the general plan and this code are met. [Ord. 23-35 § 2; Ord. 14-12 § 1; Res. 14-36 § 506.08.]

18.160.090 Expiration and extension – Modification – Revocation.

- A. A variance granted pursuant to this chapter shall expire if it has not been exercised, or if a building permit has not been issued within one year of the date of the approval, or within the time stipulated, whichever is longer.
- B. The hearing officer may approve minor modifications that are consistent with the original findings and conditions approved and which would not intensify any potentially detrimental effects of the project. Changed plans, including changes in conditions of approval of a variance, shall be treated as a new application.
- C. A variance may be suspended, revoked, or modified upon a finding that any condition, stipulation, or term of the approval of the permit has been violated. [Ord. 23-35 § 2; Ord. 14-12 § 1; Res. 14-36 § 506.09.]

18.160.100 Appeals.

A variance is subject to appeal in accordance with MCC [18.140.140](#). [Ord. 14-12 § 1; Res. 14-36 § 506.10.]

Chapter 18.165

WAIVERS

Sections:

- [**18.165.010 Purpose.**](#)
- [**18.165.020 Applicability.**](#)
- [**18.165.030 Application requirements.**](#)
- [**18.165.040 Procedures.**](#)
- [**18.165.050 Required findings.**](#)
- [**18.165.060 Conditions of approval.**](#)
- [**18.165.070 Expiration and extension – Modification – Revocation.**](#)
- [**18.165.080 Appeals.**](#)

18.165.010 Purpose.

The specific purpose of this chapter is to establish an alternate means of granting relief from the requirements of this code when so doing would be consistent with the purposes of the code and will improve the quality of development, and it is not possible or practical to approve a variance. Further to this end, it is the policy of the city

to comply with the federal Fair Housing Act and the Americans with Disabilities Act to provide reasonable accommodation to persons with disabilities seeking fair access to housing through waiver of the application of the city's zoning regulations. This chapter authorizes the hearing officer to grant administrative relief from the code's dimensional requirements, subject to specified limits, to achieve these objectives. [Ord. 14-12 § 1; Res. 14-36 § 507.01.]

18.165.020 Applicability.

The zoning administrator may grant relief from the dimensional requirements specified in this code as provided below.

- A. *Reasonable Accommodation.* Waiver of the type of development standard and in the amount necessary to comply with the reasonable accommodation provisions of federal law based on a determination that the specific circumstances of the application warrant such an accommodation.
- B. *Setbacks.* Up to 20 percent of the required front, side, and rear yard setback standards.
- C. *Build-To Areas.* Up to 10 percent of the standards for building facade location.
- D. *Fences and Walls.* Up to one foot over the maximum height.
- E. *Lot Coverage.* Up to 10 percent of the maximum amount of lot coverage.
- F. *Height of Buildings and Structures.* Up to 10 percent of the maximum height, or three feet, whichever is less.
- G. *Landscaping.* Up to 10 percent of the required landscaping.
- H. *Transparency.* Up to 10 percent of the minimum required.
- I. *Other Standards.* Up to 20 percent of a minimum or maximum for other development standards except those listed in subsection (J) of this section.
- J. *Exclusions.* Waivers cannot be granted for any of the following standards:
 - 1. Lot area, width, or depth;
 - 2. Maximum number of stories;
 - 3. Minimum number or dimensions of required parking spaces;
 - 4. Maximum residential density;
 - 5. Maximum floor area ratio (FAR); or
 - 6. Any initiation of an unapproved use, alteration, modification, or change to an existing structure. [Res. 21-09; Ord. 21-05 § 2; Res. 14-36 § 507.02; Ord. 14-12 § 1.]

18.165.030 Application requirements.

An application for a waiver shall be filed with the hearing officer in accordance with MCC [18.140.020](#), Application Submittal and Review. The application shall state in writing the nature of the waiver requested and explain why the findings necessary to grant the waiver are satisfied. The applicant shall also submit plans delineating the requested waiver and a fully executed Proposition 207 waiver with the request. [Ord. 14-12 § 1; Res. 14-36 § 507.03.]

18.165.040 Procedures.

- A. *Review and Actions by the Zoning Administrator.* The hearing officer shall approve, conditionally approve, or deny applications for waivers based on the recommendation from the zoning administrator and with consideration of the requirements of this chapter.
- B. *Concurrent Processing.* If a request for waiver is being submitted in conjunction with an application for another approval, permit, or entitlement under this code, it shall be heard and acted upon by that decision-making body at the same time and in the same manner as that application. [Ord. 14-12 § 1; Res. 14-36 § 507.04.]

18.165.050 Required findings.

A decision to grant a waiver shall be based on the following findings:

- A. The waiver is necessary due to the physical characteristics of the property and the proposed use or structure or other circumstances, including but not limited to topography, noise exposure, irregular property boundaries, or other unusual circumstance;
- B. There are no alternatives to the requested waiver that could provide an equivalent level of benefit to the applicant with less potential detriment to surrounding owners and occupants or to the general public;
- C. The granting of the requested waiver will not be detrimental to the health or safety of the public or the occupants of the property or result in a change in land use or density that would be inconsistent with the requirements of this code;
- D. In residential districts, the hearing officer must also make the following findings in addition to any other findings that this chapter requires:
 - 1. There are exceptional or extraordinary circumstances related to the design, building code compliance, or other code compliance that make it difficult or impossible to enlarge the house without a waiver, and the addition is of superior design quality and compatible with the existing neighborhood character;
 - 2. The change is only intended to increase the habitability and function of the structure;

3. Granting the waiver is desirable for the preservation of an existing architectural style or neighborhood character that would not otherwise be accomplished through the strict application of this code; and
 4. It can be demonstrated that the design of the proposed addition is of superior quality, compatible with the existing neighborhood character, effective in minimizing the perceived size of the dwelling, not overly intrusive to the privacy of neighboring dwellings and is in substantial compliance with the residential district regulations.
- E. If the waiver requested is to provide reasonable accommodation pursuant to state or federal law, the hearing officer must also make the following findings in addition to any other findings that this chapter requires:
1. That the housing or other property which is the subject of the request for reasonable accommodation will be used by an individual or organization entitled to protection;
 2. If the request for accommodation is to provide fair access to housing, that the request for accommodation is necessary to make specific housing available to an individual protected under state or federal law;
 3. That the conditions imposed, if any, are necessary to further a compelling public interest and represent the least restrictive means of furthering that interest; and
 4. That denial of the requested waiver would impose a substantial burden on religious exercise or would conflict with any state or federal statute requiring reasonable accommodation to provide access to housing.
[Ord. 14-12 § 1; Res. 14-36 § 507.05.]

18.165.060 Conditions of approval.

In approving a waiver, the hearing officer may impose reasonable conditions necessary to ensure that the waiver shall not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and zoning district in which the subject property is located, including but not limited to conditions to:

- A. Achieve the general purposes of this code or the specific purposes of the zoning district in which the project is located;
- B. Achieve the findings for a waiver granted; or
- C. Any other conditions that are found to be necessary to ensure that the provisions of the general plan, this code, and other city policies are met.
- D. Waivers approved based on state or federal requirements for reasonable accommodation may be conditioned to provide for rescission or automatic expiration based on a change of occupancy or other relevant change in circumstance. [Ord. 14-12 § 1; Res. 14-36 § 507.06.]

18.165.070 Expiration and extension – Modification – Revocation.

- A. A waiver granted pursuant to this chapter shall expire if it has not been exercised, or if a building permit has not been issued within one year of the date of the approval, or within the time stipulated, whichever is longer.
- B. A minor modification of a waiver granted pursuant to this chapter may be approved. Changed plans, including changes in conditions of approval, shall be treated as a new application.
- C. A waiver granted pursuant to this chapter may be suspended, revoked, or modified, upon a finding that any condition, stipulation, or term of the approval of the permit has been violated. [Ord. 14-12 § 1; Res. 14-36 § 507.07.]

18.165.080 Appeals.

A waiver is subject to appeal in accordance with MCC [18.140.140](#). [Ord. 14-12 § 1; Res. 14-36 § 507.08.]

Chapter 18.170

AMENDMENTS TO GENERAL PLAN

Sections:

- [18.170.010 Purpose and applicability.](#)**
- [18.170.020 Initiation of amendments.](#)**
- [18.170.030 Public notice and review procedures.](#)**
- [18.170.040 Planning and zoning commission action.](#)**
- [18.170.050 City council action.](#)**

18.170.010 Purpose and applicability.

Whenever the public necessity, convenience, and general welfare require, the city council may, by code, amend the general plan. This chapter establishes procedures for making legislative changes to the general plan as provided for in Arizona law. In addition to the requirements of this chapter, all general plan map and text amendments shall conform to the requirements of A.R.S. § [9-461.06](#) (adoption and amendment of general plan). [Ord. 14-12 § 1; Res. 14-36 § 508.01.]

18.170.020 Initiation of amendments.

A proposal for an amendment of the general plan may be made by the city council, planning and zoning commission, or by a property owner. If a property owner wishes to initiate an amendment, an application shall be filed with the development services department. The application shall be accompanied by payment of the required fee. The city shall determine whether the proposed amendment is a "major amendment" as established in the existing general plan. [Ord. 14-12 § 1; Res. 14-36 § 508.02.]

18.170.030 Public notice and review procedures.

- A. Public notice of hearings by the planning and zoning commission and the city council for general plan amendments shall be given as specified in MCC [18.140.060](#), Public Hearing Notification, and such notice and hearings also shall conform to A.R.S. § [9-461.06](#).
- B. At least 60 days before the general plan or an element or major amendment of a general plan is noticed pursuant to subsection (A) of this section, the proposed general plan map or text amendment shall be transmitted to the planning and zoning commission, the city council, and the following:
 1. The Pinal County Planning Commission;
 2. Each county or municipality that is contiguous to the corporate limits of the city or its area of extraterritorial jurisdiction;
 3. The regional planning agency;
 4. The Arizona Commerce Authority or any other state agency that is subsequently designated as the general planning agency for the state;
 5. The Department of Water Resources for review and comment on the water resources element, if a water resources element is required;
 6. If the general plan or an element or amendment of the general plan is applicable to territory in the vicinity of a military airport or ancillary military facility, the military airport;
 7. If the general plan or an element or major amendment of the general plan is applicable to property in the high noise or accident potential zone of a military airport or ancillary military facility, the Attorney General;
 8. If the general plan or an element or major amendment of the general plan is applicable or adjacent to property under the jurisdiction of any agencies outlined in MCC [18.135.100](#), Other Agencies, to the applicable representative;
 9. Any person or entity that requests in writing to receive a review copy of the proposal. [Ord. 14-12 § 1; Res. 14-36 § 508.03.]

18.170.040 Planning and zoning commission action.

- A. *Hearing.* For a minor general plan amendment, the planning and zoning commission shall conduct at least one public hearing in conformance with the provisions of Chapter [18.140](#) MCC, Common Procedures. Where an amendment has been determined to be a "major amendment," the planning and zoning commission shall conduct at least two public hearings in two different locations.
- B. *Recommendation to Council.* Following the public hearings, the planning and zoning commission shall make a written recommendation on the adoption or amendment of the general plan or any element thereof. The director shall promptly transmit to the city council the planning and zoning commission's written recommendation, together with any maps, charts, studies, or other materials, including any environmental analysis, if required. [Ord. 14-12 § 1; Res. 14-36 § 508.04.]

18.170.050 City council action.

- A. *Hearing.* For all general plan amendments, the city council shall conduct at least one public hearing in conformance with the provisions of Chapter [18.140](#) MCC, Common Procedures, and Arizona Revised Statutes. All major amendments shall be presented at a public hearing during the calendar year they are proposed to the city, unless otherwise provided by law.
- B. *Action.* After the conclusion of the hearing, the city council shall approve, modify, or disapprove the proposed amendment.
1. The adoption or readoption of a major amendment shall be approved by affirmative vote of at least two-thirds of the members of the city council.
 2. If the motion to adopt or readopt a general plan or an amendment to the general plan fails to pass, the city council may reconsider the motion, but any subsequent motion must be approved by an affirmative vote of at least two-thirds of the city council.
- C. *Public Notification.* Following the council action, the city shall make the documents amending the general plan, including the diagrams and text, available for public inspection. [Ord. 22-18 § 2; Res. 22-37; Ord. 14-12 § 1; Res. 14-36 § 508.05.]

Chapter 18.175

AMENDMENTS TO ZONING MAP AND TEXT

Sections:

- [**18.175.010 Purpose and applicability.**](#)
[**18.175.020 Initiation of amendments.**](#)

- 18.175.030 Public notice and review procedures.**
- 18.175.040 Planning and zoning commission action.**
- 18.175.050 City council action.**

18.175.010 Purpose and applicability.

Whenever the public necessity, convenience, and general welfare require, the city council may, by code, amend any portion of this code or zoning map. Any amendment to this zoning code which changes any property from one zoning district to another, which imposes any regulation not previously imposed, or which removes or modifies any regulation previously imposed, shall be adopted in the manner set forth in this chapter. In addition to the requirements of this chapter, amendments to the zoning map and text shall conform to the requirements of A.R.S. §§ [9-462.03](#) (Amendment procedure) and [12-1133](#) (Just compensation). [Ord. 14-12 § 1; Res. 14-36 § 509.01.]

18.175.020 Initiation of amendments.

Application for amendment of the zoning map and this code may be made by the city council, planning and zoning commission, or by a property owner. If a property owner wishes to initiate an amendment, an application shall be filed with the development services department. The application shall be accompanied by payment of the required fee. [Ord. 14-12 § 1; Res. 14-36 § 509.02.]

18.175.030 Public notice and review procedures.

Public notice of hearings by the planning and zoning commission and the city council for zoning map amendments or zoning code text amendments shall be given as specified in MCC [18.140.060](#), Public Hearing Notification, and required by Arizona Revised Statutes. [Ord. 14-12 § 1; Res. 14-36 § 509.03.]

18.175.040 Planning and zoning commission action.

- A. *Hearing.* The planning and zoning commission shall conduct a public hearing in conformance with the provisions of Chapter [18.140](#) MCC, Common Procedures.
- B. *Recommendation to Council.* Following the public hearing, the planning and zoning commission shall make a written recommendation on the adoption or amendment of the zoning map and/or code. The director shall promptly transmit to the city council the planning and zoning commission's written recommendation, together with any maps, charts, studies, or other materials, including any environmental analysis, if required.
- C. *Findings.* The planning and zoning commission shall make the following findings in their recommendation to the city council:

1. The amendment is consistent with the general plan;
2. Any change in district boundaries is necessary to achieve the balance of land uses desired by the city, consistent with the general plan, and to increase the inventory of land within a given zoning district; and
3. The amendment will promote the growth of the city in an orderly manner and protect the public health, safety, peace, comfort and general welfare. [Ord. 14-12 § 1; Res. 14-36 § 509.04.]

18.175.050 City council action.

- A. *Repealed by Ord. 22-18.*
- B. *Protested Applications for Zoning Map Amendment Requiring Supermajority of City Council to Pass.* If the owners of 20 percent or more either of the area of lots included in a proposed zoning map amendment, or of those immediately adjacent in the rear or any side thereof extending 150 feet therefrom, or of those directly opposite thereto, extending 150 feet from the street frontage of the opposite lots, file a protest in writing against such an action, it shall not become effective except by the favorable vote of three-fourths of all members of the city council. Such written protests shall be filed in the office of the director by no later than 12:00 noon on the Monday or Tuesday (if Monday is a holiday) of the week prior to the city council meeting at which such amendment will be considered. If any members of the city council are unable to vote on such a question because of a conflict of interest, then the required number of votes for passage of the question shall be three-fourths of the remaining members of the city council; provided, that such required number of votes shall in no event be less than a majority of the full membership of the city council.
- C. *Action.* After the conclusion of any necessary hearing, the city council may approve, modify or disapprove the proposed zoning map or code amendment. The city council may condition its approval of any zoning map amendment. Such conditions may include, but are not limited to: conditions to assure implementation of the submitted plan in accordance with the general plan, and other applicable policies and plans adopted by the city; conditions to achieve the purpose and intent of the requested zoning district; conditions to achieve reasonable compatibility with the proposed use and adjacent land uses; and additional or different approval processes as may be required by this code.
- D. *Findings.* Prior to approval of the proposed amendments, the city council shall make the following findings:
1. The amendment(s) is consistent with the general plan;
 2. Any change in district boundaries is necessary to achieve the balance of land uses desired by the city, consistent with the general plan, and to increase the inventory of land within a given zoning district; and
 3. The amendment will promote the growth of the city in an orderly manner and protect the public health, safety, peace, comfort and general welfare.
- E. *Public Notification.* Following the council action, the city shall make the documents amending the zoning code and map, including the diagrams and text, available for public inspection.

F. *Emergency Zoning Changes Prohibited.* A decision made by the council involving rezoning of land which changes the zoning classification of such land may not be enacted as an emergency measure and such a change shall not be effective for at least 30 days after final approval of the change in classification by the council. [Ord. 22-18 § 2; Res. 22-37; Ord. 14-12 § 1; Res. 14-36 § 509.05.]

Chapter 18.180

PLANNED AREA DEVELOPMENT PROCEDURE

Sections:

- [18.180.010 Purpose.](#)**
- [18.180.020 Applicability.](#)**
- [18.180.030 PAD procedures.](#)**
- [18.180.040 Required findings.](#)**
- [18.180.050 Conditions.](#)**
- [18.180.060 Amendments of approved plans.](#)**
- [18.180.070 Planned Area Development plan review.](#)**
- [18.180.080 Failure to comply with conditions.](#)**

Prior legislation: Ord. 20-11 §2(207.08); Res. 20-31.

18.180.010 Purpose.

In accordance with Chapter [18.60](#) MCC, the Planned Area Development (PAD) District is intended to work in support with MCC Title [17](#), Subdivisions. Where PAD zoning is deemed appropriate or necessary, unique zoning regulations are created for the PAD to fulfill the objectives of the general plan. Individual PAD Districts may be tailored to meet the specific development representations of an application. Hence, one PAD District may vary considerably from another PAD District. This chapter provides procedures for establishing PAD District sites in the city consistent with the general plan. [Ord. 20-11 §2(510.01); Res. 20-31.]

18.180.020 Applicability.

PAD districts may be applied to undeveloped or underdeveloped land in the city, including land proposed for redevelopment, and shall be processed as a zoning map amendment under the provisions of Chapter [18.175](#) MCC. The procedures in this chapter shall apply to all proposals to establish a new PAD district and to all proposals to amend specific provisions of preexisting PAD overlays approved under the prior code, in which case the procedures in this chapter shall apply to the specific provisions being modified. Properties covered by a recorded

development agreement shall not require compliance with provisions of this zoning code, if the provisions are superseded by the development agreement. [Ord. 20-11 §2(510.02); Res. 20-31.]

18.180.030 PAD procedures.

- A. *Applications.* Applicants for a PAD development shall be required to submit, for city approval, a preliminary development plan.
- B. *Rezoning.* Any rezoning necessary for the development of a PAD shall be processed prior to or in conjunction with an application for a preliminary plat.
- C. *Decision-Making Body.* A PAD district must be adopted by the city council in accordance with the public notice and review procedures of MCC [18.175.030](#). A public hearing before the planning and zoning commission and city council is required, and the planning and zoning commission shall make a recommendation to the city council prior to city council consideration.
- D. *Procedure.* See Chapter [18.140](#) MCC for notification and hearing procedure.
- E. *Review Procedures.*
 - 1. *Rezoning.* An application for rezoning to a PAD district shall be processed as an amendment to the zoning map and shall include a PAD plan.
 - 2. *PAD Plan.* The PAD plan shall be accepted and processed as a part of and in the same manner as an amendment to the zoning map, although additional information is required to be submitted in order to determine that the intent of this title, MCC Title [17](#), Subdivisions, and the general plan will be fulfilled. A PAD plan is defined as the documents accompanying a PAD rezoning application and may include, but not be limited to: a land use plan, a phasing plan, an open space and landscaping plan, engineering documentation and reports, a narrative explaining the proposal and expressing the design and character of the proposed development, development standards and uses, and any other documentation and imagery intended to support the proposed development being requested as identified in MCC [18.180.030\(D\)](#). Once approved, the conditions of approval become a part of the PAD plan, unless otherwise specified.
 - 3. *Preliminary Subdivision Plat.* A PAD may be submitted, processed, and reviewed prior to or concurrently with the submission of a preliminary subdivision plat application pursuant to MCC Title [17](#), but no permits may be issued unless or until the PAD has been approved and a final plat has been approved and recorded with the Pinal County Recorder's Office.
- F. *Initiation.* An amendment to reclassify property to a PAD district shall be initiated by a property owner or authorized agent or a motion of the planning and zoning commission or the city council. If the property is not under a single ownership, all owners must join the application, and a map showing the extent of ownership shall be submitted with the application.

G. *Application Content.* An application for a PAD, made on the prescribed form, shall be filed with the development services department, accompanied by the required fee. Applications shall contain all of the following:

1. *Legal Description.* A legal description of the site and a statement of the gross number of acres, or square feet if less than one acre, contained therein.
2. *Title Report.* A title report not more than 60 days old verifying the description and the ownership of the property.
3. *Project Narrative.* A generalized narrative describing the location of the site, its total acreage, and the existing character and use of the site and adjoining properties; the concept of the proposed development, including proposed uses and activities, proposed residential densities if appropriate, and the general conformance of the proposed PAD to the general plan.
4. *Development Schedule.* A development schedule, including anticipated timing for commencement and completion of each phase of development, tabulation of the total number of acres in each separate phase and percentage of such acreage to be devoted to particular uses, and an indication of the proposed number and type of dwelling units and open space by phase of development, if applicable.
5. *Maps and Diagrams.* Maps, diagrams, and other graphics necessary to establish the physical scale and character of the development and demonstrate the relationship among its constituent land uses, buildings and structures, public facilities, and open space. These graphics shall at a minimum indicate:
 - a. A map showing the perimeter boundaries of the project site, the ownership, the location and dimensions of any existing property lines and easements within the site, and all uses and structures within a 600-foot radius of the project area boundaries;
 - b. Demonstration that development is in conformity with the Maricopa Parks, Trails and Open Space Master Plan, the city's most current adopted transportation plans, and the general plan, including but not limited to circulation of proposed movement of vehicles, goods, and pedestrians within the district and to and from adjacent areas, streets and driveways, sidewalks and pedestrian ways, transit stops, and off-street parking and loading areas;
 - c. A site plan indicating existing and proposed uses, location and dimension of buildings and structures, gross floor area of existing and proposed structures, identification of structures to be demolished or removed;
 - d. A detailed tabulation of the proposed number of lots, the lot dimensions, maximum building coverage including height(s), minimum setbacks, landscaped areas, and parking spaces provided and required;
 - e. A master outdoor lighting plan for all areas of the proposed development, including but not limited to pedestrian travel areas; and

- f. A master signage plan, including the size and location of all proposed signs and deviations from the sign code if applicable.
- 6. *Open Space and Landscaping Plan.* An existing and proposed open space and landscaping plan including landscape concept and type of plant materials, recreation area, parking, service and other public areas used in common on the property and a description of intended improvements to and responsible party of the open space area maintenance, such as the HOA or city (if expressly agreed to by city).
- 7. *Other Information.* All provisions required by Chapter [18.60](#) MCC and any other information deemed necessary by the zoning administrator to ascertain if the project meets the required findings for a PAD plan.
[Ord. 24-01 § 2; Ord. 20-11 §2(510.03); Res. 20-31.]

18.180.040 Required findings.

A PAD plan and the rezoning of a PAD District shall only be approved if all of the following findings are made:

- A. The proposed development is consistent with the general plan, MCC Title [17](#), Subdivisions, and any applicable specific plan or master plan, including the density and intensity limitations that apply;
- B. The subject site is physically suitable for the type and intensity of the land use being proposed;
- C. Adequate transportation facilities and public services exist or will be provided in accordance with the conditions of PAD plan approval, to serve the proposed development and the approval of the proposed development will not result in a reduction of traffic levels of service or public services so as to be a detriment to public health, safety, or welfare;
- D. The proposed development will not have a substantial adverse effect on surrounding land uses and will be compatible with the existing and planned land use character of the surrounding area;
- E. The development complies with applicable adopted design guidelines; and
- F. The proposed development carries out the intent of the Planned Area Development provisions by providing a more efficient use of the land and an excellence of architecture and site design greater than that which could be achieved through the application of the base district regulations.
- G. Residential densities shall be determined on the basis of the following:
 - 1. The densities of the surrounding development;
 - 2. The urban development goals and other policies of the general plan;
 - 3. The topography and character of the natural environment;
 - 4. The impact of a given density on the specific site and adjacent properties.

H. *Minimum Lot Area.* Single-family residential developments may propose lotting arrangements with a portion of the site in parcels with less than a 5,000 square feet lot area when achieving a minimum of six points from the PAD Design Element Table.

I. *Modify Development Land Use Regulations.*

1. *Criteria for Modifications to Default Standards.* At a minimum, the following criteria when evaluating all requests for modifications to this title standards and/or general development standards:

- a. The modification is consistent with the application of design requirements designated in the PAD;
- b. The modification will result in a project design that meets or exceeds the design goals and guidelines as expressed by the PAD; and
- c. The modification results in a building of superior architectural design, as determined by building form and massing, use of materials and colors, and relationship of the building to the building site;
- d. The modification is in accordance with the city of Maricopa adopted building code and adopted Design Standards Manual, as may be applicable.

2. *Applicable Zoning Code.* Development standards not established within the PAD plan shall refer to the applicable zoning code. [Ord. 20-11 §2(510.04); Res. 20-31.]

18.180.050 Conditions.

In approving a PAD plan, the city council may impose reasonable conditions deemed necessary to:

- A. Ensure that the proposal conforms in all significant respects with the general plan and with any other applicable plans or policies that the city has adopted;
- B. Achieve the general purposes of this title;
- C. Achieve the findings listed in MCC [18.180.040](#);
- D. Mitigate any potentially significant impacts identified as a result of review of the proposed PAD plan; or
- E. Any other conditions that are found to be necessary to ensure that the provisions of the general plan and this title are met.

The city council may require reasonable guarantees and evidence that such conditions are being, or will be, complied with. [Ord. 20-11 §2(510.05); Res. 20-31.]

18.180.060 Amendments of approved plans.

- A. *Changed Plans.* Amendments to a PAD District or PAD plan may be requested by the applicant or its successors. Amendments to an approved PAD plan shall be classified as major or minor amendments. Upon receipt of an amendment application, the zoning administrator shall determine if the proposed amendment constitutes a major or minor amendment.
- B. *Major Amendments.* Any major amendment to the PAD shall be reviewed by the zoning administrator to determine if the proposed changes will be processed as a new application, or an amendment to the existing plan requiring modifications to only portions of the PAD plan. An amendment will be deemed major if it involves one or more of the following changes:
1. A change in the exterior boundary of the PAD District that is 10 percent or more of the existing PAD boundary;
 2. An increase in the number of dwelling units for the PAD District that is more than 10 percent greater than the maximum stated in the PAD plan;
 3. A 10 percent increase in trip generation per a traffic impact analysis (TIA) report;
 4. Any change in parks, public recreation areas, or school sites that is likely to negatively impact or burden the city's ability to provide parks and recreational facilities or the school district's ability to serve the future school-age population;
 5. Any change in phasing or timing that would have a significant impact on the completion of infrastructure improvements, parks, public recreation areas or school districts;
 6. Any change in land use or density that is likely to have a negative impact or create a burden on public facilities and utilities infrastructure;
 7. Any change resulting in a 20 percent or more increase in the allowable height of buildings, or increase to the number of stories allowed;
 8. Any change in land use or density that is likely to negatively impact or burden circulation adjacent to the PAD District or the overall major street system, as determined by the city engineer; or
 9. Any other proposed change to the PAD plan or the conditions of approval that substantively alters one or more of its components with potentially significant adverse consequences, as determined by the zoning administrator.
- C. *Minor Amendments.* Amendments not meeting one or more of the criteria listed in subsection (B) of this section shall be considered minor if they are consistent with the original findings and conditions of approval. Minor amendments may be approved by the zoning administrator. The zoning administrator may, at his/her discretion, refer any request for an amendment to a PAD plan that may generate substantial public interest to the planning and zoning commission for a decision. Amendments to an approved PAD are considered minor and may be approved by the zoning administrator. Minor PAD amendments include, but are not limited to:

1. Changes in phasing, including the size and number of housing units in individual development units provided there is not a significant change in the overall development program that results in an increase in the number of units and/or nonresidential floor area.
2. Any change resulting in less than a 20 percent increase in the allowable height of buildings.
3. Changes in the location and size of a school site provided the appropriate school district approves such a change in location and acreage.
4. Changes in the location and size of individual park sites provided the total park acres is not reduced and city standards for park service areas continue to be met with such changes.
5. Changes in the location or alignment of proposed roadways and other plan modifications to comply with adopted city policies. Should the proposed changes potentially impact surrounding uses, the zoning administrator shall determine if the request is processed as a major or minor amendment. [Ord. 20-11 §2(510.06); Res. 20-31.]

18.180.070 Planned Area Development plan review.

Development plans for a PAD shall be accepted for planning and building permits or subdivisions only if they are consistent with an approved PAD plan and any conditions of approval. No project may be approved, and no building permit issued unless the project, alteration or use is consistent with an approved PAD. [Ord. 20-11 §2(510.07); Res. 20-31.]

18.180.080 Failure to comply with conditions.

Failure to comply with any PAD permit condition or development schedule is a violation of this chapter and subject to Chapter [18.190](#) MCC, Enforcement. The planning and zoning commission or city council may suspend the applicant's permit until such time as the applicant conforms to the conditions thereof. [Ord. 20-11 §4(510.08); Res. 20-31.]

Chapter 18.185 ANNEXATION PROCEDURE

Sections:

- [**18.185.010 Specific purpose.**](#)
- [**18.185.020 Initiation of annexations.**](#)
- [**18.185.030 Procedures.**](#)
- [**18.185.040 Existing uses and structures.**](#)

18.185.010 Specific purpose.

This chapter establishes uniform procedures for annexation and zoning of property not within the city limits. [Ord. 14-12 § 1; Res. 14-36 § 511.01.]

18.185.020 Initiation of annexations.

Applications for requests for annexation shall be submitted to the development services department on a form provided and shall be accompanied by the required fee. The city council also may initiate a request for annexation of unincorporated areas not within the city. [Ord. 14-12 § 1; Res. 14-36 § 511.02.]

18.185.030 Procedures.

A. *Process.*

1. The applicant shall submit the request to the development services department.
2. The zoning administrator shall review each request for annexation and, upon determining that it complies with state statutes and city regulations, forward such request to the city council.
3. If the city council accepts the request for annexation, official annexation petitions shall be prepared by staff to be circulated by the requesting property owners.
4. When all provisions of state annexation laws have been complied with, the city council shall hold the required public hearings to consider the annexation request.

B. *Zoning of Annexed Properties.* Zoning of annexed properties shall occur in a manner consistent with A.R.S. §§ [9-471\(L\)](#) and [9-462.04\(E\)](#), or as otherwise required by statute as amended from time to time.

C. *Construction and Building Permits.*

1. Pinal County building or use permits validly issued pursuant to Pinal County requirements not more than 60 days prior to the effective date of annexation shall be accepted by the city as valid permits for a period of 60 days after the effective date of annexation. If construction has not commenced on or before the sixtieth day after the effective date of annexation, a city building or use permit shall be required.
2. For buildings under construction with a valid building or use permit issued by Pinal County prior to the effective date of an annexation code, a city building permit shall not be required, but the building inspector shall require that buildings constructed under such Pinal County building or use permit shall be structurally safe and shall conform to pertinent Pinal County zoning regulations in effect at the time the county permit was issued. [Ord. 14-12 § 1; Res. 14-36 § 511.03.]

18.185.040 Existing uses and structures.

- A. Any use or activity conducted contrary to Pinal County zoning regulations at the effective date of annexation and not constituting a legal nonconforming use under the Pinal County zoning regulations shall not be considered a legal nonconforming use by the city.
- B. Any use, activity or structure that is existing at the effective date of annexation, under a Pinal County use permit with a time limit imposed, may continue for the extent of the time limit. Any extension of this time limit requires zoning administrator approval. If a use permit would normally be required for the use in the zoning district where the use is located, the operator or owner shall request a use permit from the city within two years from the date of annexation. The type of permit required shall be determined according to the regulations for the city zoning district where the use is located.
- C. Any lot or parcel of land legally subdivided and duly recorded in the Pinal County recorder's office prior to the effective date of the annexation and having an area, width, depth, or street frontage less than that required in the zoning district regulations in which such lot or parcel is situated shall be deemed to be a lot and may be used as a building site; provided, that all other regulations for the zoning district shall apply.
- D. Building setbacks established by Pinal County overlay zoning or a use permit for residential developments, including residential manufactured home parks and subdivisions, shall be enforced. Residential developments without county overlay zoning or a special use permit shall be subject to the setbacks as specified in this code.
[Ord. 14-12 § 1; Res. 14-36 § 511.04.]

Chapter 18.190 ENFORCEMENT

Sections:

- [18.190.010 Specific purpose.](#)**
- [18.190.020 Enforcement responsibilities.](#)**
- [18.190.030 Nuisance defined.](#)**
- [18.190.040 Nuisance abatement.](#)**
- [18.190.050 Recording a notice and order.](#)**
- [18.190.060 Penalties.](#)**

18.190.010 Specific purpose.

This chapter establishes the responsibilities of various departments, officials and public employees of the city to enforce the requirements of this chapter and sets forth the procedures the city will use to identify, abate, remove, and enjoin those uses, structures, or buildings that are deemed to be in violation of this code. Nothing in this

chapter shall remove the enforcement powers and duties of any other agency as outlined in the city code. [Ord. 14-12 § 1; Res. 14-36 § 512.01.]

18.190.020 Enforcement responsibilities.

All departments, officials, and public employees of the city, vested with the duty or authority to issue permits or licenses, shall conform to the provisions of this chapter, and shall issue no permit or license for uses, buildings, or purposes in conflict with the provisions of this chapter; and any such permit or license issued in conflict with the provisions of this chapter shall be null and void. All officers not specified in this section shall enforce the provisions of this code related to their areas of responsibilities, when necessary. The following officials, departments, and employees have specific responsibilities as follows:

- A. *Zoning Administrator.* The zoning administrator or its designee shall enforce all provisions of this chapter related to issuance of discretionary permits and shall have responsibility for ordering the correction of violations and initiating the revocation of discretionary permits pursuant to MCC [18.140.130](#), Revocation of Permits and Approvals, and the abatement of nuisances as defined in this chapter.
 - B. *Building Official.* Prior to issuance of building permits, the building official shall ascertain that plans presented with the building permit application conform to those approved subject to the requirements of this chapter.
 - C. *Code Enforcement Officer.* The code enforcement officer shall enforce all provisions of this chapter pertaining to the use, erection, construction, reconstruction, relocation, conversion, alteration, or addition to any building or structure and condition of approval of use permits, variances, nuisance abatements, or other discretionary approvals. The code enforcement officer is hereby authorized to cause to be stopped any work or use undertaken without or contrary to approval granted pursuant to this chapter or in violation of any of its other provisions.
 - D. *City Attorney.* The city attorney may, at its discretion or upon order of the city council or city manager, immediately commence action or proceedings for the abatement and removal and enjoinderment of violations in the manner provided by law, and may take such other steps and may apply to such courts as may have jurisdiction to grant such relief as will abate and remove such use, or building or structure, and may seek to restrain and enjoin any person, firm or corporation from such use of any property, building or structure, or from setting up, erecting, building, maintaining or demolishing any such building or structure contrary to the provisions of this chapter.
- [Ord. 14-12 § 1; Res. 14-36 § 512.02.]

18.190.030 Nuisance defined.

- A. *Structure or Use.* Any building or structure erected, constructed, altered, enlarged, converted, moved or maintained contrary to the provisions of this code, and any use of any land, buildings or premises established, conducted, operated or maintained contrary to the provisions of this code, shall be, and the same hereby declared to be, unlawful and a public nuisance.

B. *Violation of Permit.* Any use established through the issuance of a discretionary permit (i.e., conditional use permit, variance, preliminary parcel map, preliminary tract map, etc.) which is not constructed, operated and/or maintained in compliance with the provisions of this code and the conditions of approval of said permit shall be, and the same hereby declared to be, unlawful and a public nuisance.

C. *Other Nuisances.* Any use, event, structure or building, whether nonconforming or otherwise, that meets any of the following criteria shall be deemed a public nuisance subject to abatement as set forth herein: excessive littering; excessive noise (particularly between the hours of 11:00 p.m. and 6:00 a.m.); noxious smells or fumes; or violation of any provision of this chapter or any other city, state, or federal regulation, code, or statute. [Ord. 14-12 § 1; Res. 14-36 § 512.03.]

18.190.040 Nuisance abatement.

A. *Notice and Order and Opportunity to Cure.* Following identification of any uses, structures, or buildings that are deemed to be in violation of this code, or any nuisance as defined in this chapter, the code enforcement officer shall issue a notice of order to the property owner and occupant of the subject property. The notice shall specify the exact violation or nuisance that has been identified, a date by which the nuisance must be corrected, provisions regarding reinspection and any fees that may apply, and the name and contact information of the code enforcement officer or designee. Prior to initiation of nuisance abatement, the property owner shall have the opportunity to cure the violation within the specified time period. The code enforcement officer may authorize additional inspections if there is substantial progress in curing the violation, and all inspection fees are paid as required by the adopted city fee schedule.

B. *Initiation of Nuisance Abatement.* Proceedings under this section to terminate, modify, or condition any use, structure or building may be initiated by direction of the hearing officer on its own accord or following recommendation by the zoning administrator. In either case, the direction shall identify the use, building, or structure being considered, identify the property involved, set forth the reason or reasons for the proposed abatement, and fix a time and place for a public hearing on the proposed abatement. Initiation of abatement proceedings may be adopted without a public hearing.

C. *Notice of Public Hearing.* Upon initiation of abatement proceedings, the city clerk shall give notice to the violator of his right to a public hearing before the hearing officer pursuant to the provisions in Chapter [18.140](#) MCC, Common Procedures. In addition, within the prescribed time period, the city clerk shall also mail the notice of the right to hearing to the person or persons whose use, structure or building is the subject of the abatement proceedings, any person who requested initiation of abatement proceedings, and to any other person who has filed a written request with the development services department for such notice.

D. *Public Hearing.* The hearing officer shall conduct a public hearing in the manner prescribed in Chapter [18.140](#) MCC, Common Procedures and shall provide for testimony by city staff and the owner of the use, structure, or property that is the subject of the proceeding. Any other interested person shall also be given an opportunity to provide testimony.

E. *Action.* The hearing officer shall consider the staff report and the evidence, testimony, and facts presented at the hearing before taking action. If the hearing officer finds that the use, building, or structure constitutes a nuisance, it may impose any remedy as provided for in this chapter.

F. *Decision and Notice.* The decision of the hearing officer shall be final. The city clerk shall issue a notice of action describing the hearing officer's action, with its findings. The city clerk shall mail the notice to the permit holder and to any person who has requested such notification by filing a written request with the city clerk.

G. *Effective Date.* A decision to abate a nuisance shall become effective immediately after the date of decision.

H. *Recovery of Costs.* The recovery of costs associated with the revocation proceedings shall be subject to the provisions of MCC Title [9](#). [Ord. 14-12 § 1; Res. 14-36 § 512.04.]

18.190.050 Recording a notice and order.

A. If compliance is not accomplished with an order of the code enforcement officer or their designee, to correct violations of this code within the time specified in the notice and order, the director may file with the county recorder a certified statement describing the property and certifying that:

1. The property and/or structure is in violation of this chapter; and
2. The owner has been so notified.

B. The notice shall specifically describe the violations and a proof of service shall also be recorded with the notice and order.

C. Whenever the corrections ordered shall thereafter have been completed, the code enforcement officer shall file a new certified statement with the county recorder certifying that all required corrections have been made so that the property and/or structure is no longer in violation of this code. [Ord. 14-12 § 1; Res. 14-36 § 512.05.]

18.190.060 Penalties.

Any person, firm or corporation, whether as principal, owner, agent, tenant, employee or otherwise, who violates any provisions of this code shall be subject to an administrative, civil, or criminal penalty. Each day of a continuing violation is a separate violation for the purpose of imposing a separate penalty. The administrative, civil, or criminal penalty for violations of this code is established herein.

A. *Criminal Actions.*

1. Notwithstanding any other provision of this code, each person violating, causing, or allowing a violation of any provision of this zoning code or any permit or condition of approval granted pursuant thereto, shall be guilty of an infraction, unless the violation is specifically declared to be a misdemeanor.

2. Every violation of any provision of this code, or of any permit issued pursuant to this code (including any of the conditions of approval for such permit) that is prosecuted as an infraction shall be punished, upon conviction or upon a plea of nolo contendere (commonly called no contest), by:
 - a. A base fine not exceeding one hundred dollars (\$100.00) for a first violation;
 - b. A base fine not exceeding two hundred dollars (\$200.00) for a second violation of the same code section or permit (or any of the conditions of approval) occurring on the same property and committed by the same person within one year; and
 - c. A base fine not exceeding five hundred dollars (\$500.00) for each additional violation of the same code section or permit (or any of the conditions of approval) occurring on the same property and committed by the same person within one year.
 3. Any court costs that the court may otherwise be required to impose pursuant to applicable state law or local ordinance shall be imposed in addition to the base fine. Notwithstanding the above, a first or subsequent violation of this code may be charged and prosecuted as a misdemeanor.
 4. A misdemeanor shall be punished, upon conviction or upon a plea of nolo contendere (commonly called no contest), by a base fine of not less than five hundred dollars (\$500.00) and not more than one thousand dollars (\$1,000.00), or by imprisonment in the county jail for a period of not more than six months, or by both base fine and imprisonment. Any court costs that the court may otherwise be required to impose pursuant to applicable state law or local ordinance shall be imposed in addition to the base fine.
 5. The conviction and punishment of any person of an offense as described in this section or the payment of a criminal fine by or on behalf of the person convicted, shall not relieve that person from the responsibility for correcting, removing, or abating the violation that resulted in the conviction; nor prevent the enforced correction, removal or abatement thereof by the city. The correction, removal, or abatement of a violation begun after the issuance of a criminal citation or the filing of a criminal complaint shall not be a defense to the infraction or misdemeanor so charged and, following a conviction or plea of nolo contendere, shall not be grounds for the dismissal of the action or the waiver, stay, or reduction of any fine established in this section.
- B. *Civil Actions.* An alleged violator who is served with a citation or notice of violation subject to a civil penalty shall not be subject to a criminal prosecution for the same factual situation. However, all other remedies provided for herein shall be cumulative and not exclusive. The conviction and punishment of any person hereunder shall not relieve such person from the responsibility to correct prohibited conditions or to remove prohibited buildings, structures, or improvements nor prevent the enforcement, correction or removal thereof. In addition to the other remedies provided in this chapter, the city council, the city attorney, or any adjacent or neighboring property owner who shall be especially damaged by the violation of any provision of this code, may institute, in addition to the other remedies provided by law, injunction, mandamus, abatement or any other appropriate action, proceeding or proceedings to prevent or abate or remove such unlawful erection, construction, reconstruction, alteration, maintenance or use.
- C. *Injunctive Relief and Abatement.* At the request of any person authorized to enforce this code, the city attorney may commence proceedings for the abatement, removal, correction and enjoinderment of any act or omission that

constitutes or will constitute a violation of this code or any permit or land use approval granted pursuant thereto, and an order requiring the violator(s) to pay civil penalties and/or abatement costs. Where multiple violators are involved, they shall be jointly and severally liable for the civil penalties and/or abatement costs.

D. *Civil Remedies and Penalties.* Any person, whether acting as principal, agent, employee, owner, lessor, lessee, tenant, occupant, operator, contractor, or otherwise, who violates any provision of this code or any permit or any condition of land use approval granted pursuant thereto, shall be liable for a civil penalty not to exceed one thousand dollars (\$1,000.00) per violation for each day or any portion thereof, that the violation continues to exist. In determining the amount of civil penalty to be imposed, both as to the daily rate and the subsequent total amount for any given violation, the court shall consider all relevant circumstances, including but not limited to the extent of the harm caused by the conduct constituting the violation, the nature and persistence of such conduct, the length of time over which the conduct occurred or as repeated, the assets, liabilities, and net worth of the violator, whether a corporate entity or an individual, and any corrective action taken by the violator.

E. *Attorney's Fees.* In any civil action, administrative proceeding, or special proceeding to abate a public nuisance, whether by seeking injunctive relief and/or an abatement order, or other order; attorney's fees may be recovered by the prevailing party and shall not exceed the amount of reasonable attorney's fees incurred by the city in that action or proceeding.

F. *Administrative Actions.* As an alternative to the criminal or civil enforcement of this code, i.e., this title, and, further, as an alternative to all other administrative enforcement procedures provided by this code, all violations of this code may be subject to enforcement through the use of administrative citations. [Ord. 14-12 § 1; Res. 14-36 § 512.06.]

Division 6. General Terms

Chapter 18.200 USE CLASSIFICATIONS

Sections:

- [**18.200.010 Rural and agricultural use classifications.**](#)
- [**18.200.020 Residential use classifications.**](#)
- [**18.200.030 Public and semi-public use classifications.**](#)
- [**18.200.040 Commercial use classifications.**](#)
- [**18.200.050 Industrial use classifications.**](#)
- [**18.200.060 Transportation, communication, and utilities use classifications.**](#)

18.200.010 Rural and agricultural use classifications.

Animal and Crop Production. The keeping, grazing, feeding, or breeding of animals by the property owner or occupant for commercial gain and/or the growing and harvesting of agricultural products to provide food, fiber, or horticultural vegetation for ornamental purposes, or any combination of these uses. Typical uses include dairy and poultry farms, the growing of field crops, and fruit and nut orchards. This use does not include nurseries, greenhouses, processing, or retail sales of agricultural products from the site. It does not include medical marijuana collectives, home gardens, or community gardens.

Large Scale. Commercial agricultural production that is a minimum of 10 contiguous commercial acres which is being used for the production of farm, garden, or orchard crops, or the grazing or raising of farm animals, including feeding pens that are incidental and subordinate to a grazing operation.

Small Scale. Commercial agricultural production that is more than one but not more than 10 contiguous commercial acres which is being used primarily for the production of farm, garden, or orchard crops, and may include the grazing or raising of farm animals.

Urban Agriculture. A use that occupies one acre or more for the production of food or horticultural crops to be harvested, sold, or donated. It includes home, kitchen, and roof gardens, and private farms. It does not include community gardens. Limited sales and donation of fresh food and/or horticultural products grown on site may occur, whether vacant or improved, but such sales may not occur within a dwelling unit. Food and/or horticultural products grown that are used for personal consumption are not regulated.

Animal and Crop Sales. The term "general agriculture" includes such uses as the necessary treatment, packing or storage of farm products produced on premises, the sale of any farm crops or livestock raised on premises, and any signs, structures, or fences utilized for agricultural functions.

General Agricultural. Land which is being used for the production of farm, garden, or orchard crops, or the grazing or raising of farm animals, including feeding pens that are incidental and subordinate to a grazing operation. Examples of commodities produced include vegetables, fruit trees, grapes, cotton, grain, poultry, horses, cattle, sheep and swine. It includes dairy operations, including areas designated for raising heifers and bulls. It does not include signs advertising off-premises facilities, junkyards, other retail sales, manufacturing, any nonagricultural services, stockyards, slaughterhouses/meat packing plants, commercial pen feeding, production wineries, bone yards, plants for the reduction of animal matter, poultry feeding operations, or agricultural processing plants.

Farmers and Animal Produce Stand. A stand located on an active farm that sells processed agricultural products, such as jams, preserves, pickles, juices, cured olives, and other value-added products made with ingredients produced on or near the farm, in addition to fresh produce, eggs, and other goods produced on the farm. These stands should be accessory to on-site agricultural operations. The intent is to encourage the sale of locally grown fresh produce, not the establishment of traditional retail stores or convenience markets in agricultural zones.

[Ord. 18-05 § 1; Res. 18-20; Ord. 14-12 § 1; Res. 14-36 Art. 601.]

18.200.020 Residential use classifications.

Residential Housing Types.

Single-Unit Dwelling, Detached. A dwelling unit that is designed for occupancy by a single household, located on a separate lot from any other dwelling unit (except a second dwelling unit where permitted), and not attached to another dwelling unit on an abutting lot. This classification includes individual manufactured housing units.

Single-Unit Dwelling, Attached. A dwelling unit that is designed for occupancy by a single household located on a separate lot from any other unit (except a second dwelling unit, where permitted), and is attached through common vertical walls to one or more dwellings on abutting lots. An attached single-unit dwelling is sometimes called a "townhouse."

Guest Quarters. A dwelling unit providing complete independent living facilities for one or more persons that is located on a lot with another primary, single-unit dwelling. A second unit may be within the same structure as the primary unit, in an attached structure, or in a separate structure on the same lot. This use is accessory to a single-family home and distinguished from a duplex. Guest quarters shall not be leased, rented, or sublet from the primary residence on the same lot.

Duplex. A single building on a separate lot that contains two dwelling units or two single-unit dwellings on a single lot. This use is distinguished from a second dwelling unit, which is an accessory residential unit.

Multiple Unit Dwelling. Three or more dwelling units within a single building or within two or more buildings on a site or lot. Types of multiple unit dwellings include garden apartments, senior housing developments, and multi-story apartment buildings. This classification also includes supportive and transitional housing in a multiple unit format. The classification is distinguished from group and residential care homes.

Senior and Long-Term Care. Establishments that provide 24-hour medical, convalescent or chronic care to individuals who, by reason of advanced age, chronic illness or infirmity, are unable to care for themselves, and are licensed under A.R.S. Title [36](#), Chapter [4](#), et seq., including but not limited to rest homes, nursing homes, and convalescent hospitals, but not group and residential care homes, hospitals, or clinics.

Family Day Care. A day care facility licensed by the state of Arizona, that is located in a single-unit residence or other dwelling unit where a resident of the dwelling provides care and supervision for children under the age of 14 or under 18 years if the child has a developmental disability, for periods of less than 24 hours a day.

Small. A facility that provides care for five or fewer children, including children who reside at the home.

Large. A facility that provides care for more than five children, including children who reside at the home.

Mobile Home Parks/Recreation Vehicle Parks. A development designed and occupied by manufactured homes, including development with facilities and amenities used in common by occupants who rent, lease, or own spaces for mobile homes through a subdivision, cooperative, condominium or other form of resident ownership.

"Group home" means a residential dwelling unit shared as a primary residence by minors, disabled, handicapped or elderly persons, living together as a single housekeeping unit, in a long term, family-like environment in which staff persons provide on-site care, training, or support for the residents.

Supportive Housing. Dwelling units with no limit on length of stay that are occupied by the target population as defined in A.R.S. Title [36](#), and that are linked to on-site or off-site services that assist supportive housing residents in retaining the housing, improving their health status, and maximizing their ability to live and, where possible, work in the community. Supportive housing may be provided in a multiple unit structure. Facilities may operate as licensed or unlicensed facilities subject to applicable state requirements. This classification includes domestic violence shelters.

Transitional Housing. Dwelling units with a limited length of stay that are operated under a program requiring recirculation to another program recipient at some future point in time, including a supervised residential center for individuals who are completing a sentence and/or reside for a defined period of time for counseling, job placement assistance, and similar services that assist in transitioning from institutional to community living. Transitional housing may be designated for homeless or recently homeless individuals or families transitioning to permanent housing as defined in A.R.S. Title [36](#). Facilities may be linked to on-site or off-site supportive services designed to help residents gain skills needed to live independently. [Ord. 18-05 § 1; Res. 18-20; Ord. 14-12 § 1; Res. 14-36 Art. 601.]

18.200.030 Public and semi-public use classifications.

Cemetery. Establishments primarily engaged in operating sites or structures reserved for the interment of human or animal remains, including mausoleums, burial places, and memorial gardens.

Colleges and Trade Schools, Public or Private. Institutions of higher education providing curricula of a general, religious or professional nature, typically granting recognized degrees, including conference centers and academic retreats associated with such institutions. This classification includes junior colleges, business and computer schools, management training, technical and trade schools, but excludes personal instructional services such as music lessons.

Community Assembly. A facility for public or private meetings including community centers, banquet centers, religious assembly facilities, civic auditoriums, union halls, meeting halls for clubs and other membership organizations. This classification includes functionally related facilities for the use of members and attendees such as kitchens, multi-purpose rooms, and storage. It does not include gymnasiums or other sports facilities, convention centers, or facilities, such as day care centers and schools that are separately classified and regulated.

Cultural Facilities. Facilities engaged in activities to serve and promote aesthetic and educational interest in the community that are open to the public on a regular basis. This classification includes performing arts centers for theater, music, dance, and events; spaces for display or preservation of objects of interest in the arts or sciences; libraries; museums; historical sites; aquariums; art galleries; and zoos and botanical gardens. It does not include schools or institutions of higher education providing curricula of a general nature.

Day Care Facility. Establishments providing nonmedical care for persons on a less-than-24-hour basis other than family day care. This classification includes nursery schools, preschools, and day care facilities for children or adults, and any other day care facility licensed by the state of Arizona.

Educational Facilities, Public or Private. Facilities for primary or secondary education, including public schools, charter schools, and private and parochial schools having curricula comparable to that required in the public schools of the state of Arizona.

Emergency Shelter and Facilities. A temporary, short-term residence providing housing with minimal supportive services for homeless families or individual persons where occupancy is limited to six months or less. Medical assistance, counseling, and meals may be provided.

Government Buildings. A building, structure, site, or any portion thereof that is used by the city, state, or federal government.

Hospitals and Clinics. State-licensed facilities providing medical, surgical, psychiatric, or emergency medical services to sick or injured persons. This classification includes facilities for in-patient or out-patient treatment, including substance abuse programs, as well as training, research, and administrative services for patients and employees. This classification excludes veterinaries and animal hospitals.

Hospital. A facility providing medical, psychiatric, or surgical services for sick or injured persons primarily on an in-patient basis, and including ancillary facilities for out-patient and emergency treatment, diagnostic services, training, research, administration, and services to patients, employees, or visitors, and helipads for emergency use.

Clinic. A facility providing medical, psychiatric, or surgical service for sick or injured persons exclusively on an out-patient basis, including emergency treatment, diagnostic services, administration, and related services to patients who are not lodged overnight. Services may be available without a prior appointment. This classification includes licensed facilities offering substance-abuse treatment, blood banks, plasma, dialysis centers, and emergency medical services offered exclusively on an out-patient basis. This classification does not include private medical and dental offices that typically require appointments and are usually smaller scale (see offices, medical and dental).

Park and Recreation Facilities, Public. Parks, playgrounds, recreation facilities, trails, wildlife preserves, and related open spaces, which are open to the general public. This classification also includes playing fields, courts, gymnasiums, swimming pools, picnic facilities, tennis courts, golf courses, and botanical gardens, as well as related food concessions or community centers within the facilities and restrooms within a primary structure or in an accessory structure on the same site.

Public Safety Facilities. Facilities providing public safety and emergency services, including police and fire protection and emergency medical services, with incidental storage, training and maintenance facilities.

Religious Facility. A building, structure, site, or any portion thereof, designed and used for religious assembly or house of worship. This classification includes functionally related facilities for the use of members and attendees

such as kitchens, multi-purpose rooms, and storage. It does not include gymnasiums or other sports facilities, convention centers, or facilities, such as day care centers and schools that are separately classified and regulated.

Social Service Facility. Facilities providing a variety of supportive services for disabled and homeless individuals and other targeted groups on a less-than-24-hour basis. Examples of services provided are counseling, meal programs, personal storage lockers, showers, instructional programs, television rooms, and meeting spaces. This classification is distinguished from licensed day care centers (see Day Care Center), clinics (see Clinic), and emergency shelters providing 24-hour or overnight care (see Emergency Shelter). [Ord. 18-05 § 1; Res. 18-20; Ord. 14-12 § 1; Res. 14-36 Art. 601.]

18.200.040 Commercial use classifications.

Adult-Oriented Businesses. An establishment that, as a regular and substantial course of conduct, offers, sells or distributes adult-oriented merchandise, or that offers to its patrons materials, products, merchandise, services, entertainment or performances that have sexual arousal, sexual gratification, and/or sexual stimulation as their dominant theme, or are distinguished or characterized by an emphasis on the depiction, simulation, or acting out of specified sexual activities or specified anatomical areas and are not customarily open to the general public because they exclude minors by virtue of their age. This classification includes, but is not limited to, adult arcades, adult bookstore, adult cabarets, adult hotel/motel, adult motion picture theater, adult retail use establishment, and adult theater. It does not include any establishment offering professional services conducted, operated, or supervised by medical practitioners, physical therapists, nurses, chiropractors, psychologists, social workers, marriage and family counselors, osteopaths, and persons holding licenses or certificates under applicable state law or accreditation from recognized programs when performing functions pursuant to the respective license or certificate.

Animal Care, Sales and Services. Retail sales and services related to the boarding, grooming, and care of household pets, including:

Animal Sales and Grooming. Retail sales of animals and/or services, including grooming, for animals on a commercial basis. Typical uses include dog bathing and clipping salons, pet grooming shops, and pet stores and shops. This classification excludes dog walking and similar pet care services not carried out at a fixed location, and excludes pet supply stores that do not sell animals or provide on-site animal services.

Kennels. A commercial, nonprofit, or governmental facility for keeping, boarding, training, breeding or maintaining four or more dogs, cats, or other household pets not owned by the kennel owner or operator on a 24-hour basis. This classification includes animal shelters and pet shops and animal hospitals that provide boarding-only services for animals not receiving services on the site but excludes the provision by shops and hospitals of 24-hour accommodation of animals receiving medical or grooming services on site. This classification also includes kennels that, in addition to 24-hour accommodation, provide pet care for periods of less than 24 hours but it does not include facilities that provide pet day care exclusively or predominantly.

Riding Schools and Stables. A stable is a place where horses are kept in individual box stalls or in groups in large rooms. The interior of a stable usually consists of two rows of box stalls, tie stalls, and large rooms along

the outer walls and a central passage running lengthwise. A horse stable may also contain other facilities, such as a riding school, a feed room, a dressing room, a harness room, a staff area, watering place, and a room for animal care services. A riding school generally operates on the basis of hiring out horses or ponies on a pay-per-hour basis. Typically students go out together on a ride accompanied by a member of staff, and range from small establishments in converted farm buildings to much larger premises with purpose-built stables, indoor or outdoor schools and, sometimes, cross-country courses.

Small Animal Day Care Services. A commercial, nonprofit, or governmental facility for keeping four or more dogs, cats, or other household pets not owned by the kennel owner or operator primarily for periods of less than 24 hours.

Veterinary Services. Veterinary services for small and large animals including domestic and agricultural/farm animals. This classification allows 24-hour accommodation of animals receiving medical services but does not include kennels.

Automobile/Vehicle Sales and Services. Retail or wholesale businesses that sell, rent, and/or repair automobiles, boats, recreational vehicles, trucks, vans, trailers, and motorcycles, including the following:

Automobile Rental. Rental of automobiles. Typical uses include car rental agencies.

Automobile/Vehicle Service and Repair, Minor. The service and repair of automobiles, light-duty trucks, boats, and motorcycles, including the incidental sale, installation, and servicing of related equipment and parts. This classification includes the replacement of small automotive parts and liquids as an accessory use to a gasoline sales station or automotive accessories and supply store, as well as smog check, quick-service oil, tune-up and brake and muffler shops where repairs are made or service provided in enclosed bays and no vehicles are stored overnight. This classification excludes disassembly, removal or replacement of major components such as engines, drive trains, transmissions or axles, automotive body and fender work, vehicle painting or other operations that generate excessive noise, objectionable odors or hazardous materials, and towing services. It also excludes repair of heavy trucks, limousines or construction vehicles.

Automobile/Vehicle Repair, Major. Repair of automobiles, trucks, motorcycles, motor homes, boats and recreational vehicles, including the incidental sale, installation, and servicing of related equipment and parts. This classification includes auto repair shops, body and fender shops, transmission shops, wheel and brake shops, auto glass services, vehicle painting, tire sales and installation, and installation of car alarms, sound, telecommunications, and navigation systems, but excludes vehicle dismantling or salvaging and tire retreading or recapping.

Automobile/Vehicle Sales and Leasing. Sale or lease, retail or wholesale, of new or used automobiles, light trucks, motorcycles, motor homes, and trailers, together with associated minor repair services and parts sales for vehicles sold or leased by the dealership. (For auto repair as a primary use or repair of vehicles not sold on the premises, see Automobile/Vehicle Service and Repair, Minor.) This classification includes on-site facilities for maintaining an inventory of vehicles for sale or lease but excludes buildings and property on a separate site that are used for storing vehicles. Typical uses include automobile dealers and recreational vehicle sales agencies. This classification does not include automobile brokerage and other establishments

that solely provide services of arranging, negotiating, assisting, or effectuating the purchase of automobiles for others.

Automobile/Vehicle Washing and Services. Washing, waxing, or cleaning of automobiles or similar light vehicles, including self-serve washing facilities that are the principal use of a building, structure, or site.

Service Station. Establishments primarily engaged in retailing automotive fuels or retailing these fuels in combination with activities, such as providing minor automobile/vehicle repair services; selling automotive oils, replacement parts, and accessories; and/or providing incidental food and retail services.

Towing and Impound. Establishments primarily engaged in towing light or heavy motor vehicles, both local and long distance. These establishments may provide incidental services, such as vehicle storage and emergency road repair services (for automobile dismantling, see Salvage and Wrecking). This classification includes lots used for storage of impounded vehicles.

Banks and Credit Unions. Financial institutions providing retail banking or check-cashing services. This classification includes only those institutions engaged in the on-site circulation of money, including credit unions, but excluding check-cashing businesses. For administration, headquarters, or other offices of banks and credit unions without retail banking services/on-site circulation of money, see Offices, Business and Professional.

Noninstitutional Banking. Establishments that, for compensation, engage in the business of cashing checks, warrants, drafts, money orders, or other commercial paper serving the same purpose. This classification also includes the business of deferred deposits, whereby the check casher refrains from depositing a personal check written by a customer until a specific date pursuant to a written agreement. Noninstitutional banking does not include state or federally chartered banks, savings associations, credit unions, or industrial loan companies.

Building Materials Sales and Services. Establishments whose primary activity is the sale of equipment to individuals and business, and whose activities may include storage and delivery of items to customers. This classification includes lumberyards, tool and equipment sales or rental establishments, and includes establishments devoted principally to taxable retail sales to individuals for their own use but may include wholesale of building materials and goods. This definition does not include plant nurseries (see Nurseries and Garden Centers).

Business Services. Establishments providing goods and services to other businesses on a fee or contract basis, including printing and copying, blueprint services, mailbox services, equipment rental and leasing, office security, custodial services, film processing, model building, and taxi or delivery services with two or fewer fleet vehicles on site (for three or more fleet vehicles, see Light Fleet-Based Services).

Commercial Entertainment and Recreation. Provision of participant or spectator entertainment to the general public. This classification may include restaurants, snack bars, and other incidental food and beverage services to patrons.

Banquet and Conference Centers. Facilities designed and used for conventions, conferences, seminars, trade shows, product displays, and other events in which groups gather to promote and share common interests. Convention centers typically have at least one auditorium and may also contain concert halls, lecture halls,

meeting rooms, and conference rooms, as well as accessory uses such as facilities for food preparation and serving and administrative offices.

Large-Scale Facility. This classification includes large outdoor facilities such as amusement and theme parks, resorts, sports stadiums and arenas, racetracks, amphitheaters, multiplex movie theaters, drive-in theaters, and driving ranges. It also includes indoor and outdoor facilities with more than 5,000 square feet in building area such as fitness centers, gymnasiums, handball, racquetball, or large tennis club facilities; ice or roller skating rinks; swimming or wave pools; miniature golf courses; bowling alleys; and archery or indoor shooting ranges.

Small-Scale Facility. This classification includes small, generally indoor facilities that occupy less than 5,000 square feet of building area, such as health clubs and amusement arcades.

Theaters. Facilities designed and used for live entertainment which contain a permanent stage upon which movable scenery and theatrical appliances are used and where regular theatrical performances are given. Includes stand-alone movie theaters (cinemas) not located in a shopping center.

Golf Courses. An open-air golfing facility having not less than 30 acres and nine holes. It may include an accessory pro shop, clubhouse, restaurants and lounges.

Club or Lodge. Facilities serving food, meals and alcoholic beverages to members and their guests.

Commercial Kitchen. Kitchens used for the preparation of food to be delivered and consumed off site. Typical uses include catering facilities. This classification does not include businesses involved in the processing or manufacturing of food products (see Industry, Limited).

Eating and Drinking Establishments. Businesses primarily engaged in serving prepared food and/or beverages for consumption on or off the premises.

Bars and Lounges. Businesses serving beverages for consumption on the premises as a primary use and including on-sale service of alcohol, including beer, wine, and mixed drinks.

Restaurant, Full-Service. Restaurants providing food and beverage services to patrons who order and are served while seated and pay after eating. Takeout service may also be provided. This classification includes microbreweries and brew pubs which are primarily intended as eating and drinking facilities.

Restaurant, Limited-Service. Establishments where food and beverages may be consumed on the premises, taken out, or delivered, but where limited table service is provided. This classification includes cafes, cafeterias, coffee shops, delicatessens, fast-food restaurants, sandwich shops, limited-service pizza parlors, self-service restaurants, and snack bars with indoor or outdoor seating for customers. This classification includes bakeries that have tables for on-site consumption of products. It excludes catering services that do not sell food or beverages for on-site consumption (see Commercial Kitchen).

Restaurant, Take-Out Only. Restaurants where food and beverages are prepared on a customer-demand basis and may be taken out or delivered, but are not consumed on the premises. No seating or other facilities for on-premises dining are provided.

Food and Beverage Sales. Retail sales of food and beverages for off-site preparation and consumption. Typical uses include food markets, groceries, and liquor stores.

Convenience Market. Retail establishments that sell a limited line of groceries, prepackaged food items, tobacco, magazines, and other household goods, primarily for off-premises consumption. These establishments typically have long or late hours of operation and occupy a relatively small building. This classification includes small retail stores located on the same lot as or operated in conjunction with a service station.

General Market. Retail food markets of food and grocery items for off-site preparation and may have on-site consumption of food and beverages with required licenses.

Liquor Store. Establishments primarily engaged in selling packaged alcoholic beverages such as ale, beer, wine and liquor.

Specialty Food Sales and Facilities. Retail establishments that process and prepare food on site and are small to medium scale in size. Typical uses include bakeries; butchers, candy, nuts and confectionery stores; cheese stores, and pasta shops.

Funeral Parlors and Mortuaries. An establishment primarily engaged in the provision of services involving the care, preparation, or disposition of human remains and conducting memorial services. Typical uses include a crematory, columbarium, mausoleum, or mortuary.

Instructional Services. Establishments that offer specialized programs in personal growth and development. Typical uses include classes or instruction in music, fitness, art, or academics. Instructional services may include rehearsal studios as an accessory use.

Light Fleet-Based Services. Passenger transportation services, local delivery services, medical transport, and other businesses that rely on fleets of three or more vehicles with rated capacities less than 10,000 pounds. This classification includes parking, dispatching, and offices for taxicab and limousine operations, ambulance services, nonemergency medical transport, local messenger and document delivery services, home cleaning services, and similar businesses. This classification does not include towing operations (see Automobile/Vehicle Sales and Service, Towing and Impound) or taxi or delivery services with two or fewer fleet vehicles on site (see Business Services).

Live/Work. A unit that combines a work space and incidental residential occupancy occupied and used by a single household in a structure that has been constructed for such use or converted from commercial or industrial use and structurally modified to accommodate residential occupancy and work activity.

Lodging. An establishment providing overnight accommodations to transient patrons who maintain a permanent place of residence elsewhere for payment for periods of less than 30 consecutive calendar days.

Bed and Breakfast. A residential structure that is in residential use by the property owner or manager and within which up to four bedrooms are rented for overnight lodging and where meals may be provided.

Guest Ranch. A building or group of buildings containing two or more guest rooms, other than a bed and breakfast, boarding house, hotel or motel, and including outdoor recreational facilities such as but not limited to horseback riding, swimming, tennis courts, shuffleboard courts, barbecue and picnic facilities, and dining facilities intended primarily for use by the guests of the guest ranch but not including bars and restaurants which cater primarily to other than guests of the guest ranch.

Hotels and Motels. An establishment providing overnight lodging to transient patrons. These establishments may provide additional services, such as conference and meeting rooms, restaurants, bars, or recreation facilities available to guests or to the general public. This use classification includes motor lodges, motels, extended-stay hotels, hostels, and tourist courts, but does not include rooming houses, boarding houses, or private residential clubs, or bed and breakfast establishments within a single-unit residence.

Large-Scale Resorts. Large parcels of land not less than five acres open to the general public and providing a particular, unique, recreational or other tourism resource, be it a natural, cultural or historic site, seasonal occurrence or manmade attraction, or special quality of place. It includes resorts for day visitors as well as those providing overnight accommodation. It may include dwelling units for short-term rental in one or more permanent buildings utilized principally for the accommodation of the public for recreation.

Maintenance and Repair Services. Establishments engaged in the maintenance or repair of office machines, household appliances, furniture, and similar items. This classification excludes maintenance and repair of motor vehicles or boats (see Automotive/Vehicle Sales and Services) and personal apparel (see Personal Services).

Medical Marijuana Uses.

Dispensary. A nonprofit entity, defined in A.R.S. § [36-2801\(11\)](#), that acquires, possesses, sells, distributes, transmits, gives, dispenses, or otherwise provides medical marijuana to qualifying patients.

Cultivation. The process by which a person grows a marijuana plant. A facility shall mean a building, structure, or premises used for the cultivation or storage of medical marijuana that is physically separate and off site from a medical marijuana dispensary.

Mobile Merchant. Person who sells any type of tangible personal property, including, but not limited to, food and drink, at or adjacent to the person's mobile sales unit in which such tangible personal property is carried. This definition shall not include any person working or acting for a person holding a mobile merchant permit issued in accordance with this section.

Nurseries and Garden Centers. Establishments primarily engaged in retailing nursery and garden products, such as trees, shrubs, plants, seeds, bulbs, and sod, that are predominantly grown elsewhere. These establishments may sell a limited amount of a product they grow themselves. Fertilizer and soil products are stored and sold in packaged form only.

Offices. Offices of firms, organizations, or public agencies providing professional, executive, management, administrative or design services, such as accounting, architectural, computer software design, engineering, graphic design, interior design, investment, insurance, and legal offices, excluding banks and savings and loan associations with retail banking services (see Banks and Financial Institutions). This classification also includes

offices where medical and dental services are provided by physicians, dentists, chiropractors, acupuncturists, optometrists, and similar medical professionals, including medical/dental laboratories within medical office buildings but excluding clinics or independent research laboratory facilities (see Research and Development) and hospitals.

Business and Professional. Offices of firms, organizations, or agencies providing professional, executive, management, administrative, financial, accounting, or legal services, but excluding those that primarily provide direct services to patrons that visit the office (see Offices, Walk-In Clientele).

Medical and Dental. Offices providing consultation, diagnosis, therapeutic, preventive, or corrective personal treatment services by doctors, dentists, and optometrists; medical and dental laboratories that see patients; and similar practitioners of medical and healing arts for humans licensed for such practice by the state of Arizona. Incidental medical and/or dental research within the office is considered part of the office use if it supports the on-site patient services.

Walk-In Clientele. Offices providing direct services to patrons or clients that may or may not require appointments. This use classification includes employment agencies, insurance agent offices, real estate offices, travel agencies, utility company offices, and offices for elected officials. It does not include banks or check-cashing facilities, which are separately classified and regulated (see Banks and Financial Institutions).

Off-Track Betting Establishment. A wagering facility which simulcasts horse, harness or dog racing events for the purpose of pari-mutuel wagering. It may be operated as an accessory use to an eating and drinking establishment. An off-track betting establishment is authorized by issuance of a teletrack wagering permit in accordance with A.R.S. § [5-112](#) and Arizona Administrative Code Title [19](#), Chapter [2](#), Article 4.

Outdoor, Temporary, and Seasonal Sales. An outdoor place, in an approved location, or for an approved activity, where new or used goods or secondhand personal property is offered for sale or exchange to the general public by a multitude of individual licensed vendors, usually in compartmentalized spaces. The term is interchangeable with and applicable to swap meets, flea markets, auctions, open air markets, outdoor sales activities, or other similarly named or labeled activities.

Parking Facility. Surface lots and structures for long- or short-term automobile parking that can be for the use of occupants, employees, or patrons on the subject site or offering parking to the public for a fee when such use is not incidental to another on-site activity. They can be publicly or privately owned.

Personal Services.

General Personal Services. Provision of recurrently needed services of a personal nature. This classification includes barber shops and beauty salons, day spas, palm readers, seamstresses, tailors, dry cleaning agents (excluding large-scale bulk cleaning plants), shoe repair shops, self-service laundries, video rental stores, photocopying and photo-finishing services, and travel agencies mainly intended for the consumer.

Restricted Personal Service. An establishment whose principal business activity is one or more of the following: (1) providing massage or massage services; (2) using ink or other substances that result in the permanent coloration of the skin through the use of needles or other instruments designed to contact or puncture the

skin; or (3) creation of an opening in the body of a person for the purpose of inserting jewelry or other decoration.

Retail Sales.

General Retail Sales, Small-Scale. The retail sale or rental of merchandise not specifically listed under another use classification. This classification includes retail establishments with 25,000 square feet or less of sales area, including department stores, clothing stores, furniture stores, pet supply stores, small hardware stores, and businesses retailing goods including but not limited to the following: toys, hobby materials, handcrafted items, jewelry, cameras, photographic supplies and services (including portraiture and retail photo processing), medical supplies and equipment, pharmacies, electronic equipment, sporting goods, kitchen utensils, hardware, appliances, antiques, art galleries, art supplies and services, paint and wallpaper, carpeting and floor covering, office supplies, bicycles, video rental, and new automotive parts and accessories (excluding vehicle service and installation). Retail sales may be combined with other services such as office machine, computer, electronics, and similar small-item repairs.

General Retail Sales, Large-Scale. Retail establishments with over 25,000 square feet of sales area that sell merchandise and bulk goods for individual consumption, including membership warehouse clubs, where sales of grocery items do not occupy more than 25 percent of the floor area.

Tobacco-Oriented Retailer. An establishment where the primary component is in the sale and/or display of tobacco related products, including, but not limited to: cigarettes, electronic cigarettes and vapor products (vaping), chewing and dipping tobacco, cigarette papers, or any other instrument or paraphernalia for the smoking or ingestion of tobacco and products prepared from tobacco. This includes uses such as, but not limited to, a cigar store, head shop, vapor store or hookah lounge. This shall not include any establishment where such products listed here occupy less than five percent of the business floor area. [Res. 21-09; Ord. 21-05 § 2; Res. 18-20; Ord. 18-05 § 1; Res. 14-36 Art. 601; Ord. 14-12 § 1.]

18.200.050 Industrial use classifications.

Artist Studio and Production. Work space for an artist or artisan, including individuals practicing one of the fine arts or performing arts, or an applied art or craft. This use may include incidental display and retail sales of items produced on the premises and instructional space for small groups of students. It does not include joint living and working units (see Live/Work). Small-scale art production is generally of a low impact and typically includes painting, photography, jewelry, glass, textile, and pottery studios. Art production on a medium or large scale generally uses heavy equipment and includes large-scale metal and woodworking studios.

General Industrial. Manufacturing of products from extracted or raw materials or recycled or secondary materials, or bulk storage and handling of such products and materials. This classification includes heavy agriculture processing, such as stockyards, slaughterhouses/meat packing plants, commercial pen feeding, production wineries, bone yards, plants for the reduction of animal matter, poultry feeding operations, or agricultural processing plants. It also includes biomass energy conversion; production apparel manufacturing; photographic processing plants; leather and allied product manufacturing; wood product manufacturing; paper manufacturing;

chemical manufacturing; plastics and rubber products manufacturing; nonmetallic mineral product manufacturing; primary metal manufacturing; fabricated metal product manufacturing; and automotive and heavy equipment manufacturing.

Light Industrial. Establishments engaged in light industrial activities taking place primarily within enclosed buildings and producing minimal impacts on nearby properties. This classification includes the manufacturing of finished parts or products primarily from previously prepared materials; commercial laundries and dry cleaning plants; monument works; printing, engraving, and publishing; sign painting shops; machine and electrical shops; computer and electronic product manufacturing; furniture and related product manufacturing; and industrial services. It also includes large-scale preparation, manufacturing, and/or packaging of food or beverages, including alcoholic beverages, for off-site consumption. Typical food and beverage manufacturing uses include canners, roasters, breweries, wholesale bakeries, and frozen food manufacturers.

Research and Development. A facility for scientific research and the design, development, and testing of electrical, electronic, magnetic, optical, pharmaceutical, chemical, and biotechnology components and products in advance of product manufacturing, including laboratories. This classification includes assembly of related products from parts produced off site where the manufacturing activity is secondary to the research and development activities.

Salvage and Wrecking. Storage and dismantling of vehicles and equipment for sale of parts, as well as their collection, storage, exchange or sale of goods, including but not limited to any used building materials, used containers or steel drums, used tires, and similar or related articles or property.

Storage and Warehouse. Storage and distribution facilities without sales to the public on site or direct public access except for public storage in small individual space exclusively and directly accessible to a specific tenant.

Chemical and Mineral Storage. Storage and handling of hazardous materials including but not limited to: bottled gas, chemicals, minerals and ores, petroleum or petroleum-based fuels, fireworks, and explosives.

Indoor Warehousing and Storage. Storage within an enclosed building of commercial goods prior to their distribution to wholesale and retail outlets and the storage of industrial equipment, products and materials. This classification also includes cold storage, freight, moving and storage, and warehouses. It excludes the storage of hazardous chemical, mineral, and explosive materials.

Outdoor Storage. Storage of vehicles or commercial goods or materials in open lots.

Personal Storage. Facilities offering enclosed storage with individual access for personal effects and household goods, including mini-warehouses and mini-storage. This use excludes workshops, hobby shops, manufacturing, or commercial activity.

Wholesaling and Distribution. Indoor storage and sale of goods to other firms for resale; storage of goods for transfer to retail outlets of the same firm; or storage and sale of materials and supplies used in production or operation, including janitorial and restaurant supplies. Wholesalers are primarily engaged in business-to-business sales, but may sell to individual consumers through mail or internet orders. They normally operate from a warehouse or office having little or no display of merchandise, and are not designed to solicit walk-in

traffic. This classification does not include wholesale sale of building materials (see Building Materials and Services). [Ord. 18-05 § 1; Res. 18-20; Ord. 14-12 § 1; Res. 14-36 Art. 601.]

18.200.060 Transportation, communication, and utilities use classifications.

Airports and Heliports. Facilities for the takeoff and landing of airplanes and helicopters, including runways, helipads, aircraft storage buildings, public terminal buildings and parking, air freight terminals, baggage handling facilities, aircraft hangars, public transportation, and related facilities, including bus operations, servicing, and storage. Also includes support activities such as fueling and maintenance, storage, airport operations and air traffic control, incidental retail sales, coffee shops and snack shops, and airport administrative facilities, including airport offices, terminals, operations buildings, communications equipment, buildings and structures, control towers, lights, and other equipment and structures required by the United States Government and/or the state of Arizona for the safety of aircraft operations.

Bus/Rail Passenger Facilities. Facilities for passenger transportation operations. Includes rail and bus stations and terminals but does not include terminals serving airports or heliports. Typical uses include ticket purchasing and waiting areas out of the public right-of-way, restrooms, and accessory uses such as cafes.

Communication Facilities. Facilities for the provision of broadcasting and other information relay services through the use of electronic and telephonic mechanisms.

Antennas and Transmission Towers. Broadcasting and other communication services accomplished through electronic or telephonic mechanisms, as well as structures designed to support one or more reception or transmission systems. Typical uses include wireless telecommunication towers and facilities, radio towers, television towers, telephone exchange/microwave relay towers, and cellular telephone transmission/personal communications systems towers.

Facilities within Buildings. Indoor facilities containing primarily communication equipment and storage devices such as computer servers.

Freight/Truck Terminals and Warehouses. Facilities for freight, courier, and postal services by truck or rail. This classification does not include local messenger and local delivery services (see Light Fleet-Based Services).

Recycling Facility. A facility for receiving, temporarily storing, transferring and/or processing materials for recycling, reuse, or final disposal. This use classification does not include waste transfer facilities that operate as materials recovery, recycling, and solid waste transfer operations and are classified as utilities (see Utilities, Major).

Recycling Collection Facility. An incidental use that serves as a neighborhood drop-off point for the temporary storage of recyclable materials but where the processing and sorting of such items is not conducted on site.

Recycling Processing Facility. A facility that receives, sorts, stores and/or processes recyclable materials.

Utilities, Major. Generating plants, water treatment and wastewater treatment facilities, electric substations, and other large utilities, including transfer stations and materials recovery facilities and similar facilities of public agencies or public utilities.

Utilities, Minor. Facilities necessary to support established and future uses involving only minor structures, such as electrical distribution lines, water wells and booster stations, lift stations, water tanks, and underground water and sewer lines.

Waste Transfer Facility. A facility that operates as a materials recovery, recycling and solid waste transfer operation providing solid waste recycling and transfer services for other local jurisdictions and public agencies that are not located within the city of Maricopa. The facility sorts and removes recyclable materials (including paper, metal, wood, inert materials such as soils and concrete, green waste, glass, aluminum and cardboard) through separation and sorting technologies to divert these materials from the waste stream otherwise destined for landfill. [Ord. 18-05 § 1; Res. 18-20; Ord. 14-12 § 1; Res. 14-36 Art. 601.]

18.205.020 List of definitions.

“Abutting” means the condition of two adjoining properties having a common property line or boundary, including cases where two or more lots adjoin only at a corner(s).

“Accessory building or structure” means a detached subordinate building or structure, the use of which is customarily incidental to that of the main building or to the main use of the land, and which is located in the same or a less restrictive zone, and on the same lot or parcel of land with the main building or use.

“Accessory use” means a use customarily incidental to, related and clearly subordinate to a principal use established on the same lot or parcel of land, which accessory use does not alter said principal use nor serve

property other than the lot or parcel of land on which the principal use is located. "Appurtenant use" means the same as accessory use.

Adequate Public Facility-Related Terms. See Chapter [18.85](#) MCC, Adequate Public Facilities (not recommended by the task force).

"Adequate" means meeting the established minimum standards in this code and all other applicable policies of the city.

"Capacity" means the maximum demand that can be accommodated by a public facility.

"Public facilities" includes roads, water, wastewater, drainage, parks and open space, and school facilities.

"Adjacent" means directly abutting, having a boundary or property line(s) in common or bordering directly, or contiguous to.

"Adjoining" means two or more lots or parcels of land sharing a common boundary line, or two or more objects in contact with each other. Lots or parcels of land which touch at corners only shall not be deemed adjoining.

"Administrative review" means the process by which the community development department reviews submitted regulating, streetscape, site and/or building plans to determine compliance with this regulating document and design guidelines.

"Adult" means a person who is 18 years of age or older.

"Aggrieved person" means any person who, in person or through a representative, appeared at a city public hearing in conjunction with a decision or action appealed or who, by other appropriate means prior to a hearing, informed the local government of the nature of his or her concerns or who, for good cause, was unable to do either.

Airport-Related Terms.

"Aircraft" means any contrivance, now known or hereafter invented, for use or designed for navigation or flight in the air, including helicopters, fixed-wing aircraft and gliders.

"Airport" means any area of land designed and set aside for the landing and taking off of aircraft.

"Noise-sensitive uses" means single-unit or multiple-unit housing, office buildings, hotels, motels, hospitals, nursing homes, places of worship, libraries, public and private schools and day care centers.

"Runway" means a defined area on an airport prepared for landing and takeoff of aircraft along its length. The runway includes any proposed runway or runway extension as shown on any approved airport planning document.

"Alley" means a public or private right-of-way less than 30 feet wide which affords a means of vehicular access to the side or rear of properties abutting a street or highway.

"Alteration" means any change, addition or modification that changes the exterior architectural appearance or materials of a structure or object. Alteration includes changes in exterior surfaces, changes in materials, additions, remodels, demolitions, and relocation of buildings or structures, but excludes ordinary maintenance and repairs.

"Apex" means the highest point of a sign as measured from the point on the ground where its structure is located, or, if no sign structure is present, from the point on the ground directly below the sign itself.

"Applicant" means the person who applies for a permit pursuant to this article.

"Approval authority" means the official or decision-making body granted authority to approve a permit or other entitlement for development or use under the terms and regulations of this code. Also referred to as the "decision-making authority."

"Arcade" means a private frontage conventional for retail use wherein the facade is a colonnade supporting habitable space that overlaps the sidewalk, while the facade of the first story remains at the frontage line.

"Arterial street" means a general term designating streets of major significance to the community, including section line and major streets and state and county highways, that are designed to carry substantial volumes of traffic, providing a system for citywide through-traffic movement.

"Article" means a chapter set out in this code, unless another code or statute is mentioned.

"Artist" means an individual engaged in the creation of art or crafts that require artistic skill. Examples of individuals typically engaged in this work include, but are not limited to, woodworkers, potters/ceramicists, costume makers, set designers, stained-glass makers, glassblowers, textile artists and weavers, jewelry makers, painters, fine art printmakers, photographers/filmmakers, leather workers, metal workers, musical instrument makers, model makers, papermakers, installation artists, sculptors, video artists, and other makers of art and crafts.

"Assisted living facility" means a residential care institution intended for occupancy by persons of advanced age or limited ability for self-care, which may provide food, transportation, recreation, or other services to the residents thereof, and which is licensed by the Arizona Department of Health Services to perform supervisory care, personal care, or custodial care services. The term shall include boarding houses, dormitories, apartments, and similar multiple-residence living arrangements when operated as an assisted living facility as defined herein, but shall not include group homes for the handicapped, adult care homes, nursing homes, hospitals, or hotels.

"Automobile parking space, compact" means any permanently maintained space, having a width of not less than eight feet and a length of not less than 15 feet, so located and arranged as to permit the storage of a passenger automobile of compact size.

"Automobile parking space, standard" means any permanently maintained space, having a width of not less than eight and one-half feet and a length of not less than 18 feet, so located and arranged as to permit the storage of a passenger automobile of standard size.

"Automobile storage space" means "automobile parking space."

"Avenue" means a thoroughfare of high vehicular capacity and low to moderate speed, acting as a short distance connector between urban centers, and usually equipped with a landscaped median.

"Awning" means an ancillary lightweight structure of wood, metal, or canvas, cantilevered from a building facade and providing shade to the fenestration and spatial containment to the pedestrian.

"Base district" means a rural, residential, commercial, mixed use, industrial, open space, public or institutional zoning district established under Division 2 of this title.

"Basement" means that portion of a building between floor and ceiling, which is partly below and partly above grade, but so located that the vertical distance from grade to the floor below is less than the vertical distance from grade to ceiling.

"Basin, detention" means storm water storage facility that temporarily stores surface runoff and releases it at a controlled rate through a positive outlet. A detention basin and park may be joined to serve both recreational needs and as a water storage facility.

"Basin, drainage" means a geographical area that contributes surface runoff to a particular concentration point. The terms "drainage basin," "tributary area" and "watershed" are used interchangeably.

"Basin, retention" means a storm water storage facility that stores surface runoff. Stored water is infiltrated into the subsurface or released to the downstream drainage system or watercourse (via gravity outlet or pump), or evaporated after the storm event. A retention basin and park may be joined to serve both recreational needs and as a water storage facility.

"Berm" means an earthen mound, either natural or manmade.

"Bicycle lane" means a paved area located within a street right-of-way and within the pavement section that is designated for bicycle or other nonmotorized traffic.

"Block" means an aggregate land area circumscribed by thoroughfares.

"Block face" means the aggregate of all the principal frontage lines, or alternatively the building facades, on one side of a block.

"Body piercing" means the creation of an opening in the human body for the purpose of inserting jewelry or other decoration, including the piercing of an ear, lip, tongue, nose, or eyebrow. "Body piercing" does not include piercing an ear with a disposable, single-use stud or solid needle that is applied using a mechanical device to force the needle or stud through the ear.

"Buffer area" means an area of land, including landscaping, berms, walls and fences but not building setbacks, that is located between land uses of different character or density and is intended to mitigate negative impacts of the more intense use on residential or vacant parcels.

"Buildable" means a lot or parcel that has the area, shape, slope, street frontage, or other attribute in order for a permitted use, based on the lot or parcel's zoning district, to be developed, without the need for any variance from this code.

"Building" means any structure having a roof supported by columns or by walls and intended for the shelter, housing or enclosure of persons, animals, chattels or property of any kind.

"Building, enclosed" means a building enclosed on all sides.

"Building setback line" means the required minimum distance, as prescribed by this code, between the property line and the closest point of any building or structure.

"Building site" means a lot or parcel of land occupied, or to be occupied, by a main building and accessory buildings together with such open spaces as are required by the terms of this title and having its principal frontage on a street, road, highway, or waterway.

"Canopy" means the extent of the outer layer of leaves of an individual tree or group of trees.

"Canopy density" means the general permeability of a tree canopy to light as a characteristic of branch number and structure; canopy density can either be full (greater than 50 percent) or open (less than 50 percent).

"Canopy shape" means the general shape of the outer layer of leaves of an individual tree as structured by the tree's branches.

"Carport" means an accessory structure that is roofed but permanently open on at least two sides and maintained for the storage of motor vehicles.

"Centerline" means the centerline established by the city engineer for any proposed or dedicated public way.

"Changed plans" means any changes in physical design, site layout, lot sizes and patterns, building footprints, elevations or siting, drainage, utilities, or roadway locations on a development plan. Changes in architectural materials and finishes, lighting fixtures, or a planting palette are not considered plan changes.

"Child" means a person under 18 years of age.

"Chord" means a straight line joining two points on a curve.

"City" means the city of Maricopa, Arizona.

"City council" means the city council of the city of Maricopa.

"Civic" means the term defining not-for-profit organizations dedicated to arts, culture, education, recreation, government, transit, religious, and municipal parking.

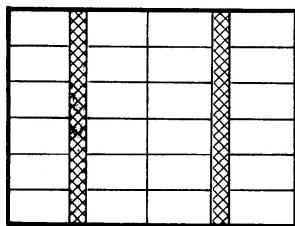

"Civic building" means a building operated by not-for-profit organizations dedicated to arts, culture, education, recreation, government, transit, and municipal parking, or for use approved by development services. A civic building is owned by a municipal or governmental body.

"Civic space" means an outdoor area permanently dedicated for public use. Civic space types are defined by the combination of certain physical constants including the relationships among their intended use, size, landscaping and surrounding buildings.

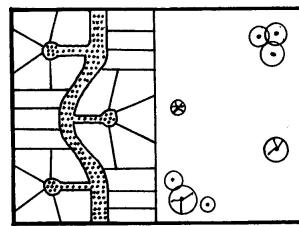

"Civic subdistrict" means a designation for public sites dedicated for civic buildings and/or civic space.

"Clearance" means the height above the walkway, or other surface if specified, of the bottom edge of an element.

"Cluster development" means development pattern that concentrates development in specific areas on a site rather than distributed evenly throughout a parcel as in conventional lot-by-lot development with the remaining portion of the site retained as natural open space or parks.

Conventional Lots

Clustered Lots

"Code, zoning" means MCC Title [18](#).

"Co-location" means the location of two or more wireless communications facilities owned or used by more than one public or private entity on a single support structure or otherwise sharing a common location. Co-location shall also include the location of wireless communications facilities with other facilities such as buildings, water tanks, light standards, and other utility facilities and structures.

"Commercial vehicle" means any vehicle currently registered as such with the State Department of Motor Vehicles or equivalent out-of-state or federal agency and is used primarily in the conduct of a business as opposed to private family or individual use.

"Commission" means the planning and zoning commission of the city of Maricopa.

"Committee" means the technical advisory committee, or any other committee as established by the city council of the city of Maricopa.

"Communication equipment building" means a building that houses operating electrical and mechanical equipment necessary for the conducting of a public utility communications business, with or without personnel.

"Community facilities" includes, but is not limited to, government buildings, libraries, hospitals, local businesses, parks, and historic sites.

"Common yard" means a planted private frontage wherein the facade is set back from the frontage line. The yard is visually continuous with adjacent yards.

"Complete application" means an application accompanied by the required fees and deposits and all of the information, including plans, written materials, specifications, reports and other documents that are required to be submitted for review and approval of an entitlement for development or use under the terms and regulations of this code.

"Conditional approval" means an affirmative action by the commission or council indicating that approval will be forthcoming with satisfaction of certain specified conditions or stipulations.

"Controlling person" means a natural person who either (1) has a 10 percent or greater interest in the ownership or earnings of the business, or (2) is any of the following:

1. An officer, director, or any stockholder who owns 10 percent or more, of a corporation permittee/applicant;
2. A general partner of a limited partnership permittee/applicant or partner of a nonlimited partnership permittee/applicant;
3. An officer, president, or secretary of a limited liability company/corporation permittee/applicant; or
4. The sole proprietor of a sole proprietorship permittee/applicant.

"Construction" means construction, erection, enlargement, alteration, conversion or movement of any building, structures, or land.

"Coordinated frontage" means a condition where the landscape and paving of public frontage and private frontage are coordinated as a single, coherent design.

"Corral fence" means a structure consisting of vertical posts with horizontal connectors, so constructed that 75 percent or more of the vertical surface is open. Corral fences do not include chain link fences.

"Council" means the city council of the city of Maricopa.

"County" means Pinal County, Arizona.

"Court" means an open space enclosed wholly or partly by buildings or circumscribed by a single building.

"Courtyard" means a building placed within the boundaries of its lot to create a private courtyard, while internally defining one or more private patios.

"Cultivar" means a cultivated variety of street tree, deliberately selected for its desirable physical characteristics.

"Cultural facility" means a facility engaged in activities to serve and promote aesthetic and educational interest in the community that are open to the public on a regular basis. This includes performing arts centers for theater, music, dance, and events; spaces for display or preservation of objects of interest in the arts or sciences; libraries; museums; historical sites; aquariums; art galleries; and zoos and botanical gardens. This does not include schools or institutions of higher education providing curricula of a general nature.

"Day" means any day, Monday through Friday, that is not a federal, state, or local holiday.

"De novo" means "anew" or "from the beginning." When used in hearings, new testimony can be taken and new information considered, rather than relying only on the information in the record.

"Density" means the number of dwelling units per unit of land area.

"Density bonus" means a density increase over the otherwise maximum allowable residential density provided in this code.

"Density, gross" means the number of dwelling units per gross unit of land area.

"Department" means the development services department of the city of Maricopa.

"Designated agent" means the person designated by the permittee/applicant to receive notices from the city pursuant to this title.

"Developer" (see also "Subdivider") means a person, firm, partnership, joint venture, trust, syndicate, association, corporation, limited liability company, or other legal entity who desires to improve or otherwise engage in any development of property within the city of Maricopa, including the owner of the property; except that an individual serving as agent for such legal entity is not a developer.

"Development" means any manmade change to improved or unimproved real estate, including but not limited to the construction, reconstruction, conversion, structural alteration, relocation, or enlargement of any structure; any mining, excavation, landfill or land disturbance (excluding disturbance from agriculture-related grading).

"Development agreement" means an agreement between the city and any person having a legal or equitable interest in real property for the development of such property and which complies with the applicable provisions of Arizona Revised Statutes for such development agreements.

"Development review permit" means a permit required for uses or developments identified in Division 2, Base Zoning Districts; Division 3, Overlay Districts; and/or any other section of this code that requires development review.

"Director" means the director of the development services department and the planning and zoning division of the city of Maricopa, acting either directly or through authorized agents.

"Disabled person" means a person who: (1) has a physical or mental impairment which substantially limits one or more of such person's major life activities; (2) has a record of having such an impairment; or (3) is regarded as having such an impairment. However, "disabled" shall not include current illegal use of or addiction to a controlled substance (as defined in Section 102 of the Controlled Substance Act [[21](#) United States Code [802](#)]).

"District" means a portion of the city within which certain uniform regulations and requirements apply to development and land uses, or various combinations thereof apply under the provisions of this code. Also referred to as "zoning districts."

"Domestic animal" is an animal which is commonly maintained in residence with humans.

"Dooryard" means a private frontage type with a shallow setback and front garden or patio usually with a low wall at the frontage line to effectively buffer residential quarters from the sidewalk while removing the private yard from public encroachment.

"Driveway" means an accessway that provides vehicular access between a street and the parking or loading facilities located on an adjacent property.

"Duplex" means a building with two side-by-side units on a lot with a shared wall of the building.

"Dwelling unit" means a room or suite of rooms including one and only one kitchen, and designed or occupied as separate living quarters for one family, as defined below.

"Easement" means a portion of land created by grant or agreement for specific purpose; an easement is the right, privilege or interest which one party has in the land of another.

"Edgeyard" means a building placed within the boundaries of its lot to create an edgeyard around the building, with setbacks on all sides.

"Effective date" means the date on which a permit or other approval becomes enforceable or otherwise takes effect, rather than the date it was signed or circulated.

"Effective turning radius" means the measurement of the turning radius at a corner taking parked cars into account.

"Elevation" means an exterior wall of a building not along a frontage line.

"Emergency" means a sudden unexpected occurrence demanding immediate action to prevent or mitigate loss or damage to life, health, property or essential public services.

"Encroach" means to break the plane of a vertical or horizontal regulatory limit with a structural element, so that it extends into a setback, into the public frontage, or above a height limit.

"Engineer" means the city engineer of Maricopa or their designated representative.

"Engineering department" means the engineering division of the development services department of the city of Maricopa.

"Equipment cabinet or enclosure" means a cabinet or structure used to house equipment associated with a wireless communications facility.

"Facade" means the exterior wall of a building exposed to public view or that wall viewed by persons not within the building. The portion of any exterior elevation of a building extending vertically from the grade to the top of a parapet wall or eave, and horizontally across the entire width of the building elevation.

"Factory-built building" means a residential or nonresidential building including a dwelling unit or habitable room thereof which is either wholly or in substantial part manufactured at an off-site location to be assembled on site,

except that it does not include a manufactured home, recreational vehicle or mobile home as defined in the manufactured home/recreational vehicle regulations of this code, MCC [18.120.150](#).

“Family” means one or more persons living together as a single nonprofit housekeeping unit and sharing common living, sleeping, cooking and eating facilities. Members of a family need not be related by blood but are distinguished from a group occupying a hotel, club, fraternity or sorority house.

“Feasible” means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social and technological factors.

“Fence” means an artificially constructed barrier of any material or combination of materials erected to enclose or screen an area of land.

“Figure” means any graphic representation noted as a “Figure” within this code, that is used to illustrate and exemplify certain standards and regulations contained within the language of this code.

“Fill” means soil, rock, or other material deposited at a location by man that raises the grade at that location.

“Finished grade” means the final grade and elevation of the ground surface after grading is completed and in conformance with the approved grading plans.

“Floodplain” means lowlands adjoining the channel of a river, stream or watercourse, lake or other body of water, which have been or may be inundated by floodwater, and those other areas subject to flooding. A floodplain may be that area further defined by the drainage policy of the city of Maricopa and as shown on Federal Emergency Management Agency (FEMA) flood insurance rate maps (FIRM) or an approved flood control study.

“Floor area” means the total floor area in a building (including basements, mezzanines, interior balconies, and upper stories or levels in a multistory building) unless otherwise stipulated; e.g., “ground floor” area.

“Floor area ratio” means the numerical value obtained through dividing the aboveground gross floor area of a building or buildings located on a lot or parcel of land by the total area of such lot or parcel of land.

“Forecourt” means a private frontage wherein a portion of the facade is close to the frontage line and the central portion is set back.

“Foster home” means a dwelling maintained by an individual or individuals having care or control of one but not more than six minor children, other than those related by blood, marriage, or adoption or those who are legal wards of such individuals, which is licensed by the Arizona State Department of Economic Security.

“Foster home, group” means a foster home suitable for the placement of more than six but not more than 10 minor children which is licensed by the Arizona Department of Economic Security.

“Frontage, building” means the exterior building wall of a ground floor business establishment on the side or sides of the building frontage and/or oriented toward a public street, highway or parkway.

"Frontage line" means a lot line bordering the public frontage and where minimum lot width is measured. Facades facing frontage lines define the public realm and are therefore more regulated than the elevations facing other lot lines.

"Frontage, space" means the area between a building facade and the vehicular lanes of a thoroughfare, inclusive of its built and planted components. Frontage is divided into private frontage and public frontage.

"Frontage, street or highway" means that portion of a lot or parcel of land which borders a public street, highway or parkway.

"Gallery" means a private frontage conventional for retail use wherein the facade is aligned close to the frontage line with an attached cantilevered shed or lightweight colonnade overlapping the sidewalk.

"Garage" means a building or portion of a building that is enclosed and roofed and designed for the storage of motor vehicles.

"General plan" means the general plan of the city of Maricopa, and all elements thereof.

"Glare" means the effect produced by a light source within the visual field that is sufficiently brighter than the level to which the eyes are adapted, such as to cause annoyance, discomfort or loss of visual performance and ability.

"Gooseneck lighting" means a down-lit illumination of signage set on an outpost usually attached to a wall or post.

"Grade" means the approved grade of a lot or parcel of land at the time such lot or parcel is created, except when excavation is proposed. When excavation occurs after the lot or parcel is created, the grade of the excavated area shall be the grade after the excavation.

"Green" means a civic space type available for unstructured recreation, spatially defined by landscaping.

"Green building" means a whole systems approach to the design, construction and operation of buildings that substantially mitigates the environmental, economic, and social impacts of conventional building practices. Green building practices recognize the relationship between the natural and built environments and seek to minimize the use of energy, water and other natural resources and provide a healthy, productive indoor environment.

"Greenway" means an open space corridor in largely natural conditions which may include trails for bicycles and pedestrians.

"Gross floor area" means the sum of the gross areas of the floor or floors of a building or buildings.

"Handicapped person" means a person who: (1) has a physical or mental impairment which substantially limits one or more of such person's major life activities; (2) has a record of having such an impairment; or (3) is regarded as having such an impairment. However, "handicapped" shall not include current illegal use of or addiction to a controlled substance (as defined in Section 102 of the Controlled Substance Act [[21 United States Code 802](#)]).

"Hardscape" means part of a building's grounds consisting of structures, such as plazas, retaining walls and sidewalks, made with materials such as concrete and sidewalk pavers.

"Hazardous materials" includes any substance characterized as flammable solids, corrosive liquids, radioactive materials, oxidizing material, highly toxic materials, poisonous gases, reactive materials, unstable materials, hypergolic materials and pyrophoric materials and any substance or mixture of substances which is an irritant, a strong sensitizer or which generates pressure through exposure to heat, decomposition or other means, or as otherwise defined by law.

"Health department" means the Pinal County Health Department.

"Hearing officer" means the hearing officer of the city of Maricopa, or his or her designee.

"Height," when referring to a building, tower, or any other structure, means the vertical distance measured from the natural grade level to the highest point of the structure directly above the natural grade when such structure is not located in a platted subdivision. If the structure is located in a platted subdivision, the height shall be the vertical distance measured from the finished grade as shown on the subdivision grading plans or finished grade as shown on the individual lot's grading plan (whichever is lower) to the highest point of the structure directly above the finished grade.

"Heritage District" means the area also known as Old Town, the original town site of the community, including older neighborhoods and agricultural, commercial and industrial land generally located in the northwest area of the city of Maricopa. This area also is referred to as the "Redevelopment District Area" and "Redevelopment Area."

"Heritage District Design Guidelines" means the architectural design guidance for residential, commercial and industrial development and commercial/industrial signage in the Heritage District, which has been adopted by the city council. These guidelines show how new development and new signs should be designed to fit into and improve the built environment; they apply to all development in the Heritage District Redevelopment Project Area.

"Highway" means any expressway, freeway, major, secondary, or limited secondary highway.

"Illegal nonconforming building or use" means any use of land or building that does not have the currently required permits and was originally constructed and/or established without permits required for the use at the time it was brought into existence.

Illegal Nonconforming Use and Development-Related Terms.

"Abandoned" means a use that has ceased or a structure that has been vacated for a time period as specified in this code. Abandonment does not include temporary or short-term interruptions to a use or occupancy of a structure during periods of remodeling, maintaining, or otherwise improving or rearranging a facility.

"Nonconforming building or structure" means any building or structure that was lawfully established and in compliance with all applicable codes and laws at the time the ordinance codified in this code or any amendment thereto became effective, but which, due to the application of this code or any amendment thereto, no longer complies with all the applicable regulation and standards of development in the zone in which it is located.

"Nonconforming lot" means a lot, the area, dimensions, or location of which was lawful prior to the effective date of the ordinance codified in this code, or any amendment thereto, but which fails by reason of such adoption, revision, or amendment to conform to the present requirements of the zoning district.

"Nonconforming sign" means a sign that lawfully existed prior to the ordinance adopted in this code but which fails by reason of such adoption or amendment to conform to all of the standards and regulation of this code.

"Nonconforming use" means a use of a structure or land that was lawfully established and maintained, but which does not conform with currently applicable use regulations for the district in which it is located by reason of adoption or amendment of this code or amendment thereto or by reason of annexation of territory to the city.

"Improvement plan" is a term defined in MCC [17.05.060](#) that means a set of plans setting forth the profiles, cross-sections, details, specifications, and instructions and procedures to be followed in the construction of public or private improvements in the city of Maricopa that are prepared and bear the seal of an Arizona-registered land surveyor, engineer, architect or landscape architect in accordance with the approved preliminary plat, and zoning stipulations, and in compliance with standards of design and construction that are to be approved by the city engineer, other city departments, the applicable county departments, and all applicable utilities.

"Improvement standards" means a set of regulations and exhibits setting forth the details, specifications and instructions to be followed in the design and construction of required improvements.

"Irrigation facilities" means laterals, ditches, conduits, pipes, gates, pumps, and allied equipment necessary for the supply, delivery, and drainage of irrigation water and the construction, operation, and maintenance of such.

"Kitchen" means any room or space used, or intended or designed to be used for cooking or the preparation of food.

"Lamp" means any source created to produce optical radiation (i.e., light), often called a bulb or tube.

"Landscape" means vegetation and irrigation, hardscape, public art or a combination thereof that may be calculated as open space (refer to the definition of "open space").

"Landscaping" means the planting, configuration and maintenance of trees, ground cover, shrubbery and other plant material, decorative natural and structural features (walls, fences, hedges, trellises, fountains, sculptures), earth patterning and bedding materials, and other similar site improvements that serve an aesthetic or functional purpose.

"LEED®" means the "Leadership in Energy and Environmental Design" green building rating system developed by the U.S. Green Building Council.

"Legal parking space" means an area designated for vehicle parking in the city right-of-way that may be paved or unpaved and may be delineated by road surface markings. Does not include a parking space in a parking lot on property owned by the city.

"Licensee" means the adult, firm, partnership, association, corporation, county, city or other public agency having the authority and responsibility for the operation of a licensed community care facility.

"Light court" means a private frontage type that is a below-grade entrance or recess designed to allow light into basements.

"Lighting, exterior" means any equipment or fixture located or used to provide illumination of outdoor areas, objects or activities.

"Lighting fixture" means light fixtures including but not limited to the lamp, pole, post, ballast, reflector, lens diffuser, shielding, electrical wiring, and other necessary or auxiliary components.

"Lighting system" means all exterior manmade lighting sources, associated infrastructure and controls on a site.

"Liner building" means a building specifically designed to mask a parking structure from a frontage.

"Live/work building" means a mixed use unit consisting of a commercial and residential use. The commercial use may be anywhere in the unit. It is intended to be occupied by a business operator who lives in the same structure that contains the commercial activity. (Synonym: shophouse.)

"Longitudinal" means a type of pavement marking with lines set parallel to the public frontage, repeating in a sequence across the entire width of the vehicular lanes of a thoroughfare to demarcate a pedestrian crosswalk.

Lot-Related Terms.

"Lot" means a single piece of property having frontage on a publicly dedicated and accepted street or a private road approved and accepted by the city and which has been established by a plat, recorded subdivision or otherwise established by some legal instrument of record which is described and denoted as such.

"Lot area" means the area of a horizontal plane within the lot lines of a lot but not including any area in a public right-of-way.

"Lot, corner" means a lot located at the intersection of two or more streets.

"Lot coverage" means the percentage of the area of a lot that is occupied by all buildings or other covered structures using the roof outline for all outer dimensions excluding overhangs less than two and one-half feet.

"Lot depth" means the horizontal length of a straight line connecting the midpoints of the front and rear lot lines and, for triangular shaped lots, the shortest horizontal distance between the front lot line and a line within the lot, parallel to and at a maximum distance from the front lot line, having a length of not less than 10 feet.

"Lot, flag" means a lot or parcel of land taking access by a strip, the owner of which lot or parcel of land has fee-simple title to said strip, extending from the main portion of the lot or parcel of land to the adjoining parkway, highway or street.

"Lot, interior" means a lot or parcel of land other than a corner lot.

"Lot, key" means a lot adjacent to a corner lot having its side lot line in common with the rear lot line of the corner lot and fronting on the street that forms the side boundary of the corner lot.

"Lot layer" means a range, one to three, of depth of a lot within which certain elements are permitted.

"Lot line" means a line dividing one lot from another or from a street or any public place.

"Lot line, front" means, in the case of an interior lot, a line separating the lot from the street right-of-way. In the case of a corner lot, the narrower of the two lot lines adjoining a street right-of-way.

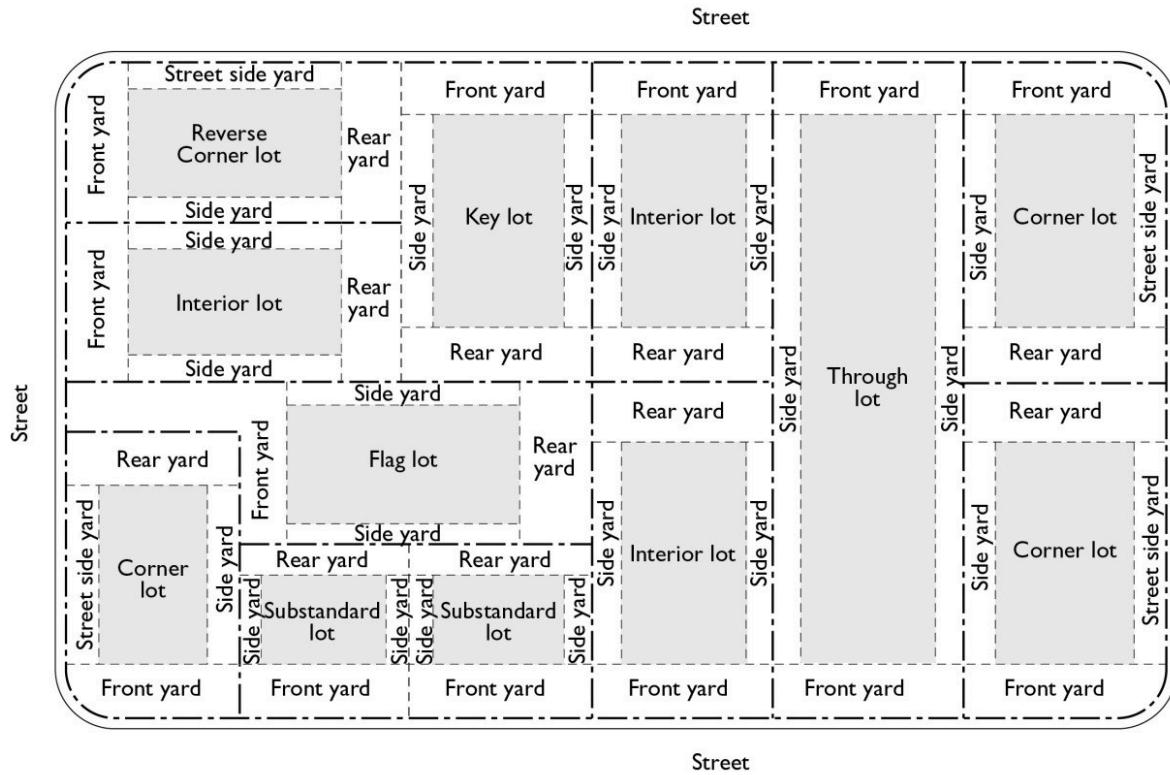

"Lot line, rear" means a lot line which is opposite and most distant from the front lot line; except that in the absence of a rear lot line as in the case of the triangular shaped lot, the rear lot line may be considered as a line within the lot, parallel to and at a maximum distance from the front lot line, having a length of not less than 10 feet.

"Lot line, side" means any lot boundary line that is not a front lot line or a rear lot line.

"Lot line, street side" means a side lot line of a corner lot that is adjacent to a street.

"Lot, reversed corner" means a corner lot, the parkway, highway or street side lot line of which is substantially a continuation of the front lot line of a lot or parcel of land which adjoins the rear lot line of said lot.

"Lot, through" means a lot having a part of opposite lot lines abutting two streets, and which is not a corner lot, also known as a "double frontage lot." On such lot, both lot lines are front, except that where a nonaccess easement has been established on such a lot, the front lot line shall be considered as that lot line most distant from the lot line containing the nonaccess easement.

Lot and Yard Types

“Lot width” means lots having side lot lines not parallel, and lots on the outside of the curve of a street, the distance between side lot lines measured at the required minimum front yard setback line on a line parallel to the street or street chord. For lots on the inside of the curve of a street, the distance between side lot lines measured 30 feet behind the required minimum front yard setback line on a line parallel to the street or street chord.

“Main civic space” means the primary outdoor gathering place for a community. The main civic space is often, but not always, associated with an important civic building.

"Maintenance and repair" means the repair or replacement of nonbearing walls, fixtures, wiring, roof or plumbing that restores the character, scope, size or design of a structure to its previously existing, authorized, and undamaged condition.

"Major development review permit" means a permit required for all new and modified buildings or structures, or for alterations to a building or structure that result in over 5,000 additional gross square feet, facade alterations that encompass more than 10 percent of the surface area, or as otherwise required in this code.

"Manufactured home" means a structure transportable in one or more sections which, in the traveling mode, is eight body feet or more in width or 40 body feet or more in length, or, when erected on site, is 320 or more square feet, is built on a permanent chassis, and is designed to be used as a dwelling, with or without a permanent foundation, when connected to utilities. This term does not include recreational vehicles.

"Manufacturing" means the process of creating a finished product by fabrication or from raw materials, especially by means of a larger-scale industrial operation.

"Massage and massage services" means any method of pressure on or friction against, or stroking, kneading, rubbing, tapping, pounding, manipulation, or stimulating the external parts of the body, with or without the aid of any mechanical or electrical apparatus or appliances, with or without supplementary aids such as rubbing alcohol, liniments, antiseptics, oils, powders, creams, lotions, ointments, or other similar preparations.

"Master outdoor lighting plan" means a plan that is required for a PAD application that shows the locations and specifications for all proposed lighting for all areas of the proposed development, including but not limited to pedestrian travel areas.

"Master plan development (MPD)" is a term used in MCC Title [17](#), Subdivisions, that refers to a mandatory plan for any development that is 320 or more contiguous acres and/or will be a multi-phased development of a large or complicated development application which provides information and graphics meeting the requirements of the zoning code and an overall master plan meeting the requirements of MCC Title [17](#), Subdivisions, for the purpose of implementing an integrated development scheme for all phases of the proposed development.

"Master signage plan" means a plan that is required for a PAD application that shows the size and location of all proposed signs.

Medical Marijuana Terms.

"Allowable amount of marijuana" means a qualifying patient may have two and one-half ounces of usable marijuana, and if the patient is authorized to cultivate marijuana, the patient may grow up to 12 marijuana plants contained in an enclosed locked facility.

"Cardholder" means a qualifying patient, a designated caregiver or a nonprofit medical marijuana dispensary agent who has been issued and possesses a valid registry identification card as defined in A.R.S. § [36-2801.2](#).

"Dual license" means an entity that holds both a nonprofit medical marijuana dispensary registration and a marijuana establishment license.

"Enclosed locked facility" means a closet, room, greenhouse, or other enclosed area equipped with locks or other security devices that permit access only by a cardholder.

"Medical marijuana" means all of the parts of the genus Cannabis, whether growing or not, and the seed of such plants that may be administered to treat or alleviate a qualifying patient's debilitating medical condition or symptoms associated with the patient's debilitating medical condition.

"Medical marijuana infusion (or manufacturing) facility" means a facility that incorporates medical marijuana (cannabis) by the means of cooking, blending, or incorporating into consumable/edible goods.

"Medical marijuana qualifying patient" means a person who has been diagnosed by a physician as having a debilitating medical condition as defined in A.R.S. § [36-2801.13](#).

"Qualifying marijuana dispensary" means a single retail location at which the licensee may sell marijuana and marijuana products to consumers in accordance with applicable laws.

"Qualifying marijuana cultivation facility" means a single off-site cultivation location at which the licensee may cultivate marijuana, process marijuana and manufacture marijuana products, but from which marijuana and marijuana products may not be transferred or sold to consumers in accordance with applicable laws.

"Qualifying marijuana facility" includes both a qualifying marijuana dispensary and a qualifying marijuana cultivation facility.

"Microcell facility" means a wireless communication facility serving a single carrier and consisting of an antenna no larger than four feet in height or, if tubular, no more than six feet long and four inches in diameter comprised of a networked set of antennas that are connected with each other and to a wireless service source, such that one or more high-power antennas that serve a given area are replaced by a group of lower-power antennas to serve the same geographic area.

"Minor development review permit" means a permit required for all new and modified buildings or structures, or for expansions to a building or structure that result in an increase less than 5,000 gross square feet or 20 percent of the existing building area, alter more than 10 percent of the surface area of the exterior portion of any facade, or as otherwise required in this code.

"Mixed use development" means a building or group of buildings developed for residential uses that are integrated with nonresidential uses such as, but not limited to, office, retail, service, commercial, public, or entertainment in a compact urban form.

"Mobile food unit" means a food establishment that is licensed by this state, that is readily movable and that dispenses food or beverages for immediate service and consumption and other incidental retail items from any vehicle as defined in A.R.S. § [28-101](#).

"Mobile food vendor" means any person who owns, controls, manages or leases a mobile food unit or contracts with a person to prepare foods and vend from, drive or operate a mobile food unit.

"Mobile sales unit" means any vehicle used for carrying tangible personal property for sale at or adjacent to the vehicle in which such tangible personal property is carried.

"Natural grade" means the undisturbed natural surface of the land, including washes.

"Net acres" means the total acreage of a tract or parcel of land exclusive of the area existing or required for arterial or collector street right-of-way dedications and school/public site reservations. When calculating residential net acres within a master plan development (MPD) any multi-unit, commercial or industrial land use must be excluded in addition to those uses listed above.

"Newspaper, general circulation" means a newspaper published for the dissemination of local or telegraphic news and intelligence of a general character, which has a bona fide subscription list of paying subscribers, and has been established, printed, and published at regular intervals in the state, county or city.

"Nonchartered financial institution" means a business, other than a state or federally chartered bank, credit union, mortgage lender or savings and loan association, that offers check cashing services and loans for payment of a percentage fee. Specifically included are check cashing businesses that charge a percentage fee for cashing a check or negotiable instrument, and payday loan businesses that make loans upon assignment of wages received. Excluded are retail uses in which a minimum of 70 percent of the floor area of the store is devoted to the display or sale of merchandise.

"Notice of action" means an administrative notice sent to an applicant, which describes the action taken, including any applicable conditions, and lists the findings that were the basis for the decision.

"Notice of decision" means an administrative notice sent to an owner or occupant of a property subject to the abatement of nuisance provisions of this code describing a decision made by a responsible official.

"Notice of order" means an administrative notice sent to the property owner and occupant of a property on which a use, structure, or building exists that is deemed to be in violation of this code, or any nuisance as defined in this code. The notice specifies the exact violation or nuisance that has been identified, a date by which the nuisance must be corrected, provisions regarding re-inspection and any fees that may apply, and the name and contact information of the code enforcement officer or designee.

"Nursery" means an establishment primarily engaged in retailing nursery and garden products – such as trees, shrubs, plants, seeds, bulbs, and sod – that are predominantly grown elsewhere. These establishments may sell a limited amount of a product they grow themselves. Fertilizer and soil products are stored and sold in packaged form only.

"Occupancy, change in" means the discontinuance of an existing use and the substitution therefor of a use of a different kind or class.

"Occupant" means the person occupying or having custody of a structure or premises as a lessee or other.

"Off-site" means not located within the area of the property to be developed.

"On-site" means located on the lot, parcel or property that is the subject of discussion.

"Open space" means any parcel or area of land or water, natural or improved and set aside, dedicated, designated, or reserved for the use and enjoyment of all the residents of the development or the public in general. Open space does not include vacant or undeveloped lots, bike lanes or sidewalks attached to the back of the curb.

"Open space and trails master plan" means the city of Maricopa Parks, Trails and Open Space Master Plan as adopted by the city council.

"Open space, common" means a shared open space intended for the exclusive use of the occupants of a residential building.

"Open space, private" means an open space intended for the exclusive use of the occupants of a dwelling unit.

"Open space, public" means an open space area conveyed or otherwise dedicated to a municipality, municipal agency, state or county agency, or other public body for recreational or conservational uses.

"Open space, usable" is a term defined in MCC Title [17](#), Subdivisions, that means land which can be enjoyed by people. This could include landscaped or hardscaped plazas, paseos and promenades, fountains and sitting areas meant to provide an open park-like atmosphere. Also natural areas, landscaped buffers, landscaped retention basins if designed in accordance with specific open space standards, playgrounds, golf courses, bicycle trails (but not bike lanes), pedestrian trails (not residential sidewalks), trailheads and parks.

"Outbuilding" means a secondary building usually located toward the rear of the same lot as a principal building such as a garage, carport, or workshop and may include an accessory unit.

"Outdoor display case" means a sign consisting of a lockable metal or wood framed cabinet with a transparent window or windows, mounted onto a building wall or freestanding support. It allows the contents, such as menus or maps, to be maintained and kept current.

"Outdoor entertainment or outdoor activities" includes any type of live entertainment or recreational activity taking place in a location visible to public view and not within an enclosed building.

"Outside display" means the placement of goods, equipment, merchandise or exhibits at a location visible to the public view, other than within a building.

"Outside storage" means the storage of goods, equipment or materials outside of a building for any purpose other than outside display.

"Overlay district" means a zoning district that modifies the regulations of base districts for a specific purpose.

"Owner" means the person indicated on the records of the Pinal County Assessor, or other official body, as the owner of record of the property in question.

"Parcel of land" means a contiguous quantity of land, owned by or recorded as the property of a person.

"Parking lots" or "parking buildings" means readily accessible areas within structures or surface parking areas, exclusive of aisles, driveways, ramps and columns, maintained exclusively for the parking of vehicles, not including areas for the parking or storage of commercial vehicles.

"Park strip" means the section of the public frontage accommodating street trees and other landscape, public infrastructure, and public furniture.

"Parks" means a public/private tract of land that contains a mix of active and passive recreation facilities including for example but not limited to tot lots, defined and improved playfields and/or sport court areas, and/or other recreational components, and picnic/seating/shade areas that are landscaped/hardscaped in a pleasing manner.

"Passage" means a pedestrian connector, open or roofed, that passes between buildings to provide shortcuts through long blocks and connect rear parking areas to frontages.

"Path" means a pedestrian way traversing a greenway or rural area, with landscape matching the contiguous open space, ideally connecting directly with the urban sidewalk network.

"Paver" means a masonry block of various material and/or size.

"Pedestrian-oriented use" means a land use intended to encourage walking customers and which, generally, does not limit the number of customers by required appointments or otherwise excluding the general public.

"Pedestrian way" means a public walk dedicated entirely through a block from street to street and/or providing access to a school, park, recreation area, trail system, or shopping area.

"Permit" means any administrative use permit, conditional use permit, development review permit, final development review permit, temporary use permit, zoning permit, license, certificate, approval, or other entitlement for development and/or use of property as required by any public agency.

"Permitted use" means any use allowed in a zoning district and subject to any restrictions applicable to that zoning district.

"Permittee" means the person who applied for a permit pursuant to this article and in whose name such permit was issued by the city pursuant to this article.

"Person" means any individual, firm, copartnership, joint venture, association, social club, fraternal organization, corporation, estate, trust, business trust, receiver, syndicate, this and any other city, county, municipality, district, or other political subdivision, or any other group or combination acting as a unit.

"Phasing plan" means a schedule of development required by MCC Title [17](#), Subdivisions, if a project is to be developed in phases.

"Planned area development (PAD)" is a term used in MCC Title [17](#), Subdivisions, that means a development with a minimum of 30 but less than 320 acres total, all of which must be contiguous, in which flexibility can be sought in the zoning standards, in order to encourage cluster development or more creativity and sustainable design, thereby providing usable open spaces within and about the development and enhancing the residential character of the city. Planned area developments shall be subject to planning commission review and recommendation and city council approval.

"Planning and zoning commission" means the planning and zoning commission of the city of Maricopa.

"Planter" means a three-foot-deep recessed soil bed provided for the planting of street trees and kept open to air and water flow through landscaping or permeable pavers.

"Planting technique" means the prescribed method for planting street trees, either in a continuous planter or tree pit.

"Plasma center" means any facility used in the collection, storage, or distribution of liquid blood plasma.

"Plat" means a map that provides for changes in land use or ownership. See MCC Title [17](#), Subdivisions, for additional definitions related to specific types of plats (e.g., preliminary plat, final plat, recorded plat and reversionary plat).

"Plaza" means a civic space type designed for civic purposes and commercial activities in the more urban subdistricts, generally paved, spatially defined by buildings, and internal to or part of a block.

"Pocket park" means a civic space type of limited size available for unstructured recreation and may be designed as a playground; normally located internal to a block.

"Porch and fence" means a facade is set back from the frontage line with an encroaching porch appended. The porch should be within a conversational distance of the sidewalk while a fence at the frontage line maintains the demarcation of the yard.

"Preexisting" means in existence prior to the effective date of this revised code.

"Preliminary meeting" means an initial meeting between developer and municipal representatives that affords developer the opportunity to present their proposals informally and discuss the project and address any items of controversy or requirements before the preliminary plat is submitted.

"Preliminary review" means an administrative mechanism that is intended to acquaint a prospective applicant or applicant's representative(s) with the requirements of this code, the general plan and other relevant city policies and regulations.

"Primary frontage" means the private frontage designed to bear the address and principal entrance(s) of a building.

"Principal building" means the main building on a lot.

"Principal entrance" means the main point(s) of access for pedestrians into a building or unit within a building.

"Principal use" means a use that fulfills a primary or predominant function of an establishment, institution, household, or other entity and occupies at least 70 percent of the gross floor area.

"Private access way" means a private way of access dedicated as a tract to one or more lots or air spaces, which is owned and maintained by an individual or group of individuals and has been improved in accordance with city standards and plans approved by the city engineer.

"Private frontage" means the first lot layer and the facade of a building.

"Private street" means real property recorded as improved roadway for pedestrian and motor vehicle traffic, constructed and maintained by private parties.

"Project" means any proposal for a new or changed use or for new construction, alteration, or enlargement of any structure that is subject to the provisions of this code.

"Public frontage" means the area between the edge of the vehicular lanes of a thoroughfare and the frontage line of private lots and civic spaces.

"Public furniture" means items provided by the city of Maricopa for public use.

"Public lighting" means a type of public infrastructure necessary for the illumination of public frontages and thoroughfare intersections.

"Public street" means real property dedicated for, and recorded as, public right-of-way for pedestrian and motor vehicle traffic, having a minimum width of 30 feet, and more typically having a minimum width of 50 feet. The term shall not include public right-of-way designated for limited access freeways or public alleys.

"Qualified applicant" means the property owner, the owner's agent, or any person, corporation, partnership or other legal entity that has a legal or equitable title to land that is the subject of a development proposal or is the holder of an option or contract to purchase such land or otherwise has an enforceable proprietary interest in such land.

"Rear lane" means a vehicular way located to the rear of lots providing access to service areas, parking and outbuildings and containing utility easements. Rear lanes may be lightly paved to driveway standards. The streetscape consists of gravel or landscaped edges, has no raised curb, and is drained by percolation.

"Reasonable accommodation" means any deviation requested and/or granted from the strict application of the city's zoning and land use laws, rules, policies, practices and/or procedures.

"Recorder" means the recorder of Pinal County.

"Recreational vehicle (RV)" means a vehicle-type unit which is one of the following:

1. A portable camping trailer mounted on wheels and constructed with collapsible partial side walls which fold for towing by another vehicle and unfold for camping.
2. A motor home designed to provide temporary living quarters for recreational, camping, or travel use and built on or permanently attached to a self-propelled motor vehicle chassis or on a chassis cab or van that is an integral part of the completed vehicle.
3. A park trailer built on a single chassis, mounted on wheels, and designed to be connected to utilities necessary for operation of installed fixtures and appliances, and having a gross trailer area of not less than 320 square feet and not more than 400 square feet when it is set up, except that it does not include fifth wheel trailers.
4. A travel trailer mounted on wheels, designed to provide temporary living quarters for recreational, camping, or travel use, of a size or weight that may or may not require special highway movement permits

when towed by a motorized vehicle and having a trailer area of less than 320 square feet. This type includes fifth wheel trailers.

"Redevelopment area plan" means the city of Maricopa redevelopment district area plan adopted by the city council. This plan applies to the Old Town area, also known as the Heritage District.

"Regulating plan" means a map or set of maps showing the subdistricts, thoroughfares, and block lengths subject to regulation under the Maricopa Station Overlay District.

"Renovation, exterior facade" means a resurfacing of an existing building frontage so that the facade and signs are integrated into one unit.

"Responsible party" means a person charged with a civil violation of this code.

"Review authority" means the body responsible for making decisions on zoning and related applications.

"Right-of-way" means any public or private access way required for ingress or egress, including any area required for public use pursuant to any official plan; rights-of-way may consist of fee title dedications or easements.

"Road" means an open way used for the passage of vehicles, and includes alleys, streets and highways.

"Roadway easement" means a recorded conveyance to the public over a described area for roadway-related uses.

"Roof area" means that portion of a lot or parcel covered by the roof structure of all buildings, excluding the eaves and overhangs, but including covered porches, patios and carports.

"Room, habitable" means a room in a building commonly used for sleeping, living, cooking or dining purposes, excluding closets, pantries, bath or toilet rooms, service rooms, connecting corridors, laundries, unfinished attics, foyers, storage space, cellars, utility rooms, and similar spaces.

"Rowhouse" means a single- or multi-unit building that shares a party wall with another of the same type and a facade along 100 percent of the frontage line.

"Screening" means a wall, fence, hedge, informal planting, or berm provided for the purpose of buffering a building or activity from neighboring areas or from the street.

"Section" means a section of this zoning code, unless some other code or statute is mentioned.

"Semi-permanent structure" means equipment, or any dining area, including, but not limited to, tables, chairs, booths, bar stools, benches, and standup counters.

"Service provider" means any authorized provider of wireless communications services.

"Setback" means the area between a property line and a building or structure which must be kept clear or open and clear of certain structures.

"Shared parking" means accounting for parking spaces that are available to more than one function.

"Shopfront" means a commercial store entrance aligned close to the frontage line with the entrance on sidewalk. It is commonly equipped with a cantilevered shed roof or an awning.

"Sidewalk" means a paved, surfaced, or leveled area, paralleling a street and used as a pedestrian walkway.

"Sign" means any letters, figure, symbol, emblem, logo, object, or display or any combination thereof, designed or used to identify, attract attention to, advertise, or communicate information.

Sign-Related Terms.

Billboard. See "Sign, off-site."

"Bulletin board" means a sign which identifies a noncommercial institution or organization, on site, which contains the name of the institution or organization and associated individuals and general announcements of events or activities at the institution, or similar messages of general public interest.

"Comprehensive sign plan" means a sign plan submitted under the guidelines of MCC [18.115.150](#), intended to provide for the establishment of signage criteria that are tailored to a specific development location, and which may vary from specific ordinance provisions.

"Fixed balloon" means any air- or gas-filled inflatable object ground-mounted or attached by a tether to a fixed place.

"Sign, A-frame" means a form of temporary sign constructed of two panels to form a point and resembling the shape of the letter "A." Also known as a "sandwich board" sign.

"Sign, address" means a sign, generally applied to a building wall, that displays a building's address.

"Sign, animated" means any sign or part of a sign which changes physical position by any movement, rotation or undulation or by the movement of any light used in conjunction with a sign such as blinking, traveling, flashing or changing degree of intensity of any light movement other than burning continuously.

"Sign, awning or canopy" means a sign on a traditional canvas awning and/or a sign on the edge of a structural canopy that is otherwise permitted by this code.

"Sign, band" means a sign that is attached flat on the exterior front, rear or side wall of any building or other structure. (Synonym: wall-mounted sign, fascia sign.)

"Sign, bandit" means a sign that is temporary and made of cardboard or foam board which is mounted on angle iron or wooden stake.

"Sign, banner" means a temporary sign of fabric, plastic, or other light pliable material not enclosed in a rigid frame.

"Sign, blade" means a sign mounted on the building facade, projecting at a 90-degree angle.

"Sign, business" means a sign that attracts attention to a business or profession conducted on site, or to a commodity or service sold, offered or manufactured on site, or to an entertainment offered on site.

"Sign, community" means the "City of Maricopa Welcome" signs and the integrated public service club(s) sign.

"Sign, construction" means a temporary sign, limited to the period of construction, erected on a premises of an existing construction project, and designating the architect, contractor, designer, engineer, financier, or name and nature of the project.

"Sign, directional" means signs limited to directional messages, which do not contain identification or advertising copy, which aid the flow of pedestrian and vehicular traffic as well as providing directional information relating to points of interest, institutions, facilities and districts.

"Sign, directory" means a sign listing the names, uses, and/or locations of the various businesses or tenants within a building or a multi-tenant development, but not for the purpose of advertising products, goods, or services.

"Sign, fascia" means a sign permanently affixed to a horizontal piece covering the joint between the top of a building wall and the projecting eaves of a roof.

"Sign, freestanding monument" means an identification sign on its own self-supporting permanent structure, detached from supportive elements of a building on a base which has an aggregate width of at least 50 percent of the width of the sign and shall include the street address.

"Sign, garage sale" means a temporary sign advertising a temporary garage sale.

"Sign, gasoline fuel price" means a changeable copy sign advertising gasoline fuel prices only.

"Sign, identification" means a sign that includes, as copy, only the name of the business, place, facility, organization, building, or person it identifies and shall include the street address which shall be positioned on the side of the building that it is addressed from.

"Sign, illuminated" means a sign with the surface artificially lighted, either internally or externally. If externally illuminated the fixture shall be fully shielded and directed downward.

"Sign, interior display" means any poster, cut-out letters, painted text or graphic or other text or visual presentation placed within one foot behind a window pane, and is placed to be read from the exterior of a building. This does not include any item of merchandise normally displayed within a show window of a merchant.

"Sign, kiosk" means a city-provided, informational sign providing directional information to single-unit and multi-unit residential developments, commercial developments, local businesses, not-for-profit agencies, and community facilities.

"Sign, marquee" means a sign that is usually defined as any movie-type marquee with changeable copy. Marquee signs are considered permanent signs. A marquee is defined as a permanent canopy structure

constructed of rigid materials that are attached to and supported by the building and that projects over the entrance to a building.

"Sign, menu board" means a sign displaying the bill of fare of a restaurant.

"Sign, nameplate" means a sign that identifies a resident's or home's name and address or the name of a farm, ranch, or commercial ranch. Such signs may be shingle, building, wall, or archway-mounted signs. Includes billboards.

"Sign, nonconforming" means a sign lawfully erected and maintained prior to the adoption of this code that does not conform with the requirements of this code.

"Sign, off-site" means a sign located outside the legal description of the property that directs attention for a commercial purpose to a business, commodity, service, entertainment, product or attraction that is not sold, offered, or existing on the property where the sign is located.

"Sign, on-site" means a sign which is either constructed or approved by the property owner that is located within the legal description of the property.

"Sign, open house directional" means a sign used to advertise the sale of a house and direct traffic to the house for sale.

"Sign, pole" means a sign that is supported by a pole and otherwise separated from the ground by air. Such as monument signs, pole signs are separate from a building.

"Sign, political" means a temporary sign which supports any candidate for public office or urges action for or against any other matter on the ballot of primary, general, or special elections.

"Sign, portable" means a temporary sign not affixed to a structure or ground mounted on a site. It rests on the ground and consists of two sign faces, i.e., but not limited to, A-frame signs.

"Sign, projecting" means a sign attached to a building or other structure and extending in whole or in part more than 14 inches beyond the building or other structure.

"Sign, reader panel" means a sign designed to permit immediate change of copy using individual letters, such as electronic or digital in nature.

"Sign, real estate" means a sign advertising for sale, lease, auction or rent of the property or building upon which it is located.

"Sign, roof" means a sign erected on, above, or over the roof of a building so that it projects above the highest point of the roofline, parapet, or fascia.

"Sign, sidewalk" means a movable freestanding sign, typically double-sided, placed at the entrance to a business (i.e., sandwich board, A-frame sign.).

"Sign, under canopy" means a sign suspended from, and located entirely under a covered porch, covered walkway, or an awning and is anchored or rigidly hung to prevent the sign from swinging due to wind movement.

"Sight visibility triangle" means the area of visibility on a street corner to allow for safe operations of vehicles, pedestrians, and cyclists in the proximity of intersecting streets, rail lines, sidewalks, and bicycle paths.

"Single-family residential design guidelines" means the city of Maricopa single-family residential design guidelines adopted by the city council.

"Single household" means any number of related, or up to five unrelated, persons living as the functional equivalent of a traditional family, whose members are an interactive group of persons jointly occupying a single dwelling unit, including the joint use of and responsibility for common area, and sharing household activities and responsibilities (e.g., meals, chores, household maintenance, expenses, etc.) and where, if the unit is rented, all adult residents have chosen to jointly occupy the entire premises of the dwelling unit, under a single written lease with joint use and responsibility for the premises of the dwelling unit rather than the landlord or property manager.

"Site plan review" means a process exercised under the prior zoning code, which provided a review and approval procedure for all nonsingle-family residential construction or development proposals.

"Square" means a civic space designed for unstructured recreation and civic purposes, circumscribed by thoroughfares, spatially defined by building frontages, and consisting of paths and/or sidewalks, lawn and trees, formally disposed.

"Stand" means a structure for the display and sale of products with no space for customers within the structure itself.

"Stealth facility" means any commercial wireless communications facility that is designed to blend into the surrounding environment by means of screening, concealment, or camouflage. The antenna and supporting antenna equipment are either not readily visible beyond the property on which they are located, or, if visible, appear to be part of the existing landscape or environment rather than identifiable as a wireless communications facility.

"Story" means the portion of a building included between the upper surface of any floor and the upper surface of the floor next above, except that the topmost story shall be that portion of a building included between the upper surface of the topmost floor and the roof above. "Story" includes a basement, but not a cellar.

"Stoop" means a private frontage wherein the facade is aligned close to the frontage line with the first story elevated from the sidewalk for privacy, with an exterior stair and landing at the entrance.

"Street" means a public or private right-of-way, other than a highway or alley, whose function is to carry vehicular traffic and/or provide vehicular access to abutting property.

Street-Related Terms. "Street, arterial" provides a high level of mobility for city-wide through traffic movement. They are typically spaced at one-mile or greater intervals, have limited access, and no on-street parking. The locations of arterial streets are designated in the Maricopa general plan.

Street, Collector. The collector streets provide mobility and access and link the arterial and local roadways as well as allowing access to adjacent properties.

"Street, cul-de-sac" means a local street having one end permanently terminated in a vehicular turnaround, or an equally convenient form of turning, and backing areas as may be recommended by the city engineer.

"Street, frontage or highway" means that portion of a lot or parcel of land which borders a public street, highway or parkway.

"Street, local" means a street that provides for direct access to residential or other abutting land and serves local traffic movement with connections to roadways of higher classification.

"Street, private" means any road or street that is not publicly owned and maintained providing access to lots or units over a common parcel, primarily by the owners or occupants of the common parcel, and necessary service and emergency vehicles, but from which the public may be excluded.

"Street, screen" means a freestanding barrier built along the frontage line, or coplanar with the facade to mask a parking lot from a thoroughfare, provide privacy to a side yard, and/or strengthen the spatial definition of the public realm. These are opaque and may be a combination of materials, landscaping, and/or architectural structures.

"Structural alteration" means any change of the supporting members of a building, such as bearing walls, columns, beams or girders, floor joists, ceiling joists, or roof rafters.

"Structure" means anything constructed or erected which requires a fixed location on the ground, or is attached to something having a fixed location on the ground.

"Subdistrict" means one of several areas on the zoning map regulated as part of the Heritage Overlay District. Subdistricts are administratively similar to the land use zones in conventional codes, except that in addition to the usual building use, density, height, and setback requirements, other elements of the intended habitat are integrated, including those of the private lot and building and public frontage.

"Subdivider" (see also "Developer") means a person, firm, corporation, partnership, limited liability company, association, syndicate, trust, or other legal entity that files the application and initiates proceedings for a subdivision in accordance with the provisions of MCC Title [17](#), Subdivisions, and statutes of the state of Arizona, except that an individual serving as agent for such legal entity is not a developer; and said developer need not be the owner of the property as defined by this code. The city council may itself prepare or have prepared a plat for the subdivision of land under municipal ownership.

"Subdivision" means improved or unimproved land or lands divided for the purpose of financing, sale, lease, or conveyance, whether immediate or future, into four or more lots, tracts or parcels of land; or, if a new street is involved, any such property which is divided into two or more lots, tracts or parcels of land or, any such property,

the boundaries of which have been fixed by a recorded plat, which is divided into two or more parts. "Subdivision" also includes any condominium, cooperative, community apartment, townhouse, patio home, or similar project containing four or more parcels, in which an undivided interest in the land is coupled with the right of exclusive occupancy of any unit located thereon.

"Subdivision" does not include the following:

1. The sale or exchange of parcels of land between adjoining property owners if such sale or exchange does not create additional lots.
2. The partitioning of land in accordance with other statutes regulating the partitioning of land held in common ownership.
3. The leasing of apartments, offices, stores or similar space within a building or trailer park, nor to mineral, oil, or gas leases.

"Swimming pool" means a contained body of water used for bathing or swimming purposes either above or below ground level with the container being 18 or more inches in depth at any point, and/or wider than eight feet at any point measured on the long axis.

"Technical advisory committee" means the committee created under this code to act in an advisory capacity to the planning and zoning commission regarding all development applications and applications for subdivision plats and improvements.

"Technical review" means the detailed review of proposed preliminary plats, by the technical advisory committee, for compliance with city codes, ordinances, standards, or conditions of approval by the commission or city council. Other utilities and public agencies are invited to review the plat as it relates to their conditions of service or need.

Telecommunications-Related Terms.

"Alternative tower structure" means any existing or proposed vertical structure that is designed to contain a wireless communication antenna including but not limited to clock towers, bell steeples, light poles, ball field lights, windmills, and similar alternative mounting structures that may be used to attach antennas and towers to minimize impact (see also "Stealth").

"Antenna" means any exterior transmitting or receiving device mounted on a tower, building or structure and used in communications that radiates or captures electromagnetic waves, digital signals, analog signals, radio frequencies (excluding radar signals), wireless telecommunications signals or other communication signals.

"Antenna, alternative tower-mounted" means an antenna mounted on a water tower, street, utility pole, sign, or structure of similar character.

"Antenna, amateur radio" means a ground-, building-, or tower-mounted antenna operated by a federally licensed amateur radio operator as part of the amateur radio service and as designated by the Federal Communications Commission (FCC).

"Antenna, building or structure-mounted" means an antenna mounted to a building, rooftop equipment screen, or structure that transmits or receives electromagnetic signals.

"Antenna, direct broadcast satellite service (DBS)" means an antenna, usually a small home receiving dish, designed to receive direct broadcast from a satellite.

"Antenna, ground-mounted" means any antenna that is not mounted on a pole, a structure, or the roof or wall of a building.

"Antenna, multipoint distribution services (MDS)" means an antenna designed to receive video programming services via multipoint distribution services, including multipoint, multichannel distribution services, instructional television fixed services, and local multipoint distribution services.

"Antenna, roof-mounted" means an antenna directly attached or affixed to the roof of an existing structure.

"Antenna, satellite" means any antenna used to receive and/or transmit radio or television signals from orbiting communications satellites.

"Antenna, satellite earth station" means an antenna designed to receive and/or transmit radio frequency signals directly to and/or from a satellite.

"Antenna structure" means an antenna array and its associated support structure, such as a mast or tower (not including a suspended simple wire antenna), that is used for the purpose of transmitting and/or receiving electromagnetic signals, including but not limited to radio waves and microwaves.

"Antenna structure, freestanding" means an antenna structure or mast that is not attached to any part of a building, fence, or other such structure. Freestanding antenna structures include communications towers, wooden utility poles, and concrete and steel monopoles. If the total height of the structure, including the antenna, is at least 17 feet high, it shall be treated as a monopole.

"Antenna structure, monopole" means an antenna structure, often tubular in shape, usually made of metal, reinforced concrete, or wood and which is at least 17 feet in height. A monopole may also be an alternative tower structure that is designed to replicate a tree or other natural feature.

"Antenna, television broadcast service (TVBS)" means an antenna designed to receive only television broadcast signals.

"Array" means one or more rods, panels, discs or similar devices used for transmission or reception of radio frequency (RF) signals through electronic energy, which may include omnidirectional antenna (whip), directional antenna (panel) and parabolic antenna (dish).

"Close mount" means the antenna and appurtenances are designed in a manner to reduce the visual impact of the facility by tightly clustering the devices or equipment(s).

"Existing structure" means light poles, power poles, flagpoles, buildings and any other similar vertical structures which are placed within the city.

"FAA" means the Federal Aviation Administration.

"FCC" means the Federal Communications Commission.

"Mobile antenna(s)," also known as cell on wheels (COW) or temporary antenna, means a mobile cell site that consists of a cellular antenna tower and electronic radio transceiver equipment, may be located on a truck or trailer, and designed to be a temporary part of a cellular network.

"Preexisting towers" and "preexisting antennas" means any tower or antenna for which a building permit has been properly issued prior to the effective date of this code, including permitted towers or antennas that have not yet been constructed, so long as such approval is current and not expired.

"Readily visible" means an object that can be identified as a wireless telecommunications facility when viewed with the naked eye.

"Related equipment" means all equipment ancillary to the transmission and reception of voice and data via radio frequencies. Such equipment may include, but is not limited to, cable, conduit, and connectors.

"Site" means the physical location upon which wireless telecommunications facilities are located. Unless otherwise stated in this code, "site" shall be limited to the area occupied by a single tower and its accompanying ground- or roof-mounted equipment.

"Stealth" means manmade trees, clock towers, palm trees, faux windmills and water towers, chimneys and similar structures to design mounting structures that camouflage or conceal the presence of antennas and towers.

"Tower" means any structure that is designed and constructed primarily for the purpose of supporting one or more antennas for telephone, radio, and similar communication purposes, including monopole towers. The term includes, but is not limited to, radio and television transmission towers, microwave towers, common-carrier towers, cellular telephone towers, stealth towers and alternative tower structures. The term also includes the structure and any support thereto.

"Utility" means a private business organization, subject to governmental regulation, that provides an essential commodity or service, such as water, electricity, transportation, or communication, to the public.

"Terminal" means any facility designed or intended to be used for the receiving or discharging of passengers or cargo and providing for the temporary or permanent storage of the conveyance vehicle. Terminals include train terminals, airports, bus terminals, freight terminals, harbor terminals, or any combination of the above commonly referred to as multipurpose terminals.

"Terminated vista" means a location at the axial conclusion of a thoroughfare. A building located at a terminated vista designated should be designed in response to its unique position at a visual termination point.

"Theater" means an enclosed building used for public assembly and/or entertainment, including sports events, theatrical performances, concerts and recitals, circuses, stock shows and conventions. "Theater" includes auditoriums.

"Townhouse" means a building on its own separate lot containing one dwelling unit that occupies space from the ground to the roof, and is attached to one or more other townhouse dwelling units by at least one common wall. "Townhouse" shall also mean patio home.

"Transect" means a cross-section of the environment showing a range of different habitats. The transect of human habitat types used in this code is divided into four transect zones. These zones describe the physical form and character of a place, according to the density and intensity of its land use and urbanism.

"Transparent or nonopaque" means any surface, screen, window, wall, or other structural element through which objects can be clearly seen by the human eye.

"Transverse" means a type of pavement marking consisting of two parallel lines set perpendicular to the public frontage extending across the entire width of the vehicular lanes of a thoroughfare to demarcate a pedestrian crosswalk.

"Triplex" means a building with three side-by-side units on a lot with a shared wall of the building.

"USC&GS" means the United States Coast and Geodetic Survey.

"USACOE" means the United States Army Corps of Engineers.

"Use" means and includes construction, establishment, maintenance, alteration, moving onto, enlargement and occupation. Wherever this title prohibits the "use" of any premises for any purposes, such premises and any building, structure or improvement on such premises shall not be used, occupied, altered or improved for such purpose, and no building, structure or improvement on such premises shall be erected, constructed, established, maintained, allowed to remain, altered, moved onto or enlarged which is designed, arranged or intended to be occupied or used for such purpose.

"Use, abandoned" means a use that has ceased or a structure that has been vacated for a time period as specified in this code. Abandonment does not include temporary or short-term interruptions to a use or occupancy of a structure during periods of remodeling, maintaining, or otherwise improving or rearranging a facility.

"Use permit" means a discretionary permit, such as an "administrative use permit" or "conditional use permit," which may be granted by the appropriate city of Maricopa approval authority to provide for the accommodation of land uses with special site or design requirements, operating characteristics, or potential adverse effects on surroundings, which are not permitted as of right but which may be approved upon completion of a review process and, where necessary, the imposition of special conditions of approval by the permit granting authority.

"Utility services" means service to the public of water, sewer, gas, electricity, telephone and cable television. The foregoing shall be deemed to include facilities and appurtenances to the above uses but shall not include public utility treatment and generating plants or offices.

"Valance" means the portion of an awning that hangs perpendicular to the sidewalk.

"Variance" means a discretionary mechanism for relief from certain dimensional and performance standards in this code where the strict application will deprive the property owner of privileges enjoyed by similar properties

because of the subject property's unique and special conditions. The hearing officer has the power to grant variances to the extent necessary to overcome such practical difficulty or unnecessary hardship as may be established in accordance with the provisions of this code.

"Vehicle, inoperative" means any motor vehicle that cannot be operated lawfully on a public street or highway for any reason other than the lack of current vehicle registration, or that cannot be moved under its own power.

"View fencing (view fence)" means fencing that is constructed in such a manner as to achieve 80 percent overall openness.

"Visible" means capable of being seen (whether or not legible) by a person of normal height and visual acuity walking or driving on a public road.

"Waiver of claim for diminution in value" means an administrative mechanism requiring applicants to submit a waiver of claims for diminution in value pursuant to the A.R.S. §§ [12-1131](#) through [12-1138](#).

"Walkway" means the section of the public frontage dedicated exclusively to pedestrian activity.

"Wall" means any exterior surface of a building or any part thereof, including windows.

"Warehousing" means a business in which goods or merchandise are stored as a principal activity, including shipping or distribution activities.

"Waste transfer facility" means a facility that operates as a materials recovery, recycling and solid waste transfer operation providing solid waste recycling and transfer services for other local jurisdictions and public agencies that are not located within the city of Maricopa. The facility sorts and removes recyclable materials (including paper, metal, wood, inert materials such as soils and concrete, green waste, glass, aluminum and cardboard) through separation and sorting technologies to divert these materials from the waste stream otherwise destined for landfill.

"Watercourse" means any lake, river, stream, creek, wash, arroyo, or other body of water or channel having banks and bed through which waters flow at least periodically.

"Wheel stop" means a physical barrier sufficient in size to prevent the movement of automobiles or other vehicles over or past such barrier.

"Wireless communications facility" means personal wireless service facilities including but not limited to facilities that transmit and/or receive electromagnetic signals for cellular radio telephone service, personal communications services, enhanced specialized mobile services, paging systems, and related technologies. Such facilities include antennas, microwave dishes, parabolic antennas, and all other types of equipment used in the transmission or reception of such signals; telecommunication towers or similar structures supporting said equipment; associated equipment cabinets and/or buildings; and all other accessory development used for the provision of personal wireless services. These facilities do not include radio and television broadcast towers and government-operated public safety networks.

"Workforce housing" means the base price of the housing is affordable, according to the Federal Department of Housing and Urban Development, for either homeownership or rental, and that it is occupied, reserved, or marketed for occupancy by households with a gross income that is greater than 50 percent but does not exceed 80 percent of the median gross household income for households of the same size within the city of Maricopa, as determined by the latest U.S. Census information.

"Yard, front" means a yard extending across the full width of the lot or parcel of land. On corner lots, the front yard shall be located across the narrower frontage of the lot.

"Yard, rear" means a yard extending across the full width of the lot or parcel of land.

"Yard, side corner" means a yard bounded by an alley, highway or street, extending from the required front yard, or the highway line on which the property fronts where no front yard is required, to the required rear yard or to the rear lot line where no rear yard is required.

"Yard, side interior" means a yard extending from the required front yard, or the highway line on which the property fronts where no front yard is required, to the required rear yard or to the rear lot line where no rear yard is required other than a corner side yard.

"Yield street" means a thoroughfare that has two-way traffic but only one effective travel lane because of parked cars, necessitating slow movement and driver negotiation.

"Zone" means a district classification established by the zoning code of the city of Maricopa that limits or permits various and specific uses.

"Zoning administrator" means the zoning administrator for the city of Maricopa or their representative.

"Zoning clearance" means the approval by the zoning administrator of a plan that is in conformance with the zoning code of the city of Maricopa.

"Zoning code" means this title ([MCC Title 18](#)).

"Zoning map" means an official map adopted by the city council depicting zoned land within the city and depicting how the zoning regulations for base districts and overlay districts apply throughout the city. [Ord. 23-35 § 2; Res. 23-18; Ord. 23-22 § 2; Res. 21-09; Ord. 21-05 § 2; Res. 20-37; Ord. 20-15 § 1; Res. 18-20; Ord. 18-05 § 2; Res. 14-36 § 602.02; Ord. 14-12 § 1.]

The Maricopa City Code is current through Ordinance 25-04, passed April 15, 2025.

Disclaimer: The city clerk's office has the official version of the Maricopa City Code. Users should contact the city clerk's office for ordinances passed subsequent to the ordinance cited above.
